If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard and approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanent secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth (1¼) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter (1¼) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter (1¼) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanket-gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A. Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Meeting, Board of Appeals, March 11, 1924.
- Minutes of Meeting, Board of Standards and Appeals, March 11, 1924.
- Corrections.
- Rules Adopted.
- Reserve Calendar.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, March 18, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, March 25, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

APPELLANT—T. & A. Engineering Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1113-1127 Avenue A, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Fire Chief Kenlon.. 5

Negative 0

Absent: Messrs. Holland and Kerby 2

THE RESOLUTION:

(1248-23-A)

WHEREAS, T. & A. Engineering Corp., for A. A. Garage, Inc., lessee, filed, October 31, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 1113-27 Avenue A, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated May 9, 1923, reads:

"1. Standpipe (fire line) equipment must be fed by a 3500 gal. gravity tank located above roof, as called for in approved Sec. No. 581, Building Code.";

and

WHEREAS, the building is fireproof, two stories in height, 200 ft. 10 in. by 112 ft. 2 in. (22,500 sq. ft.) in area; OCCUPIED as a public garage, 30 persons; and

WHEREAS, appellant contends that the building is equipped with a 4 in. standpipe line connected to the street main, which has a maximum pressure of 55 pounds per square inch, and further contends that there are siamese connections on the three street fronts.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the standpipe equipment comply with Rule 8, Subdivision A of the standpipe rules, in all respects, with the exception of the floor area; and that the area of this building is not increased in excess of that now stipulated in appellant's application and the dimensions as indicated on plans filed in this appeal.

MINUTES

1481-23-A.

APPELLANT—Sperry Gyroscope Company, owner.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—36-48 Flatbush avenue extension, Brooklyn.

APPEARANCES—

For Appellant: Henry Wineur.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell and Fire Chief Kenlon.. 5
Negative 0
Absent: Messrs. Holland and Kerby 2

THE RESOLUTION:

(1481-23-A)

WHEREAS, Sperry Gyroscope Co., owner, filed, December 15, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 36-48 Flatbush avenue extension, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated November 26, 1923, reads:

“Order No. 83839-LC:

“2. Provide jets of water where saws or cutting tools are used on 10th floor which are likely to heat the nitro-cellulose product to the firing point of friction or otherwise, so that same shall continuously play upon the point of contact.”;

and

WHEREAS, the building is fireproof, eleven stories in height, 100 ft. 10½ in. by 277 ft. 10 in. in area; OCCUPIED as offices and tenant factory, 1,246 persons in the entire building; and

WHEREAS, appellant contends that the articles manufactured of celluloid are “repeater cards” upon which very exact graduations are made and if water were to fall upon them, the celluloid cards would warp and become useless; that the maximum amount of celluloid on hand does not exceed 25 pounds; the sheets are kept in individual paper envelopes and all stored in a metal covered cabinet.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the work be restricted to two operators; that the table on which the work is conducted be provided with acid-gas extinguisher or other approved extinguisher; that the premises comply with the rules in all other respects, other than the gas outlets in public hall, separated from the working area by fireproof partitions and self-closing doors; and that the quantity of celluloid on premises shall not exceed 25 pounds.

85-24-A.

APPELLANT—F. P. Keniston, for Abraham Cohen, owner.
SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—158-162 West Jackson avenue, Queens.

APPEARANCES—

For Appellant: F. P. Keniston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell and Fire Chief Kenlon.. 5
Negative 0
Absent: Messrs. Holland and Kerby 2

THE RESOLUTION:

(85-24-A)

WHEREAS, F. P. Keniston, for Abraham Cohen, owner, filed, January 21, 1924, an appeal, with the board of appeals,

from an order of the fire commissioner, affecting premises 158-162 West Jackson avenue, Borough of Queens; and

WHEREAS, the order of the fire commissioner, No. 51693-F, dated December 28, 1923, reads:

“1. Provide fire wall at least 18 feet high on East & North sides of property line, Section 776, Greater New York Chapter.”;

and

WHEREAS, the premises consists of a plot of ground facing 100 ft. on 38th street and 80 ft. on Jackson avenue; OCCUPIED as a lumber yard, with a one story frame shed, one story frame dwelling, and a one story frame stable occupying a portion of the plot, the remainder of the plot being used for the storage of lumber; the exposure being a two story frame building to the east; and

WHEREAS, appellant contends that he maintains a 10 ft. clearance between the dwelling and any lumber pile, and that the lumber piles are low piles, and to provide the brick wall required would practically confiscate his property.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a 20-ft. runway be maintained from Jackson avenue to rear of appellant's property, along the easterly lot line of premises, and also two (2) 10-ft. runways, clear and unobstructed, from 38th street to the easterly lot line of property; that no lumber shall be within 10 ft. of east property line, and in no case shall any lumber pile exceed a height of 15 ft.

87-24-A.

APPELLANT—Samuel Rosenblum, for Superior Piece Dye Works, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—363-367 Borden avenue, L. I. C., Borough of Queens.

APPEARANCES—

For Appellant: Samuel Rosenblum and Benjamin Gerry.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell and Fire Chief Kenlon.. 5
Negative 0
Absent: Messrs. Holland and Kerby 2

THE RESOLUTION:

(87-24-A)

WHEREAS, Samuel Rosenblum, for Superior Piece Dye Works, Inc., owner, filed, January 21, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 363-67 Borden avenue, L. I. C., Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated December 20, 1923, reads:

“Order No. 52565-F:

“1. Install a standpipe system with risers 4 inches in diameter * * *.”;

and

WHEREAS, the building is non-fireproof, two stories (26 ft.) in height, 125 ft. by 180 ft. (21,500 sq. ft.) in area; OCCUPIED as a dyeing establishment, 50 employees; and

WHEREAS, appellant contends that there are no combustible chemicals used, that there is a direct connection to fire headquarters through the National District Tel. Co., and the building is being equipped with automatic sprinkler system connected to a 12 in. street main (45 pound pressure) in Borden avenue.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that there shall be installed and maintained an approved direct telegraph connection to fire headquarters; that building shall be equipped with two-source

MINUTES

sprinkler system; and *granted* so long as conditions as to occupancy and use remain substantially unchanged.

1435-23-A.

APPELLANT—Max Miller, for Ex-Lax Mfg. Co., owner.
SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—431-433 Atlantic avenue, Brooklyn.

APPEARANCES—

For Appellant: Max Miller.

For Administration: Assistant Engineer Joseph Smithers of bureau of buildings.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Fire Chief Kenlon.. 5

Negative 0

Absent: Messrs. Holland and Kerby 2

THE RESOLUTION:

(1435-23-A)

WHEREAS, Max Miller, for Ex-Lax Mfg. Co., owner, filed, December 6, 1923, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 431-33 Atlantic avenue, Borough of Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, rendered November 19, 1923, in acting on Amendment Application No. 14868-23, reads:

"Amendment denied.

"Place supporting girder centrally under wall.

"Proposed design as submitted deemed unsafe.";

and

WHEREAS, the building is non-fireproof, four stories in height, 156 ft. by 90 ft. in area in the 1st story and 106 ft. by 54 ft. in area above; OCCUPIED as a factory; and

WHEREAS, it appears that an alteration application was filed in the bureau of buildings to alter the building and support one of the bearing walls on steel construction; the appellant afterwards amended his plans and submitted reinforced concrete girders and column construction for the steel construction originally shown; and

WHEREAS, appellant contends that the object of this substitution was to eliminate the temporary shoring that would have been necessary to carry the wall, and that the steel construction consisted of a girder of two 20-inch 65-pound beams supported on three steel columns resting on grillages on the existing masonry foundation, the span being 17 ft. and 13 ft. 4 in. between columns; the proposed concrete construction consists of two girders, one on each side of the wall, to be supported; each 8 in. wide and 40 in. deep, reinforced top and bottom by two 1¼ in. square bars; the girders being tied together at intervals of 3 ft. by concrete diaphragms running through the wall for the full depth of the girder, 12 in. wide at bottom and 8 in. wide at the top, reinforced by steel diagonal rods, the girder further reinforced with stirrups consisting of ¾ in. square bars, having four legs in the same plane, and to be placed at intervals of about 6 in. for at least one-third the length of the span, with wider spacing in the middle of the span; the columns are 16 in. by 20 in. outside dimensions, with vertical reinforcement of six ¾ in. square bars tied together at intervals of 1 ft. with ¼ in. round hooping; the brick work is to be cut through for the concrete diaphragms and where columns are to be located, that part of the brick wall on each side against which the new concrete girders will rest is to be roughened, so that a complete bond will be insured between the concrete and the brick work; and appellant further contends that the proposed form of construction is adequate to carry the weight of the loads imposed thereon and that the proposed reinforced concrete construction provides the full equivalent of the strength furnished by the steel construction; and

WHEREAS, an examination of the plans and computations filed indicates that the reinforced concrete designed provides the full equivalent of the strength of steel construction required under the code for the loads imposed; and

WHEREAS, the board deems that the superintendent of buildings should reconsider the application on the basis of the accepted principles of engineering practice.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted* recommending the reconsideration and examination of the design of the proposed construction, in accordance with the requirements of the building code.

1483-23-A.

APPELLANT—Louis A. Sheinart, for Lippman Schnurmacher, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—424-426 East 62nd street, Manhattan.

APPEARANCES—

For Appellant: None.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Mr. Boulton and Fire Chief Kenlon 2

Negative: Chairman Walsh, Messrs. Beatty and Connell 3

Absent: Messrs. Holland and Kerby 2

THE RESOLUTION:

(1483-23-A)

WHEREAS, Louis A. Sheinart, for Lippman Schnurmacher owner, filed, December 17, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 424-26 East 62nd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 6, 1923, reads:

"Order No. 19721-LC:

"1. Install an approved oil separator, trap or other similar apparatus.";

and

WHEREAS, the building is non-fireproof, one story in height, 105 ft. by 100 ft. in area; OCCUPIED as a public garage; and

WHEREAS, appellant contends that a similar order was rescinded by the bureau of fire prevention owing to the proximity of the garage to the outlet of the sewer.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

8-24-A.

APPELLANT—William F. Doyle, for Dr. George Draper

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—186 East 64th street, Manhattan.

APPEARANCES—

THE RESOLUTION:

(844-23-BZ)

WHEREAS, John J. Kearney, for Henry M. Armsheimer, owner, filed, July 2, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of two (2) motor vehicles, one (1) space rented to persons not residing on the premises; premises 2947 Bainbridge avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting March 11, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Bainbridge avenue, East 201st street and Bedford Park boulevard are residence districts; and

WHEREAS, the order of the fire commissioner, dated June 18, 1923, Order No. 18556-C, reads:

"1. Discontinue the maintenance of a garage which is not maintained as an accessory use on these premises."

and

WHEREAS, the existing building is of fireproof construction, one story in height, with a frontage of 19 ft. and a depth of 20 ft.; occupied as a garage for two motor vehicles, one space rented to persons not residing on premises; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 84 per cent of the property frontage deemed by the board to be affected,

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the automobile storage capacity of the garage be limited to two automobiles of the pleasure-car type, space for one of which may be rented to persons not residing on the premises; and *on further condition* that no gasoline storage system be maintained on the premises.

THE VOTE TO GRANT ON CONDITION—

Affirmative	0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Fire Chief Kenlon..	5
Absent: Messrs. Holland and Kerby	2

THE RESOLUTION:

(939-23-BZ)

WHEREAS, Philip J. Sinnott, for George F. Lamb, owner, filed, July 24, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1943-1961 Pacific street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals at its regular meeting, March 11, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Pacific street is a residence district, Atlantic avenue is an unrestricted district and Buffalo avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 13, 1923, in acting on N. B. App. No. 12385-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 3. A public garage for more than 5 motor vehicles in a residence district; and

and
WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 220 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

REPORT OF COMMITTEE OF INSPECTION:

March 7, 1924.

On March 6th, a committee of the Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Holland, Boulton, Beatty and Connell, personally visited these premises and made a general survey of the street and the site under appeal.

The dimensions of the property under appeal embrace a plot 220 ft. front by 100 ft. deep, located on the north side of Pacific Street, 100 ft. easterly from Buffalo Avenue. Both sides of Pacific Street from Buffalo Avenue to Ralph Avenue, other than the plot under appeal, are entirely improved by three-story, modern brick dwellings; the property immediately to the rear on Atlantic Avenue, an unrestricted street, is occupied by two-story frame dwellings and a one-story 50 ft. building, now operated as an auto body painting and repair shop.

The committee has this observation to make: Any invasion by a non-conforming use on this street, entirely developed as it is with three-story tenements, evidently of humble and modest occupancy, attractively and orderly maintained, should be relentlessly opposed by this Board. The variation, permitting the erection of the proposed public garage, would be an unwarrantable and unjustifiable distortion of this Board's discretionary powers, disregarding the rights of these people, not only the owners but the tenants of these tenements.

The committee, therefore, unequivocally and without reservation recommends the denial of this appeal.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
JAMES F. HOLLAND,
JOHN J. BEATTY,
ALFRED J. BOULTON,
HENRY L. CONNELL.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

THE RESOLUTION:

(1453-23-BZ)

WHEREAS, Jos. Schmidt, secretary, for Times Triangle Investors, Inc., owner, filed, December 8, 1923, an application, under the building zone resolution, to permit the extension from a business district into a residence district of a proposed business building; premises 852-58 Cypress avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 11, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Cypress avenue is a business district and Cornelia street and Jefferson avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 19, 1923, in acting on Plan No. 15887-23, reads:

"1. The erection of a building partly within a residence district to be used for business purposes would be contrary to Art. 2, section 3 of the Zoning Resolution."

and

WHEREAS, the proposed building is to be of fireproof construction, three stories in height, with a frontage of 85 ft. and a depth of 105 ft., to be occupied for business purposes, a portion of building extending 5 ft. into the residence use district; and

WHEREAS, under the provisions of section 7, subdivision C, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the main business entrance of this building shall be restricted to the Cypress avenue front of this structure; that the rear and gable wall shall be unpierced throughout its entire height and length; and that there shall be no advertising signs or display of any kind permitted within or on the walls in the residence area; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

20-24-BZ.

APPLICANT—Joseph M. Lonergan, for A. A. A. Holding Co., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a business district extending from an unrestricted district the change of occupancy from a storage warehouse to a dyeing plant.

PREMISES AFFECTED—2217-2227 Neptune avenue, Brooklyn.

APPEARANCES—

For Applicant: William H. Kehoe.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Fire Chief Kenlon..	5
Negative	0
Absent: Messrs. Holland and Kerby	2

THE RESOLUTION:

(20-24-BZ)

WHEREAS, Joseph M. Lonergan, for A. A. A. Holding Co., owner, filed, Jan. 7, 1924, an application, under the building zone resolution, to permit the change of occupancy

of a building partly in an unrestricted and partly in a business district, from a storage warehouse to a dyeing establishment; premises 2217-2227 Neptune avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting March 11, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Neptune avenue is a business district and West 23rd street from a point 100 ft. north of Neptune avenue unrestricted; and

WHEREAS, the decision of the superintendent of buildings, rendered January 4, 1924, in acting on Report No. 58-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A dye works partly in a business district and partly in an unrestricted district."

and

WHEREAS, the existing building is of non-fireproof construction, two stories in height on Neptune avenue and one story in height on West 23rd street, with a frontage of 142 feet and a depth of 200 feet; and

WHEREAS, the building was erected in 1919 and a certificate of occupancy issued for a storage warehouse and later an amendment to the plans was filed and a certificate was issued by the building department as a yarn dyeing establishment; this was revoked by the board under Cal. No. 869-23-A, the certificate having been issued in error, and the applicant now contends that as he made the alterations in good faith there would be great hardship in compelling him to discontinue his business.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that applicant obtain the necessary permits for the erection of the building in accordance with the requirements of the building code, and that the building zone resolution be complied with in all other respects.

1543-23-BZ.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT ON CONDITION—

Affirmative	0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Fire Chief Kenlon.	5
Absent: Messrs. Holland and Kerby	2

THE RESOLUTION:

(1543-23-BZ)

WHEREAS, Edward L. Larkin, for Rexburg Realty Corp., owner, filed, December 27, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises west side of Webster avenue, 772 ft. north of 169th street, The Bronx; and

MINUTES

WHEREAS, a public hearing was held on this application by the board of appeals at its regular meeting, March 11, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Webster avenue and East 170th street are business districts and Clay avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 18, 1923, in acting on N. B. App. No. 2965-23, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 125 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

AREAS FIXED. (232-24-BZ)

The chairman presented and read a communication from Samuel Gardstein, requesting the board to fix an area of notification deemed affected by extension and alteration of an existing poultry slaughter house; premises 874-884 41st street, Brooklyn.

The following area was approved by the board:

Both sides of 41st street from 8th avenue to a point 200 ft. east of 9th avenue. Both sides of 9th avenue from 40th street to a point 400 ft. south of premises in question; also the north side of 42nd street from 9th avenue to a point 150 ft. west of 9th avenue.

(191-24-BZ)

The chairman presented and read a communication from John De Hart, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 618-28 73rd street, Brooklyn.

The following area was approved by the board:

Both sides of 73rd street from 6th avenue to 7th avenue, the east side of 6th avenue from 74th street to 73rd street, also the north side of 74th street from 6th avenue to a point 50 ft. east of the premises in question.

(1516-23-BZ)

The chairman presented and read a communication from Andrew Katzenberger, requesting the board to fix an area deemed affected and within which to obtain consents for the maintenance of a garage; premises 8009 95th avenue, Woodhaven, Queens.

The following area was approved by the board:

Both sides of Chichester avenue (95th avenue) from a point 100 ft. west of Hudson street (80th street) to a point 100 ft. east of Halifax street (81st street). Both sides of Hudson street (80th street) from a point 100 ft. south of Chichester avenue (95th avenue) to a point 100 ft. south of Atlantic avenue.

(157-24-BZ)

The chairman presented and read a communication from Frank P. Keniston, requesting the board to fix an area deemed affected and within which to obtain consents for the maintenance of a garage; premises 103 Newell street, Brooklyn.

The following area was approved by the board:

Both sides of Newell street from Norman avenue to Nassau avenue.

Adjourned 4 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING.

TUESDAY AFTERNOON, MARCH 11, 1924.

Present: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott.

ACTION OF BOARD—Laid over to April 1, 1924, at 2 p. m., at request of petitioner.

52-24-S.

PETITIONER—Schwartz & Gross, for Jatison Construction Co., Inc., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—32-34 West 39th street, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott 8

Negative 0

Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(52-24-S)

WHEREAS, Schwartz & Gross, for Jatison Construction Co., Inc., owner, filed, January 14, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as stated in a decision of

the superintendent of buildings, affecting premises 32-34 West 39th street, Borough of Manhattan and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 483, dated January 8, 1924, reads:

"9. Proposed construction of show windows on 1st, 2nd, and 3rd floors consisting of plate glass lights in excess of 720 square inches and movable sashes which are not automatic closing is unlawful.";

and

WHEREAS, the building is fireproof, 14 stories in height, 50 ft. by 98 ft. 9 in. in area; equipped with a sprinkler system. OCCUPIED: 1st story, stores; 2nd and 3rd stories, show rooms; 4th to 14th stories, offices and 2 per cent manufacturing, 1,200 persons in building; and

WHEREAS, there are windows on the 1st, 2nd and 3rd stories, glazed with 1/4 in. plate glass; the area of the glass at the 1st story is 5 ft. by 6 ft. and the minimum areas of glass at the 2nd and 3rd stories are 1 ft. 6 in. by 4 ft. 6 in. (972 sq. in.) in area; and

WHEREAS, petitioner contends that if compelled to comply with the labor law regarding area of glass in windows, the architectural effect of the building and the intended use of these floors would be destroyed.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects the three lower stories on the front of the building on condition that the windows shall be constructed of metal frames, glazed with polished plate glass not less than 1/4 in. in thickness, and granted on condition that the labor law shall be complied with in all other respects.

63-24-S.

PETITIONER—Emil Guterman, for James Epstein, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—1007-1009 Buchman avenue, Ridgewood, Queens.

APPEARANCES—

For Petitioner: Emil Guterman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott 8

Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(63-24-S)

WHEREAS, Emil Guterman, for James Epstein, owner, filed, January 18, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 1007-9 Buchman avenue, Ridgewood, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated December 28, 1923, reads:

"Order No. 53172-LD:

"1. Reduce the number of persons above the 1st story to 120 as allowed by resolution of the Board of Standards and Appeals, Cal. 1722-17-S or

"Provide an interior stairway at south side of easterly end of building * * *";

and

WHEREAS, the building is non-fireproof, four stories in height, 50 ft. by 150 ft. in area; equipped with a sprinkler and fire alarm signal system. OCCUPIED as follows: 1st story, silk spinning, 16 persons; 2nd story, mfg. of

MINUTES

shirts, 47 persons; 3rd story, silk mfg., 23 persons; 4th story, mfg. of shirts, 80 persons. EXITS: Two fire escapes and two exterior iron stairways, the northerly stairway extends from roof to yard, the southerly stairway extends from top story to street; EGRESS from termination of stairways by means of an 8 ft. passageway to street; and

WHEREAS, these exits were accepted by the board under Cal. No. 1722-17-S on condition that not more than 120 persons would occupy the building above the 1st story; and

WHEREAS, petitioner contends that at the time Cal. No. 1722-17-S was granted there was a celluloid occupancy in the building and since that time this occupancy has vacated the premises.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the petition be and it hereby is denied.

29-24-S.

PETITIONER—Schwartz & Gross, for Maxal Realty Co., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—328-332 7th avenue, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle.

ACTION OF BOARD—Petition denied, reconsidered and granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO GRANT—

Negative: Superintendent Kleinert	1
Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore	5

THE VOTE TO RECONSIDER—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott	8
Negative	0
Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore	5

THE VOTE TO GRANT—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott	8
Negative	0
Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore	5

THE RESOLUTION:

(29-24-S)

WHEREAS, Schwartz & Gross, for Maxal Realty Co., owner, filed, January 8, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 328-332 Seventh avenue, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered January 4, 1924, in acting on N. B. Application No. 106-23, reads:

"17. All windows in building must conform with section 264 Labor Law."

and

WHEREAS, the building is fireproof, 20 stories in height, 74 ft. 6 in. by 100 ft. 7 in. in area; equipped with a sprinkler system. OCCUPIED: Cellar, boiler room and storage; 1st story, stores; mezzanine, offices; 2nd and 3rd stories, showrooms; 4th to 20th stories, tenant factory, 177 persons in the entire building; and

WHEREAS, there are windows at the front of the building at the 1st, 2nd and 3rd stories, glazed with $\frac{1}{4}$ in. plate glass, having a maximum area of 6 ft. by 12 ft. and a minimum area of 1 ft. 6 in. by 3 ft. 6 in.; and

WHEREAS, petitioner contends that if compelled to comply with the labor law in regard to area of glass in windows the architectural effect of the building and the intended use of the floors (showrooms) would be destroyed.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects the windows on the front of building in the three lower stories only on condition that center lights in the large show window in each bay shall be fixed metal sash, glazed with polished plate glass, and granted on condition that the labor law shall be complied with in all other respects.

74-24-S.

PETITIONER—Tobias Goldstone, for Louis Berman, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—76 McKibben street, rear, Brooklyn.

APPEARANCES—

For Petitioner: Tobias Goldstone.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott	8
Negative	0
Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore	5

THE RESOLUTION:

(74-24-S)

WHEREAS, Tobias Goldstone, for Louis Berman, owner, filed, January 18, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 76 McKibben street, rear, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated January 11, 1924, reads:

"Order No. 48422-LD:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape, etc.

"2. Arrange the fire escape on the north side of building, etc.";

and

WHEREAS, the premises consist of a non-fireproof building, situated in the rear of the lot, three stories in height, 24 ft. by 25 ft. 6 in. in area. OCCUPIED as follows: 1st and 2nd stories, manufacture of robes, 10 persons; 3rd story, purse manufacturing, 3 persons. EXITS: One interior wooden stairway extending from the 3rd to the 2nd story, with iron ladder to scuttle in the roof, enclosed in wooden partitions, metal covered on hall side, with fire doors at the openings, and an outside iron stairway from the 2nd story to yard, a fire escape with fireproof shutters at the openings along the course thereof, on front of the building, extending from top story to yard,

MINUTES

with gooseneck ladder to roof; EGRESS from termination of fire escape through the hall of building at the front of the lot and also by a door in fence to adjoining yard; and

WHEREAS, petitioner asks that the existing means of egress be considered adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 1 on condition that an exit by opening in fence to the adjoining premises shall be provided and maintained; and that free and unobstructed passageway shall be provided through the tenement house on the front of the property and maintained available at all hours, and granted as to Item No. 2 on condition that the windows on the course of the fire escape on the 1st and 2nd stories shall be made fireproof, self-closing.

77-24-S.

PETITIONER—Charles Sheres, for 315 Seventh Avenue Corporation, owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—311-313-315 Seventh avenue, Manhattan.

APPEARANCES—

For Petitioner: Charles Sheres, Samuel Kheel.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott 8

Negative 0

Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(77-24-S)

WHEREAS, Charles Sheres, for 315 Seventh Avenue Corp., owner, filed, January 18, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 311-313-315 Seventh avenue, Borough of Manhattan; and

WHEREAS, the decisions of the superintendent of buildings, dated December 14, 1923, read:

"Re Certificate of Occupancy—Premises 311 Seventh Avenue.

"The following objections will have to be removed before a Certificate of Occupancy can be issued on the above premises:

"Windows on course of fire escape at 1st floor not fireproof; no fireproof passageway from foot of fire escape to street; no exit signs and red lights on 2nd floor; windows at rear of building within 30 feet of openings in adjoining buildings no protection."

"Re: Certificate of Occupancy—Premises 313 Seventh Avenue.

"Before certificate of occupancy can be issued it will be necessary to remove the following objections:

"Windows on course of fire escape at 1st floor not fireproof; no fireproof passageway from foot of fire escape to street; windows at rear of building within 30 feet of openings in adjoining buildings not protected; exit signs and red lights not placed."

"Re: Certificate of Occupancy—Premises 315 Seventh Avenue.

"Before this Bureau can issue certificate it will be necessary to remove the following objections:

"No fireproof passageway from foot of fire escape to street; window at rear of building within 30 ft. of openings in adjoining building and within 50 feet of a neighboring roof not protected; exit signs and red lights not placed.";

and

WHEREAS, the premises consist of three non-fireproof five-story buildings, No. 315 is 24 ft. 9 in. by 56 ft. 11½ in. in area; No. 313 is 24 ft. 8 in. by 56 ft. 11½ in. in area, and No. 311 is 28 ft. 8½ in. by 56 ft. 11½ in. in area. OCCUPIED: 1st story are stores and stories above are tenant factories, 20 persons in each building. EXITS of each building consist of a wooden stairway extending from 1st story to roof, enclosed in wood lath and plaster partitions with wooden doors at openings; a fire escape on the rear of each building extending from roof to yard, with fireproof windows along the course of same. EGRESS from yard through a hallway protected with fire retarding partitions, in an adjoining building, No. 309 Seventh avenue; and

WHEREAS, petitioner asks acceptance of existing means of egress.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects egress from the termination of the fire escape on condition that any fence in rear of premises shall be removed and that the rear yard from No. 309 to 311 shall be maintained as one single open space, with egress to street through premises No. 309, 311 and 313; that a metal sign shall be hung on the outside of the doors indicating direction of exit to street, and granted on the further condition that the decision of the superintendent of buildings be complied with in all other respects.

835-22-S.

PETITIONER—Samuel Rosenblum, for George A. Helme, owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—58 West 38th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott 8

Negative 0

Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(835-22-S)

WHEREAS, Samuel Rosenblum, consulting engineer, for George A. Helme, owner, filed, June 16, 1922, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in decision of the superintendent of buildings, affecting premises 58 West 38th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated June 6, 1922, reads:

"In case the premises are to be maintained for factory use the exit from rear fire escapes must conform to section 273 (9) which requires a fireproof passageway over roof of extension and leading to street. Exit from rear fire escape does not conform to section 273 and it is considered to be inadequate.";

and

MINUTES

WHEREAS, the building is non-fireproof, four stories and basement in height, 20 ft. 10 in. by 94 ft. 9 in. in area, as proposed in the 1st story and 20 ft. 10 in. by 56 ft. in area above, occupied in the basement, millinery supplies, 2 persons; 1st story, silk salesroom, 5 persons; 2nd story, manufacturing of feathers, 5 persons; 3rd story, manufacturing of hats, 6 persons; 4th story, pleating, 2 persons; the means of egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in lath and plaster partitions with metal covered doors at the openings, a fire escape on the rear of the building, with fireproof, self-closing windows along the course of the fire escape; and

WHEREAS, it is proposed to land the fire escape on the proposed extension roof with stair from extension roof to yard and exit from yard into building in the rear; and

WHEREAS, petitioner contends in view of the light occupancy the means of egress proposed will be adequate; and

WHEREAS, this petition was granted by the board at its meeting July 18, 1922, on condition that egress from the 1st story extension roof, upon which the fire escape terminates, be provided by fixed iron stairway to yard immediately to the rear and that the ceiling of the extension shall be fire retarded in accordance with the rules of the board of standards and appeals, and on further condition that any sash in skylight curb be stationary and glazed with wire glass; and

WHEREAS, petitioner requests modification of the resolution so as to permit the increase of occupancy from 13 persons above the 1st story, as shown in resolution, to 55 persons above the 1st story, in view of the fact that in addition to complying with the requirements of the resolution he has fire retarded the existing stairway partitions and provided fireproof doors at the openings therein.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the interior stairs enclosure shall be fire retarded in accordance with the rules of the board of standards and appeals and that the requirements of the original resolution shall be complied with in all respects; *on further condition* that the occupancy shall not exceed 20 persons on any one story above the 1st story.

1513-23-S.

PETITIONER—Samuel Rosenblum, for Lonfro Realty Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—103 West 27th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott	8
Negative	0
Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore	3

THE RESOLUTION:

(1513-23-S)

WHEREAS, Samuel Rosenblum, for Lonfro Realty Corp., owner, filed, December 22, 1923, a petition, with the board of standards and appeals, for variation from the require-

ments of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 103 West 27th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered December 3, 1923, reads:

"The following objections will have to be removed before we can issue the Certificate:

"No fireproof passageway from foot of fire escape to street.";

and

WHEREAS, the building is non-fireproof, four stories in height, 20 ft. by 79 ft. in area at 1st story and 20 ft. by 56 ft. 6 in. in area above; the numerical occupancy as requested for in the certificate of occupancy is: 1st story, restaurant; 2nd story, mfg. of coats, 5 persons; 3rd story, mfg. of furs, 3 persons; 4th story, mfg. of coats, 14 persons. EXITS: An interior wooden stairway extending from 1st story to roof, enclosed in fire resisting material at 1st story and wood lath and plaster partitions above, with fireproof doors at openings; a fire escape on the rear of the building extending from the main roof to the roof of the 1st story extension, with iron ladder to yard; windows along course of the fire escape are non-fireproof. ROOFS: To east, one story lower; to west, same height; and

WHEREAS, petitioner proposes to fireproof openings along course of the fire escape and to connect the roof of the extension to balcony of the fire escape to west.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the roof of the 1st story extension shall be constructed fireproof; that any skylights shall be glazed with wire glass; that a 60 degree fire escape shall be erected on the rear of the building, with egress from the termination on the 1st story extension roof by connecting balcony to fire escape on premises 106 West 28th street, with egress therefrom through 105 West 27th street and 106 West 28th street; that a metal sign indicating line of travel to means of egress be provided; and *granted* only so long as conditions as to occupancy and use remain substantially unchanged.

1270-23-S.

PETITIONER—Levi, Gutman & Goldberg, for Bagdad Traders, Inc., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—361 Seventh avenue, Manhattan.

APPEARANCES—

For Petitioner: Thomas A. Williams.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott	8
Negative	0
Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore	5

THE RESOLUTION:

(1270-23-S)

WHEREAS, Levi, Gutman & Goldberg, for Bagdad Traders, Inc., owner, filed, November 7, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 361 Seventh avenue, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered November 1, 1923, reads:

MINUTES

"In connection with your application for a certificate of occupancy for the above premises, I beg to state that the building cannot be occupied as a factory for more than six persons, as it does not comply with the provisions of the Labor Law. Your request for a certificate permitting ten per cent of the number of employees to be engaged in manufacturing not to exceed twenty-five is therefore denied."

and
WHEREAS, the building is non-fireproof, seven stories and cellar in height, 23 ft. 3 in. by 75 ft. in area. OCCUPIED: Cellar, boiler room and storage; 2nd to 5th stories, inclusive, offices, 20 persons per story; 6th story, offices and mfg., 14 persons in office, 6 persons at mfg.; 7th story, offices and mfg., 14 persons in office, 8 persons at mfg. EXITS: One interior fireproof stairway with fire doors at openings, at rear of building, extending from 1st story to roof; and

WHEREAS, petitioner contends that when the plans for the erection of the building were approved by the bureau of buildings in 1921, it was stated there were 135 persons to occupy the premises and the bureau permitted 10 per cent of this number, i. e., 14 persons to be employed at manufacturing; basing actions upon approval granted by the bureau of buildings in 1921 the petitioner leased the entire building and has arranged tenancy so there is a total of 14 persons on 6th and 7th stories engaged in manufacturing; on May 9, 1923, a temporary certificate of occupancy was issued for use of the 2nd to 7th stories inclusive, permitting 20 persons per story, with 10 per cent of the employees engaged in manufacturing; a permanent certificate of occupancy for this condition has been denied by the bureau of buildings and petitioner further contends all work was done according to law and permits.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that an interior fireproof stairs shall be maintained at the rear of the building, with direct egress to the street, and that an exterior standard fire escape shall be provided from the top story to the roof of the adjoining four (4) story building to the north, egress therefrom by means of stairs which extend from this roof to street level with signs indicating the line of travel; on further condition that the factory occupancy shall be vacated on or before December 31, 1925, and granted only so long as the conditions as to occupancy and use, in the meantime, remain otherwise unchanged.

1448-23-S.
PETITIONER—John T. Prout, owner.
SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—137-139 Grand street, Manhattan.

APPEARANCES—
For Petitioner: Phineas Lewinson.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott 8
Negative 0
Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(1448-23-S)

WHEREAS, Phineas Lewinson, for John T. Prout, owner, filed, December 7, 1923, a petition, with the board of stand-

ards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 137-139 Grand street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated May 26, 1923, reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at rear of building, by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, * * *";

and

WHEREAS, the building is non-fireproof, seven stories in height, 35 ft. 11 in. by 73 ft. 11 in. in area; equipped with an interior fire alarm signal system. OCCUPIED: 1st story, store salesroom, 11 persons; 2nd story, printer, 11 persons; 3rd story, printer, 10 persons; 4th story, printer, 3 persons; 5th story, hats, 16 persons; 6th story, lithographers, 12 persons; 7th story, machinist, 6 persons. EXITS: One interior fireproof stairway extending from 1st story to roof, enclosed in fireproof partitions with metal covered wooden doors at openings, a fire escape on the rear of building, extending from roof to 1st story balcony, with ladder to yard of premises to rear; openings along course of fire escape are protected with fireproof windows and doors. ROOFS: To east, 33 ft. lower; to west, 3 ft. higher; and

WHEREAS, petitioner contends that in view of the light occupancy the existing means of exit are sufficient.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that egress from the termination of the fire escape shall be provided and maintained to adjoining rear yard to east, egress from which shall be through passageway and to two adjoining fire escapes; granted only so long as said egress from termination is maintained available.

1159-23-S.

PETITIONER—Samuel Rosenblum, for Samuel Glaser, lessee.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—806 6th avenue, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott 8
Negative 0
Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(1159-23-S)

WHEREAS, Samuel Rosenblum, for Samuel Glaser, lessee, filed, October 9, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 806 6th avenue, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered October 4, 1923, reads:

"Before a certificate of occupancy can be issued on the above premises for store, factory and dwelling it will be necessary to remove the following objections:

"Interior stairs must be extended to roof and rear fire escape must be re-arranged to meet the requirements of the Labor Law (Section 274).";

and

MINUTES

WHEREAS, the building is non-fireproof, four stories in height, 18 ft. 9 in. by 75 ft. in area at 1st story and 18 ft. 9 in. by 50 ft. in area above. OCCUPANCY proposed: 1st story, paint store and stationery store; 2nd story, sign painter, 5 persons; 3rd story, shoe top infr., 15 persons; 4th story, dwelling. EXITS: One interior wooden stairway extending from 1st to top story, with iron ladder (in hall closet) leading to roof, enclosed in fire resisting partitions on the 1st story and lath and plaster partitions above; wooden doors at openings; a fire escape with vertical connecting ladders, on rear of building extending from roof of 1st story extension to top story with gooseneck ladder to roof; windows along course of fire escape are unprotected; EGRESS from termination of fire escape across roof of extension to adjoining extension, thence through building to street; ROOFS of adjoining premises are at same level; and

WHEREAS, petitioner proposes to provide 60 degree connecting stairways on fire escape, a gooseneck ladder to roof and fireproof windws along course of fire escape except at dwelling story, and contends that iron ladder being available will obviate the necessity of extending stairs to roof.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the ceiling of the 1st story extension shall be fire retarded and the skylight glazed with wire glass; that 60 degree stairs shall be provided connecting rear balconies with a gooseneck ladder to roof, and with stair and landing to extension roof with egress therefrom to the extension roof of adjoining premises, and that a fixed double rung iron ladder shall be provided in the top story hall to scuttle in roof; that the windows on the course of the fire escape, with the exception of the top story, shall be made fireproof; granted only so long as conditions as to occupancy and use remain substantially unchanged.

1477-23-S.

PETITIONER—Patrick J. Murray, for Canebrake Realty Co., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—521 Broome street and 22 Watts street, Manhattan.

APPEARANCES—

For Petitioner: Patrick J. Murray.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott 8

Negative 0

Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(1477-23-S)

WHEREAS, Patrick J. Murray, for Federal Sweets & Wafer Company, lessee, filed, January 15, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 521 Broome street and 22 Watts street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered December 7, 1923, reads:

"Windows on course of fire escape not fireproof, self-closing; no counterbalanced iron stairs from lower balcony to street and in addition petitioner requests to be relieved from extending stairs to roof."

and

WHEREAS, the building is fireproof, seven stories in height, 40 ft. by 60 ft. in area; OCCUPIED as a factory with a total occupancy of 63 persons in the building at the present time; the 4th to 7th stories inclusive being vacant at the present time; the means of egress consisting of an interior stairway, extending from the 1st story to the top story, unenclosed; a fire escape on the Broome street front, with non-fireproof windws along the course of the fire escape, with drop ladder from the lowest balcony to street; and

WHEREAS, petitioner contends that the property is located within the condemned area for the approach of the new Hudson River Tunnel and that there are only 25 persons above the 1st story.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the occupancy shall not exceed twenty-five (25) persons above the 2nd story; that no persons shall be employed above the 4th story; that a fire escape shall be erected on the front of the building with 60 degree connecting stairs and counterbalanced drop ladder in guides from the lowest balcony to the street, and on further condition that the existing cardboard partitions in lofts shall be removed, and that a fixed iron ladder shall be provided from the top story to scuttle in roof; this variation and use to be granted for a period not to extend beyond October 1, 1924.

1325-23-S.

PETITIONER—John M. Lewis, for Thomas Garner Co., Inc., owner.

SUBJECT—Variation of the labor law as cited in orders of fire commissioner.

PREMISES AFFECTED—181 William street, Manhattan.

APPEARANCES—

For Petitioner: John M. Lewis.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Superintendents Brady, Reville, Kleinert and McDermott 8

Negative 0

Absent: Messrs. Holland, Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(1325-23-S)

WHEREAS, John M. Lewis, for Thomas Garner Co., Inc., owner, filed, November 17, 1923, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 181 William street, Manhattan; and

WHEREAS, the orders of the fire commissioner read as follows:

No. 27128-LD, dated September 30, 1921:

"1. Extend the interior stairway at the south side of building to the roof * * *."

No. 27129-LD, dated September 30, 1921:

"1. Arrange the doors leading to the stairway on all stories upon which five or more persons are employed, so as to open outwardly without obstructing the stairway * * *."

No. 27763-LD, dated October 17, 1921:

"1. Arrange the fire escape on the west side of building and the openings leading thereto and the windows

MINUTES

opening on the course thereof, so that same are in compliance with the provisions of Sections 273 and 274 of the Labor Law * * *.

"NOTE: Among the defects noted on this fire escape are the following:

"Windows on course not fireproof, not self-closing. No 60 degree connecting stairways between balconies. No stairway from top balcony to roof.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 47 ft. in area. EXITS: One interior wooden stairway extending from 1st to top story with iron ladder to scuttle in roof, enclosed in wooden partitions with wooden doors at openings; a party wall balcony fire escape with vertical ladder connecting balconies on the rear of the building extending from 5th story to roof of a one-story extension; an iron ladder connects 5th story balcony with roof of adjacent building under same ownership; windows along course of fire escape are fireproof, self-closing; ROOFS of adjoining buildings are at same level. OCCUPIED as follows: 1st floor, leather goods store, 6 persons; 2nd floor, storeroom; 3rd floor, printer, 5 persons; 4th floor, printer supply, 3 persons; 5th floor, window shade mfr., 3 persons; total, 17 persons; and

WHEREAS, petitioner contends that owing to small occupancy, the existing means of exit are ample.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that a fire escape, with 60 degree connecting stairs shall be provided on the William street front of the building and that a fire escape balcony shall be provided in each story connecting to fire escape on adjoining premises to the east on the Spruce street front of the property; that a double rung iron ladder be provided in the top story hall to scuttle in roof; and granted so long as conditions as to occupancy and use remain substantially unchanged.

THE RESOLUTION:

(1326-23-S)

WHEREAS, John M. Lewis, for Thomas Garner Co., Inc., owner, filed, November 17, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 22 Spruce street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 30, 1921, reads:

"1. Extend the interior stairway at the west side of building and the openings leading thereto and the windows opening on the course thereof, * * *.

"2. Arrange the fire escape on the east side of building and the openings leading thereto and the windows opening on the course thereof, * * *.

"Among the defects noted on this fire escape are the following:

"Windows on course not fireproof, not self-closing.

"No 60 degree connecting stairways between balconies.

"No stairway from lowest balcony to ground.

"No stairway from top balcony to roof.";

and

WHEREAS, the building is non-fireproof, five stories in height, 20 ft. by 50 ft. in area. OCCUPIED: 1st story, leather goods, 1 person; 2nd story, printer, 2 persons; 3rd story, printer, 2 persons; 4th story, lamps, 3 persons; 5th story, metal spinners, 4 persons. EXITS: One interior wooden stairway, extending from 1st to top story iron ladder to scuttle in roof, enclosed in wooden partitions, with wooden doors at openings; a party wall balcony fire escape, with vertical ladder connecting balconies on east side of building, extending from main roof to roof of 1st story extension; windows along course of fire escape, fireproof, self-closing. ROOFS: To east, 7 ft. higher, connected with iron ladder; to west, same level.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that a fire escape, with 60 degree connecting stairs shall be provided on the William street front of the building and that a fire escape balcony shall be provided in each story connecting to fire escape on adjoining premises to the east on the Spruce street front of the property; that a double rung iron ladder be provided in the top story hall to scuttle in roof; and granted so long as conditions as to occupancy and use remain substantially unchanged.

1396-22-S.

PETITIONER—Samuel Rosenblum, for The Reid Ice Cream Co., owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—127-129 West 125th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

THE RESOLUTION:

(1396-22-S)

WHEREAS, H. L. Brandt, for The Reid Ice Cream Co., owner, filed, November 17, 1922, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 127 and 129 West 125th street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Extend the interior stairway at the centre of building to the roof, as per section 271 of the Labor Law.

"2. Provide an outside iron balcony fire escape on the front of building to cover both sides of party wall * * * constructed as per section 273 of the Labor Law and the rules of the Board of Standards and Appeals.";

and

MINUTES

WHEREAS, the building is non-fireproof, four stories in height, 38 ft. 9 in. by 96 ft. 11 in. in area in the 1st story and 38 ft. 9 in. by 48 ft. and 53 ft. in area above; divided into two sections by a fore and aft brick wall. OCCUPIED: Basement, electrical supplies, 9 persons; 1st story, furniture store, 3 persons; 2nd story, clothing store and printer, 4 persons; 3rd story, Electric Protective Service, 2 persons; 4th story, dresses, 5 persons; the means of egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in wood stud partitions, covered with match boarding and No. 26 gauge sheet iron, with fire doors at the openings; a fire escape on the rear of building, westerly side, with landing in yard and egress to street through fireproof passage in basement; openings in the division wall in each story protected by fire doors; a vertical ladder leading from roof of extension in 4th story to roof of extension in the 3rd story; and

WHEREAS, petitioner proposes to place wire glass in skylight on the roof over the 2nd floor west and to make the three windows in the 2nd floor rear east fireproof; and

WHEREAS, this petition was denied by the board at its meeting January 30, 1923, and reopened by vote of the board on February 26, 1924; and

WHEREAS, petitioner proposes to extend the interior stairway to the roof and to provide a regulation fire resisting enclosure about same, and in lieu of providing a fire escape on the front of the building proposes to bring the fire escape on the rear of the building up to standard; to provide a new stair and landing on the roof of the 3rd story extension at the west (replacing a gooseneck ladder); to provide connecting balconies and stairs at the easterly building; to provide an additional means of exit from the cellar, which is the means of egress from termination of fire escape and to provide a fixed ladder from 2nd story balcony to adjoining yard.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the present window at east end leading from 3rd story of east section be replaced with a fireproof door opening out to roof of extension, and that a fire escape balcony be provided at 2nd story of east section connected to fire escape on west section, with 60 degree stairways from this balcony to roof of east extension, and from 2nd story balcony to roof of west extension, and that a fire escape platform be provided from one of the windows from 3rd story of west section to roof of extension, any skylight in roof of west extension to be of metal and wire glass; that a drop ladder in guides be provided from 1st story balcony into yard to west; and further that the interior stairway be extended to roof, and stairway enclosed in fire resisting material; *granted further on condition* that occupancy shall not exceed 36 persons above 2nd story; that the balcony fire escape on the level of the 1st story shall be provided with a railing not less than 3 ft. 6 in. in height; that exit signs shall be provided in the lowest balcony fire escape directing the line of travel.

APPLIANCE SUBMITTED FOR APPROVAL.

BOARD OF APPEALS

*CORRECTION.

The minutes of the meeting of the board of appeals held September 18, 1923, as they appeared in Bulletin No. 39, Vol. VIII, are hereby corrected to read as follows:

THE RESOLUTION:

(696-23-A)

WHEREAS, S. Langford & Co., Inc., lessee, filed, July 5, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 72-78 Spring street, Manhattan and

WHEREAS, the order of the fire commissioner, dated June 4, 1923, reads:

"12. Discontinue use of any table used for the display of finished products, which table is over 4 ft. 0 in. in width or 10 ft. 0 in. in length, * * *.

"13. Place all tables used for display of finished products at least 5 ft. 0 in. apart * * *.

"19. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering.

"20. Provide suitable guards around radiators to prevent combustible material from coming in contact therewith. * * *

"21. Bottom of guard shall be arranged so as to lift up for cleaning * * *.

"22. Separate all rooms used for inspection, sorting, wrapping, packing, storage and stockrooms from each

other and from all rooms used for other manufacturing, or storage purposes by fireproof partitions constructed as prescribed by Sec. 235-2, * * *.

"23. Arrange all tables or work benches in workrooms at least four inches from any wall, steam or hot water pipes * * *.

"26. Reduce area of finished stock storeroom to 5,000 square feet or less * * *.

"27. Discontinue the use of any finished stock storeroom the walls or partitions of which are not constructed as required by Sec. 235-2, Chapter 10, Code of Ordinances. * * *.

"28. Keep all finished stock except that in final shipping boxes on slatted shelves in finished stock storeroom * * *.

"29. Construct racks and divisions in finished stock storeroom of incombustible material, or of at least $\frac{7}{8}$ in. tongue and grooved boards or its equivalent in resistance to heat and gases * * *.

"30. Provide that slatted shelves in finished stock storeroom shall not exceed three feet in depth * * *.

"31. Provide vertical divisions at least every 4 ft. 0 in. on slatted shelves in finished stock storeroom * * *.

"32. Provide that none of the slats shall be over 4 in. wide nor spaced less than 1 in. apart * * *.

"33. Provide aisle space between racks at least 3 ft. wide * * *.

"34. Arrange sprinkler heads with properly installed baffles so that there will be one such head in center of aisle opposite each section of storage racks * * *.

*Correction—Word "not" omitted in line 83.

MINUTES

"36. Adequately protect all windows or other wall openings in storerooms within 50 feet of other buildings or structure, or windows and other wall openings, located above other openings in the same building * * *"; and

WHEREAS, the building is fireproof, twelve stories in height, 100 ft. by 100 ft. in area, showrooms, offices and manufacturing, with a total of 447 persons in the entire building, celluloid mfg. on 6th, 8th, and 9th stories; and

WHEREAS, appellant contends that display rooms are used for no other purpose, that as to items Nos. 19, 20, 21, this is being done on the 6th, 8th and 9th stories and requests that this requirement be waived as to other stories, that as to item No. 22 inspection is part of the manufacturing process, as to item No. 23 that it is safer to have work benches close against wall; as to item No. 26 and No. 27 that this was intended for places where stockrooms and manufacturing were on one floor; as to items Nos. 28, 29, 30, 31, 32 and 33 an extension of time is requested until December 15, 1923, when work will be done.

Resolved, that the order of the fire commissioner as to Items 12, 13, 19, 20, 21, 22, 23, 26, 27, 34 and 36, be and it hereby is modified, and the appeal as to these items be and it hereby is granted on the following conditions:

As to Item 12, on condition that the existing aisle spaces and areas shall not be reduced;

As to Item 13, on condition that the present arrangement of tables, where meeting back to back, be provided with curbing not less than six inches high;

As to Items 19, 20 and 21, on condition that it affects

only such floors in building on which celluloid manufacturing is conducted;

As to Item 22, on condition that all partitions separating hallways and exits be of unpierced, fireproof material, and that any openings therein shall be protected with self-closing, fireproof doors;

As to Item 23, on condition that the regulations shall prevail on all floors and in all rooms where manufacturing takes place, and that any radiators throughout the building, where finished celluloid articles are stored, shall be provided with sloping, wire-metal tops;

As to Item 26, on condition that no manufacturing be conducted on these stories, and that the display room or rooms be separated from all exits, hallways or passageways by an unpierced, fireproof wall, all openings therein to be protected with fireproof, self-closing doors;

As to Item 27, on condition that the enclosing walls in said stock room shall be of approved, fireproof material;

As to Item 34, granted as to installation of baffle heads, and on condition that sprinkler distribution shall comply with regulations;

As to Item 36, on condition that sprinkler equipment as noted on plans on file in this case shall be maintained distant not more than three feet on the Spring street front and not more than four feet on the Crosby street front from window openings;

and that the order of the fire commissioner, as to Items 28, 29, 30, 31, 32 and 33, be and it hereby is affirmed, and the appeal as to these items be and it hereby is denied.

MINUTES

BOARD OF STANDARDS AND APPEALS

*CORRECTION.

The minutes of the meeting of the board of standards and appeals, held Tuesday afternoon, June 12, 1923, as they appeared in Bulletin No. 25, Vol. 8, are hereby corrected to read as follows:

THE RESOLUTION:

(471-23-S)

WHEREAS, Max Muller, for Ralph Moody, owner, filed, April 18, 1923, a petition, with the board of standards and

*Correction—Words "party wall" omitted in line 33 and words "with party balcony in 2nd story to connect with fire escape on 149 Canal street" added in line 36.

appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 151 Canal street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Arrange the fire escape at rear of building and the openings leading thereto and the windows on the course thereof * * *.

"Among the defects noted on this fire escape are the following:

"Windows on course not fireproof.

"No stairway from lowest balcony to ground.

"No stairway from top balcony to roof.

MINUTES

"No passageway from termination of fire escape to street.

"No steps to sills of openings to balconies."; and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 100 ft. irregular in area in the 1st story and 25 ft. by 80 ft. in area above. OCCUPIED: 1st story, store and restaurant; 2nd story, saleroom, 2 persons; 3rd story, billiards, 2 persons; 4th story, knitting mill, 8 persons; 5th story, tool makers. EXITS: One stairway extending from 1st story to roof, enclosed in terra cotta partitions with fire doors at openings; a fire escape on rear of building with gooseneck ladder to roof, and sliding

ladder to adjoining yard; non-fireproof windows along course of fire escape.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a fire escape shall be provided on the rear of building with not less than a 60 degree connecting iron stairs from roof of 1st story extension to main roof, with party balcony in 2nd story to connect with fire escape on 149 Canal street, and that a self-closing, fireproof window shall be provided in the southerly gable wall of the extension on the 1st story and that the order shall be complied with in all other respects, and *granted* so long as the conditions as to use and occupancy shall remain substantially unchanged.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in

exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited, existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanent secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F. and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth ($1\frac{1}{4}$) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter ($1\frac{1}{4}$) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter ($1\frac{1}{4}$) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.
Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.
Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.
In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanket-gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A. Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths (¾) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order given—

- Docket.
- Call of Clerk's Calendar.
- The Trial Calendar.
- Notices in Building Zone Cases.
- Minutes of Meeting, Board of Appeals, March 18, 1924.
- Minutes of Meeting, Board of Standards and Appeals, March 18, 1924.
- Correction.
- Notices of Public Hearings.
- Rules Adopted.
- Reserve Calendar.
- Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, March 25, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, April 1, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

THE VOTE TO GRANT—

Affirmative: Messrs. Boulton and Kerby 2

Negative: Chairman Walsh, Messrs. Beatty and Connell 3

Absent: Mr. Holland and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1136-23-A)

WHEREAS, Samuel Rosenblum, for Buick Motor Co., lessee, filed, September 29, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 2164 Harlem River terrace, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, No. 9428-C, dated September 28, 1923, reads:

"Discontinue motor vehicle repair shop.;"

and

WHEREAS, the building is non-fireproof, one story in height, 100 ft. by 100 ft. in area; OCCUPIED as a garage and service station, 10 employees; and

WHEREAS, it appears that power driven machinery is used on premises.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1406-23-A.

APPELLANT—Devoe & Raynolds Co., Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—101 Fulton street and 153 William street, Manhattan.

APPEARANCES—

For Appellant: Edward C. Phillips.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Kerby 5

Negative 0

Absent: Mr. Holland and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1406-23-A)

WHEREAS, Devoe & Raynolds Co., Inc., owner, filed, December 1, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 101 Fulton street and 153 William street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 20193-LC, dated November 23, 1923, reads:

"You are, therefore, ordered to:

"1. Forthwith remove all nitro-cellulose products.;" and

WHEREAS, the building is non-fireproof, five stories and cellar in height, 45 ft. by 60 ft. in area; equipped with a sprinkler system. OCCUPIED: Cellar and 1st story, storage and salesroom for paints and varnish, 27 persons; 2nd, 3rd and 4th stories, offices, 114 persons; 5th story, stationery, 5 persons; and

WHEREAS, appellant contends all the paint and varnish in the building is in sealed cans; that the 100 pounds of sheet celluloid on the premises is for resale only, and is kept in a fireproof metal cabinet.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted, permitting the storage of not more than 25 pounds of sheet celluloid for sale, and not under manufacture, conversion or further work on the premises, on condition that the celluloid be maintained in a covered galvanized iron box, stored in brick vault under sidewalk, any opening in said vault to be equipped with self-closing, fireproof door, and vault to be equipped with at least one approved sprinkler head.

1441-23-A.

APPELLANT—Harold S. Ford, for Chibankind Corporation, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—27-29 Pine street, Manhattan.

APPEARANCES—

For Appellant: Luke Flanagan.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Kerby 5

Negative 0

Absent: Mr. Holland and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1441-23-A)

WHEREAS, Harold S. Ford, for Chibankind Corp., owner, filed, December 7, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 27-29 Pine street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 50489-F, dated October 23, 1923, reads:

"1. Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings and which are not more than 50 ft. above a neighboring roof at west side of building * * *."

and

WHEREAS, the building is fireproof, 13 stories in height, 50 ft. by 94 ft. in area at 1st story and 50 ft. by 85 ft. in area above; OCCUPIED as office building; and

WHEREAS, there are seven (7) windows in each story above the 1st story, which are within 30 ft. of openings in adjoining buildings; and

WHEREAS, appellant contends the exposure to the east is a fireproof bank building and the building to the rear is the U. S. Assay Office, wherein the openings are protected with fireproof windows and iron shutters.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that any window opening on course of stairway and the window adjoining the stair enclosure to

MINUTES

the west, on all floors, be made fireproof, and *granted* so long as the exposures of the adjoining buildings remain protected as at present and the occupancy and use remain unchanged.

7-24-A.
APPELLANT—Wm. H. Gompert, for Storm Holding Co., owner.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—524-530 East 72nd street, 525-531 East 71st street, Manhattan.

Absent: Mr. Holland	1

THE RESOLUTION:

(7-24-A)

WHEREAS, Wm. H. Gompert, for The Automobile Club of America, lessee, filed, January 3, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 524-530 East 72nd street and 525-531 East 71st street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 19990-LC, dated September 22, 1923, reads:

"1. Install standpipe 4 in. in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *";

and
WHEREAS, the building is fireproof, six stories in height, 125 ft. by 204 ft. (25,500 sq. ft.) in area; OCCUPIED as a storage garage; and

WHEREAS, appellant contends the building is equipped with a 100 per cent sprinkler system; that the sprinkler system is connected with siamese connections at both street fronts and is supplied from four (4) 9,000 gallon tanks which are filled by an automatically controlled electric pump delivering 65 gallons of water per minute.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the existing occupancy remains unchanged; that the sprinkler system be maintained; and that all exits be enclosed in walls of approved fireproof material, any openings therein to be protected with self-closing, fireproof doors.

THE RESOLUTION:

(24-24-A)

WHEREAS, William F. Doyle, for Ninth Avenue Amusement Co., lessee, filed, January 7, 1924, an appeal with the board of appeals, from a decision of the fire commissioner, affecting premises 841-851 Ninth avenue, Manhattan; and

WHEREAS, the decision of the fire commissioner, No. 168, dated July 9, 1923, reads:

"1—Provide a sprinkler system for stage, as required by law.

"2—Provide asbestos curtain for proscenium opening.

"3—Provide skylights over stage.";

and

WHEREAS, the building is fireproof, two stories in height, 84 ft. 6 in. by 150 ft. in area; OCCUPIED as stores, theatre (orchestra seating 867 persons and balcony seating 701 persons) and offices, 12 persons; and

WHEREAS, appellant contends in order to comply with items 1 and 3 it would be necessary to provide sprinkler heads and skylights on the auditorium side as well as the stage side of the proscenium wall as this wall is directly in the center of the stage; appellant proposes to separate the dressing rooms from the stage proper and further contends that a standpipe system with siamese connection available on two streets is installed and that a certificate of occupancy has been issued by the superintendent of buildings for stores, theatre and offices.

REPORT OF COMMITTEE OF INSPECTION:

A committee of the Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Holland and Connell, made a personal inspection of the premises on March 6th.

The appeal is from a decision of the Fire Commissioner, ordering the installation of a sprinkler system for stage, asbestos curtain and skylights over stage, affecting premises on the northwest corner of Ninth Avenue and 55th Street, which consists of a theatre, now operated as moving picture house, with stores and the main lobby on the Ninth Avenue front.

To either side of the stage or platform there exists a room, opening directly on the platform, with a short flight of iron stairs therefrom to said rooms. The platform or stage, from the rear wall to the extreme outside curve of the stage, measures 16 ft. From the rear wall to a draw curtain, which is on a line with the proscenium, opening measures but 8 ft.

These dimensions would not permit of the arrangement or set-up of scenic effects or theatrical setting and, therefore, impractical and unlikely for use for the presentation of drama or play, though for the effects of concert presentation they do maintain a draw curtain.

Therefore, the unlikelihood of a stage setting would seem to justify the waiver of order, requiring a sprinkler system or asbestos curtain on the stage; as there is nothing to ventilate in extreme conflagration on this platform, there does not seem any necessity, to say nothing of the impracticability of installing a skylight over the only space left for it—an 8 ft. depth.

The Board recommends that the appeal be granted and that the rooms on either side of the stage be cut off from same by the erection of a fireproof wall of four-inch terra cotta blocks, with a fireproof, self-closing door at the foot of stairs from the stage at the northerly side, and on the stage level of room to the southerly side; these rooms to be reserved for the use and accommodation of employees of the theatre, accessory to the operation of the moving picture and concert entertainment, authorized by permit and certificate of occupancy now in force.

MINUTES

This appeal is to be granted on the specific stipulation that there shall be no scenery or theatrical settings stored, maintained or displayed on the stage or the premises, and so long as this building is maintained and operated as a moving picture theatre.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
JAMES P. HOLLAND,
HENRY L. CONNELL.

March 7, 1924.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that one room on either side of stage be cut off from same by the erection of a fireproof wall of four-inch terra cotta blocks, with a fireproof, self-closing door at the foot of stairs from the stage at the northerly side, and on the stage level of room to the southerly side, with direct egress to courts or other open space from said rooms; these rooms to be reserved for the use and accommodation of employees of the theatre, accessory to the operation of the moving picture and concert entertainment, subject to the permits and certificate of occupancy now in force; that there shall be no scenery or theatrical settings stored, maintained or displayed on the stage or on the premises; and *granted* only so long as this building is maintained and operated as a moving picture theatre.

Negative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, Kerby and Fire Chief Ken-
lon 6

Absent: Mr. Holland 1

THE RESOLUTION:

(174-24-A)

WHEREAS, William F. Doyle, for Herman Langsam, owner, filed, February 4, 1924, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 1421 5th avenue, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated January 22, 1924, reads:

"Business is not permitted in the same building used for theatrical or other public purposes.";

and

WHEREAS, the building is fireproof, cellar, auditorium, balcony and gallery in height, 100 ft. by 110 ft. in area. OCCUPIED: 1st story as a theatre and proposed occupancy of cabaret and dance hall in cellar; and

WHEREAS, appellant contends there are no openings between proposed dance hall and the theatre proper; that the means of egress from cellar are ample; that the theatre conforms to all provisions of the code and that the proposed dance hall occupancy is not an especially hazardous business in view of its conjunction with the theatre use.

Resolved, that the decision of the superintendent of buildings be and it hereby is *approved*, and the appeal be and it hereby is *denied*.

THE RESOLUTION:

(1211-23-BZ)

WHEREAS, William F. Doyle, for James F. Meehan, owner, filed, October 23, 1923, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises west side of St. Nicholas avenue, 101 ft. 3 $\frac{7}{8}$ in. south of West 145th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 18, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that St. Nicholas avenue is a residence district and West 145th street is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 1, 1923, in acting on N. B. App. No. 350-23, reads:

"1. Public garages in residence districts are unlawful."

and

WHEREAS, the existing building is of non-fireproof construction, two stories in height, with a frontage of 228.15 ft. and a depth of 94 ft.; it is proposed to extend the building, the extension to be non-fireproof, two stories in height, 101 ft. 4 in. by 158 ft. 7 $\frac{1}{2}$ in. in area, the entire structure to be occupied as a garage for more than five motor vehicles; and

WHEREAS, owing to surrounding conditions there would be hardship in preventing applicant from erecting the building proposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be of fireproof construction, not exceeding two stories in height; that the rear wall be unpierced throughout its entire height and length, with the exception of one opening in the lower story to the rear, not exceeding 3 ft. 8 in. in width, for the purpose of cleaning and maintaining the rear yard of these premises; that there shall be no means of egress or connection of any form or description to or from Hamilton terrace or 144th street to these premises at any time; that the front elevation shall be finished in light colored face brick with architectural terra cotta or stone trimmings; that the restrictions of the building zone resolution as to rear yard and area requirements shall be complied with in all other respects; that any skylights installed shall be not less than 30 ft. from the gable walls; that any gasoline storage equipment installed on these premises shall be located at the front of the building, at the extreme southerly end of the proposed structure;

Resolved, further, that the architect shall make a return to this board for its endorsement of the final, complete drawings, in conformance with the resolution of this board, before submitting same for examination and approval by the bureau of buildings; that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1425-23-BZ.

APPLICANT—Harry A. Yarish, for James Fennimore, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a poultry slaughter house.

PREMISES AFFECTED—546-550 East New York avenue, Brooklyn.

APPEARANCES—

For Applicant: John H. McCooey, Jr., and Harry A. Yarish.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Kerby and Fire Chief Kenlon 5
Negative: Mr. Connell 1
Absent: Mr. Holland 1

THE RESOLUTION:

(1425-23-BZ)

WHEREAS, Harry A. Yarish, for James Fennimore, owner, filed, December 4, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a poultry slaughter house; premises 546-50 East New York avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 18, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East New York avenue and Brooklyn avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 30, 1923, in acting on N. B. Application No. 21201-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Section 4. A poultry slaughter house in a business district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 20 ft. and a depth of 70 ft.; to be occupied as a poultry slaughter house; and

WHEREAS, there was no objection to the erection of this building on the part of neighboring property owners, and the board deemed that owing to conditions of surrounding property there would be undue hardship in preventing applicant from erecting the proposed structure, and in view of the consents of adjoining and contiguous owners and a majority of the owners directly opposite, that the application should be granted.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, subject to the issuance of necessary permit by the board of health, *on condition*, so far as construction of the building and the variation of the zoning resolution is affected, that applicant obtain the necessary structural permits within nine months and complete the building within eighteen months from the date of this action, and that the side walls shall be unpierced throughout their entire height and length, unless opening on plot in the same ownership, and, only so long as such ownership remains unchanged.

WHEREAS, the use district maps accompanying the building zone resolution show that Prospect place is a residence district, St. Marks avenue is an unrestricted district and Washington avenue is a business district; and

MINUTES

WHEREAS, the decision of the superintendent of buildings, rendered September 19, 1923, in acting on App. No. 17179-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 3. A public garage in a residential district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 75 ft. and a depth of 176 ft. 4 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board reports:

TO THE BOARD OF APPEALS:

On February 15, 1924, a Committee of this Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Beatty, Boulton, Connell and Holland, visited and personally inspected the above mentioned premises.

The property is located on the Northerly side of Prospect Place, approximating 150 ft. Westerly from Washington Avenue, has a frontage of 75 feet and a depth of 176 feet, irregular at the rear and extending in triangular shape.

Prospect Place is a residence use district; St. Marks Avenue, the street to the North, is unrestricted, with no outlet from the said property to St. Marks Avenue.

The premises is at present occupied to the front and on the Westerly side by a one story brick structure used as a stable, with eight standing stalls and a one story open shed. To the extreme rear of the property is one three-story brick dwelling, one three-story frame dwelling, and one two-story frame dwelling. The entire plot, with its stable and wagon shed, presents an unorderly, unkempt condition, and it cannot be denied that almost any new building would be an improvement to this street.

To the rear of these premises, opening on St. Marks Avenue, there is at present a vacant plot. Prospect Place, from Underhill Avenue to Washington Avenue, is occupied, almost in its entirety, with dwellings and tenement houses, with the exception of the pumping station at the corner, facing on Underhill Avenue.

There is in course of erection on this street a very attractive and modern apartment or tenement house; and almost directly opposite the properties are developed with rather modern, attractive apartments.

The Committee is not disposed to recommend the erection of a permanent, modern structure for garage use opening on Prospect Place. The applicant, for at least a portion of the plot, has a non-conforming use in the nature of a stable for five horses, but the basis of hardship should be indisputably established at the hearing on this case, before the Board reaches a final determination; and under no circumstances does the Committee recommend granting a vehicular use or opening on the Prospect Place front.

(Signed) WILLIAM E. WALSH,
ALFRED J. BOULTON,
JAMES P. HOLLAND,
JNO. J. BEATTY (dissenting),
HENRY L. CONNELL.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the height of structure shall not exceed two stories above grade; that the gable walls shall be unpierced throughout their entire height and length, unless opening on property in the same ownership as these premises; that the Prospect Place front shall be restricted from any vehicular opening, and that any openings on the Prospect Place front shall be restricted

to one doorway not exceeding 3 ft. 8 in. in width, and to windows of the double-hung, self-closing, fireproof type, glazed with translucent glass; that the elevation shall be finished with face brick of light buff color, with a stone water table of not less than 12 in. in height, stone sills to all window openings, and stone coping and trimming; that the applicant shall make a return to this board for approval, before submitting drawings to the superintendent of buildings of the elevation on Prospect Place front;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

Affirmative: Mr. Kerby and Mr. Boulton 2

Negative: Chairman Walsh, Messrs. Beatty and Connell 3

Absent: Mr. Holland and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1367-23-BZ)

WHEREAS, S. Millman & Son, for B. R. Construction Co., owner, filed, November 23, 1923, an application, under the

building zone resolution, to permit in a "B" area residence district the erection and maintenance of a building extending to the rear lot line and occupying more than 40 per cent of the rear yard; premises 1211-1263 Boynton avenue, Borough of the Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 18, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Boynton avenue and Elder avenue are residence districts and Westchester avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 16, 1923, in acting on N. B. Application No. 2402-23, reads:

"1. Rear yards must be provided behind garages to comply with requirements of Building Zone Resolution in residence district."

and

WHEREAS, the building is to be of non-fireproof construction, one story in height, with a frontage of 18 ft. and a depth of 17 ft.; to be occupied as a garage; and

WHEREAS, the board deemed that the applicant had failed to substantiate the basis of his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

558-23-BZ.

APPLICANT—Jenks & Rogers, for Realty Associates,

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; also to be used as a motor vehicle repair shop.

PREMISES AFFECTED—62-100 Empire boulevard, Brooklyn.

APPEARANCES—

For Applicant: John H. McCooey, Jr.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Kerby 5

Negative 0

Absent: Mr. Holland and Fire Chief Kenlon ... 2

THE RESOLUTION:

(558-23-BZ)

WHEREAS, Jenks & Rogers, for Realty Associates, owner, filed, May 7, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles and as a motor vehicle repair shop; premises 62-100 Empire boulevard, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 18, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Empire boulevard, Franklin avenue and Bedford road are business districts and Sterling street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered April 16, 1923, in acting on Application No. 6748-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A public garage and repair shop in a business district."

and

MINUTES

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 340 ft. and a depth of 100 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 83 per cent of the property frontage deemed to be affected.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure be limited to a one-story building above grade, divided substantially into three (3) parts as indicated on plans on file in this appeal; that the rear and gable walls shall be of brick construction and shall be unpierced throughout their entire height and length; that any openings in the subdividing walls of the structure shall be protected with self-closing fire doors; that the front of the building shall be finished substantially in accordance with the design of the facade filed in this application, any exposed masonry work of front elevation to be of face brick and ornamental trimmings of architectural terra cotta or stone;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

352-23-BZ.

APPLICANT—Charles D. Cords, for Frankington Realty Co., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; also a stable for the accommodation of more than five horses.

PREMISES AFFECTED—481-499 Flatbush avenue, Brooklyn.

APPEARANCES—

For Applicant: Charles D. Cords.

For Opposition: None.

ACTION OF BOARD—Resolution, granting extension of time to secure permit, corrected as shown on page 432.

Negative	0
Absent: Mr. Holland and Fire Chief Kenlon ...	2

1089-23-BZ.

APPLICANT—Charles Infanger, for Frank Mitchell, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of four (4) commercial motor vehicles, owned by the person residing on the premises.

PREMISES AFFECTED—163 McDougal street, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Application dismissed.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Kerby	5
Negative	0
Absent: Mr. Holland and Fire Chief Kenlon ...	2

THE RESOLUTION:

(1089-23-BZ)

WHEREAS, Charles Infanger, for Frank Mitchell, owner, filed, September 17, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of four commercial motor vehicles, owned by person residing on the premises; premises 163 McDougal street, Brooklyn; and

WHEREAS, the applicant has failed to complete his papers, though duly notified so to do.

Resolved, that the application be and it hereby is *dismissed* for lack of prosecution.

AREAS FIXED.

(162-24-BZ)

The chairman presented and read a communication from Mrs. Babetta Schulze, requesting the board to fix an area deemed affected and within which to obtain consents for the maintenance of garage; premises southwest corner of 16th avenue and 27th street, Beechhurst, Borough of Queens.

The following area was approved by the board:

Both sides of Hoogland street (160th street) from Cryders lane to a point 200 ft. north of Gower avenue (14th avenue). Both sides of Gower avenue (14th avenue) from Beechwood terrace to a point 100 ft. east of Hoogland street (160th street), also the east side of Beechwood terrace from Gower avenue (14th avenue) to a point 150 ft. south of Gower avenue (14th avenue).

(231-24-BZ)

The chairman presented and read a communication from Edward P. Doyle, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of garage; premises 745-57 Ralph avenue, Brooklyn.

The following area was approved by the board:

Both sides of Ralph avenue from 98th street to a point 400 ft. north of proposed garage. Both sides of 98th street from Winthrop street to Sutter avenue, also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

(208-24-BZ)

The chairman presented and read a communication from Jenks & Rogers, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of garage; premises 1533-43 Bushwick avenue, Brooklyn.

The following area was approved by the board:

Both sides of Bushwick avenue from Furman street to a point 400 ft. east of proposed garage. Both sides of Aberdeen street from Evergreen Cemetery to a point 200 ft. south of Bushwick avenue, also the west side of De Sales place from Bushwick avenue to a point 150 ft. north of Bushwick avenue.

(244-24-BZ)

The chairman presented and read a communication from S. Millman & Son, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of garage; premises 1761-5 Bushwick avenue, Brooklyn.

The following area was approved by the board:

Both sides of Bushwick avenue from Jamaica avenue to a point 400 ft. west of proposed garage; the west side of Pellington place from Bushwick avenue to a point 205 ft. north of Bushwick avenue; the east side of Fanchon place from Bushwick avenue to a point 75 ft. north of Bushwick avenue.

MINUTES

(233-24-BZ)

The chairman presented and read a communication from Oscar Goldschlag, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of garage; premises southwest corner of Roosevelt street and Lee avenue, Queens.

The following area was approved by the board:

Both sides of Roosevelt avenue from a point 100 ft. west of Rowan avenue to a point 400 ft. east of proposed garage. Both sides of Lee avenue from a point

200 ft. north of Roosevelt avenue to a point 400 ft. south of proposed garage. Both sides of Stryker avenue from Roosevelt avenue to a point 100 ft. east of Rowan avenue; also the east side of Burrough place from Roosevelt avenue to a point 150 ft. south of Roosevelt avenue.

Adjourned 1.30 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

MINUTES

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

MINUTES

PREMISES AFFECTED—240-248 West 40th street, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 10

Negative 0

Absent: Messrs. Holland, Kerby and Deputy Fire Commissioner Hannon 3

THE RESOLUTION:

(51-24-S)

WHEREAS, Schwartz & Gross, for Lanbaer Construction Corp., owner, filed, January 14, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 240-48 West 40th street; Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered January 8, 1924, reads:

"14. All windows must comply with section 264-7 Labor Law. Proposed arrangement is unlawful.";

and

WHEREAS, the building is fireproof, 12 stories in height, 118 ft. by 98 ft. 9 in. in area; equipped with a sprinkler system. OCCUPIED as follows: 1st story and mezzanine, stores and offices, 100 persons; 2nd and 3rd stories, showrooms and printing, 180 persons per story; 4th to 12th stories, tenant factory, 180 persons per story. EXITS: One interior fireproof stairway and one fire tower extending from the 1st story to the roof, with fire doors at all openings; and

WHEREAS, there are openings at the 1st, 2nd and 3rd stories in the front of the building, glazed with $\frac{1}{4}$ in. plate glass; the area of the glass on the 1st story is 9 ft. by 14 ft. and on the 2nd and 3rd stories the maximum area of the glass is 6 ft. 6 in. by 7 ft.; and

WHEREAS, petitioner proposes to arrange these windows so as to partially pivot and partially be stationary, and contends to comply with the provisions of the labor law as to area of glass would materially affect the architectural treatment of the building and also the use intended for the lowest three stories.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects the windows on the three (3) lower stories on the street front of the building on condition that the frames and sash shall be constructed of metal and glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness, and granted on condition that the labor law shall be complied with in all other respects.

60-24-S.

PETITIONER—Schwartz & Gross, for 48 Vesey Street Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—262-268 West 38th street, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 10

Negative 0

Absent: Messrs. Holland, Kerby and Deputy Fire Commissioner Hannon 3

THE RESOLUTION:

(60-24-S)

WHEREAS, Schwartz & Gross, for 48 Vesey Street Corp., owner, filed, January 16, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 262-68 West 38th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered January 14, 1924, reads:

"1. Exterior openings at front at 1st, 2nd and 3rd floors should comply with section 264 Labor Law and Rule 503 of Industrial Code.";

and

WHEREAS, the building is fireproof, 16 stories in height, 66 ft. 8 in. by 98 ft. 9 in. in area, equipped with a sprinkler system. OCCUPIED as follows: 1st story and mezzanine, stores and offices, 40 persons; 2nd and 3rd stories, showrooms, 95 persons per story; 4th to 16th stories, tenant factories, 95 persons per story. EXITS: One interior fireproof stairway and one fire tower, extending from the 1st story to the roof, with fire doors at all openings; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories, glazed with $\frac{1}{4}$ in. plate glass; the area of the glass on the 1st story is 8 ft. 6 in. by 15 ft. 6 in. and on the 2nd and 3rd stories the maximum area of the glass is 5 ft. 6 in. by 5 ft. 6 in.; and

WHEREAS, petitioner proposes to arrange these windows so as to partially pivot and partially be stationary, and contends, to comply with the provisions of the labor law as to the area of the glass would materially affect the architectural treatment of the building and also the use intended for the lowest three stories.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects the windows on the three (3) lower stories on the street front of the building on condition that the frames and sash shall be constructed of metal and glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness; that the center glass panel of the windows on the 2nd and 3rd stories shall be made stationary and this front portion of building maintained for show room purposes only; and granted on condition that the labor law shall be complied with in all other respects.

70-24-S.

PETITIONER—Schwartz & Gross, for Bricken Construction & Improvement Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—242-244 West 38th street, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 10

Negative 0

Absent: Messrs. Holland, Kerby and Deputy Fire Commissioner Hannon 3

MINUTES

THE RESOLUTION:

(70-24-S)

WHEREAS, Schwartz & Gross, for Bricken Const. & Improvement Corp., owner, filed, January 17, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 242-44 West 38th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered January 8, 1924, reads:

"6. Proposed construction of show windows is unlawful. Section 264, subdivision 7, Labor Law, and rule 503, Industrial Code.";

and

WHEREAS, the building is fireproof, 14 stories in height, 35 ft. 7 in. by 98 ft. 9 in. in area; equipped with a sprinkler system. OCCUPIED as follows: 1st story and mezzanine, stores and offices, 45 persons; 2nd and 3rd stories, showrooms, 85 persons per story; 4th to 14th story, tenant factory, 85 persons per story; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories, glazed with $\frac{1}{4}$ in. plate glass; the area of the glass on the 1st story is 8 ft. by 11 ft. and on the 2nd and 3rd stories the maximum area of the glass is 5 ft. 6 in. by 6 ft.; and

WHEREAS, petitioner proposes to arrange these windows so as to partially pivot and partially remain stationary, and contends, to comply with the provisions of the labor law as to the area of the glass would materially affect the architectural treatment of the building and also the use intended for the lowest three stories.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* so far as it affects the windows on the three lower stories on the street front of the building, *on condition* that the frames and sash shall be constructed of metal and glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness and that the center panels of the center windows on the 2nd and 3rd stories shall be fixed sash and that the windows shall be glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness and this front portion of building maintained for show room purposes only; and *granted on condition* that the labor law shall be complied with in all other respects.

106-24-S.

PETITIONER—Charles B. Meyers, for David Kay Corporation, owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—212-216 West 35th street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott	10
Negative	0
Absent: Messrs. Holland, Kerby and Deputy Fire Commissioner Hannon	3

THE RESOLUTION:

(106-24-S)

WHEREAS, Charles B. Meyers, for David Kay Corp., owner, filed, January 24, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 212-216 West 35th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 331-1923, dated January 14, 1924, reads:

"8. Light in windows should not exceed 720 square inches in area—Section 264-7 Labor Law and Rule 503 Industrial Code.";

and

WHEREAS, the building is fireproof, 16 stories in height, 56 ft. 3 in. by 98 ft. 9 in. in area; equipped with a sprinkler system; OCCUPIED as stores, showrooms and tenant factories, 30 persons on 1st story and 75 persons on each story above; and

WHEREAS, it is proposed to construct the show windows on the 1st, 2nd and 3rd stories of metal frames, glazed with plate glass, and the size of the lights exceed the requirements of the Labor Law; and

MINUTES

WHEREAS, petitioner contends to construct the show windows as required by the labor law would detract from the architectural appearance of the building, and would make it impracticable to use these stories for stores and show-rooms.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* so far as it affects the windows on the street front on the three lower stories, *on condition* that the frames shall be constructed of metal, glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness, and *granted on condition* that the labor law shall be complied with in all other respects.

1209-23-S.

PETITIONER—Frederick J. Dassau, for B. B. and F. Realty Corp., owner.

SUBJECT—Variation of the labor law as cited in decision of department of health.

PREMISES AFFECTED—136 Boerum street, Brooklyn.

APPEARANCES—

For Petitioner: Philip D. Meagher, Ernest J. Muller.

For Administration: Inspector John S. McCauley of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Fire Chief Kenlon, Superintendents Reville, Kleinert, Moore and McDermott 9

Negative: Superintendent Brady 1

Absent: Messrs. Holland, Kerby and Deputy Fire Commissioner Hannon 3

THE RESOLUTION:

(1209-23-S)

WHEREAS, Frederick J. Dassau, for B. B. and F. Realty Corp., owner, filed, October 23, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the department of health, affecting premises 136 Boerum street, Brooklyn; and

WHEREAS, the decision of the department of health, dated September 18, 1923, reads:

"At a meeting of the Board of Health of the Department of Health of The City of New York, held Sept. 18, 1923, your application for a Sanitary Certificate for a cellar bakery at 136 Boerum St. in the Borough of Brooklyn was denied. By order of the Board of Health."

and

WHEREAS, the premises consist of a non-fireproof building, six stories in height, 50 ft. by 88 ft. in area; separated into two sections by an unpierced brick wall. OCCUPIED: Cellar, bakery; 1st story, stores and dwellings, and dwellings above; the height of the bakery from floor to ceiling being 8 ft. 9 in.; the ceiling is 3 in. below the curb level and the floor is 20½ in. below the yard level; the means of ventilation consisting of three windows on the side court respectively, 3 ft. 7 in. by 5 ft. 6 in., 2 ft. 7 in. by 5 ft. 6 in., 2 ft. by 3 ft. in area, and the two windows opening on the rear yard each 7 ft. 7 in. by 1 ft. 8½ in. in area; and

WHEREAS, petitioner filed letter from tenement house department stating that a certificate of occupancy as a cellar bakery was issued on June 23, 1906, and that a bakery existed in the premises on November 19, 1917.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the existing ventilating windows and open-

ings shall not be reduced in size or area and that the bakery portion shall be separated from the tenement house portion of cellar by an unpierced brick wall and so maintained separated.

1332-23-S.

PETITIONER—Samuel Rosenblum, for Gruber Lunch Corp., lessee.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—719-721 6th avenue, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 10

Negative 0

Absent: Messrs. Holland, Kerby and Deputy Fire Commissioner Hannon 3

THE RESOLUTION:

(1332-23-S)

WHEREAS, Samuel Rosenblum, for Gruber Lunch Corp., lessee, filed, November 19, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in decisions of the superintendent of buildings, affecting premises 719-21 Sixth avenue, Manhattan; and

WHEREAS, the decisions of the superintendent of buildings read:

"Certificate of Occupancy, rendered Oct. 4, 1923, reads:

"3. All windows leading to fire escape should be fireproof and self-closing."

"Certificate of Occupancy rendered Nov. 5, 1923, reads:

"Provide a counterbalanced stairway from lowest balcony to street.";

and

WHEREAS, the building is non-fireproof, divided into three sections by cross walls with openings at all stories, four stories in height, 43 ft. 8½ in. by 100 ft. in area; equipped with a fire alarm signal system. OCCUPIED as follows: 1st story, stores; 2nd story, offices and light mfg., 30 employees; 3rd story, offices and light mfg. and dwellings, 30 employees; 4th story, dwellings. EXITS: An interior wooden stairway extending from the 1st story to the roof, enclosed in fire resisting partitions with wooden doors at the openings; a fire escape, with fireproof windows on the course thereof on the rear of the building, extending from the main roof to a concrete roof of one-story extension, with egress across roof to stairs leading to 41st street; also a 60 degree fire escape with non-fireproof windows on the course thereof, on the front of the building extending from the top story to the 1st story, with drop ladder to street; ROOFS to north, 10 ft. higher; to west, same level; and

WHEREAS, petitioner requests in view of the light occupancy and other means of exit, acceptance of fire escape on front of the building on condition a drop ladder in guides is provided.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the interior stairs shall be enclosed in fire retarding partitions and that all openings shall be protected with self-closing, fireproof doors and that the fire escape

MINUTES

on the front of the building shall be extended south to include at least one window in the southerly section of the structure and that the windows on the course of the fire escape, with the exception of the top story, shall be fire-proof, and that a counterbalanced drop ladder in guides shall be provided from the lowest balcony to the street and that the rear fire escape as now installed shall be maintained; *granted on further condition* that the manufacturing occupancy shall not extend beyond the 3rd story and that the occupancy shall not exceed ten (10) persons per story above the 2nd story.

234-24-S.

PETITIONER—Samuel Rosenblum, for Harry Dundees, lessee.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—47 Canal street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Kerby, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott	11
Negative	0
Absent: Mr. Holland and Deputy Fire Commissioner Hannon	2

THE RESOLUTION:

(234-24-S)

WHEREAS, Samuel Rosenblum, for Harry Dundees, lessee, filed, February 14, 1924, a petition, with the board of standards and appeals, for a variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 47 Canal street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated April 29, 1922, reads:

"1. Arrange the fire escape at the front of building and the openings leading thereto * * *.

"Note: Among the defects noted on this fire escape are the following:

"Stairs are not 45 degrees.

"No counterbalanced stairway to street."

and

WHEREAS, the building is fireproof, seven stories in height, 24 ft. 3¾ in. by 50 ft. in area. OCCUPIED: 1st story, stores; upper stories, tenant factory with a total of 52 persons above the 1st story; the building being equipped with a fire alarm signal system; means of EGRESS consisting of an interior stairway, extending from the 1st story to the 7th story, with scuttle and ladder to roof, enclosed in fire-proof partitions with fire doors at the openings, except in the 1st story, where the partitions are fire resisting; a fire escape on the front of the building with balconies connected by 60 degree stairs and drop ladder in guides from lowest balcony to street; and

WHEREAS, petitioner contends that the occupancy is light and that to change the connecting balconies from 60 to 45 degrees would be a great hardship; the capacity of the exits based on the interior stairway alone is 34 persons per story, and proposes to screen the fire escape to regulation height and to provide a gooseneck ladder to roof and to counterbalance drop ladder and to provide an additional counterbalanced drop ladder in guides.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that connecting stairs not less than 60 degrees shall be provided between balconies and that the balcony

rails shall be screened to a height of not less than 4 ft. 6 in. and that a counterbalanced drop ladder shall be provided on the westerly end of the lowest balcony with counter weights slung from the wall, and that the fire escapes shall comply with the fire escape rules in all other respects; and *granted* only so long as the occupancy and use shall remain unchanged.

86-24-S.

PETITIONER—Jacob Fisher, for Henry B. Golobe, owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—265 West 30th street, Manhattan.

APPEARANCES—

For Petitioner: Jacob Fisher.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Kerby, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott	11
Negative	0
Absent: Mr. Holland and Deputy Fire Commissioner Hannon	2

THE RESOLUTION:

(86-24-S)

WHEREAS, Jacob Fisher, for Henry B. Golobe, owner, filed, January 21, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 265 West 30th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated January 8, 1924, reads:

"Before this bureau can accept the fire escape as meeting the requirements of the Labor Law it will be necessary to replace drop ladder from 2nd floor balcony to street with a counterbalanced stair and to provide a hand rail on inside of stairs connecting balconies and around stair well holes."

and

WHEREAS, the building is non-fireproof, three stories in height, 27 ft. by 25 ft. in area. Proposed occupancy: 1st story, store, 5 persons; 2nd and 3rd stories, tenant factory; 7 persons 2nd story, 5 persons on 3rd story. EXITS: One interior wooden stairway extending from 1st story to roof, enclosed in wooden lath and plaster partitions, fire retarded on 1st story, with wooden doors at openings; a fire escape with fire windows on the course thereof on the front of building extending from top to 2nd story, with drop ladder to street; ROOF to east is 20 ft. higher; and

WHEREAS, petitioner contends there will be only ten persons above the 1st story, and proposes to provide a drop ladder in guides.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a standard reconstructed fire escape shall be provided on the front of the building with counterbalanced drop ladder in guides from the lowest balcony to street; and *granted on further condition* that the occupancy on the 3rd story shall not exceed five (5) persons; and the occupancy on the 2nd story shall not exceed seven (7) persons.

118-24-S.

PETITIONER—Samuel Rosenblum, for Thorner Bros. & Siegel, owners.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—625-627 East 15th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Kerby, Fire Chief Kenlon, Superintendents Brady, Reville, Kleinert, Moore and McDermott 11
Negative 0
Absent: Mr. Holland and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(118-24-S)

WHEREAS, Samuel Rosenblum, for Thorner Bros. & Seigel, owner, filed, January 23, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 625-7 East 15th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated January 16, 1924, reads:

"With reference to application for certificate of occupancy, before certificate can be issued it will be necessary to do the items:

"East stairway is not constructed of incombustible material and is not enclosed with fireproof material."; and

WHEREAS, the building is non-fireproof, three stories in height, 50 ft. by 103 ft. 3 in. in area at the 1st story and 50 ft. by 95 ft. 3 in. in area above. OCCUPIED for the manufacture and storage of cardboard boxes; 1st story, 20 persons; 2nd and 3rd stories, 10 persons on each story. EXITS: Two interior stairways, the west stairway is fireproof, enclosed in brick walls with fire doors at openings and extends from 1st story to roof; the east stairway extends from 1st to top story, is wooden, enclosed in fire resisting partitions with fire doors at openings. ROOFS: To east, two stories higher, and to west, one story higher; and

WHEREAS, petitioner asks acceptance of the present means of exit.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the westerly interior stairway at the front of the building shall be enclosed in partition of fireproof material, and that the stairway on the center east side of the building shall be enclosed in partitions of fire resisting material in accordance with the rules of the board of standards and appeals and that any openings to stairways shall be protected with self-closing, fireproof doors.

125-24-S.

PETITIONER—Raymond Irrera, for Frank Suglia, owner.
SUBJECT—Variation of the labor law as cited in decision of health commissioner.

PREMISES AFFECTED—308 Hopkins avenue, Queens.

APPEARANCES—

For Petitioner: Raymond Irrera.

For Administration: Inspector John S. McCauley of health department.

ACTION OF BOARD—Petition denied.

THE VOTE—

Affirmative: Messrs. Beatty, Boulton, Kerby, Superintendents Moore and McDermott 5
Negative: Chairman Walsh, Mr. Connell, Fire Chief Kenlon, Superintendents Brady, Reville and Kleinert 6
Absent: Mr. Holland and Deputy Fire Commissioner Hannon 2

THE RESOLUTION:

(125-24-S)

WHEREAS, Raymond Irrera, for Frank Suglia, owner, filed, January 28, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the health department, affecting premises 308 Hopkins avenue, Borough of Queens; and

WHEREAS, the decision of the health department, dated December 27, 1923, reads:

"At a meeting of the Board of Health of the Department of Health held December 27, 1923, the following resolution was adopted:

"RESOLVED, That the plans and specifications for a cellar bakery to be located at 308 Hopkins Avenue, Astoria, Long Island, Borough of Queens, submitted by Frank Suglia, be and the same are hereby disapproved.";

and

WHEREAS, the building is frame, one (1) story in height, 25 ft. by 52 ft. in area. OCCUPIED as a cellar bakery; 1st story, dwelling. The height of the bakery from floor to ceiling is 9 ft. 6 in., the ceiling being 6 in. above curb level, and the floor is 3 ft. 6 in. below yard level; the means of ventilation consisting of three (3) windows 2 ft. by 3 ft. 6 in. in area, opening to yard; and

WHEREAS, petitioner contends if rear yard is excavated to 6 in. below floor of bakery, ground water would be reached and also yard could not be drained on account of the high elevation of street sewer.

Resolved, that the decision of the department of health be and it hereby is *affirmed*, and the petition be and it hereby is *denied*.

THE RESOLUTION:

(1496-23-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Estate of H. O. Havemeyer, owner, filed, December 18, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in order of the fire commissioner, affecting premises 568-574 Broadway, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 52197-LD, dated November 28, 1923, reads:

"1. Provide approved self-closing fire doors at openings leading to the stairway enclosures at east and west sides of building on all stories, opening outwardly so as not to obstruct the stairway * * *";

and

WHEREAS, the building is fireproof, 12 stories in height, 190 ft. by 75 ft. (irregular) in area; equipped with a

MINUTES

sprinkler and fire alarm signal system. OCCUPIED as a tenant factory, 446 persons above 1st story. EXITS: Two fireproof stairways extending from 1st story to roof, enclosed in fireproof partitions, with fireproof, self-closing doors at openings; a fire escape on the front of building extending from roof to street; ROOF to north is at same level; and

WHEREAS, petitioner contends there are wire glass panels in the doors leading to stairway enclosure; that they do not obstruct the stairway, and that these doors have been previously accepted by the fire department and the board of review; and

WHEREAS, the board deemed that the action of the board of review of the fire department of May 27, 1919, should be ratified.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the stipulations set forth in the action of the board of review of the fire department of May 27, 1919, shall be complied with.

Negative	0
Absent: Mr. Holland, Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore	4

THE RESOLUTION:

(1501-23-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Jacob Abraham, owner, filed, December 19, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 12 West 19th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 21984-LD, dated November 12, 1923, reads:

"1. Extend the interior stairway at the east side of building to the roof.

"2. Arrange the fire escape at the north side of building and the openings leading thereto and the windows opening on the course thereof.

"NOTE: Among the defects on the fire escape are the following:

"Windows on the course not fireproof, not self-closing.

"No counterbalanced stairway to street.

"Fire escape needs painting.";

and

WHEREAS, the building is non-fireproof, four stories in height, 25 ft. by 64 ft. in area at 1st and 2nd story and 25 ft. by 57 ft. in area above. OCCUPIED: 1st story, restaurant, 4 employees and guests; 2nd story, plaiting and tucking, 5 persons; 3rd story, restaurant, seating 40 persons; 4th story, leather goods manufacturing, 14 persons. EXITS: One interior wooden stairway extending from 1st to top story, enclosed in wood lath and plaster par-

titions with wooden doors at openings; a fire escape on the front of building extending from top story to roof of 2nd story extension and vertical ladder to a platform on sidewalk; windows along course of the fire escape are non-fireproof. ROOFS to west, same level; to east, eight stories higher; and

WHEREAS, petitioner proposes to install an iron ladder to scuttle in roof, to fireproof the openings on the 3rd and 4th stories on the course of the fire escape.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item 1 on condition that the stairs shall be enclosed in fire retarding partitions in accordance with the rules of the board of standards and appeals, and that any openings shall be provided with self-closing, fireproof doors; that the partitions be extended to the underside of the roof boards and that a fixed double rung iron ladder be provided to scuttle in roof; and granted as to Item 2 on condition that a standard fire escape shall be erected on the rear of the building with egress from the termination through the yard of the adjoining premises to the west, and that the yard between this and the adjoining building to the west shall be maintained open and unobstructed.

18-24-S.

PETITIONER—Emery Roth, for Greenwill Construction Co., owner.

SUBJECT—Variation of the labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—14-16 East 38th street, Manhattan.

APPEARANCES—

For Petitioner: Emery Roth.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative	0
Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore	5

THE RESOLUTION:

(18-24-S)

WHEREAS, Emery Roth, for Greenwill Construction Co., owner, filed, January 7, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 14-16 East 38th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated January 3, 1924, reads:

"1. The area of glass in fireproof windows in front wall is in excess of 720 sq. inches per pane and more than 48 inches in one dimension.

"3. Partitions of non-fireproof material have been erected on several floors, contrary to Section 264, Labor Law.";

and

WHEREAS, the building is fireproof, 14 stories in height, 50 ft. by 98 ft. 9 in. in area; equipped with a fire alarm signal and sprinkler system. OCCUPIED: 1st story, stores, 10 persons; upper stories, show rooms and 25 per cent factory, 75 persons per story. EXITS: Two fireproof stairways extending from 1st story to roof, enclosed in fireproof partitions with fire doors at openings; and

WHEREAS, the windows on the front of the building are double hung, glazed with glass 1/4 in. thick, about 3 ft. 8 in. by 7 ft. 2 in. (3,780 sq. in. in area, and the windows in the center portion from the 2nd to 11th stories are 1/4 in. thick and approximately 5 ft. by 5 ft. (3,600 sq. in.) in area; and

MINUTES

WHEREAS, petitioner contends to comply with the labor law in re: size of glass in windows would destroy the architectural effect of the building, and that the partitions subdividing the loft are of only a temporary nature and do not obstruct the means of egress.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 1 so far as it affects the three lower stories on the street front, on condition that the center panels of the mezzanine, 2nd and 3rd story windows shall be made stationary, and that the sash and frame shall be of metal, glazed with plate glass, not less than $\frac{1}{4}$ in. in thickness, on condition that the windows throughout the building otherwise shall comply with the requirements of the labor law; and that the decision of the superintendent of buildings as to Item No. 3 be affirmed, and the petition as to this item be denied.

2483-17-S.

PETITIONER—Pease & Elliman, Inc., for Charles and Mary Thompson, owner.

SUBJECT—Variation of the labor law as cited in order of fire commissioner.

PREMISES AFFECTED—42-4 West 39th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Kerby, Superintendents Brady, Reville and McDermott	8
Negative	0
Absent: Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore	5

THE RESOLUTION:

(2483-17-S)

WHEREAS, Harry C. Beaven, for Charles and Mary Thompson, owner, filed, December 19, 1917, a petition, with the board of standards and appeals, for variation of section 79-b, labor law, as cited in an order of the fire commissioner, affecting premises 42-44 West 39th street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Arrange the fire escape on the west side of the building and the openings leading thereto and the windows opening on the course thereof, so that same are in compliance with the provisions of section 79-B-4 and 79-B-5 of the labor law. * * * Among the defects noted, are automatic self-closing fireproof windows, which permit of an unobstructed opening of at least 3 ft. by 3 ft., have not been provided, and there is no stairway from the top balcony to the roof."

and

WHEREAS, the building is non-fireproof, six stories in height, 40 ft. by 98 ft. 9 in. in area. OCCUPIED as a factory in the first story, 20 persons employed; as a studio and offices above; the means of egress consist of:

(a) An interior stairway at the front, extending from cellar to roof, enclosed in wood stud, lath and plaster partitions with wood doors at the openings, except in the cellar and at the roof level, where fire doors are provided;

(b) A 60-degree fire escape at the westerly side near the rear, with 45-degree stairs to yard, gooseneck ladder to roof, with non-fireproof windows along course of same, and exit through gate in fence to yard adjoining; and

WHEREAS, this petition was granted by the board, at its meeting, October 31, 1918, on condition that free and unobstructed access be provided to fire escape at all times in second, third and fourth stories; that doorway to large room in fifth story giving access to fire escape be glazed with plain glass; that exit signs be placed over same, and an axe be fastened to the wall outside the doorway; and

WHEREAS, petitioner requests a modification of and contends that an alteration has been made to the adjoining property to the west, an extension having been built cutting off egress in that direction, the fire escape now terminates in the yard, and that there is a door in the yard to the premises direct; it is proposed to provide from the second story balcony fire escape an extension to the fire escape on adjoining building to the rear, there are five people now engaged in factory occupancy above ground floor, two in a dental laboratory on the fifth floor and three in a tailor shop on the third floor.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects egress from the termination of the fire escape on condition that the fire escape shall be continued to the 2nd story and carried around the wing, with egress through public corridor at 2nd story directly to connecting balcony, with egress from rear fire escape on the 2nd story to fire escape on premises 39-41 West 38th street; and granted on condition that the occupancy of the 3rd story shall be discontinued on or before September 30, 1924, and that the occupancy of the 5th story shall be discontinued on or before September 30, 1925.

MINUTES

BOARD OF APPEALS

*CORRECTION.

The minutes of the meeting of the board of appeals held Friday morning, February 29, 1924, as they appeared in Bulletin No. 11, Vol. IX, are hereby corrected to read as follows:

THE RESOLUTION:

(352-23-BZ)

WHEREAS, Charles D. Cords, for Frankington Realty Co., owner, filed, March 22, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; also a stable for the accommodation of more than five (5) horses; premises 481-499 Flatbush avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals at its regular meeting, May 29, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Flatbush avenue, Washington avenue and Empire boulevard are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered March 3, 1923, in acting on N. B. App. No. 3644-1923, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A garage for more than five

**Correction—Words "60 days" omitted in lines 41 and 42 and words "nine months" substituted.*

motor cars and a stable for more than five horses in a business district.";

and

WHEREAS, the proposed building is to be of non-fire-proof construction, two stories in height, with a frontage of 212 ft. 7½ in. and a depth of 254 ft. 4 in. and 163 ft. 2 in.; a portion of the structure to be occupied as stable and a portion as a garage, the remainder to be occupied as a bakery; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses; and

WHEREAS, this application was granted by the board at its meeting May 29, 1923, on certain conditions, and applicant requested a modification of the time limit conditions imposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that all permits necessary for the prosecution of the work be obtained within 60 days and the building completed within nine months from the date of this action; that the structure be erected, as to elevations, substantially in accordance with the design on file in this application, as to material, of face brick, architectural terra cotta or stone trimmings; that the garage and stable use be restricted to the conduct of the business maintained and operated on these premises; and that the portion of the building devoted to garage and stable use be made fireproof, separated from the rest of the structure by unpierced fireproof walls.

BUILDING CODE ON SALE.

Copies of the Building Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, \$1; by mail, \$1.08.

ELECTRICAL CODE ON SALE

Copies of the Electrical Code are now on sale at the Distributing Division of the City Record Office, 125 Worth street. Price, 25c; by mail, 27c.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE FIRE ESCAPE RULES—RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 8, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments to Rule 380, Industrial Code, and adoption of same as rules of the board of standards and appeals, affecting the maintenance of existing substandard fire escapes on factory buildings; Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended Dec. 12, 1918, Cal. No. 1708-18-S.

Matter in *italics* is new. Matter in brackets [] is old matter to be omitted.

EXISTING FIRE ESCAPES OF FACTORIES

[Supplementary to Labor Law, §§ 79-a to 79-f; adopted and effective July 30, 1914

Rule 380.—When, in addition to the required exits of any factory or factory building, there exist one or more outside fire escapes which are not entirely in accordance with the provisions of the Labor Law relating to fire escapes, such fire escapes may be retained without being changed to conform to such provisions, if steps are taken, satisfactory to the Commissioner of Labor, to prevent their use as means of egress, and provided that such fire escapes are maintained in good repair.

NOTE.—The Commissioner of Labor has ruled that such fire escapes must be structurally safe and that they shall not be used for fire drills.

At the openings leading to such fire escapes there shall be placed a sign, with letters eight inches high, reading "THIS IS NOT AN EXIT." No barrier or guard will be permitted at these opening .]

3. *When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards*

and Appeals, such means of egress may be retained under the following conditions.

(a) *Fire Escapes*—All single rung, double rung and vertical ladder fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) *Interior Stairways*—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) *Exterior Screened Stairways*—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) *Horizontal Bridges*—Horizontal bridges between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 8, 1924, at 2 p. m., Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as rules of the Board of Standards and Appeals affecting the Enclosure of Factory Stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

[Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed	Stairways Enclosed	Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the outer side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, and such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an exterior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos
Baking powder
Breweries
Buttons (pearl or bone)
Canneries (including food products)
Chalk and crayon
Condensed and powdered milk
Electric light plants and power houses
Electrolytic reducing works

Glass
Glue, mucilage, paste, size
Ivory
Leather (excluding japanning or enameling)
Metals (excluding japanning or enameling)
Soap, candles
Porcelain and pottery
Talc and soapstone
Tanneries (excluding japanning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)
Bakeries
Bamboo and rattan
Baskets
Belting (including canvas)
Boots and shoes
Buttons (including cloth covered)
Cardboard (including boxes)
Clothing, woolen (wearing apparel)
Cordage
Furs
Gloves (other than leather)
Horn and combs (not celluloid)
Leather (with enameling or japanning)

Linoleum works
Metals (with enameling or japanning)
Packing houses
Paper mills
Printing, lithographing, book-binding
Silk
Sugar refineries (including beet and glucose works)
Tanneries (with japanning or enameling)
Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Tobacco, cigars, cigarettes and snuff
Woodworking (excluding dipping or varnishing)

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity or from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers
Artificial leather
Celluloid
Cereal mills
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)
Cotton batting
Cotton clothing (women's)
Cotton waste
Dry cleaning
Explosives
Feather renovating

Feed, flour and grist mills
Fireworks
Imitation leather
Matches
Rag sorting (including cotton)
Shoddy mills
Starch and sugar mills (including pulverizing)
Straw goods
Varnish
Woodworking (with dipping or varnishing)

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental or well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as herein provided, in all factory buildings more than two stories

PUBLIC HEARING

and less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving as required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
Three	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
Four	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
Five	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room in every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Labor Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire drills substantially conforming to rules of the board are held, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. **Required Exits.**—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. **Enclosure of Stairways.**—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in

exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard and approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanently secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodics shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth ($1\frac{1}{4}$) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter ($1\frac{1}{4}$) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter ($1\frac{1}{4}$) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanket-gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame, and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths (¾) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

RESERVE CALENDAR

BOARD OF APPEALS.

Motion Picture Theatre Cases.

Laid over pending the action of the Board of Aldermen on a proposed revision of the ordinance with regard to motion picture theatres.

Appeals from Administrative Orders.

780-20-A—8802-8808 Jamaica avenue, Queens.

184-21-A—237 East Fordham road, The Bronx.

 141-24-SA—Edwards A. C. Control Panel for interior
 alarm system, approval of.

*Cases listed in the Reserve Calendar are cases upon
 which action by the board has been deferred pending com-
 mittee reports, of this board, court or departmental actions,
 and will remain thereon until the aforesaid reports, court
 or departmental actions are consummated. Whereupon the
 case or cases will be restored to the regular calendar and
 due notice of the date set for hearing will be mailed to the
 appellant, applicant or petitioner of record.*

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in THE RECORD AND GUIDE and in various newspapers.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Meeting, Board of Appeals, March 25, 1924.

Minutes of Special Meeting, Board of Appeals, March 25, 1924.

Correction.

Notices of Public Hearings.

Rules Adopted.

Reserve Calendar.

Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, April 1, 1924*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, April 8, 1924*, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

PREMISES AFFECTED—392-398 Myrtle avenue, Brooklyn.

APPEARANCES—

For Appellant: W. W. Butcher.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7

Absent 0

THE RESOLUTION:

(26-24-A)

WHEREAS, William G. Jughardt, owner, filed, January 8, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 392-6 and 8 Myrtle avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated December 21, 1923, reads:

"1. Provide an enclosure consisting of walls of brick 8 inches thick or other fireproof construction approved by the Superintendent of Buildings, openings in said walls to be provided with self-closing, fireproof doors, about dumbwaiter shaft at center, Building No. 394 in cellar. Sec. 373, Sub. Div. 8, Art. 18, Ch. 5, Code of Ordinances."

and

WHEREAS, the building is non-fireproof, three stories in height, 60 ft. by 46 ft. in area; OCCUPIED as a laundry, with a total of 46 persons in the entire building; and

WHEREAS, appellant contends that the ceiling of the cellar is too low to permit of the construction required and that if this construction is put in, it will be impossible to operate the dumbwaiter.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

35-24-A.

APPELLANT—Nicholas Marty, for Partos Realty Corp., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—321-337 6th avenue, 101-111 West 20th street, Manhattan.

APPEARANCES—

For Appellant: Nicholas Marty.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(35-24-A)

WHEREAS, Nicholas Marty, for Partos Realty Corp., lessee, filed, January 10, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 321-337 Sixth avenue and 101-111 West 20th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 19, 1923, Order No. 43884-F, reads:

"1. Install two standpipes 4 in. in diameter one each on the east and west stairway enclosures tested to withstand a pressure of 300 lbs. per sq. inch, extending from cellar to roof * * *";

and

WHEREAS, the building is non-fireproof, five stories (85 ft.) in height, equipped with a sprinkler system; "L" shape, 160 ft. on West 20th street and 190 ft. on Sixth avenue (19,350 sq. ft.); OCCUPIED as a tenant factory, 80 persons per story; and

WHEREAS, appellant contends that the existing standpipes are adequate, in view of the accessibility and low height of the building.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is

MINUTES

granted on condition that an independent 3,500 gallon stand-pipe tank be provided, at a height not less than 16 feet above the outlet of the top story; and *granted* only so long as conditions as to occupancy and use otherwise remain substantially unchanged, and that the existing fire protection is maintained in perfect condition and working order.

65-24-A.

APPELLANT—Starrett & Van Vleck, for Saks & Company, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—611-621 5th avenue, Manhattan.

APPEARANCES—

For Appellant: G. W. Grove and A. E. Fraser.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(65-24-A)

WHEREAS, Starrett & Van Vleck, for Saks & Company, owner, filed, January 17, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 611-21 Fifth avenue, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated December 26, 1923, in acting on N. B. Application No. 1443-22, reads:

"1. Burners used must be of a type approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is fireproof, ten stories in height, 138 ft. 10 in. by 208 ft. in area; OCCUPIED as a department store, with a total estimated occupancy of 12,896 persons in the building at any one time; it is proposed to install a Bethlehem Dahl Fuel Oil Burning Equipment, the installation to be made in accordance with the rules of the board of standards and appeals, except that the burner has not been approved; and

WHEREAS, appellant requests approval of the installation and a temporary permit to operate same, pending inspection and approval of the burner by the board.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, permitting the operation of the fuel oil burner for a temporary period of ninety (90) days, at the owner's risk, *on condition* that the fuel oil equipment shall be installed in accordance with the rules of the board of standards and appeals and in all other respects approved by the fire and building departments, subject to action by the board of standards and appeals on the petition pending for inspection and approval of said burner.

96-24-A.

APPELLANT—S. J. Kessler, for M. J. Martin & Son, owners.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—Southeast corner Exterior street and 230th street, The Bronx.

APPEARANCES—

For Appellant: George V. Martin.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

1112-23-A.

APPELLANT—T. Kaplan, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—61 Grand street, Manhattan.

APPEARANCES—

For Appellant: Herman M. Kaplan.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0

1140-23-A.

APPELLANT—Joseph Hurewitz, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—161 Perry street, Manhattan.

APPEARANCES—

For Appellant: Joseph Hurewitz.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Kerby	1

THE RESOLUTION:

(1140-23-A)

WHEREAS, Joseph Hurewitz, lessee, filed, October 1, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 161 Perry street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 11, 1923, reads:

"Section 232-2, Chapter 10, Code of Ordinances, prohibits the storage of nitro-cellulose products in any building which is not equipped with an approved two-source system of automatic sprinklers.

"You are, therefore, ordered to:

"1. Forthwith remove all nitro-cellulose products from above premises.";

and

WHEREAS, the building is fireproof, six stories in height, 66 ft. by 100 ft. in area; OCCUPIED as a tenant factory, 100 persons above the 1st story; the top story occupied by the appellant for the storage of celluloid novelties; and

WHEREAS, the appellant contends that he has occupied the premises for five years, and had a permit for 99 pounds of celluloid; that the celluloid is kept in an approved metal cabinet vented to the open air; all scraps are submerged in water; and the premises are supplied with pails of sand and water.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the celluloid maintained on premises shall not exceed 99 pounds, stored in metal cabinet, vented to outer air; that any dividing partitions between this and adjoining tenant premises shall be covered on the celluloid occupancy side by approved plaster boards; that any existing skylight in the premises under appeal shall be glazed with plain glass; and that appellant comply with order if celluloid occupancy is not vacated on or about February 1, 1925.

1162-23-A.

APPELLANT—John Fraas, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—5-7-11 Cook street, rear, and 9 Cook street, front, Brooklyn.

MINUTE

APPEARANCES—

For Appellant: John Fraas and F. W. Mayes.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, Holland, Kerby and Fire
Chief Kenlon 7
Absent 0

THE RESOLUTION:

(1162-23-A)

WHEREAS, John Fraas, owner, filed, October 9, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 9 Cook street, front, and 5-7 and 11 Cook street, rear, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated August 31, 1923, Order No. 49700-F, reads:

"1. Provide a separate and distinct system of *Automatic Sprinklers* throughout building having at least one source of water supply * * *";

and

WHEREAS, the premises consist of four three-story buildings, No. 5 is frame, 25 ft. by 48 ft. in area; No. 7 is brick, 25 ft. by 50 ft. in area; No. 9 is frame, 25 ft. by 80 ft. in area, and No. 11 is frame, 25 ft. by 50 ft. in area; a one-story shed in the rear of No. 11 about 30 ft. by 50 ft. in area, and also a three-story frame building at rear of lot 30 ft. by 75 ft. in area (a combined area of about 10,000 sq. ft.); OCCUPIED for the storage of furniture; and

WHEREAS, appellant contends that there is but slight revenue received from premises and the cost of a sprinkler system makes installation prohibitive.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

8-24-A.

APPELLANT—William F. Doyle, for Dr. George Draper, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—186 East 64th street, Manhattan.

THE RESOLUTION:

(8-24-A)

WHEREAS, William F. Doyle, for Dr. George Draper, owner, filed, January 3, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 186 East 64th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 21530-LC, dated December 5, 1923, reads:

"2—Discontinue use of 4th story for dwelling purposes.";

and

WHEREAS, the building is non-fireproof, four stories in height, 25 ft. by 100 ft. in area. OCCUPIED: 1st story, dwelling and garage for 1 pleasure automobile; 2nd, 3rd and 4th stories, dwelling; and

WHEREAS, appellant contends the garage and driveway portion of premises is separated from the rest of the premises by a 4 in. hollow tile wall, the ceiling being protected with metal lath and cement plaster, and proposes to replace with a fireproof door the wooden door at opening between hallway and garage and also to provide additional auxiliary apparatus for escape from the 3rd and 4th stories.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than one (1) automobile of the pleasure-car type, the property of the owner or occupant of the premises, shall be maintained on the premises; the ceiling of the garage to be fire retarded with cement mortar on metal lath and asbestos fibre beam fill, any opening between garage and dwelling shall be equipped with self-closing, fireproof doors; that there shall be no gasoline storage system maintained on the premises; that a fixed iron ladder shall be maintained to scuttle in the roof from the top story, and that the windows on the top story, front and rear, shall be equipped with an approved auxiliary emergency fire escape.

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7

Absent 0

THE RESOLUTION:

(23-24-BZ)

WHEREAS, Wm. F. Doyle, for Weprin Realty Corp., owner, filed, January 7, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises south side of West 207th street, 100 ft. west of 9th avenue, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 207th street is a business district and West 206th street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 7, 1923, in acting on N. B. Application No. 548-23, reads:

"No. 2. A garage for more than 5 cars may not be erected in a business district—Zone Resolution—Section 4.";

and

WHEREAS, the proposed building is to be of fireproof construction, two stories in height, with a frontage of 150 ft. and a depth of 99 ft. 11 in.; to be occupied as a garage for more than five motor vehicles; and

MINUTES

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners and a similar application under Cal. No. 200-21-BZ was denied by the board.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1420-23-BZ.

APPLICANT—Olof B. Almgren, for Carl Wilk, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—224-240 Clarkson avenue, Brooklyn.

APPEARANCES—

For Applicant: Joseph Leahy and Edwin Iba.

For Opposition: Clinton O. Thompson and A. H. Gunther.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland and Kerby 5

Negative: Mr. Connell 1

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1420-23-BZ)

WHEREAS, Olaf B. Almgren, for Carl Wilk, owner, filed, December 3, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 224-240 Clarkson avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Clarkson avenue, Rogers avenue and Nostrand avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 13, 1923, in acting on Application No. 21303-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Section 4. A public garage for more than 5 cars in a business district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 150 ft. and a depth of 160 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it hereby is *granted on condition* that the structure be limited to one story in height above grade; that the front wall shall be set back 40 ft. from the building line of Clarkson avenue, and that the intervening space between the front wall and the street be maintained as grass plots except for the necessary roadways for egress and entrance; that the entire structure shall be built of brick; that the front elevation be finished in face brick of buff color with architectural terra cotta or stone trimmings; that the rear and gable walls be unpierced throughout their entire length and height, that there be no skylights within 30 feet of the rear wall; that all skylights be glazed with plain glass protected with wire guards above and below; that not more than three vehicular openings be permitted;

Resolved, further, that all permits necessary for the

prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1504-23-BZ.

APPLICANT—Henry Holder, for Gottlieb E. Haussler, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the alteration, extension and conversion of occupancy from a factory use to a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—156-160 North Elliott place, Brooklyn.

APPEARANCES—

For Applicant: Henry Holder.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1504-23-BZ)

WHEREAS, Henry Holder, for Gottlieb E. Haussler, owner, filed, December 20, 1923, an application, under the building zone resolution, to permit in a business district, the alteration and extension of an existing factory building and the conversion of its occupancy to a garage for the storage of more than five (5) motor vehicles; premises 156-60 North Elliott place, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that North Elliott place, Myrtle avenue and St. Edwards place are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 27, 1923, in acting on Application No. 22151-23, reads:

"1. Proposition contrary to Zone Resolution, Art. II, Sec. 6. Conversion and extension of an existing factory into a public garage in a business district—and is hereby denied."

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 50 ft. and a depth of 60 ft.; it is proposed to enlarge the building, the extension to be non-fireproof, one story in height, 56 ft. 3¼ in. by 100 ft., irregular, the entire structure to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it hereby is *granted on condition* that the building shall not exceed one story in height and shall be of fireproof construction; that the gable walls shall be unpierced throughout their entire height and length; that any openings in the rear wall shall be restricted to windows as indicated in the plans on file in this case and one door, not exceeding 3 ft. 8 in. in width, and these openings shall be permitted only so long as the property in the rear and the premises under appeal remain in one and the same ownership; that the front elevation shall be finished in face brick, with architectural terra cotta or stone trimmings, and shall be restricted to one vehicular entrance; that this variation shall not be the basis of request for extension of the pro-

MINUTES

posed building to St. Edwards street at any time; that any skylights installed shall be glazed with plain glass, protected above and below with wire guards;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1561-23-BZ.

APPLICANT—Charles Schaefer, Jr., for Samuel Rubin, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit the extension into a business district from an unrestricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—4421-4427 3rd avenue, The Bronx.

APPEARANCES—

For Applicant: Charles Schaefer, Jr.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1561-23-BZ)

WHEREAS, Charles Schaefer, Jr., for Samuel Rubin, owner, filed, December 31, 1923, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five (5) motor vehicles; premises 4421-27 Third avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Third avenue is an unrestricted district and Bathgate avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 19, 1923, in acting on N. B. Application No. 2242-23, reads:

"Omission of partition would cause extension of garage in more restricted district and therefore contrary to Zoning Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 127 ft. 11 in., to be occupied as a garage for more than five motor vehicles, a portion 8 ft. 8 in. by 50 ft. extending into the business district; and

WHEREAS, under the provisions of section 7, subdivision B, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it hereby is *granted on condition* that all permits necessary for the prosecution of the work shall be obtained within two months and the work completed within six months from the date of this action; and that the rear wall of the proposed extension shall be unpierced throughout its entire height and length.

THE RESOLUTION:

(278-24-BZ)

WHEREAS, Philip J. Sinnott, for Otto Volkenning, owner, filed, February 21, 1924, an application, under the building zone resolution, to permit partly in a residence district and partly in a business district, the erection and maintenance

MINUTES

of a garage for the storage of more than five motor vehicles; premises 441-451 West 167th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 167th street is a business district, Edgecombe avenue is a residence district and Jumel place is an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 20, 1924, in acting on N. B. Application No. 25-24, reads:

"1. Public garage in a restricted district is unlawful. Zone Resolution, section 4.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 164 ft. 9 in. on West 167th street and 118 ft. on Edgecombe avenue, irregular in area, to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there would be hardship in preventing applicant from using the property as proposed, owing to the condition of surrounding property, the building fronting on Jumel place, an unrestricted district, and on 167th street, a business district, the property being the only unimproved property from 167th to 170th streets on Jumel place and the northerly side of 167th street, the property being occupied with garages and two ice plants.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it hereby is *granted on condition* that the vehicular entrances be restricted to Jumel place; that there be no door opening on Edgecombe avenue; any windows on Edgecombe avenue front shall have sills at least 6 ft. above sidewalk level, and shall be equipped with fixed sash, glazed with translucent glass, with one ventilator to each sash; that all windows on 167th street shall be glazed with translucent glass; that no entrance, other than emergency openings not exceeding 3 ft. 8 in. in width be permitted on 167th street; that the fronts of street elevations shall be finished with face brick of light buff color, with architectural terra cotta or stone trimmings; that the front elevations of the building shall be of attractive architectural design; the architect to make a return to this board for approval as to design of the elevation before submitting working drawings to the bureau of buildings;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

896-19-BZ.

APPLICANT—S. J. Kessler, for Michael J. Martin & Son, Inc., owner.

SUBJECT—Application for extension of permit (re: decision of superintendent of buildings) to permit partly in a business district and partly in an unrestricted district the erection of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—Southeast corner 230th street and Exterior street, The Bronx.

1183-23-A.

APPELLANT—George P. Schinzel & Sons, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—520-528 West 27th street, Manhattan.

APPEARANCES—

For Appellant: John F. Farrell.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Laid over to April 22, 1924, at 10 a. m., for final disposition.

1474-23-A.

APPELLANT—Jack G. Leo, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—60 East 191st street, The Bronx.

APPEARANCES—

For Appellant: None.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Laid over to April 22, 1924, at 10 a. m., on request.

382-23-A.

APPELLANT—Philip J. Sinnott, for James McElroy, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—320-322 East 28th street and 323 East 27th street, Manhattan.

APPEARANCES—

For Appellant: Philip J. Sinnott.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Laid over to April 15, 1924, at 2 p. m., on request.

170-24-A.

APPELLANT—Charles Brady, superintendent of buildings, Borough of Manhattan.

SUBJECT—Revocation of Certificate of Occupancy No. 5990.

PREMISES AFFECTED—200-6 West 51st street, 1648-50 Broadway and 778-80 7th avenue, Manhattan.

APPEARANCES—

For Appellant: None.

For Opposition: Philip J. Sinnott.

ACTION OF BOARD—Laid over to April 15, 1924, at 2 p. m., on request of opposition.

1028-23-A.

APPELLANT—Rossville Co. of N. Y., Inc., lessee.

SUBJECT—Application for reopening—appeal from order of fire commissioner.

PREMISES AFFECTED—78-80 Beach street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal reopened and set for hearing April 1, 1924, at 10 a. m.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

1307-23-A.

APPELLANT—Raymond M. Hood, for Titusville Building Corp., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—38-44 West 40th street, Manhattan.

MINUTES

APPEARANCES—

For Appellant: Luke Flanagan.
For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal withdrawn; to comply.
THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7
Negative 0
Absent 0

1334-23-A.

APPELLANT—Samuel Rosenbum, for Rockwood & Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—265-267 Park avenue, Bldg. No. 3 and 82-88 Washington avenue, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

47-24-A.

APPELLANT—Emil Guterman, for Patrick Gallagher, owner.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—2565-2575 Ocean avenue, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

APPEARANCES—None.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

1500-23-A.

APPELLANT—Samuel Rosenblum, for B. Weinstein, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—20 West 56th street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Appeal withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

1468-23-A.

APPELLANT—C. Ludwig Baumann & Company, lessee.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—1449 Broadway, 1091-95 Put-

nam avenue, Brooklyn.

APPEARANCES—

For Appellant: L. S. Greenbaum and Lorenzo Voigt.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7
Absent 0

THE RESOLUTION:

(1468-23-A)

WHEREAS, C. Ludwig Baumann & Company, lessee, filed, December 12, 1923, an appeal, with the board of appeals from orders of the fire commissioner, affecting premises 1449-59 Broadway and 1091-95 Putnam avenue, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated November 16, 1923, read:

"50941-F. 1. Provide a separate and distinct system of Automatic Sprinklers throughout building having at least one source of water supply. * * *"

"50942-F. 1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, * * *";

and

WHEREAS, the building is non-fireproof, divided into two sections by a fore and aft brick partition wall with openings therein protected with fireproof, self-closing doors, the easterly portion being three stories in height, the westerly portion four stories in height; total area is 103 ft. 9 in. by 120 ft. (12,460 sq. ft.) in area; OCCUPIED as a furniture store, with a total of 29 persons in the entire building; and

WHEREAS, appellant, as to Order No. 50942-F, contends that property faces on two streets and is divided into four separate sections by fire walls and standard fire doors, and as to Order No. 50941-F, contends that the use of the rear building for furniture and storage purposes will cease May 1, 1924.

Resolved, that the orders of the fire commissioner be and they hereby are *affirmed*, and the appeal be and it hereby is *denied*.

40-24-A.

APPELLANT—S. A. Swenson, for Julius Grossman, Inc., owner.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—362-380 De Kalb avenue, Brooklyn.

APPEARANCES—

For Appellant: S. A. Swenson.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(40-24-A)

WHEREAS, S. A. Swenson, for Julius Grossman, Inc., lessee, filed, January 11, 1924, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 362-80 De Kalb avenue, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated December 21, 1923, read:

"Order No. 52361-F:

MINUTES

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *."

"Order No. 52363-F:

"1. Provide automatic valve alarm for sprinkler system * * *";

and

WHEREAS, the building is non-fireproof, five stories and basement in height, 200 ft. by 77 ft. in area, divided into two sections of 7,500 sq. ft. in area by a brick partition wall with openings protected with fire doors at each story excepting the 1st story and basement; OCCUPIED as a shoe factory, 227 persons; and

WHEREAS, appellant contends that the building is equipped with a two-source sprinkler system supplied from a 20,000 gallon gravity tank on roof, with an auxiliary supply consisting of a 500 gallon P. M. steam pump suctioning from city mains; a watchman service and a local fire alarm signal system.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal as to Order No. 52361-F, Item 1, be and it hereby is *granted on condition* that the present floor area remains subdivided as now arranged with fireproof walls; that one side of all horizontal exits shall be equipped with approved automatic fire doors; that the existing two-source sprinkler system shall be maintained in perfect working order; and that the appeal as to Order No. 52363-F, Item 1, is *granted on condition* that watchman service and local fire alarm signal system are maintained; and *granted* only so long as conditions as to occupancy and use otherwise remain substantially unchanged.

1405-23-A.

APPELLANT—Trifari & Krussman, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—35 Sixth avenue, Manhattan.

APPEARANCES—

For Appellant: Philip J. Sinnott, L. F. Krussman.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boutlon, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1405-23-A)

WHEREAS, Trifari & Krussman, Inc., lessees, filed, November 30, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 35 6th avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated August 23, 1923, reads:

"Order No. 19550-LC:

"1. Provide an approved double-walled metal cabinet in which to keep all nitro-cellulose products intended for further manufacture * * *.

"3. Arrange partitions so as not to obstruct the safe means of egress * * *.

"4. Discontinue using any form of heat other than steam (not to exceed 5 pounds pressure) or hot water or indirect hot air, for heating dry rooms or dry boxes * * *.

"15. Provide a special finished stock storeroom for the storage of finished stock packed in cartons or paste board boxes, separated from the remainder of the floor by walls or partitions erected according to the provisions of section 355 of Article 17 of Chapter 5 of the Code of Ordinances, which partitions shall be continuous from floor to ceiling and securely anchored to walls, floor

and ceiling. The ceiling if not of fireproof construction shall be protected with fire retarding material in accordance with the rules of the Board of Standards and Appeals. The area of said finished stock storeroom shall not exceed 2,000 sq. ft. except that where no manufacturing is done on the premises floor in which the finished stock is stored, said storeroom may be not more than 5,000 sq. ft. in area * * *."

and

WHEREAS, the building is fireproof, 12 stories in height, triangular shaped in plan, 105 ft. by 81 ft. by 115 ft. 6½ in. in area, equipped with a sprinkler system; OCCUPIED as a tenant factory, the 8th and 11th stories occupied by appellant for the manufacture of celluloid combs and novelties, 58 persons; and

WHEREAS, appellant contends in re: order No. 19550-LC, Item 1, that a cabinet has been provided and is vented to and through window to open air; in re: Item 3, contends that exit from factory has been vestibuled to prevent free access to factory; in re: Item 4, contends, in conjunction with the drying box a 4 in. electric stove separated from the drying box by two mesh wire trays, is used, and in re: Item 15, contends that partition forming the finished stock room consists of a wooden frame lined both sides with ¼ in. asbestos board.

Resolved, that the order of the fire commissioner, as it relates to Items 1 and 3, be and it hereby is *affirmed*, and the appeal as to these items be and it hereby is *denied*; that the order as it relates to Item 4 be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the heating equipment used in the process of manufacturing shall be restricted to an oven of metal construction, not exceeding 30 in. by 34 in. by 16½ in., equipped with sprinkler head, connected to house supply;

Resolved, further, that this action is in effect as concerning the 8th story only; the order as it relates to Item 15 be and it hereby is *affirmed*, and the appeal as to this item be and it hereby is *denied*.

910-23-A.

APPELLANT—Leopold Philipp, for Luxenberg & Haskell, lessees.

SUBJECT—Application for reopening—appeal from order of fire commissioner.

PREMISES AFFECTED—132-136 Greene street, Manhattan.

APPEARANCES—

For Appellant: Leopold Philipp.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal reopened and granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby	6
Negative	0
Absent: Fire Chief Kenlon	1

THE VOTE TO GRANT MODIFICATION—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby	6
Negative	0
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

(910-23-A)

WHEREAS, Leopold Philipp, for Luxenberg & Haskell, lessees, filed, July 17, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 132-136 Greene street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 3, 1923, reads:

"Section 232-2, chapter 10, code of ordinances, prohibits the storage of nitro-cellulose products in any

MINUTES

building inside the fire limits that is not of fireproof construction of more than three stories in height.

"You are, therefore, ordered to

"1. Forthwith remove all nitro-cellulose products."; and

WHEREAS, the building is non-fireproof, six stories in height, 76 ft. by 100 ft. in area in the 1st story and 76 ft. by 84 ft. in area above; OCCUPIED, tenant factory, with 116 persons above the 1st story; the building being equipped with a sprinkler system; the 6th story being occupied by the appellant for the manufacture of umbrella handles, walking sticks, etc., there being an approved vault for the storage of nitro-cellulose; and

WHEREAS, appellant contends that they have a long lease.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the total quantity of material stored on the premises shall not exceed 4,000 lbs., stored in a fireproof vault equipped with a standard ventilator, in the southeast corner of the top story of the building, opening to be protected with a self-closing, fireproof door; and that not more than 5 lbs. of material per operator shall be exposed in working, and that skylights shall be glazed with plain glass, and that the building shall be equipped with an approved sprinkler system.

613-23-A.

APPELLANT—Petroleum Heat and Power Company.

SUBJECT—Application for reopening for modification—appeal from decision of fire commissioner.

PREMISES AFFECTED—Washington avenue, between 6th and 7th avenues, Queens.

APPEARANCES—

For Appellant: George Knight.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Application for reopening denied.

Negative 0

Absent 0

THE RESOLUTION:

(43-24-BZ)

WHEREAS, William F. Doyle, for Sophia B. Arfman, owner, filed, January 11, 1924, an application, under the building zone resolution, to permit in a residence district the alteration and change of occupancy in part of a building from residence use to business use; premises 176 Underhill avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Underhill avenue and Sterling place are residence districts; and

WHEREAS, the decision of the tenement house commissioner, rendered December 28, 1923, reads:

"4. Proposed alterations contrary to Building Zone Regulations. (Store in residence district)."; and

WHEREAS, the existing building is of non-fireproof construction, four stories in height, with a frontage of 20 ft. and a depth of 100 ft., occupied as a tenement; it is proposed to alter the building in the 1st story and change the occupancy of this story to business use (stores); and

WHEREAS, there would be undue hardship in preventing applicant from maintaining stores on the Avenue H front, the entire front on Underhill avenue with the exception of this building being occupied by stores and commercial shops.

MINUTES

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations and that the application be and it hereby is *granted on condition* that the store use shall be restricted to the 1st story (the Underhill avenue apartment), separated from the apartment house and hall entrance stair hall by an unpierced fireproof partition; that the store front show window of the proposed store shall be confined to the Underhill avenue front of the 1st story with brick return not less than 16 inches from Sterling place corner; that the Sterling place front of building shall not be disturbed in any form, shape or manner other than building up the 1st story windows with face brick of the same color and texture, arranged with 4 inch reveals to each blind window; business use, conduct and operation to be restricted to the Underhill avenue front, 1st story; that there shall be no sign or advertising hung, displayed or exposed on the Sterling place side of the building and that any advertising or business sign on Underhill avenue front shall be restricted to lettering confined to glass show windows;

Resolved, further that all permits necessary for the prosecution of the work shall be obtained within three (3) months and the building completed within six (6) months from the date of this action.

1507-23-BZ.

APPLICANT—William F. Doyle, for Spencer Aldrich, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—1101-1113 Prospect avenue, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: James H. Tully, Charles C. Johnston, F. Herbert Wadsworth, M. J. Smith.

ACTION OF BOARD—Report of committee of inspection adopted; application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO ADOPT REPORT OF COMMITTEE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE VOTE TO GRANT ON CONDITION—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5

Negative: Mr. Beatty 1

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1507-23-BZ)

WHEREAS, Wm. F. Doyle, for Spencer Aldrich, owner, filed, December 21, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1101-1113 Prospect avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Prospect avenue and Eleventh avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 23, 1923, in acting on N. B. Application No. 22106-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A public garage for more than five motor vehicles in a business district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 130 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

TO THE BOARD OF APPEALS:

A Committee of Inspection, composed of Chairman Walsh, Chief Kenlon, Messrs. Holland, Beatty, Boulton and Connell, visited and inspected these premises and generally surveyed the site and its environs.

This application is for variation of the Building Zone Resolution, under section 7-e, seeking permission to erect a public garage on the northeast corner, formed by the intersection of 11th and Prospect Avenues, 100 ft. deep on 11th Avenue and 120 ft. frontage on Prospect Avenue. Both these highways are now designated on the zone maps as business streets.

Directly opposite on Prospect Avenue, the entire street front, in fact, the entire square block, with the exception of a plot of ground 60 ft. by 100 ft., is occupied by a wet wash laundry, with all its attendant uses.

Immediately adjoining the premises under appeal, on the northerly side of Prospect Avenue and running from Terrace Place, a residence street, there exists a public garage of 200 ft. frontage, returning on Terrace Place 224 ft., permission to erect which was granted by this Board under applications 385-20-BZ and 751-20-BZ, section 7-e being the basis of appeal. The granting of this application, therefore, filling out the Prospect Avenue front contiguous to the existing garage, would, in the opinion of the Committee, be an equitable adjustment of the zoning regulations.

Examination of applications made affecting this street frontage show it was the opinion of the Board, regarding the establishment of the basis of appeal, that there seemed substantial community requirement for automobile storage and accommodation, and that the community interest would best be served and the integrity of the zoning resolution maintained by permitting the now existing garage to be erected directly opposite the steam laundry plant, which plant, from the viewpoint of design, material, general construction, utility and operation, is not conducive to residential development, and the Board therefore permitted the garage on Prospect Avenue.

The basis of appeal having been established in two former cases on this street frontage, the Committee of Inspection, with the idea of garage segregation in mind, is of the opinion that this application should be granted, with such restrictive provisions as will safeguard the properties to the north on Sherman Street, and prohibiting garage encroachment in the residence area of Sherman Street.

(Signed) WILLIAM E. WALSH,
ALFRED J. BOULTON,
JOHN KENLON (dissenting),
JAMES P. HOLLAND,
JOHN J. BEATTY (dissenting),
HENRY L. CONNELL.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure shall not exceed one story in height, and shall be built of brick; that the rear and gable walls shall be unpierced throughout their entire height and length; that there shall be no vehicular opening on 11th Avenue; that any emergency exit installed on the 11th avenue front shall not exceed 3 ft. 8 in. in width; that the sills of any windows opening on 11th avenue shall be at least 6 ft. above grade; that any vehicular opening on the Prospect avenue

MINUTES

front shall be at least 25 ft. distant from the corner formed by the intersection of 11th avenue and Prospect avenue; that the front elevations shall be faced with buff colored brick and architectural terra cotta or stone trimmings; that there shall be no sign nor advertising display of any nature or description on the 11th avenue front of the building, and there shall be no roof sign erected on the building; that the owner shall file with this board a sworn stipulation and agreement, to run with the land, that any property other than the plot involved in this appeal that he owns within the confines of the square block on which this premises is located, that is, property within the square block bounded by Prospect avenue, Terrace place, Sherman street and 11th avenue, shall be restricted by covenant to conforming uses;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

36-24-BZ.

APPLICANT—Henry J. Nurick, for Ida Midonick, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby	6
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

(36-24-BZ)

WHEREAS, Henry J. Nurick, for Ida Midonick, owner, filed, January 10, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 50-60 East 98th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, March 25, 1924, after due notice by publication in the Bulletin of the Board of Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 98th street is a business district and Rockaway parkway is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 28, 1923, in acting on Application No. 23793-23, reads:

"1. Proposition denied—Erection of public garage for more than five cars in business district contrary to Art. 2, Section 3 of the Zoning Resolution."; and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the applicant failed to substantiate the basis of his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

190-24-BZ.

APPLICANT—Magnuson & Kleinert, for William F. Till, owner.

CASES DISMISSED.

Appeals from Administrative Orders.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1060-23-A)

Filed September 6, 1923—Premises 394-398 Myrtle avenue, Brooklyn. Order of the fire commissioner. Appellant, W. G. Jughardt. Dismissed for lack of prosecution.

(1255-23-A)

Filed November 3, 1923—Premises 49 Ann street, Manhattan. Order of the fire commissioner. Appellants, Shea Bros. Dismissed for lack of prosecution.

(1286-23-A)

Filed November 10, 1923—Premises 30 Irving place and 124 East 16th street, Manhattan. Order of the fire commissioner. Appellant, The Golden Company. Dismissed for lack of prosecution.

(1329-23-A)

Filed November 17, 1923—Premises 1185 Castleton avenue, Richmond. Order of the fire commissioner. Appellant, George Rossbach. Dismissed for lack of prosecution.

(1343-23-A)

Filed November 21, 1923—Premises 1291 Amsterdam avenue, Manhattan. Order of the fire commissioner. Appellant, Harlem Painters Syndicate. Dismissed for lack of prosecution.

(1354-23-A)

Filed November 22, 1923—Premises 282 Nassau avenue, Brooklyn. Order of the fire commissioner. Appellant, I. Appelman. Dismissed for lack of prosecution.

(1396-23-A)

Filed November 28, 1923—Premises 75-77 Grand street, Manhattan. Order of the fire commissioner. Appellant, I. Crystal & Co. Dismissed for lack of prosecution.

(1416-23-A)

Filed December 3, 1923—Premises 102 East 126th street, Manhattan. Order of the fire commissioner. Appellant, William F. Evans. Dismissed for lack of prosecution.

(1438-23-A)

Filed December 6, 1923—Premises 1013 Kent avenue, Brooklyn. Order of the fire commissioner. Appellant, David J. Stewart. Dismissed for lack of prosecution.

(1440-23-A)

Filed December 6, 1923—Premises 1920 West Farms road, The Bronx. Order of the fire commissioner. Appellant, Bronx Auto Body Co., Inc. Dismissed for lack of prosecution.

(1503-23-A)

Filed December 20, 1923—Premises 223 East 72nd street, Manhattan. Order of the fire commissioner. Appellant, Mabel Blumenthal. Dismissed for lack of prosecution.

(1528-23-A)

Filed December 26, 1923—Premises 1884 Pitkin avenue, Brooklyn. Order of the fire commissioner. Appellant, Leon Baron. Dismissed for lack of prosecution.

(1537-23-A)

Filed December 27, 1923—Premises 62-68 Hope street, Brooklyn. Order of the fire commissioner. Appellant, Goldberg & Barken, Inc. Dismissed for lack of prosecution.

THE RESOLUTION:

WHEREAS, the foregoing appellants have filed with the board of appeals, appeals affecting the premises in question; and

WHEREAS, the appellant has failed to complete his papers, though duly notified to do so.

Resolved, that the appeals be and they hereby are dismissed for lack of prosecution.

THE VOTE TO DISMISS—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby	6
Negative	0
Absent: Fire Chief Kenlon	1

CASES DISMISSED.

Under the Building Zone Resolution.

The chairman called attention to the following cases, where notices of intention to appeal were offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1290-23-BZ)

Filed November 12, 1923—Premises 102-11 92nd avenue, Richmond Hill, Queens. Order of the fire commissioner. Applicant, David C. Scott. Dismissed for lack of prosecution.

(1373-23-BZ)

Filed November 30, 1923—Premises 160 Fordham road, The Bronx. Order of the fire commissioner. Applicant, James P. Whiskeman. Dismissed for lack of prosecution.

(1446-23-BZ)

Filed December 7, 1923—Premises 131 East 110th street, Manhattan. Order of the fire commissioner. Applicant, Sidney Stokes. Dismissed for lack of prosecution.

(1557-23-BZ)

Filed December 29, 1923—Premises 725-727 Lincoln place, Brooklyn. Decision of the superintendent of buildings. Applicant, Denis P. Healy. Dismissed for lack of prosecution.

MINUTES

BOARD OF STANDARDS AND APPEALS

*CORRECTION.

The minutes of the meeting of the board of standards and appeals, held Wednesday afternoon, Jan. 2, 1924, as they appeared in Bulletin No. 2, Vol. IX, are hereby corrected to read as follows:

THE RESOLUTION:

(571-23-S)

WHEREAS, Robert T. Lyons, for 132 West 36th Street Corporation, owner, filed, May 10, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 132-4-6-8 West 36th street and 139-41-3-5 West 35th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings reads:

"Your request for a certificate of occupancy for this building providing for its use in part as a factory building will be denied for the following reasons:

"1. Not more than 25 per cent of the floor area may be used for factory occupancy.

"3. All windows must be of an approved type of fire windows (Section 264 Labor Law).

"4. Elevator shafts and stairways must be enclosed with fire partitions to conform with the requirements of section 263 of the Labor Law.

"5. Structural steel must be protected with a two-inch thickness of fireproofing material."

and

WHEREAS, the building is fireproof, 12 stories in height, 75 ft. by 197 ft. 6 in. in area, irregular; with interior fire alarm signal and sprinkler system; the building is located in a business district under the building zone resolution. EXITS: Two interior wrought iron stairways extending from 1st story to roof, enclosed in fireproof par-

**Bulletin number and volume number corrected in 3rd line of notice.*

titions, with kalameined doors at openings. ROOFS: To east and west, 6 stories lower. OCCUPIED AS FOLLOWS: 1st story, furniture, 18 persons; 2nd story, dresses, 21 persons; 3rd story, coats, 23 persons; 4th story, coats and suits, 5 persons; 5th story, woolens, 62 persons; 6th story, dresses, 23 persons; 7th story, feathers, 62 persons; 8th story, coats and suits, 21 persons; 9th story, show rooms, 5 persons; 10th story, millinery, 67 persons; 11th story, coats and suits, 30 persons; 12th story, coats and suits, 35 persons; and

WHEREAS, petitioner contends that only 12 per cent of the floor area is occupied for factory purposes, that fire windows will be installed on 5th, 7th, 10th, 11th and 12th stories, those used for factory, and further contends that stairways and elevator shafts are properly enclosed and structural steel is properly covered; and

WHEREAS, this petition was granted by the board at its meeting July 17, 1923, and petitioner requested a modification of the resolution.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law, and that the petition be and it hereby is granted as to Item No. 1 on condition that not more than 25 per cent of the floor area be occupied for factory purposes, and granted as to Item No. 3 on condition that the factory occupancy shall be restricted to the 5th, 7th, 10th, 11th and 12th stories and that all windows on the front of the building on these stories shall be equipped with frames and sash in accordance with the requirements of the labor law, except as to the glazing, which may be polished plate glass not less than $\frac{1}{4}$ inch in thickness and that all other openings on these floors shall comply with the requirements of the labor law; granted as to Item Nos. 4 and 5 on condition that the requirements of the New York Building Code affecting elevator and stairway enclosures and the covering of structural steel shall be complied with, and granted so long as conditions otherwise remain substantially unchanged.

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS.

Amended Resolution Adopted by the Board of Appeals, March 16, 1920, Under Cal. No. 549-17-BZ.

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

RULES ADOPTED

FIRE DRILL RULES, ADOPTED OCTOBER 5, 1923.

The following Rules, governing Fire Drills, were adopted by the Board of Standards and Appeals at the special meeting held on Friday, October 5, 1923:

DEFINITION OF "FIRE DRILL."

The method and practice of the systematic and orderly vacating of a building by its occupants in case of emergency, panic or fire in the least possible time—by the nearest safe means of exit—and the use of fire appliances which shall be provided for the extinguishing or retarding of fire and the safeguarding of human life.

Rule 1.

In all buildings as defined in Article 1, Section 10 of the Labor Law in which fire drills are required pursuant to Section 279 and in any other building in which the Fire Commissioner may be directed pursuant to the power conferred in section 775-B of the Greater New York Charter, it shall be the duty of the owners, lessees or tenants to conduct fire drills monthly and at such other times as the Fire Commissioner may direct.

For the purpose of conducting such fire drills the owner or tenant shall appoint from among their employees such responsible and dependable persons, male or female, who shall efficiently perform the duties of the various positions of the fire drill organization, as specified on the accompanying chart.

It shall be the duty of the owner or tenant to enter in the blank spaces provided for that purpose in said chart the names of persons so selected and post said chart and copies of the rules in a conspicuous place.

Rule 2. Duties of Foreman.

The Foreman or Person in Charge shall direct, enforce and have full charge of the "Fire Drill" in every factory on each floor. Each day before work is begun he shall see that extinguishers, fire hose, fire buckets, etc., are in readiness for use, exit doors are unlocked, aisles are free from obstruction, that stairways, halls, etc., are properly lighted, and shall remedy any dangerous condition found to exist. Immediately after work is commenced he shall check up the Fire Drill Organization list and note if the regularly assigned persons are present; if any are found to be absent, he shall assign other employees (if practicable) to perform their duties.

He shall immediately notify new employees of the existence of the Fire Drill Organization and give them the necessary instructions as to the duties they are to perform, etc.

He shall be familiar with the operation and location of the interior alarm signal box on his floor.

He shall listen for the test signal each morning at the appointed hour and in the event of the test signal not being heard he shall communicate with the superintendent or other person in charge of the building and advise him of the fact. The (Floor Captains) Foreman's orders are final as to the carrying out of the fire drill on his particular floor.

Rule 3. Duties of Watchmen.

The WATCHMEN shall see that all doors and windows are closed so as to prevent the spread of fire. The WATCHMEN shall be the only persons permitted to remain on the floor during the progress of a fire drill and do so at their own risk. For ordinary purposes only one watchman and a substitute shall be designated. In special cases, however, extra watchmen may be assigned by consent in writing from Fire Commissioner.

Rule 4. Duties of Searchers.

The MALE and FEMALE SEARCHERS shall search all toilets, dressing rooms and emergency rooms used and frequented by their sex and all other portions of the floor and order all persons, except those authorized to remain, to leave the premises. They are to take care of and assist all persons who may faint or be disabled.

SEARCHERS shall leave the floor immediately after the last squad leaves.

Rule 5. Duties of Street Alarm Box Runner.

The STREET ALARM BOX RUNNER shall be familiar with the location of the nearest city fire alarm box and know how it is operated.

In ordinary practice fire drills the STREET-ALARM-BOX-RUNNER shall report to the Foreman for orders, and if his services are not required he shall promptly file out of the premises with the other occupants.

Only when a fire actually occurs on his floor, or when ordered to do so by the Foreman, shall the STREET-ALARM-BOX-RUNNER proceed to the street alarm box and send in the fire alarm.

RULES ADOPTED

Rule 6. Duties of Fire Brigade.

The fire brigade shall have full charge of the operation of all auxiliary fire fighting apparatus and shall endeavor to extinguish, or at least hold in check until the arrival of the fire department, any fire that may occur. When it is necessary for the fire brigade to respond to different floors in the building they shall not use the stairways or fire escapes while the occupants are escaping from the premises.

Rule 7. Duties of Exit Guards.

The EXIT GUARDS shall station themselves at all exit doors leading to fire escapes, stairways and other means of escape immediately upon the sounding of the alarm. There shall be two guards for each exit, if practicable; one to stand in the hallway holding back the door and the other directly inside on the floor. They are to keep the exit doors open and direct the movements of the persons using these exits and prevent congestion.

EXIT GUARDS shall remain at their stations until all of the occupants of the building have passed their station. Then close their doors and pass out of the building. Upon signal for the occupants to return, EXIT GUARDS shall take their designated stations and remain there until all persons have returned to their respective floors.

Rule 8. Duties of Squad Monitors.

The SQUAD MONITORS, as soon as the alarm is sounded, shall see that the employees under their charge quickly form into line, two abreast, and numbering not more than thirty to each squad. They shall see that all aisles and passageways are cleared of obstructions.

Note: Chairs, stools, baskets, etc., should be pushed under or placed on top of work benches.

MONITORS shall proceed at the head of their respective squads to the exit assigned, and then march up or down the stairs or to other exits as directed by the EXIT GUARDS.

On reaching the sidewalk MONITORS shall keep their squads in order and lead them a reasonable distance from the building, so as not to cause congestion and interference with fire apparatus. When the proper signal is given they shall return to their respective floors at head of their squads.

MONITORS will at all times see that those under their charge conduct themselves in a respectable and orderly manner.

Rule 9. Holding of Drills.

FIRE DRILLS shall be held at least once each month at varied hours of the day, and all of the occupants shall participate therein simultaneously. Such drills shall conduct all occupants to a place of safety.

Where dual operation interior fire alarm systems are installed as permitted under Rule 11 of the interior fire alarm

rules of the Board of Standards and Appeals, the fire drill conducted each month shall include all of the persons on the premises engaged at work for a factory, and drills shall be conducted at least twice each year in which all of the persons on the premises shall participate simultaneously

Rule 10. Duties of Owner.

It shall be the duty of the OWNER, LESSEE OR TENANT OF THE BUILDING or his authorized agent or their representatives to personally observe that the "Fire Drill" is held simultaneously on every floor of the building and the participation therein of every occupant of such building. Any FIRE DRILL in which all of the occupants do not participate shall not be considered as complying with the LAW, except as otherwise provided in these rules.

The person or persons representing the OWNER, LESSEE OR TENANT who supervises the FIRE DRILL at the building shall submit to an examination by the Bureau of Fire Prevention as to their experience and general fitness for such duties, and shall be so certified in writing by the FIRE COMMISSIONER.

Rule 11. Duties of Engineer.

It shall be the duty of the ENGINEER, SUPERINTENDENT or other PERSON IN CHARGE of a building having an interior fire alarm system to test such system daily immediately after the beginning of business, and to see that all apparatus operated by springs requiring winding are rewound after each alarm and kept in normal condition for operation.

Whenever it is necessary to test the fire alarm system at any other time of the day, owing to repairs, etc., being made, the PERSON IN CHARGE OF BUILDING will first notify all Foremen of the several floors of the intended test and likewise notify them when the repairs, etc., are completed. This precaution is taken to prevent confusion and excitement, also misunderstanding of the alarm signals.

It shall also be the duty of the PERSON IN CHARGE OF BUILDING to sound the interior alarm system at irregular intervals, but not less than once each calendar month, for the purpose of holding practice fire drills. He shall keep on the premises a record of such drills showing the date when held and the required time for all occupants to reach the street or a point of safety outside the building.

The PERSON IN CHARGE OF BUILDING must immediately acquaint new tenants of the existence of the "Fire Drill" Organization and its purport.

Rule 12. Registration.

The name and address of every person, corporation or co-partnership, that will, under professional service, carry on the trade, business or calling of establishing, maintaining or supervising the "Fire Drill" shall be registered in the Fire Department, which Department shall, upon evidence of fitness, grant a certificate to that effect.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE FIRE ESCAPE RULES—RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 8, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments to Rule 380, Industrial Code, and adoption of same as rules of the board of standards and appeals, affecting the maintenance of existing substandard fire escapes on factory buildings; Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended Dec. 12, 1918, Cal. No. 1708-18-S.

Matter in *italics* is new. Matter in brackets [] is old matter to be omitted.

EXISTING FIRE ESCAPES OF FACTORIES

[Supplementary to Labor Law, §§ 79-a to 79-f; adopted and effective July 30, 1914

Rule 380.—When, in addition to the required exits of any factory or factory building, there exist one or more outside fire escapes which are not entirely in accordance with the provisions of the Labor Law relating to fire escapes, such fire escapes may be retained without being changed to conform to such provisions, if steps are taken, satisfactory to the Commissioner of Labor, to prevent their use as means of egress, and provided that such fire escapes are maintained in good repair.

NOTE.—The Commissioner of Labor has ruled that such fire escapes must be structurally safe and that they shall not be used for fire drills.

At the openings leading to such fire escapes there shall be placed a sign, with letters eight inches high, reading "THIS IS NOT AN EXIT." No barrier or guard will be permitted at these opening.]

3. *When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards*

and Appeals, such means of egress may be retained under the following conditions.

(a) *Fire Escapes*—All single rung, double rung and vertical ladder fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) *Interior Stairways*—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) *Exterior Screened Stairways*—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) *Horizontal Bridges*—Horizontal bridges between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 8, 1924, at 2 p. m., Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as rules of the Board of Standards and Appeals affecting the Enclosure of Factory Stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

[Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed	Stairways Enclosed	Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an interior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos
Baking powder
Breweries
Buttons (pearl or bone)
Canneries (including food products)
Chalk and crayon
Condensed and powdered milk
Electric light plants and power houses
Electrolytic reducing works

Glass
Glue, mucilage, paste, siz
Ivory
Leather (excluding japan
or enameling)
Metals (excluding japan
or enameling)
Soap, candles
Porcelain and pottery
Talc and soapstone
Tanneries (excluding ja
ning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)
Bakeries
Bamboo and rattan
Baskets
Belting (including canvas)
Boots and shoes
Buttons (including cloth covered)
Cardboard (including boxes)
Clothing, woolen (wearing apparel)
Cordage
Furs
Gloves (other than leather)
Horn and combs (not celluloid)
Leather (with enameling or japanning)

Linoleum works
Metals (with enameling japanning)
Packing houses
Paper mills
Printing, lithographing, book binding
Silk
Sugar refineries (including beet and glucose work)
Tanneries (with japanning enameling)
Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Tobacco, cigars, cigar and snuff
Woodworking (excluding painting or varnishing)

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers
Artificial leather
Celluloid
Cereal mills
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)
Cotton batting
Cotton clothing (women's)
Cotton waste
Dry cleaning
Explosives
Feather renovating

Feed, flour and grist mills
Fireworks
Imitation leather
Matches
Rag sorting (including cotton)
Shoddy mills
Starch and sugar mills (including pulverizing)
Straw goods
Varnish
Woodworking (with dipping or varnishing)

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental and well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as hereinafter provided, in all factory buildings more than two stories

PUBLIC HEARING

less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
1	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
2	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
3	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room over every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Labor Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire drills substantially conforming to rules of the board are held, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. Enclosure of Stairways.—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in

exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid, and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard and approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanent secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth (1¼) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter (1¼) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter (1¼) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.

Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter— $\frac{5}{16}$ in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.

Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.

In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For $\frac{3}{16}$ inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For $\frac{5}{16}$ inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand two hundred (10,200) gallons outside of buildings shall be equipped with a system of steam pipes, blanket-gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions, to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure, a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible, and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oils in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch lines near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and so designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(c) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths ($\frac{3}{4}$) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

 95-24-SA—Leiman Oil Pump, approval of.
 141-24-SA—Edwards A. C. Control Panel for interior
 alarm system, approval of.

*Cases listed in the Reserve Calendar are cases upon
 which action by the board has been deferred pending com-
 mittee reports, of this board, court or departmental actions,
 and will remain thereon until the aforesaid reports, court
 or departmental actions are consummated. Whereupon the
 case or cases will be restored to the regular calendar and
 due notice of the date set for hearing will be mailed to the
 appellant, applicant or petitioner of record.*

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

OFFICE—Municipal Building, Room 914.

TELEPHONE—Worth 0184.

OFFICE HOURS—9 a. m. to 5 p. m.; Saturdays, 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.
Call of Clerk's Calendar.
The Trial Calendar.
Notices in Building Zone Cases.
Minutes of Meeting, Board of Appeals, April 1, 1924.
Minutes of Meeting, Board of Standards and Appeals, April 1, 1924.
Notices of Public Hearings.
First Quarterly Report.
Rules Adopted.
Reserve Calendar.
Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.
10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, April 8, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, April 15, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

Absent	0

1541-23-A.

APPELLANT—Simplex Oil Heating Corp., for J. G. Construction Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—1439-1459 Ocean avenue, Brooklyn.

APPEARANCES—

For Appellant: George Getzoff.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Beatty	1

THE RESOLUTION:

(1541-23-A)

WHEREAS, Simplex Oil Heating Corporation, for J. G. Construction Company, owner, filed, December 27, 1923 an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 1439-59 Ocean avenue, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered December 26, 1923, in acting on Alteration Application No. 1236-23, reads:

"3. Pumps must be of a design approved by the Board of Standards and Appeals.

"7. Burners must be of a design approved by the Board of Standards and Appeals.";

and

WHEREAS, the building is non-fireproof, six stories in height, 192 ft. 7½ in. by 93 ft. 4 in. in area; it is proposed to provide a fuel oil burning installation to conform to the requirements of the fuel oil rules, except that the pumps and burners are not of a type approved by the board, and requests permission to operate this installation for ninety (90) days, pending approval of pumps and burners.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a period of ninety (90) days, permitting operation of plant at owner's risk, subject to consideration of petition pending before this board for approval of pumps and burners, *on condition* that the fuel oil installation complies with the fuel oil rules of the board of standards and appeals in all other respects.

1549-23-A.

APPELLANT—New York & Brooklyn Casket Co., owner

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—703 Bedford avenue, Brooklyn

APPEARANCES—

For Appellant: Charles H. Richters and James A. Martenhoff.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1549-23-A)

WHEREAS, New York & Brooklyn Casket Co., owner, filed, December 28, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 703 Bedford avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, dated December 8, 1923, reads:

"Order No. 51850-F:

"1. Provide a brick wall not less than 18 feet in height from Lynch to Middleton Streets, Sec. 776, Greater New York Charter.";

and

WHEREAS, the premises consist of a plot of ground at the east side of Bedford avenue, extending from Lynch to Middleton streets, on which is located the plant of the Brooklyn Casket Company, consisting of two four-story non-fireproof buildings at the front of the lot and a three-story warehouse at the rear, a machine shop, boiler room and dry kilns structure at the rear of the machine shop, and two lumber piles and sheds at the rear; the premises being supplied by an auxiliary tank containing 75,000 gallons of water; and

WHEREAS, appellant contends that all windows facing the yard are of steel frames and wire glass, except in the brick extension; that the buildings are provided with sprinkler system and with three 6 in. standpipes connected to two 15,000 gallon gravity tanks, with a fire pump and that there are two watchmen stationed in the yards with time clocks and that they have an underwriters' fire pump installed in the engine room; that there is a fire hydrant located in the yard on the Middleton street front and that the city has a fire hydrant within 15 ft. of this gate and that there is a city hydrant on Lynch street and that the lumber is compactly stacked for their private use solely and that the provision of the brick wall would be a great hardship.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the present fire-fighting equipment, watchman service, etc., be maintained; that the pump house shall be painted red and indicated by a metal sign in letters not less than eight inches in height, with the words "FIRE PUMP" securely fastened thereon; that the door to pump house shall be kept unlocked at all times; that no lumber pile shall exceed 25 ft. in height, closely stacked, and reserved to the operation and conduct of the business on the premises exclusively.

1562-23-A.

APPELLANT—National Seal Company, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—3601 14th avenue, Brooklyn.

APPEARANCES—

For Appellant: Charles Barrett and John N. Regan.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Kerby	1

THE RESOLUTION:

(1562-23-A)

WHEREAS, Charles R. Barrett, for National Seal Co., Inc., lessee, filed, December 21, 1923, an appeal, with the board

MINUTES

of appeals, from an order of the fire commissioner, affecting premises 3601 14th avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 52894-LF, dated December 11, 1923, reads:

"1. Remove all obstructions to all sprinkler heads so as to permit proper distribution of water in case of fire * * *";

and

WHEREAS, the building is fireproof, six stories and basement in height, 200 ft. by 500 ft. (irregular) in area. OCCUPIED: Appellant occupies the basement, 1st and 2nd stories for the manufacture of metal seals, 200 persons; and

WHEREAS, appellant contends the sprinkler heads in question are 24 on the 1st story located over conveyors (2½ ft. in width) with a clearance of three (3) ft., and on the 2nd story there is a 3½ ft. wood and glass passageway (containing no sprinkler heads) obstructing the protection afforded by sprinkler heads in the office adjoining the passageway. Appellant further contends the conveyors are constructed mainly of leather belting which would readily ignite in case of fire and in re: the partitions contends in the event of fire the glass would break and the source of obstruction would disappear.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* only so far as it affects that portion of the premises occupied by appellant and *on condition* that the conduct of business of these tenant premises remains unchanged.

1466-23-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Latham Litho & Printing Co., lessee.
SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—Southwest corner of Woodside avenue and Barnett avenue, Woodside, Queens.
APPEARANCES—

For Appellant: H. E. Horwood.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(1466-23-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Latham Litho & Printing Co., filed, December 11, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises southeast corner Woodside avenue and Barnett avenue, Woodside, Borough of Queens; and

WHEREAS, the decision of the fire commissioner, N. B. No. 992-23, dated November 22, 1923, reads:

"1. 4 in. standpipe system must be installed.";

and

WHEREAS, the building is non-fireproof, two stories in height, 162 ft. by 264 ft. (42,768 sq. ft.) in area. PROPOSED OCCUPANCY: Lithographing and printing, 125 employees; and

WHEREAS, appellant contends the building is subdivided into sections by terra cotta partitions with fire doors at openings; it is equipped with a sprinkler system and will be under the supervision of a watchman.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that any openings in the westerly cross wall of shipping room shall be provided with double fireproof doors, and *granted* only so long as the present occupancy and use remain substantially unchanged.

1467-23-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Willys-Overland, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—521-531 West 57th street and 518-528 West 58th street, Manhattan.

APPEARANCES—

For Appellant: H. E. Horwood.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative. Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(1467-23-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Willys-Overland, Inc., filed an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 521-531 West 57th street and 518-28 West 58th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 21053-C, dated November 22, 1923, reads:

"1. Discontinue the maintenance of a storage garage on these premises.";

and

WHEREAS, the fire department contends the building in part is used for the manufacture of dry goods or the sale of dry goods in violation of the code of ordinances; and

WHEREAS, the building is fireproof, equipped with sprinkler and standpipe systems, ten stories in height, 150 ft. by 200 ft. in area. OCCUPIED as follows: 1st floor, receiving room and service, 15 persons; 2nd floor, parts department and repair shop, 40 persons; 3rd floor, storage, 25 persons; 4th floor, dead storage; 5th floor, New Auto Paint Co., 25 persons; 6th floor, Gimbel Bros. carpet and tapestry shop, 60 persons; 7th floor, Interstate Mechanical Laboratories, 40 persons; 8th floor, Schweitzer, importers, 125 persons; 9th floor, clothing manufacturer, 80 persons; 10th floor, N. C. Talking Machine Co. storage and office, 60 persons; and

WHEREAS, appellant contends there are five stories intervening between the gasoline storage and any dry goods.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that an approved gasoline storage system be maintained, not exceeding a capacity of 2,000 gallons, and that the use and occupancy of building otherwise remain substantially unchanged.

78-24-A.

APPELLANT—Emil Guterman, for Isaac Bloom, owner.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—52-60 Jackson avenue, West, Corona, Queens.

APPEARANCES—

For Appellant: Emil Guterman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Kerby 1

THE RESOLUTION:

(78-24-A)

WHEREAS, Emil Guterman, for Isaac Bloom, owner, filed, January 18, 1923, an appeal, with the board of appeals, from

MINUTES

orders of the fire commissioner, affecting premises 52-60 Jackson avenue, West, Corona, Borough of Queens; and WHEREAS, the orders of the fire commissioner, dated December 22, 1923, read:

"Order No. 51680-F:

"1. Provide a watchman and install an approved system of watchman time detectors. Section 776, Greater New York Charter."

"Order No. 51683-F:

"1. Provide a brick wall 18 ft. in height on east and north side of property line. Section 776, Greater New York Charter.";

and

WHEREAS, the premises consist of a plot of ground on Chicago avenue and 43rd street, Borough of Queens, on which is located the lumber yard of the owner, consisting of a two-story frame building, occupied as offices and living apartments, a cement storage shed, a one-story frame shed and a two-story frame office and storage building and several lumber piles, there being an open driveway 12 ft. wide extending through yard; and

WHEREAS, appellant contends that the yard is provided with four 40 gallon water casks, that there is no lumber stored within 20 ft. of the windows in the wall of the two-story brick dwelling to the north and that these windows are on his property line, taking light and air from his property, and that to provide a brick wall would be a great hardship and would practically confiscate his property and that, as the owner lives on the premises, the watchman would be of no advantage.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that two (2) 12 ft. driveways shall be maintained open and unobstructed from Jackson avenue, with a cross connecting driveway not more than 20 ft. from rear lot line of property, and an additional open driveway from 43rd street not less than 12 ft. wide along rear property line, extending at least 15 ft. beyond the rear of adjoining brick structure; that the lumber shall be closely stacked, no loose timber or lumber permitted; and that the lumber stacks shall not exceed 15 ft. in height.

156-24-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Dannenhoffer Glass Works, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—385-389 Harman street, Brooklyn.

APPEARANCES—

For Appellant: H. E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(156-24-A)

WHEREAS, The Croker National Fire Prevention Engineering Co., for Dannenhoffer Glass Works, owner, filed, January 31, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 385-9 Harman street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 53148-F, dated January 11, 1924, reads:

"1. Install a standpipe system in one story building 385-9 Harman Street through to Himrod Street with risers 4 inches in diameter * * *";

and

WHEREAS, the building is frame, one story in height, 100 ft. by 200 ft. (15,000 sq. ft.), irregular in area; OCCUPIED for the manufacture of glass, 12 persons; also a stable on premises; and

WHEREAS, appellant contends that the building is only one story in height, and faces three streets; that the only hazard is a furnace heated with fuel oil and that the quantities of sand present is more suitable to fighting a fire from this cause than water from the proposed standpipe system.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the storage of hay on these premises shall not exceed five (5) tons, maintained in a brick structure, located at the front of the building on Himrod street; and that the premises shall be restricted to the conduct of the business now in operation.

1028-23-A.

APPELLANT—Rossville Co. of N. Y., Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—78-80 Beach street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1028-23-A)

WHEREAS, Rossville Co. of N. Y., Inc., lessee, filed, August 13, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 78-80 Beach street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated June 21, 1923, reads:

"Order No. 18936-LC:

"1. Provide a separate and distinct system of automatic sprinklers throughout building, having at least one source of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 21, 1919, effective February 17, 1919.";

and

WHEREAS, the building is non-fireproof, four stories in height, 43 ft. 2 in. by 75 ft. 2 in. in area in the 1st story and 43 ft. by 40 ft. in area above; OCCUPIED for the storage of alcohol, 10 persons in the entire building; and

WHEREAS, appellant contends that there is no manufacturing process of any kind transacted in the building; that the alcohol is stored in metal containers and that there is no heater, except a gas heater in the office, and further contends that the present occupant has been in the building for three years and that a permit was issued by the fire department for 250 barrels of denatured alcohol and 200 barrels of grain alcohol.

Resolved, that the order of the fire commissioner, No. 18936, Item 1, be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the office shall be maintained on 1st floor, enclosed in fire-retarding partitions and ceiling; that the gas meter shall be installed within the office enclosure at the front of building; that there shall be no open flame in building other than the use of the gas for light and heat in the office; and that any heating plant in cellar shall be dismantled and removed.

MINUTES

1469-23-A.

APPELLANT—Combustion Engineering Corp., for Kings County Lighting Co., owner.

SUBJECT—Application for renewal of temporary permit—appeal from decision of fire commissioner.

PREMISES AFFECTED—880-884 65th street, Brooklyn.

APPEARANCES—

For Appellant: George B. Elfast.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Granted renewal of temporary permit for ninety days from date of this action.

THE VOTE TO GRANT RENEWAL OF TEMPORARY PERMIT—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1469-23-A)

WHEREAS, Combustion Engineering Corp., for Kings County Lighting Co., owner, filed, December 12, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 880-884 65th street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered November 3, 1923, in acting on Application No. 1032-23, reads:

"3. Pumps must have approval of Board of Standards and Appeals.

"4. Burners must have approval of Board of Standards and Appeals.";

and

WHEREAS, the premises consist of a plot of ground on which is located the plant of the Kings County Lighting Company; it is proposed to install in the boiler house, which is a one-story building, 87 ft. 5½ in. by 56 ft. 5½ in. in area, two boilers and a fuel oil burning installation; the installation to be made in accordance with the rules of the board of standards and appeals, except that the pumps, which are known as the "McGowan Pumps," and the burners, which are known as the "Quinn Oil Burners," have not been approved by the board of standards and appeals; and

WHEREAS, appellant requests a temporary permit for the operation of the plant for a temporary period of ninety (90) days, pending the approval of the pumps and burners by the board of standards and appeals; and

WHEREAS, the request for temporary permit was granted by the board at its meeting, January 8, 1924, for a temporary period of ninety (90) days and appellant requested a reopening of the case and an extension of this permit, which request was granted by vote of the board.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* to permit the operation of the plant for a temporary period of ninety (90) days, at the owner's risk, subject to inspection of burner and pump.

THE RESOLUTION:

(640-23-BZ)

WHEREAS, Samuel Rosenblum, for Joseph C. Marsicano, owner, filed, May 23, 1923, an application, under the building zone resolution, to permit in a residence district the

MINUTES

maintenance of a garage for the storage of three pleasure and two commercial motor vehicles; premises 1029 41st street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 1, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 41st street and 40th street are residence districts and Tenth avenue is a business district; and

WHEREAS, the order of the fire commissioner, dated May 15, 1923, Order No. 78578-C, reads:

"1. Surrender to the bearer permit No. 75729 issued to you on July 26, 1922, to expire on July 2, 1923, authorizing the storage of 5 cars in the garage conducted by you on the above premises, as it is revoked for the following reasons:

"Maintenance of your garage is a violation of section 6 of art. 2 of the Building Zone Resolution of the Board of Estimate and Apportionment of the City of New York adopted July 25, 1916, inasmuch as no existing building designed, arranged, intended or devoted to a use not permitted by this article in the district in which such use is located shall be enlarged, extended, reconstructed or structurally altered unless such use is changed to a use permitted in the district in which such building is located."

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 50 ft. and a depth of 22 ft. 5½ in.; occupied as a garage for five motor vehicles, two of which are commercial vehicles used in the conduct of the owner's business; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the order of the fire commissioner be and hereby is *affirmed*, and the application be and it hereby is *denied*.

604-23-BZ.

APPLICANT—Franklin R. Bruns, owner.

SUBJECT—Application for reopening (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of five (5) motor vehicles, four spaces rented to persons not residing on the premises.

PREMISES AFFECTED—2320 and 2322 Morris avenue, The Bronx.

APPEARANCES—

For Applicant: H. E. Horwood.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(604-23-BZ)

WHEREAS, Jos. J. Furman, for Franklin R. Bruns, owner, filed, May 16, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of five (5) motor vehicles, four spaces rented to persons not residing on the premises; premises 2320-2322 Morris avenue, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 1, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Morris avenue is a residence district and East 183rd street is a business district; and

WHEREAS, the order of the fire commissioner, dated April 25, 1923, Order No. 17550-C, reads:

"1. Discontinue the maintenance of a garage which is not maintained as an accessory use on these premises."

and

WHEREAS, the existing buildings are of non-fireproof construction, one story in height, with a frontage of 26½ ft. and a depth of 31 ft.; occupied as a garage for three cars and a frame building 23 ft. 6 in. by 17 ft. occupied as a garage for two cars, space rented to persons not residing on the premises; and

WHEREAS, the board deemed that, in view of the consents of contiguous and adjacent property owners, a temporary permit should be granted.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* permitting the maintenance and storage of five automobiles of the pleasure car type, space for three of which may be rented to persons not residing on the premises, for a temporary period of two years from the date of this action, the garage to be restricted to lots number 11 and 12 of block 3172.

1272-23-BZ.

APPLICANT—William C. Cartwright, for Louis W. Campbell, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the erection and maintenance of an electric sign on the front wall of a building.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Superintendents Reville, Kleinert, McDermott and Chief Inspector Bastress 9

Negative 0

Absent: Mr. Kerby, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 4

THE RESOLUTION:

(99-24-S)

WHEREAS, Richard Berger, for Estate of Wm. R. Walker, owner, filed, January 23, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 53 Walker street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 11, 1924, in acting on Order No. 53452-LD, reads:

"1. Enclose the interior stairway at the east side of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides, with partitions of fire resisting material extending continuously from the cellar to 3 feet above the roof * * *";

and

WHEREAS, the building is non-fireproof, 5 stories in height, 25 ft. by 92 ft. in area at the 1st story and 25 ft. by 88 ft. in area above. OCCUPIED: 1st story, dry goods store; 2nd story, leather storage; 3rd story, mfr. of dresses, 10 persons; 4th story, mfr. of leather bags, 5 persons; 5th story, mfr. of leather bags, 5 persons. EXITS: One interior stairway extending from the 1st story to the roof, enclosed in wooden partitions (top story fireproof partitions) with wooden doors at the openings; a fire escape on the front of the building, extending from the roof to the 2nd story, with counterbalanced stair to street and fireproof windows along the course thereof; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that the exits are ample for the small occupancy.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that any occupancy deemed as highly hazardous under the classification adopted in Bulletin No. 2 of the Industrial Code and the proposed rules for stairway enclosures now pending adoption by the board of standards and appeals shall be discontinued on or before May 1, 1924.

164-24-S.

PETITIONER—Samuel Lessin, for Sev Realty Corporation, owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—340-342 East 27th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Lessin, Moe Bloom.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Reville, Kleinert, McDermott and Chief Inspector Bastress 10

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 3

THE RESOLUTION:

(164-24-S)

WHEREAS, Samuel Lessin, for Sev Realty Corp., owner, filed, February 1, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 340-42 East 27th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered January 10, 1924, in acting on request for certificate of occupancy, reads:

"3. Stairs does not extend to roof.

"8. Passageway through building at the rear and facing 26th Street intended for egress from exterior stairs is not fireproof as required by law.";

and

WHEREAS, the building is non-fireproof, three stories in height, 50 ft. by 98 ft. 9 in. in area. OCCUPIED: 1st story, garage, 15 persons; 2nd story, baker's store room, 25 persons; 3rd story, vacant at present. EXITS: An interior wooden stairway extending from the 1st story to the top story, enclosed in wooden stud, wire lath and cement plaster

MINUTES

partitions, with fire doors at the openings; a fire escape, with fireproof windows on the course thereof, on the rear of building, extending from the roof to the yard, with egress from termination of the fire escape through open court and a passageway to street in building under same ownership to rear; ROOFS to east 10 ft. lower, to west at same level; and

WHEREAS, petitioner contends, respecting fireproof passageway, that it is entirely fireproof, excepting the ceiling, which is of heavy construction supported by iron beams, and it would be an unnecessary hardship to fireproof this ceiling; respecting extending exterior stairs to roof, contends that the occupancy above the 1st story is light.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to objection No. 3 on condition that a double rung iron ladder shall be provided from the top story hall to a scuttle in roof; granted as to item No. 8 on condition that the open court at the termination of the fire escape at yard level shall be maintained clear and unobstructed to the open yard at rear of 331-3 E. 26th street with egress therefrom to 26th street through unobstructed passageway; and granted only so long as conditions as to occupancy and use otherwise remain unchanged.

167-24-S.

PETITIONER—Shampan & Shampan, for Schuyler Development Co., Inc., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—252-258 West 37th street, Manhattan.

APPEARANCES—

For Petitioner: Frederick J. Faulhaber.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Reville, Kleinert, McDermott and Chief Inspector Bastress 10

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 3

THE RESOLUTION:

(167-24-S)

WHEREAS, Shampan & Shampan, for Schuyler Development Co., Inc., owner, filed, February 2, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 252-258 West 37th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered January 22, 1924, reads:

"12. All windows including the show windows on 1st, 2nd and 3rd floors should have panes not greater than 720 square inches and should comply with Section 264 Labor Law and Rule 503 Industrial Code.";

and

WHEREAS, the building is fireproof, 17 stories and mezzanine in height, 93 ft. 9 in. by 98 ft. 9 in. in area at 1st story and 93 ft. 9 in. by 88 ft. 9 in. in area above. OCCUPIED: 1st story, stores; 2nd to 17th stories, showrooms and tenant factory, 100 persons per story; the building being equipped with a sprinkler system; it is proposed to install in the front windows of the 1st, 2nd and 3rd stories the following sizes of 1/4 in. clear plate glass: 1st story, 7 ft. by 9 ft.; 2nd story varies from 3 ft. 8 in. by 6 ft. to 6 ft. by 10 ft., and the 3rd story varies from 3 ft. 8 in. by 6 ft. to 6 ft. by 10 ft.; and

WHEREAS, petitioner contends that all other windows in the building will comply with the requirements of the labor law; that the windows on the 1st, 2nd and 3rd stories

are used for the display of merchandise, and to divide them into smaller panes would destroy their purpose and the architectural effect of the building.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted only so far as it affects the windows on the street front of the three (3) lower stories, on condition that the sash shall be glazed with plate glass not less than 1/4 in. in thickness and that the frames shall be of metal; that the center sash in each opening shall be made stationary and that the large sash of the four (4) windows over the two entrances shall be made stationary.

PETITIONER—Helmle & Corbett, for Trustees of the Sailors Snug Harbor, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—59 East 9th street, Manhattan.

APPEARANCES—

For Petitioner: Charles F. Garlichs.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Fire Chief Kenlon, Superintendents Reville, Kleinert, McDermott and Chief Inspector Bastress 10

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Moore.. 3

THE RESOLUTION:

(180-24-S)

WHEREAS, Helmle & Corbett, for Trustees Sailors Snug Harbor, owner, filed, February 4, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 59 East 9th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated February 13, 1923, reads:

"Order No. 51417-LD:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at north side of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street * * *";

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 26 ft. by 82 ft. in area. OCCUPIED: Basement, printer, 5 persons; 1st story, carpenter, 2 persons; 2nd story, tailor shop, 10 persons; 3rd story, tailor shop, 17 persons; 4th story, tailor shop, 17 persons. EXITS: One interior wooden stairway, extending from the 1st story to the roof, enclosed in metal lath and cement plaster partitions, with metal covered doors at the openings; a fire escape with fireproof windows along the course thereof, on the rear of the building, extending from roof to yard, with egress from termination of fire escape, by means of an iron stairway to building in rear and through building to street; ROOF to west same level, to east 18 ft. higher; and

WHEREAS, petitioner contends that the existing means of egress from termination of fire escape is adequate.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the petition be and it hereby is denied.

Negative 0

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Moore.. 3

THE RESOLUTION:

(1497-23-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Joseph Bender, owner, filed, December 18, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 162 Boerum street (rear), Brooklyn.

WHEREAS, the order of the fire commissioner, dated July 9, 1923, reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at the north side of building by constructing a fireproof passageway * * *";

and

WHEREAS, the building, situated at the rear of the lot, is frame, four stories in height, 25 ft. by 43 ft. in area; OCCUPIED as a tenant factory, 19 persons above 2nd story. EXITS: An interior wooden stairway extending from 1st to top story, enclosed in metal covered wooden partitions, with fire doors at openings; a fire escape on front of the building extending from top story to yard, with fireproof windows along the course thereof, with EGRESS from termination through door in fence to adjoining yard and also through hallway of front building; and

WHEREAS, petitioner contends that existing means of egress are adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that a 60 degree fire escape shall be maintained on the front of the rear building with open, unobstructed egress from the termination through the building on front of premises and through the adjoining yard to the east, and granted on the further condition that the occupancy shall be restricted to 10 persons on the 1st story, 3 persons on the 2nd story, 12 persons on the 3rd story and 4 persons on the top story.

1512-23-S.

PETITIONER—Croker National Fire Prevention Engineering Co., for Broadway-Thirtieth Street Corporation, lessee.

SUBJECT—Variation of labor law as cited in decision of fire commissioner.

Negative 0

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon and Superintendent Moore.. 3

THE RESOLUTION:

(1512-23-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for Broadway-Thirtieth Street Corporation, lessee, filed, December 21, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the fire commissioner, affecting premises 42 West 30th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated December 8, 1923, reads:

"An inspection has been made which indicates that item 1, requiring exit signs and lights have not been complied with. Relative to item 2 the report indicates further that three windows on 2nd story are non-fireproof; 8 sections of two large windows opening on balcony of fire escape on 3rd story are not fireproof and one window on 3rd story underneath balcony of 4th story has not been made fireproof.";

and

WHEREAS, the building is fireproof, four stories in height, 65 ft. by 15 ft. in area (irregular). OCCUPIED: 1st story, store, 8 persons; 2nd story, ladies' clothing salesroom, 7 persons (no factory); 3rd story, embroidery, 17 persons; 4th story, embroidery, 6 persons. EXITS: An interior fireproof stairway, extending from 1st story to roof, with fire doors at openings; a fire escape at the front of the building with a balcony on top story and connecting stairways to party wall balconies at the 2nd and 3rd stories and counterbalanced stair to street; and

WHEREAS, petitioner contends that the windows along the course of the fire escape are fireproof, excepting one on the 2nd story, and further contends that these windows are show windows and to subdivide them into smaller sections would be a detriment to the appearance of the building.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects the fireproofing of the windows on the course of the fire escape only, on condition that the windows on the top story balcony shall be made fireproof with sash glazed with plate or wire glass and that a flame plate shall be provided under the top story balcony; and that the windows on the west end of the 2nd and 3rd story balconies shall be glazed with wire glass and made self-closing, and granted as to the show windows on the east and west ends of the 2nd story on condition that they shall be equipped with fixed sash glazed with plate glass, except the centre panel on the east end, which shall be made self-closing; that a flame plate shall be provided under the 3rd story balcony extending at least 1 ft. beyond window opening at each end; and that the order of the fire commissioner on which the decision was based shall be complied with in all other respects.

Hannon, Superintendents Moore and Mc-
Dermott 4

THE RESOLUTION:

(1522-23-S)

WHEREAS, Croker National Fire Prevention Engineering Co., for 279 Fifth Avenue Corporation, owner, filed, December 23, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 279 Fifth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 30, 1923, reads:

"1. Extend the interior stairway at the south side of building to the roof, * * *.

"2. Arrange the fire escape at the rear of building and the openings leading thereto and the windows opening on the course thereof * * *.

"Note:—Among the defects noted on this fire escape are the following:

"No balcony at 2nd story.

"No stairway from lowest balcony to ground.

"No safe pasageway to street from termination of fire escape.

"No. 45 degree stairways connecting balconies.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 100 ft. in area at 1st story and 25 ft. by 65 ft. in area above. OCCUPIED: 1st story, store, 2 persons; 2nd story, violins, 7 persons; 3rd story, umbrella mfr., 11 persons; 4th story, showroom, 3 persons; 5th story, embroidery, 3 persons. EXITS: An interior wooden stairway extending from 1st to top story with iron ladder to scuttle in roof, enclosed in fireproof partitions with fire doors at openings; a fire escape on the rear of the building extending from main roof to roof of 2nd story extension and a gooseneck ladder from roof of 2nd story extension to roof of 1st story extension; with EGRESS from roof of this extension by stair to balcony of fire escape on adjoining premises; ROOFS of adjoining buildings are one story higher; and

WHEREAS, petitioner proposes to provide steps from roof of 2nd story extension to connect with balcony of fire escape on adjoining premises and contends there is an iron ladder to scuttle in roof.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 2 on condition that a 45 degree fire escape shall be provided and maintained on the rear of the building extending from the roof to the 2nd story extension with a 60 degree stairs from the roof of the 2nd story extension to the roof of the 1st story extension and with connecting steps from the roof of the 2nd story extension to the roof of extension adjoining, and from roof of 1st story extension to roof of extension of adjoining premises to the south; that a doorway on the course of this and the adjoining fire escapes shall be maintained unlocked, accessible and unencumbered during working hours, and granted so long as conditions as to occupancy and use otherwise remain unchanged.

Negative 0
Absent: Mr. Kerby, Deputy Fire Commissioner
Hannon, Superintendents Moore and McDermott 4

THE RESOLUTION:

(1134-23-S)

WHEREAS, Rudolph P. Miller, for Earlington Realty Corporation, owner, filed, September 28, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 49-55 West 27th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered September 21, 1923, reads:

"4. Stairs must be properly enclosed and extend to street.

"6. The two means of exit provided for each floor are not remote from each other.";

and

WHEREAS, the building is fireproof, ten stories in height, 100 ft. by 86 ft. in area. OCCUPIED: Basement, stores, 50 persons; 1st story to 10th story, offices, sample rooms and mfg., 55 persons per story; the means of egress consisting of an interior stairway, extending from the 1st story to the roof, enclosed in fireproof partitions with fire doors at the openings; an exterior stairway at the center of the building, extending from the 1st story to the 10th story in the court immediately adjoining the interior stairs, with egress from the foot of this stairway through ground floor corridor to street; two fire escapes on the rear of the building, one on each side, with egress from the foot of the fire escape through the cellar to the street, the doors to the exterior stairway in the 1st story opening into the corridor, the doors to various offices open in; there being automatic sliding doors in each story above the 1st story at the openings to the interior stair enclosure; there is also in the corridor 1st story large plain glass show windows of stores east and west sides; these show windows have wooden frames; and

WHEREAS, petitioner proposes to provide F. P. S. C. doors at openings to interior stairway and contends that the means of egress from the foot of the exterior stairway is adequate and that there are two means of escape, one through main corridor and one through side passageway; that to alter the present arrangement of show windows opening on the main corridor would be a hardship on the owner; and that the present exterior stairs was installed in 1920 to provide additional means of exit; and

WHEREAS, a committee of the board visited the premises and reported:

REPORT OF COMMITTEE OF INSPECTION—

On December 28, 1923, a committee of the Board, consisting of Chairman Walsh, Chief Kenlon, Messrs. Holland, Kerby, Connell, Boulton, Superintendent Reville and Chief Inspector Heatley of the Bronx Building Bureau and Assistant Engineer Huber of the Board visited these premises, which are under petition for variation of the Labor Law requirements.

MINUTES

The petition was brought on six objections from the Superintendent of Buildings, from 1 to 6 inclusive. The petitioner now proposes and seeks a variation only on Objections 4 and 6.

Objection 4 requires stairs to be properly enclosed and extended to the street. The stairs embracing the passenger elevator well is enclosed in brick walls with two openings to adjoining corridors. The petitioner proposes to install self-closing, fireproof doors at these openings, thereby practically segregating main stairs. These main stairs terminate at street level and in this main entrance corridor the partition walls on either side now have several large window openings, constructed of wood frames, glazed with plain plate glass, to stores in the basement and 1st story level. There is also in this corridor a fair size cigar stand.

On this, the Board believes that if the main entrance corridor is maintained unencumbered and a steel sash substituted for the wooden sash and glazed with wire glass, a proper and reasonably safe condition will prevail and the main stair condition can be accepted.

As to Item 6, to the rear of the main stairs there is an exterior iron stairway, extending from the top story to the basement, exit to which there is provided at each story a passageway enclosed with fireproof partition on either side of the interior stairway, permitting separate egress by means of this fire-escape distinct from the main stairway exit.

The Board believes that if egress is provided by means of passageway at basement level, leading through a runway, a reasonable and safe secondary means of egress is provided.

On compliance with the foregoing recommendations, the Committee recommends the granting of this petition.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
HENRY L. CONNELL,
ALFRED J. BOULTON,
JAMES P. HOLLAND,
JOHN C. KERBY,
P. J. REVILLE.

December 31, 1923.

WHEREAS, this petition was granted by the board on certain conditions, and petitioner requested a modification of these conditions.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the recommendations set forth in the report of the committee of inspection shall be complied with, and *granted* as to Item No. 4 *on condition* that the cigar stand or any other encumbrance in the main entrance hall shall be removed and that a steel or kalamein sash and frame of similar dimensions to existing wooden sash and glazed with wire glass shall be substituted for the present wooden sash in the partition walls of the entrance corridor, and *granted* as to Item No. 6 *on condition* that the rear exterior iron stairway shall be maintained from the top story to the basement, egress from which shall be through freight entrance independent of the main entrance and said basement passageway to be cut off from the main corridor by self-closing fireproof doors and that the window at the basement story level in the rear stair enclosure shall be built up with masonry, and that the openings to interior stairway on each story shall be equipped with self-closing fireproof doors separating said corridors from the main stair well; and *granted on further condition* that the factory occupancy shall not exceed 25 per cent of the floor area in accordance with the requirements of the building zone resolution.

Affirmative: Chairman Walsh, Messrs. Beatty, Connell, Boulton, Holland, Fire Chief Kenlon, Superintendent Reville and Chief Inspector Bastress 8

Negative: Superintendent Kleinert 1

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon, Superintendents Moore and McDermott 4

APPLIANCES SUBMITTED FOR APPROVAL.

1390-22-SA.

PETITIONER—G. S. MacFarland.

SUBJECT—Approval of Oliver Oil-Gas Burner.

APPEARANCES—

For Petitioner: Leslie F. Smith.

ACTION OF BOARD—Petition restored and placed on reserve calendar, pending report of committee of inspection.

THE VOTE TO RESTORE TO CALENDAR—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Fire Chief Kenlon, Superintendents Reville, Kleinert and Chief Inspector Bastress 9

Negative 0

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon, Superintendents Moore and McDermott 4

62-24-SA.

PETITIONER—William F. Doyle.

SUBJECT—Approval of The Kleen-Heet Oil Burner.

APPEARANCES—

For Petitioner: M. Ort.

ACTION OF BOARD—Petition placed on reserve calendar, pending report of committee of inspection.

CASE DISMISSED.

Variation of the Labor Law.

The chairman called attention to the following case, where notice of intention to petition was offered for filing; but where, despite notices from this office, papers have not been completed, thus tying the hands of the administrative official in the performance of his duty:

(1523-23-S)

Filed December 23, 1923—Premises 98 East Broadway, Manhattan. Order of the fire commissioner, labor law. Petitioner, Morris Wisoff. Dismissed for lack of prosecution.

THE RESOLUTION:

(1523-23-S)

WHEREAS, the foregoing petitioner has filed with the board of standards and appeals, petition affecting the premises in question; and

WHEREAS, the petitioner has failed to complete his papers, though duly notified to do so.

Resolved, that the petition be and it hereby is *dismissed* for lack of prosecution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Fire Chief Kenlon, Superintendents Reville, Kleinert and Chief Inspector Bastress 9

Negative 0

Absent: Mr. Kerby, Deputy Fire Commissioner Hannon, Superintendents Moore and McDermott 4

Adjourned 5 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE FIRE ESCAPE RULES—RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 8, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments to Rule 380, Industrial Code, and adoption of same as rules of the board of standards and appeals, affecting the maintenance of existing substandard fire escapes on factory buildings; Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended Dec. 12, 1918, Cal. No. 1708-18-S.

Matter in *italics* is new. Matter in brackets [] is old matter to be omitted.

EXISTING FIRE ESCAPES OF FACTORIES

[Supplementary to Labor Law, §§ 79-a to 79-f; adopted and effective July 30, 1914

Rule 380.—When, in addition to the required exits of any factory or factory building, there exist one or more outside fire escapes which are not entirely in accordance with the provisions of the Labor Law relating to fire escapes, such fire escapes may be retained without being changed to conform to such provisions, if steps are taken, satisfactory to the Commissioner of Labor, to prevent their use as means of egress, and provided that such fire escapes are maintained in good repair.

NOTE.—The Commissioner of Labor has ruled that such fire escapes must be structurally safe and that they shall not be used for fire drills.

At the openings leading to such fire escapes there shall be placed a sign, with letters eight inches high, reading "THIS IS NOT AN EXIT." No barrier or guard will be permitted at these opening.]

3. *When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards*

and Appeals, such means of egress may be retained under the following conditions.

(a) *Fire Escapes*—All single rung, double rung and vertical ladder fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) *Interior Stairways*—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) *Exterior Screened Stairways*—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) *Horizontal Bridges*—Horizontal bridges between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 8, 1924, at 2 p. m., Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as rules of the Board of Standards and Appeals affecting the Enclosure of Factory Stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

[Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed		Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an interior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos
Baking powder
Breweries
Buttons (pearl or bone)
Canneries (including food products)
Chalk and crayon
Condensed and powdered milk
Electric light plants and power houses
Electrolytic reducing works

Glass
Glue, mucilage, paste, size
Ivory
Leather (excluding japanning or enameling)
Metals (excluding japanning or enameling)
Soap, candles
Porcelain and pottery
Talc and soapstone
Tanneries (excluding japanning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)
Bakeries
Bamboo and rattan
Baskets
Belting (including canvas)
Boots and shoes
Buttons (including cloth covered)
Cardboard (including boxes)
Clothing, woolen (wearing apparel)
Cordage
Furs
Gloves (other than leather)
Horn and combs (not celluloid)
Leather (with enameling or japanning)

Linoleum works
Metals (with enameling or japanning)
Packing houses
Paper mills
Printing, lithographing, book-binding
Silk
Sugar refineries (including beet and glucose works)
Tanneries (with japanning or enameling)
Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Tobacco, cigars, cigarettes and snuff
Woodworking (excluding dipping or varnishing)

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity or from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers
Artificial leather
Celluloid
Cereal mills
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)
Cotton batting
Cotton clothing (women's)
Cotton waste
Dry cleaning
Explosives
Feather renovating

Feed, flour and grist mills
Fireworks
Imitation leather
Matches
Rag sorting (including cotton)
Shoddy mills
Starch and sugar mills (including pulverizing)
Straw goods
Varnish
Woodworking (with dipping or varnishing)

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental or well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as herein provided, in all factory buildings more than two stories

PUBLIC HEARING

and less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving as required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
Three	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
Four	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
Five	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room in every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Labor Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire drills substantially conforming to rules of the board are held, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. Enclosure of Stairways.—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

FIRST QUARTERLY REPORT

CITY OF NEW YORK BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, CHAIRMAN
MUNICIPAL BUILDING

April 8, 1924.

HON. JOHN F. HYLAN,
Mayor, New York City.

Sir:—I have the honor to submit for your information the first quarterly report of the Board of Appeals and Board of Standards and Appeals, combined, for the quarter ending March 31, 1924, which is set forth as follows:

CASES FILED AND PENDING, 1924.

FIRST QUARTER.

Appeals from Administrative Orders	200
Applications under Building Zone Resolution	154
Petitions for Variation of Labor Law	94
Petitions for Approval of Appliances and Materials	13
Petitions for Adoption of Rules	3
Reopened and Restored to Calendar	23
Miscellaneous Docket	68
Total 1924 Cases	555
Cases pending December 31, 1923	627
Total Cases filed and pending during First Quarter	1182

SUMMARY.

DOCKET.

Cases pending December 31, 1923	627
Cases filed up to and including March 31, 1924	464
Restored to calendar	23

MISCELLANEOUS APPLICATIONS.

Requests to reopen	38
Requests to amend	0
Requests for modification	11
Requests to rescind	1
Requests for extension of time	9
Requests for extension of permit	4
Requests for mechanical installations	2
Administrative requests	1
Requests for interpretation	2
Total	1182
Disposed of	490
Cases pending March 31, 1924	692

DISPOSITION OF CASES.

Withdrawn	51
Dismissed	69
Denied	64
Granted	4
Granted on condition	227
Appliances approved	0
Appliances dismissed, disapproved or withdrawn	0
Rules approved	6
Rules disapproved or rescinded	1

MISCELLANEOUS ACTIONS.

Requests to reopen granted	33
Requests to reopen denied	3
Requests to amend granted	0
Requests to amend denied	0
Requests for modification granted	10
Requests for modification denied	1
Requests to rescind granted	1
Requests to rescind denied	0
Requests for extension of time granted	8

WILLIAM E. WALSH, *Chairman.*

RULES ADOPTED

RULES FOR THE CONSTRUCTION AND INSTALLATION OF GAS SHUT-OFF VALVES, ADOPTED BY THE BOARD OF STANDARDS AND APPEALS JANUARY 11, 1924.

RULES FOR GAS SHUT-OFF VALVES TO COMPLY WITH ORDINANCE AMENDING ARTICLE 2 OF CHAPTER 12 OF THE CODE OF ORDINANCES, RELATING TO CONTROL OF GAS IN CERTAIN BUILDINGS IN CASE OF FIRE.

1. Gas shut-off valves and accessory appliances shall include valves approved as such by the Bureau of Standards, Washington, D. C., by the Underwriters' Laboratories, Inc., Chicago, Ill., by the Associated Factory Mutual Laboratories of Boston, or other recognized standard laboratory; and all valves shall be approved and meet the test prescribed by the Board of Standards and Appeals.

2. Gas shut-off valves shall be installed only by corporations, firms or individuals who shall furnish evidence of their qualifications under the Code of Ordinances, to the Fire Commissioner or the Tenement House Commissioner in their respective jurisdictions.

3. Such corporations, firms, or individuals shall maintain a Service Station which shall be in direct communication with the Fire Department by telephone or telegraph. Location of service station and means of communication shall be on file with the Fire Commissioner, in order that the Fire Department may insure immediate service when the gas is turned off by the members of the Fire Department or from any other cause.

The Fire Department shall have exclusive use of gas shut-off valves to be operated in the event of fire or other emergencies.

4. All gas shut-off valves to be installed must be made of the best quality of standard materials.

Protection of Valves:

5. The gas shut-off control shall be protected by a suitable, approved metal box, placed on the exterior of the building, which shall be connected, through a rigid metal conduit, by a cable, with the valve body placed on the gas intake where the gas pipe enters the building, and as near as practicable to the inside face of the wall, before reaching the meters. The lock for securing box on outside wall of building shall be operative only by a Fire Department inner box key by members of the Fire Department.

6. All valve bodies shall be made of brass or bronze. If a spring is used to actuate a valve in conjunction with the fusible link, it shall be of the best quality phosphor bronze.

7. The internal mechanism which acts to shut off the gas shall be securely connected with the external mechanism by a direct mechanical connection, made gas tight, where it passes through the valve body, by a stuffing box filled with soft, well-lubricated packing, in accordance with recognized standard practice.

Installation:

8. The valve shall be so installed as to be conspicuously displayed and readily inspected and reset by authorized persons.

Valves shall be located so that condensation will not accumulate in the valves; and shall be installed so that gas will flow through the valve in direction indicated on it.

9. Valves shall be secured in piping by threaded connections or companion flanges. Combustible packing or sheet lead shall not be used between flanges.

10. The gas main at both ends of the valve must be rigid and secure to withstand the pull from the control handle. Additional non-combustible brackets or hangers must be provided, if necessary, to secure and maintain rigid installation.

11. The valve shall be enclosed in a substantial, perforated metal case, conspicuously exposed, painted red, protected by standard lock acceptable to the Fire Prevention Bureau, and shall indicate the name, telephone number and address of installer, to insure prompt service to property owner.

12. Casing of the valve on gas intake shall be kept locked to protect valve from interference and make it accessible only to authorized persons. Perforations, to allow circulation of air around fusible link, shall be provided and so arranged as to prevent tampering with valve when casing is locked.

Control Box:

13. The control handle for the manual closing of the valve shall be in a locked metal control box having a cast iron cover conspicuously labeled with raised letters, painted red.

14. On the outside of the cover or the inside of the control box, in raised or stamped letters, or on a securely fastened metal plate, shall be displayed concise operating directions, together with the name, initials or registered trademark of the manufacturer.

15. The control box must be placed as nearly vertically above the point where the gas main enters the premises as is practicable, when this does not involve excessive length of cable and extra turns, and at a height above the sidewalk or grade, of not less than two (2) feet and not more than five (5) feet. Without special permission, the control box shall not be placed or mounted on basement window frames, or directly above basement windows or other openings, nor shall it be located behind doors or other obstructions which would prevent the Fire Department from having easy access to it.

16. Control boxes must be securely and permanently fastened. Whenever possible, they shall be fastened to a non-combustible wall, pillar or column. They shall be secured by not less than two 3/16 inch bolts or the equivalent. Unless the building is so constructed that the control box must unavoidably be secured to a wooden part, the use of wood screws is not permitted for supporting countersunk control boxes; lag bolts shall be used. When the walls are of masonry or concrete, through bolts, expansion bolts or toggle bolts shall be used. All fastenings must be arranged so that they cannot be loosened except from inside opening of the control box.

17. Control boxes may be set or recessed into the wall to a depth not greater than the depth of the box so that cover is flush with the face of the wall. Control boxes may be mounted directly on the surface of the wall.

18. The control box shall be located on the outside of the building wall, facing the street, whenever possible. When the control box is installed on an alley face of a building, or in a similar place where the control box is subject to injury from passing vehicles, etc., the control box must be thoroughly protected. This may be done by having the control box recessed, marked by waterproof red paint ring and waterproof white paint ring on the wall, or, when such protection is not available, protected by heavy iron channels or angles secured to the wall by through bolts, expansion bolts, or toggle bolts.

Control Handles:

19. Control handles shall be of standard construction, arranged to fit the control boxes so that they may be locked without difficulty, and cable connections shall be securely made in an approved manner, according to the design of the handle.

RULES ADOPTED

Cable:

20. The connection between the valve and control handle shall be as direct as practicable, and shall consist of a single piece of stranded phosphor bronze cable not less than 3/32 inch in diameter. No splices in the cable shall be permitted.

21. It is essential that cable connections to valve and handle be securely made according to the design in each case. The cable may be slightly annealed for making ends, and when cutting the cable, it should be taped and cut through the tape, or a small amount of solder applied where it is to be cut, so as to prevent frayed end.

Conduit:

22. The control cable for the shut-off valve shall be run in galvanized wrought iron or steel pipe or other standard approved conduit not less than 1/2 inch in pipe size. The pipe or conduit line must be water-tight and continuous from the casing enclosing the operating mechanism of the valve to the control box on outside of building. The cable shall not be exposed at any point in its length.

23. All ends of pipe or conduit, not only at valve and control box terminals, but in the run of the piping, shall be carefully reamed so as to remove burrs and fins caused by cutting-off tools, which would interfere with the movement of the cable in the run, or cut, or wear the cable. Unions should not be employed in making joints.

24. Pipe or conduit must be rigidly and permanently secured in position. Pipe straps and hangers of standard forms may be employed for this purpose. In every case supports must be provided at points sufficiently numerous to prevent sagging. Pipe straps (if used) must be of metal of sufficient thickness to insure a permanent fastening and must be thoroughly coated to prevent corrosion.

Bends and Offsets:

25. Bends of small radius or through much of an arc, introduce possibilities of binding of the cable or of an appreciable friction resisting the pull of the cable; therefore, approved roller fittings shall be required wherever the pipe or conduit is bent to a radius of less than 4 inches, or wherever the bend is through an arc exceeding 15 degrees, except as outlined for offsets.

26. When connections to control boxes are made from below, it is frequently necessary to make an offset in the conduit to avoid a water table or other part of a building wall. One offset of not more than 2 inches will be permitted for each installation at such points. The bends in the pipe forming the offsets must be carefully made to avoid cracking the enamel or galvanized coating, or the flattening or cracking of the pipe or conduit. The amount of offset shall not exceed 2 inches and the length of the offset shall not be less than five times the amount of the offset. For example, a 2-inch offset must be at least 10 inches long. Single offsets only shall be permitted. Double offsets are not acceptable.

Roller Fittings:

27. For turns in the conduit greater than those mentioned above, approved roller fittings shall be used. No roller fittings turning more than 90 degrees from a straight line shall be used.

Automatic Control:

28. The fusible link which controls actuation of the valve in the event of direct heat, shall melt at not less than 225 degrees F and shall be so arranged as to in no way interfere with the manual means of shutting off the gas which is controlled by the handle in box placed on the face of the building. Only approved fusible links shall be used. Automatic control shall in no way depend upon electric current for its operation.

Production Tests at Factory:

29. Valves must be tight under the following tests:

(a) Valves shall be mounted in the position in which

they are designed to operate. Normal city gas pressure or equivalent air pressure shall be applied to the inlet side and the valve shall completely shut off the gas or air when closed as in normal operation.

(b) To determine whether the valve shuts off tightly under this test, a tube shall be connected with the outlet side of the valve and the outer end of the tube shall be immersed in water to a depth not exceeding one (1) inch, indicating leakage by bubbles rising through the water from the end of this tube.

(c) Valves, after this test, shall be capable of shutting off ten (10) pounds air pressure applied to the inlet side; to determine whether the valve is tight, the test procedure shall be as indicated in the preceding test.

(d) Valve bodies shall be strong enough to withstand, without leakage, one hundred (100) pounds pressure applied from either end with the other end closed. In this test the entire valve, including the stuffing box, shall be completely immersed in water, so that leakage will be indicated by bubbles rising through the water.

(e) The fusible link connections of each valve shall be carefully tested to avoid prematurely operating the gas shut-off valve through vibration or concussion. The construction of the fusible link connections shall be so designed and made that the automatic feature will not operate through vibration or concussion.

(f) The entire process of manufacture of the valves shall be subject to inspection and review and each valve shall be tested at the factory by a recognized laboratory or agency with facilities for making the test prescribed by the Board of Standards and Appeals, and each valve must bear satisfactory evidence that it has been so tested.

(g) Manufacturers of gas shut-off valves must submit the name or names of said laboratories or agencies to the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions, with satisfactory evidence of their ability and facilities to properly carry out said tests.

(h) Valves and operating mechanism shall be so designed and constructed that they will withstand deteriorating effects or corrosion, as evidenced by operating tests.

Installation and Inspection Tests:

30. a. After shut-off valve is installed, it shall be set and operated to determine that proper closure is secured by operating the control handle. Particular care should be taken to observe that when operating the control handle, no part of the cable or of its attachment to the valve interferes in any way with the positive closure of the valve.

b. After the above test, all gas outlets in the building must be inspected to insure their being closed before the valve shall be set and the gas turned on. Valve and connections shall also be tested for leaks by applying a solution of soap and water to all parts, including connections to gas piping.

c. After the valve has been used to shut off gas, it shall be reset only by authorized corporations, firms or individuals, or by members of the Fire Department.

d. Operating and installation corporations, firms or individuals responsible for the installation of the gas shut-off valves shall permanently maintain properly equipped service stations in each of the boroughs where they install valves.

Gas shut-off valves and installations shall be inspected at least once a year by members of the Fire Department or the Tenement House Department, in their respective jurisdictions, or by corporations, firms or individuals authorized to install gas shut-off valves, as determined by the Fire Commissioner or the Tenement House Commissioner, in their respective jurisdictions.

RULES ADOPTED

EXIT RULES—REVOLVING DOORS.

Adopted, under Cal. No. 842-17-S, Sept. 6, 1917; amended, under Cal. No. 41-19-S, Feb. 11, 1919; under Cal. No. 412-20-S, July 8, 1920, and under Cal. No. 41-19-S, Jan. 8, 1924.

Rule 1. Classification of Revolving Doors. For the purpose of these rules revolving doors shall be classified as follows:

(a) **Type A. "Automatic Collapsible"** in which the individual wings are maintained in the normal revolving position, but which doors are so designed and constructed that in the event of excessive pressure being exerted on the wings, the braces or other devices which hold the wings in their normal position shall be disconnected, thereby permitting easy egress through the vestibule at least equivalent to that provided by a pair of swinging doors having the same width as the vestibule opening.

No revolving doors shall be included in this classification if the pressure necessary to collapse any wing exceeds one hundred and fifty (150) pounds when exerted at a point three (3) inches from the outer edge of the wing, and three (3) feet six (6) inches above the floor, but shall be classified under type B.

(b) **Type B. "Rigid Brace"** in which the individual wings are maintained in the normal revolving position by rigid braces or similar devices, but which doors are so designed and constructed that the braces or other devices which hold the wings in their normal position may be manually released by simple mechanical means, thereby permitting the individual wings to be manually collapsed and so arranged as to permit free egress through the vestibule.

Rule 2. Revolving Doors. Prohibitions. Revolving doors shall be prohibited in exit doorways from assembly halls, asylums, auditoriums, churches, dance halls, hospitals, motion picture theatres, schools, theatres, or from any room or space within a building where more than three hundred (300) persons congregate for purposes of amusement, instruction or worship; except that the main entrance doorway to a hospital or sanitarium may be equipped with either type A or B revolving doors when supplemented by swinging doors not less than three (3) feet eight (8) inches wide at this or other paths of egress.

Rule 3. Revolving Doors—Department Stores. Type A revolving doors hereafter installed shall be accepted in

exit doorways from department stores provided doorways aggregating at least fifty (50) per cent of the legal required width, equipped with swinging doors, are installed, and one or more such outwardly swinging doors are located immediately adjacent to each revolving door. Such swinging doors need not be equipped with handles on the outside, and shall have a minimum clear width of three (3) feet.

Rule 4. Existing Revolving Doors. Except where otherwise prohibited existing Type A revolving doors may be retained as required means of exit in doorways from buildings.

Except where otherwise prohibited existing Type B revolving doors may also be retained as required means of exit in buildings, when, in the opinion of the administrative official having jurisdiction, no dangerous exit condition exists. If, however, such dangerous exit condition is deemed by him to exist, they shall be either replaced by Type A revolving doors, or supplemented by at least one swinging door not less than three (3) feet wide located adjacent to the revolving door, as the administrative official may direct.

Rule 5. New Revolving Doors. In buildings other than assembly halls, asylums, auditoriums, churches, dance halls, department stores, hospitals, motion picture theatres, schools and theatres, coming under the exit provisions of the building code, doorways serving as required exits may hereafter be equipped with Type A revolving doors or with Type B revolving doors, provided such revolving doors, not exceeding three in a unit, shall have an outwardly swinging door at least three (3) feet wide located immediately adjacent thereto.

Rule 6. Revolving Doors—Subway Entrances. Required exit doorways from buildings which serve in addition as a means of subway entrance and exit may be equipped with type A revolving doors, provided doorways of the legal required width equipped with swinging doors are also installed and one or more such outwardly swinging doors are located adjacent to each revolving door.

Rule 7. Saving Clause. But nothing in these rules shall prevent the installation on the exit doors from a bank, trust company, jewelry store, or any store devoted to a single similar use, of a locking device which may be operated by electricity or other means from the interior of the building, to be used only in an emergency.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

RULES ADOPTED

AMENDMENTS TO FUEL OIL RULES. CONSTRUCTION AND INSTALLATION OF OIL BURNING EQUIPMENT AND STORAGE AND USE OF OIL IN CONNECTION THEREWITH. ADOPTED BY THE BOARD OF STANDARDS AND APPEALS, JAN. 18, 1924.

Rule 1. Definition.

The term "fuel oil" under these rules includes any liquid or mobile mixture, substance or compound derived from or including petroleum, which does not emit an inflammable vapor below a temperature of one hundred and thirty-five (135) degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester; and such oil shall be classified as either Grade A Fuel Oil or Grade B Fuel Oil.

(a) Grade A Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flashpoint of not less than one hundred and fifty (150) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

(b) Grade B Fuel Oil Shall Include:

All oil used for fuel purposes under these rules which shall show a minimum flash point of not less than one hundred and thirty-five (135) degrees Fahrenheit when tested in a Tagliabue or Pensky-Martens closed cup tester.

GRADE A FUEL OIL.

Rule 2. Manner of Storage for Grade A Fuel Oil.

Fuel oil, to be used for commercial, heating and power purposes, shall be at all times contained in metal tanks with all openings or connections through the tops of the tanks.

Rule 3. General Location of Tanks for Grade A Fuel Oil.

(a) In all buildings fuel oil storage tanks shall be buried below the floor of the lowest story or, if in the judgment of the Superintendent of Buildings the burial of tanks is not practicable by reason of soil, foundation or structural conditions, the tanks may be placed in the lowest story, subject to the requirements hereinafter set forth.

(b) Along the line of subways no tank shall be placed within twenty (20) feet of wall separating building from subway and, if practical, tanks shall be placed in a lower position than the roadbed of subway.

Rule 4. Location and Capacity of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings Above Ground.

(a) Where tanks cannot be buried and are located in the lowest story of any building, they shall be placed in an enclosure, the walls, floor and roof of which shall be constructed of reinforced concrete not less than eight (8) inches in thickness, or of twelve (12) inches of masonry and of dimensions six (6) inches greater on all sides than the outside dimensions of the tank.

(b) The walls of the enclosure shall be carried up to a height not less than one (1) foot above the tank and roofed over with reinforced concrete or similar fireproof construction capable of sustaining a load of three hundred (300) pounds per square foot.

(c) The roof of every enclosure shall contain a manhole with fireproof cover properly weighted, but not fastened, placed immediately above the manhole in the top of the tank.

(d) A space of at least two (2) feet shall be maintained between the top of the roof of the enclosure and the ceiling immediately above.

(e) The space surrounding the tank formed by the enclosure walls and roof shall be completely filled with dry upland sand or earth well tamped.

(f) Not more than one tank shall be placed in an enclosure.

(g) In non-fireproof or frame buildings the total storage capacity of tanks shall not exceed five thousand (5,000) gallons, except as stated in subdivision "h."

(h) In any building, if tanks properly enclosed or covered as above required are located in a fireproof or detached room which is cut off from the rest of the building vertically and horizontally in an approved manner and if such room is adequately ventilated to the outside air, the total storage capacity shall not exceed fifty thousand (50,000) gallons, with an individual tank capacity of not exceeding twenty thousand (20,000) gallons.

Section 2. Inside Buildings Below Ground.

(a) When a tank is buried below a building its capacity may be increased one hundred (100) per cent above that allowed for an inside tank as established in connection with buildings of such construction as specified in Rule 4, Section 1 (g) and (h).

(b) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(c) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

Section 3. Outside of Buildings Above Ground.

(a) Where vertical tanks of one hundred and fifty thousand (150,000) gallons capacity or less are located outside of buildings and placed above ground, the tanks shall be not less than one and one-fourth ($1\frac{1}{4}$) tank diameters, and in no case less than ten (10) feet, from the line of adjoining property, or the nearest building or adjacent tank.

(b) Where horizontal tanks are located outside of buildings and placed above grounds, the tanks shall be not less than one and one-quarter ($1\frac{1}{4}$) tank diameters measured from the end of the tanks and not less than two (2) tank diameters measured from the side of the tanks, and in no case less than ten (10) feet from the line of adjoining property, or the nearest building or adjacent tank.

(c) Where existing outside above ground storage tanks have been placed closer together than one and one-quarter ($1\frac{1}{4}$) tank diameters, a fire wall shall be built to a height of at least two (2) feet above the height of the highest tank completely separating the tanks for their full diameters or lengths.

(d) Tanks placed above ground shall be set on firm foundations and, if elevated, their supports shall be constructed of fireproof materials. All tanks shall be electrically grounded.

Section 4. Outside of Buildings Below Ground.

(a) Tanks shall be buried underground below the level of any piping to which they may be connected, with the tops of the tanks not less than two (2) feet below the surface of the ground; or, in lieu of the two (2) foot cover of earth, tanks may be buried under twelve (12) inches of earth, well tamped, covered by at least six (6) inches of concrete, which shall extend at least one foot beyond the horizontal outline of tanks in all directions. Where necessary to prevent floating, tanks shall be securely anchored.

(b) Tanks shall be set on concrete or metal cradles which shall be placed on a firm foundation and surrounded with soft earth or sand well tamped. Tanks shall be completely encased with six (6) inches of concrete where soil conditions require.

RULES ADOPTED

Rule 5. Material and Construction of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Cylindrical Tanks (except vertical tanks located outside of Buildings above Ground).

(a) All tanks for the storage of fuel oil shall be built of steel plates made by the Open Hearth Process and known to the trade as "Tank Steel." Same shall be free from physical imperfections, such as, laminations, cracks, etc. All steel must be new, in good condition and free from rust. The thickness of steel required and the size and spacing of rivets shall be as stated in the table given below.

(b) All tanks must be welded, riveted and caulked, or riveted and welded. Flanges or other pipe connections may be welded. All caulking shall be done with round nose tools and without injury to the plates.

(c) Thickness of cylindrical tanks.
Tanks 36 in. in diameter and less— $\frac{1}{4}$ in. shell, $\frac{1}{4}$ in. heads.

Tanks 37 to 72 in. in diameter— $\frac{1}{4}$ in. shell, 5-16 in. heads.

Tanks 73 to 120 in. in diameter—5/16 in. shell, $\frac{3}{8}$ in. heads.

Tanks over 120 inches in diameter to be of $\frac{3}{8}$ in. steel and to be stiffened by angle rings or equivalent members so as to retain their cylindrical form.

(d) All cylindrical tanks shall preferably be built with dished heads. Should the owner desire to use flat heads, these flat heads must be braced in the same manner as described for the bracing of flat sides of rectangular tanks.

(e) Diameter and Spacing of Rivets.
Riveting in single lap seams shall not exceed a pitch as follows:

In shell $\frac{1}{4}$ in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{1}{4}$ in. pitch.
In shell 5-16 in. thick, $\frac{5}{8}$ in. diameter rivets $2\frac{3}{8}$ in. pitch.

In shell $\frac{3}{8}$ in. thick, $\frac{3}{4}$ in. diameter rivets $2\frac{1}{2}$ in. pitch.

Section 2. Rectangular Tanks.

(a) All rectangular tanks shall be built of steel plates of the quality before mentioned for cylindrical tanks, and of a thickness of not less than 5-16 of an inch.

(b) Corners may be made up by bending the plates or by the use of angles at the builder's option.

(c) Rivets in seams shall be $\frac{5}{8}$ of an inch in diameter and spaced not more than $2\frac{1}{4}$ inches center to center.

(d) All flat surfaces of rectangular tanks are to be braced. Bracing shall be done either by using structural members, which will act as girders and which will safely carry the load with a factor of safety of five (5), or by using bars from side to side, end to end and top to bottom of the tank, as the case may be.

(e) When structural members are used, such as angles, channels or beams, etc., the distance from center to center of the rivet lines on these members must not be in excess of twenty-four inches, and the rivet spacing must be such that it will develop the full strength of the member. In no case shall the rivets be in excess of six (6) inches center to center on these members.

(f) When structural reinforcing members are tied together with braces, in order to reduce the effective length, the braces shall not be stressed higher than nine thousand (9,000) pounds per square inch taken on the minimum net section.

(g) If structural members are omitted and the sides of the tank are braced entirely by means of rods or bars, these members should not be spaced greater than twenty-four (24) inches center to center in all directions. The unit stress permitted in these members shall not be in excess of nine thousand (9,000) pounds per square inch taken in the minimum net section.

(h) The fastening between these members and the sides of the tank must in all cases be such that it will develop the full net sections of the bars; in other words, the bar will break before the connection will let go.

Section 3. Vertical Storage Tanks Located Outside of Buildings Above Ground.

(a) Vertical tanks located outside of buildings above ground shall be built of steel plates of the quality before mentioned for cylindrical tanks.

(b) The minimum thickness of shell or bottom plates shall be $\frac{1}{4}$ inch and the minimum thickness of roof plates $\frac{1}{8}$ inch.

The thickness of shell plates shall be figured in accordance with the following formula:

$$t \text{ equals } \frac{P \times r \times F}{T \times E}$$

P equals head pressure at bottom of ring under consideration.

r equals radius of shell in inches.

F equals factor of safety (taken as 5).

T equals tensile strength of plate in pounds per square inch (55,000 pounds per square inch).

E equals efficiency of vertical joint in ring under consideration (calculations to be based on formulas as given in Bulletin No. 14 of the New York State Industrial Commission).

(c) Roof plates shall have single riveted water tight seams and the roof shall be built to shed water. Bottom plates shall have single lap riveted seams. Shell plate seams shall be designed, with proper efficiency to meet requirements in above formula for shell plates.

(d) In all cases, steel tanks for the storage of fuel oil must be built metal to metal. No filler of any kind will be permitted.

Section 4. Welding.

(a) Where welding is to be used for a part or for the entire tank, the tank shall be fabricated as required under Rule 5.

(b) All welded seams of plates shall be lapped or butted.

When the joint is a lapped joint, the sheet shall be lapped not less than two inches and welded both inside and outside. The plates shall be pulled up tight metal to metal before welding and kept tight together during welding. Both inside and outside welds shall be of full 45 degree fillet.

Where a butt joint is used, it shall be of the 90 deg. double V type welded both inside and outside and reinforced to a total thickness of at least one and one-half times the plate thickness.

(c) All heads shall be flanged, the straight part of the flange being not less than as follows:

For 3/16 inch heads, $1\frac{3}{4}$ inch flange.

For $\frac{1}{4}$ inch heads, 2 inch flange.

For 5/16 inch heads, 2 inch flange.

For $\frac{3}{8}$ inch heads, $2\frac{1}{4}$ inch flange.

For heads over 120 inches diameter the flange shall be increased in length by one-half inch for each increase in diameter of 2 feet.

Where heads are set into the shell, they shall be a driving fit and the shell shall fit the head closely all around. If of over 1,100 gallon capacity they shall be welded inside and outside with full fillet welds. If of 1,100 gallon capacity or less and not over 48 inches in diameter, welding on the outside only will be sufficient.

Where the heads are butt welded to the shell, the head welds for tanks of 1,100 gallon capacity or less and not over 48 inches in diameter, shall be of the 90 deg. single V type welded entirely through and reinforced not more than one-quarter of the shell thickness. For tanks of over 1,100 gallon capacity the head welds shall be of the 90 deg. double V type welded inside and out and rein-

RULES ADOPTED

forced to a total thickness of not less than one and one-half times the shell thickness.

(d) Where tanks are made up of two or more rings the welded longitudinal joints of adjacent sections shall break joints. At no point of a butt girth joint shall the sheet on one side be offset with the sheet on the other side in excess of one-half of the thickness of the plate. All butt girth joints shall be welded inside and out and reinforced to at least one and one-half times the plate thickness, except that for tanks of 1,100 gallon capacity or less and not over 48 inches diameter, in which they may be of the same construction as the head seams.

(e) Where braces are welded to the plates the welding shall be done in such a manner as to develop the full net sections of the braces; in other words, the brace will break before the connection will let go.

Braces made in more than one piece shall not be joined together by any method of welding.

Section 5. Rust Proofing.

All tanks shall be thoroughly coated on the outside with tar asphaltum or other suitable rust resisting material. Where soil contains corrosive substances, special protection may be required. Tanks shall not be coated until after the necessary tests have been made.

Section 6. Venting of Tanks.

All tanks shall be vented. (See Rule 8, Section 6, for installation of vent pipes.)

Section 7. Manhole Covers.

Manhole covers shall be of cast iron, cast steel or of the same material as used in the construction of the tanks. On tanks placed inside buildings, the manhole shall be bolted or otherwise secured to the tank and made gas tight. All tanks over 1100 gallons capacity shall be provided with a manhole of at least 11 in. by 16 in.

Rule 6. Enclosure and Protection of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Embankments and Dikes.

(a) Above ground storage tanks shall be protected by an embankment or a dike. Such protection shall have a capacity of not less than one and one-half ($1\frac{1}{2}$) times the capacity of the tank so surrounded, and shall be at least four (4) feet high, but in no case higher than one-fourth ($\frac{1}{4}$) the height of the tank when the height of the tank exceeds sixteen (16) feet. Embankments or dikes shall be made of earth-work with clay core; masonry or impervious reinforced concrete. Earthwork embankments shall be firmly and compactly built of good earth from which stones, vegetable matter, etc., have been removed, and shall have a flat section at top of not less than three (3) feet and a slope of at least one and one-half ($1\frac{1}{2}$) to one (1) on both sides. Concrete or masonry dikes shall be so designed as to safely carry the entire volume of the oil in the tank so surrounded.

(b) Embankments or dikes shall be continuous and unpierced. Piping shall be carried either over or under embankments or dikes in such a manner as not to interfere with the efficiency of the enclosure.

Section 2. Fire Extinguishing Equipment.

(a) Every tank with a capacity of over five thousand (5,000) gallons inside of buildings and ten thousand (10,000) gallons outside of buildings shall be equipped with a system of steam pipes, blanket gas or other approved system for use in case of fire, so arranged and installed as to adequately protect the buildings or surrounding property.

(b) When steam is used, the steam supply pipe shall not be less than one-half ($\frac{1}{2}$) inch in size. The boilers shall be conveniently located, and the steam to the extinguisher lines shall be controlled by easily accessible valves.

(c) Near each boiler of fuel oil burning unit, there shall be kept ready for use, a hand fire extinguisher of

not less than two (2) quarts capacity suitable for extinguishing oil fires.

Rule 7. Tests of Tanks for the Storage of Grade A Fuel Oil.

Section 1. Inside of Buildings or Outside Below Ground.

(a) All tanks located inside of buildings, either on or below the lowest floor level, and outside buried tanks, shall withstand after being set in place, a hydrostatic test for at least thirty (30) minutes and shall show no leaks.

(b) The hydrostatic pressure on a tank shall be determined by measuring in feet the height from the lowest point in the tank to the highest oil reservoir from which the tank may be filled. This distance divided by 2.3 will give the equivalent pressure in pounds per square inch at the bottom of the tank. The hydrostatic test pressure shall be not less than thirty (30) pounds per square inch for welded tanks, nor less than twenty-five (25) pounds per square inch for riveted tanks.

Section 2. Horizontal Tanks Outside Above Ground.

Horizontal tanks outside of buildings and above ground shall stand, without leaking, a hydrostatic test of twenty-five (25) pounds per square inch for at least thirty (30) minutes and shall show no leaks.

Section 3. Vertical Tanks Outside of Buildings Above Ground.

Vertical tanks designed for outside above ground storage, having a cover of lighter material than that of the sides of the tank, shall withstand without leaking a head of water equal to that of the depth of the tank.

Section 4. Test for Tanks.

(a) Tests shall be conducted in the presence of a representative of the Fire Commissioner. The contractor shall furnish all the equipment necessary for conducting the tests. Access to the inside and outside of tanks shall be maintained until the necessary tests are completed.

(b) Welded tanks shall, while under the hydrostatic test as hereinbefore specified, be subjected to a thorough hammer or impact test. The test shall consist of striking the sheet on both sides of the welded seam a sharp, vibratory blow with a 2 to 6 lb. hammer, the blows to be struck 2 to 3 inches apart and within 2 to 3 inches of, and on each side of, the seam, the blows to be as rapid as a man can conveniently strike a sharp, swinging blow, and as hard as can be struck without indenting or distorting the metal of the sheet.

Rule 8. Piping for Grade A Fuel Oil.

Section 1. Installation of Piping.

(a) Piping shall be run as directly as possible, without sags, and, except as provided in Rule 11-e, shall be laid so that where practicable pipes shall pitch toward the supply tank without traps; provision shall be made for expansion, contraction, jarring and vibration.

(b) Cross connections permitting gravity flow from one tank to another shall be prohibited.

(c) Pipes conveying oil, if laid inside of a building, shall be either buried or exposed to view. Where piping is exposed, it shall be easily accessible for inspection at all times and protected against injury. Exposed piping shall be hung or supported on fireproof materials to prevent falling in case of fire.

(d) Pipes laid below ground or subject to corrosion shall be protected.

Section 2. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel for working pressures less than one hundred (100) pounds; for working pressures in excess of one hundred (100) pounds, extra heavy seamless drawn tubing and drop forged fittings shall be used. No pipe less than one-half ($\frac{1}{2}$) inch inside diameter shall be permitted.

RULES ADOPTED

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire resisting materials. Hose shall be no longer than necessary.

Section 3. Tests for Piping.

Piping for systems with working pressures under one hundred (100) pounds, after installation, shall be tested and proven tight at a hydrostatic pressure of not less than one hundred and fifty (150) pounds per square inch; where working pressure exceeds one hundred (100) pounds, piping shall be tested and proven tight at a hydrostatic pressure of not less than one and one-half ($1\frac{1}{2}$) times the maximum working pressure. The maximum working pressure shall be noted on the plans. Tests shall continue for thirty (30) minutes.

Section 4. Relief Valves.

(a) All piping or heaters which can be separated from the source of supply and in which a dangerous pressure can be generated either by the action of the pump or by steam, shall be protected by an automatic pressure relief valve. Such automatic pressure relief valve shall discharge into the storage tank, or into the suction line provided there are no shut off valves in the suction line between the pressure relief valve discharge connection and the storage tank. No valves shall be installed in the safety valve lines. Automatic pressure relief valves shall be not less than $\frac{1}{2}$ in. by $\frac{1}{2}$ in., of the spring type with working parts of non-corrosive construction and shall be set to discharge at not more than fifty (50) per cent above the maximum working pressure.

(b) An automatic by-pass valve of size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut-off valve. The automatic by-pass valve shall discharge into the suction line near the pump, or into the storage tank as described in the preceding paragraph. The automatic by-pass valve shall be constructed as described in the preceding paragraph with the exception that the setting mechanism shall be so designed as to prevent the complete closing of the valve.

Section 5. Fill Pipes.

(a) Each fuel oil tank shall be provided with a separate fill pipe. Fill pipes when installed near any building opening shall be as remote therefrom as practicable so as to prevent liability of flow of oil or vapor through building opening.

(b) The receiver terminal of each fill pipe shall be located in a tight metal box or casing provided with means for locking. The delivery terminal shall be connected through the top of the tank.

(c) Fill pipe shall be provided with a trap or seal or carried within four (4) inches of the lowest point in the tank.

(d) Fill pipes shall be made up with screwed or flanged fittings and shall be oil tight and securely held in place.

Section 6. Vent Pipes.

(a) An open, galvanized iron vent pipe without trap and draining to the tank shall be provided for each tank. The lower end of the vent pipe shall not extend through the top of the tank more than one inch.

(b) Where a battery of tanks designed to hold the same class of liquids is installed, vent pipes may be run into a main header. Connections to the header shall not be less than one foot above the level of the top of the highest reservoir from which the tanks may be filled. The main vent pipe from the header shall be screened. The main vent pipe and header shall be of an area equal to the aggregate area of vent pipes connected thereto.

(c) Vent openings shall be screened by 40 mesh non-corrodible wire screen, and shall be of sufficient area to adequately vent the tank during the filling operation. Vents shall be not less than two (2) inches in diameter for tanks over 1100 gallons capacity, and in no case less than one and one-quarter ($1\frac{1}{4}$) inches in diameter.

(d) Vent pipes shall be provided with weather proof hoods and terminate outside the building above the street surface, not less than six (6) feet nor more than twelve (12) feet above the fill pipe. Such vent outlet shall not be located within three (3) feet in any direction of a window or other opening, or an exterior stairway, or fire escape, nor shall vent pipes be placed in elevator or dumb-waiter shafts, or in an enclosed court.

(e) If compelled, because of structural conditions to carry the vent outlet higher than twelve (12) feet above the fill box, and if the fill lines are connected to tank trucks by tight connections and filled by pressure a one (1) inch line shall be connected to tank and shall parallel the fill line and terminate in the fill box with unthreaded end. A check valve shall be installed in the line so as to permit excess oil in the tank to flow to the fill box and shall be so set as to prevent the passage of vapor to the street.

Section 7. Return Pipes from Burners.

Return lines from burners, where necessary shall be not less than the diameter of the supply line to the burner. Return lines shall be run as direct as possible and shall be connected into the suction line near the pump or into the storage tank. No oil shall be returned to the storage tank at a temperature higher than one hundred and forty (140) degrees Fahrenheit.

Section 8. Heating Coils in Tanks.

All heating to reduce viscosity of Grade A fuel oil in storage tanks in any building shall be only by means of hot water coils thermostatically controlled and the oil shall not be heated above one hundred and forty (140) degrees Fahrenheit.

Rule 9. Valves and Control of Flow for Grade A Fuel Oil.

(a) Control valves at the burners shall be of a substantial type, provided with a stuffing box of liberal size containing a removable cupped gland designed to compress the packing against the valve stem and so arranged as to facilitate removal. Valves shall be designed to close against the supply and to prevent withdrawal of the stems by continued operation of the hand-wheel. The use of packing which may be affected by oil or heat is prohibited.

(b) A shut-off valve shall be provided in discharge and suction lines near each pump; in discharge line from each tank as near the tank as practicable, and in branch line near each burner.

Rule 10. Oil Level Indicating Device for Grade A Fuel Oil.

A test well or gauging device shall be installed and designed as to prevent the escape of oil or vapor within the building at any time. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 11. Pumps for Grade A Fuel Oil.

(a) Pumps shall be of a recognized standard mechanical construction approved by the Board of Standards and Appeals.

(b) Pumps shall be installed in duplicate where fire protection equipment is dependent on the use of fuel oil for heating or steam.

(c) Pumps located in the same room where burners are installed shall be provided with a remote control.

(d) Pumps used in connection with outside above ground storage tanks shall be located outside embankment walls, and at such a point that they will be accessible at all times, even if the oil in the tank or reservoir should be on fire.

RULES ADOPTED

(e) Pumps may be located below the top of the oil storage tank or tanks where heavy oil is used having a gravity of not more than eighteen (18) degrees Beaume and where the top of the tank or tanks is not more than ten (10) feet above the pump or pumps.

Rule 12. Burners for Grade A Fuel Oil.

The burner mechanism shall be of a recognized type approved by the Board of Standards and Appeals.

Rule 13. General Devices for Grade A Fuel Oil.

(a) Devices which are subject to breakage and escape of oil shall be prohibited.

(b) Thermometers with large clear reading scales, placed in thermometer walls with screwed top connections, shall be installed at convenient and prominent positions in the oil supply pipe lines between the service tank and the pumps, and also between the pumps and the burner, to indicate the temperature of the oil.

Rule 14. Instruction Cards.

Cards giving complete instructions for the care and operation of the fuel oil system shall be permanently fixed near the apparatus and maintained in readable condition.

Rule 15. Operation of Plant Using Grade A Fuel Oil.

No fuel oil burning plant shall be operated unless in charge of a person holding a certificate of qualification from the Police Commissioner. A certificate of qualification will be required of each person who is directly in charge of the operation of the plant during each shift.

Rule 16. Installation.

No fuel oil system shall be operated or oil placed in the system until after a permit has been issued by the Fire Commissioner. Plans for each fuel oil system shall be submitted to the Fire Commissioner, together with a Certificate of the Superintendent of Buildings indicating that the proposed construction of the enclosure and the location of the tanks is in accordance with the requirements of the Building Code and these Rules.

Rule 17. Systems Prohibited Where Grade A Fuel Oil Is Used.

Systems fed by gravity or force systems are prohibited.

GRADE B FUEL OIL.

Rule 18. Manner of Storage for Grade B Fuel Oil.

Fuel oil to be used for domestic heating purposes where stored, shall be at all times contained in closed metal tanks.

Rule 19. Location and Capacity of Tanks for the Storage of Grade B Fuel Oil.

1. Location.

(a) Storage tanks shall preferably be buried either outside of a building or below the lowest floor level. When located inside of a building and on the lowest floor level, the aggregate capacity of such storage tanks shall not exceed 200 gallons. Such inside storage tank shall be enclosed in 4 inches of terra cotta or 8 inches of approved masonry.

(b) Tanks shall be buried with top of tanks not less than 2 feet below the surface of the ground and below the level of any piping to which the tanks may be connected, except that, in lieu of the 2-foot earth cover, tanks may be buried under 12 inches of earth and a cover of re-inforced concrete at least 6 inches in thickness extending at least one foot beyond the horizontal outline of tank in all directions; concrete slab to be set on a firm, well-tamped earth foundation.

(c) Tanks shall be set on a firm foundation and surrounded with soft earth or sand well tamped in place. Tanks shall be completely encased with six (6) inches of concrete, where soil conditions require.

2. Capacity.

The total storage capacity shall not exceed 1,100 gallons.

Rule 20. Material and Construction of Tanks for Grade B Fuel Oil.

(a) Tanks shall be constructed in accordance with the requirements of Rule 5, except that tanks of a capacity of over 60 gallons and not more than 550 gallons may be constructed of steel not less than 3/16 inches in thickness.

(b) Auxiliary supply tanks of 60 gallons or less capacity may be constructed of brass, copper, steel or wrought iron of not less than No. 14 U. S. Gauge.

Rule 21. Tests of Tanks for the Storage of Grade B Fuel Oil.

All storage tanks located inside of buildings, either on or below the lowest floor level, or outside buried tanks, shall withstand a hydrostatic test for at least 30 minutes, of not less than twenty-five (25) pounds per square inch and shall show no leaks.

Rule 22. Auxiliary Tanks for Grade B Fuel Oil.

(a) Auxiliary supply tanks may be of the gravity type if suitable automatic safeguards to prevent abnormal discharge of oil at the burner are provided. The total capacity of such tank or tanks in any building shall not exceed 60 gallons.

(b) Auxiliary supply tanks, or storage tanks shall not be located within ten (10) feet of any fire or flame and where practicable shall be placed at an interior angle of the cellar, formed by the walls of the building.

(c) Auxiliary supply tanks shall be substantially and rigidly supported on metal frame or cradle and secured by 2x1/8-inch straps riveted or bolted to frame and securely fastened to wall of building by rigid metal braces.

Rule 23. Oil Level Indicating Device for Grade B Fuel Oil.

Gauging devices or test wells, the breakage of which would permit the escape of oil or vapor within the building, shall be prohibited. The top of the well when located outside of a building shall be sealed and kept locked when not in use.

Rule 24. Pumps for Grade B Fuel Oil.

(a) Oil pumps used for supplying oil to the burners shall be rigidly fastened in place and secure against leaks.

(b) Pumps shall be of approved design as described in Rule 11 (a).

Rule 25. Piping for Grade B Fuel Oil.

Section 1. Type and Material.

(a) All piping shall be of standard full weight brass, wrought iron or steel. Supply pipe shall be not less than one-fourth (1/4) inch in diameter, iron pipe size.

All piping shall be buried so far as it is practicable.

(b) All connections shall be tight and shall have well-fitted joints.

(c) Hose and couplings, where used in connection with mechanical burners, shall be capable of withstanding a pressure equal to the piping to which it is connected and shall be constructed of fire retarding materials. Hose shall be no longer than necessary.

Section 2. Tests.

All piping after installation shall be tested and proven tight at a hydrostatic pressure of one hundred (100) pounds per square inch.

Section 3. Fill Pipes.

See Rule 8, Section 5—(a), (b), (c) and (d).

Section 4. Vent Pipes.

See Rule 8, Section 6—(a), (b), (c), (d) and (e).

Section 5. Overflow Pipes from Burners and Auxiliary Tanks.

Overflow pipes shall be not less than one size larger than supply pipe.

RULES ADOPTED

Rule 26. Valves and Control of Flow for Grade B Fuel Oil.

(a) Readily accessible valves shall be provided near each burner and in the discharge line from each storage tank.

(b) See Rule 9 (a) for construction of valves.

(c) A remote control for shutting off the supply of oil to the burners shall be provided.

(d) An automatic by-pass valve of a size equivalent to that of the discharge line shall be installed between each pump and the first discharge shut off valve. The automatic by-pass valve shall discharge into the suction line near the pump or into the storage tank. The automatic by-pass valve shall be constructed of non-corrosive materials and so designed as to prevent the complete closing of the valve. Automatic by-pass valves shall be set at not more than fifty (50) per cent above the maximum working pressure.

Rule 27. Burners for Grade B Fuel Oil.

Burners shall be of a recognized standard type approved by the Board of Standards and Appeals and shall be equipped with an overflow attachment so arranged as to shut off the flow of oil to prevent flooding.

Rule 28. Pilot Light.

Automatic systems shall be so designed that the flame cannot be extinguished by operation of the automatic control valve. A pilot light of adequate intensity shall be provided in each combustion chamber, so arranged as not be easily extinguished.

Rule 29. Furnaces and Ranges.

(a) Stoves, ranges, hot air furnaces or other devices, originally designed for use of fuel other than oil, shall not be used in connection with oil burners unless spaces in which vapors might collect are adequately vented, and if used shall be of such construction as to withstand the maximum temperature of which the oil burning device to be installed is capable.

(b) No damper for closing of more than eighty (80) per cent of the effective area of the flue shall be permitted in a smoke pipe or flue.

Rule 30. Fire Protection.

(a) No combustible material shall be stored within ten (10) feet of a furnace door.

(b) Any woodwork, wooden lath and plaster partition, or other combustible material within four (4) feet of the sides or back or eight (8) feet from the front of the furnace shall be covered with approved plaster board or other approved incombustible material. Above the furnace there shall be constructed a ceiling consisting of plaster board covered with 26 U. S. gauge sheet metal, or three-fourths (3/4) of an inch of Portland cement plaster on metal lath; said ceiling shall extend four (4) feet beyond the sides and back and eight (8) feet from the front.

(c) Near the furnace, and so located as to be convenient for use in emergency, there shall be provided

a hand fire extinguisher of an approved type suitable for use on oil fires.

Rule 31. Instruction Cards.

See Rule 14.

Rule 32. Installation.

See Rule 16.

Rule 33. Where the Use of Grade B Fuel Oil Is Permitted.

Grade B Fuel Oil, within the meaning of these rules, shall be used for domestic heating in buildings occupied by not more than two (2) families. If used in buildings occupied by more than two families or in commercial plants, a Certificate of Qualification will be required as per Rule 15. And for buildings occupied by more than two families or in commercial plants the room or rooms in which the oil conveying piping and equipment is installed shall be cut off from the rest of the building by fireproof partitions, ceilings and floors constructed of not less than eight (8) inches for brick, not less than six (6) inches for stone or cinder concrete, or hollow blocks of terra-cotta, concrete or gypsum, and not less than four (4) inches for stone or cinder concrete if properly reinforced with steel and such rooms shall have direct entrance from the street only, and shall be adequately ventilated direct to the outer air.

Rule 34. Systems Prohibited Where Grade B Fuel Oil Is Used.

The use of auxiliary tanks between pump and burner of the pressure type are prohibited. Systems, fed by gravity between the storage tank and the pump, or force systems, are prohibited.

Rule 35. Use of Grade A or Grade B Fuel Oil.

(a) No person, firm, company or corporation shall within the limits of the City of New York use any device or apparatus for burning Grade B fuel oil within the meaning of these rules unless such device or apparatus shall have been approved by the Board of Standards and Appeals.

(b) These Rules shall not apply to gas companies in the storage or use of fuel oil in the manufacture of illuminating gas for public use.

(c) Oils derived from or including petroleum that have a flash-point below a temperature of 135 degrees Fahrenheit, when tested in a Tagliabue or Pensky-Martens closed cup tester, shall not be used as a fuel to produce heat or light.

The use of oil stoves, oil heaters or oil lamps commonly used for household purposes which employ a wick to absorb such oil in its combustion shall not be prohibited; or shall the use of such oil be prohibited when used in a plumber's torch or similar apparatus.

(d) These Rules shall take effect immediately.

 95-24-SA—Leiman Oil Pump, approval of.
 141-24-SA—Edwards A. C. Control Panel for interior
 alarm system, approval of.
 62-24-SA—Kleen-Heet Oil Burner, approval of.

*Cases listed in the Reserve Calendar are cases upon
 which action by the board has been deferred pending com-
 mittee reports, of this board, court or departmental actions,
 and will remain thereon until the aforesaid reports, court
 or departmental actions are consummated. Whereupon the
 case or cases will be restored to the regular calendar and
 due notice of the date set for hearing will be mailed to the
 appellant, applicant or petitioner of record.*

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.

Call of Clerk's Calendar.

The Trial Calendar.

Notices in Building Zone Cases.

Minutes of Meeting, Board of Appeals, April 8, 1924.

Minutes of Meeting, Board of Standards and Appeals, April 8, 1924.

Notices of Public Hearings.

First Quarterly Report.

Progress Report.

.DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, April 15, 1924*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, April 22, 1924*, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

CALENDAR

DOCKET.

THE RESOLUTION:

(1000-23-A)

WHEREAS, Morris U. Ely and Jos. Diehl Fackenthal, receivers for the Central Metal Products Corp., owner, filed, August 11, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises Second avenue and 9th street, College Point, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated July 16, 1923, No. 47816-F, reads:

"1. Install a standpipe system with risers 4 inches in diameter * * *";

and

WHEREAS, the building is a one-story frame structure, separated into two portions, 59 ft. 9 in. by 197 ft. (11,780 sq. ft.) in area and 137 ft. 3 in. by 197 ft. (27,000 sq. ft.) in area, by an 8 in. fire wall with approved doors at openings; OCCUPIED for the manufacture of steel products, 110 employees; and

WHEREAS, appellant contends that the only combustible material used in the premises are paints and carbides which are kept in the small section of the building, and that fire extinguishers and pails of sand and water are located throughout the building.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the present fire extinguishing equipment be maintained and the occupancy and use remain otherwise unchanged.

1498-23-A.

APPELLANT—Croker National Fire Prev. Engineering Co., for Rapid Addressing Machine Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

MINUTES

PREMISES AFFECTED—32-46 West 23rd street, Manhattan.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE RESOLUTION:

(1498-23-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Rapid Addressing Machine Co., lessee, filed, December 18, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 32-46 West 23rd street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 21388-LC, dated November 24, 1923, reads as follows:

"2. Reduce stock of nitro-cellulose to less than forty (40) pounds * * *.

"7. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering.

"8. Provide suitable guards around radiators and steam pipes to prevent combustible material from coming in contact therewith.

"9. Bottom of guard shall be arranged so as to lift up for cleaning.";

and

WHEREAS, the building is fireproof, equipped with a sprinkler and standpipe system, six stories in height, 174 ft. 9½ in. by 197 ft. 6 in. in area. OCCUPIED: 1st floor, stores, 60 persons; 2nd floor, dry goods jobbing, 20 persons; 3rd floor, Rapid Addressing Co. (appellant), 250 persons; 4th floor, clothing mfrs. and Rapid Addressing (appellant), 95 persons; 5th floor, Tiffany Studios, 40 persons; 6th floor, mfg. upholstery, 40 persons; roof penthouse, mfg. upholstery, 10 persons; and

WHEREAS, appellant proposes to install an approved sprinklered cabinet, vented to outer air, for storage of celluloid, and contends it would be a hardship to cover the pipes and radiators.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the nitro-cellulose stock be limited to not more than 40 pounds of sheet celluloid, subject to further working; maintained and stored in approved metal cabinet, vented to outer air and equipped with sprinkler head; and that this occupancy be limited to 4th floor for the process of operation described in application.

THE RESOLUTION:

(1544-23-A)

WHEREAS, Samuel Rosenblum, for Maitland F. Griggs, owner, filed, December 27, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 154 East 70th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated December 7, 1923, in acting on Order No. 21603-LC, reads:

"1. The use of the third story above the garage for dwelling purposes must be discontinued * * *.";

and

WHEREAS, the building is non-fireproof, four stories in height, 40 ft. by 85 ft. in area. OCCUPIED: 1st story, private garage, 2 cars, and dwelling of owner above; and

WHEREAS, appellant contends that the garage is separated from the rest of the building by fireproof construction, with self-closing doors at the openings, kalameined at the garage side, and also that there is no gasoline storage system on the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the garage capacity be limited to two (2) automobiles of the pleasure car type, the property of the owner, living on the premises; that the garage portion shall be entirely enclosed in fireproof walls, ceiling and floors, any openings therein to be equipped with self-closing, fireproof doors; that there shall be no gasoline storage equipment maintained on the premises; that a self-closing, fireproof door shall be provided in the southerly partition of the room marked "Chauffeur's Room" on plan, located on 1st story, providing two means of egress therefrom.

THE RESOLUTION:

(80-24-A)

WHEREAS, H. L. Martin, for Sheffield Farms Co., Inc., lessee, filed, January 18, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 603 West 27th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 20757-LC, dated October 26, 1923, reads:

"The Code of ordinances provides that no permit shall be issued for the storage or sale of matches within the City in quantities aggregating more than 60 matchman's gross for any building where paints, oils, varnishes, lacquers, rosin, etc., are manufactured, stored or kept for sale.

"You are, therefore, ordered to

"1. Reduce the quantity of matches to 60 matchman's gross.";

and

WHEREAS, the building is fireproof, nine stories and basement in height, 75 ft. by 100 ft. in area; OCCUPIED as a storage warehouse for grocery supplies, 80 persons in building; and

WHEREAS, appellant contends the paints and varnishes are used in painting appellant's wagons, and this work is con-

MINUTES

fined to the 9th story; and further contends that the storage of matches (1,500 matchman's gross) will be in an enclosure of 4 in. terra cotta blocks, equipped with sprinkler heads, and located on the 1st story.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the matches shall be stored and maintained in the northwest corner of 1st story, confined to a fireproof vault, constructed of 4 in. terra cotta blocks or 8 in. brick wall with one door opening, equipped with self-closing, fireproof door, and that this vault shall be provided with at least one sprinkler head.

THE RESOLUTION:

(83-24-A)

WHEREAS, Benjamin Ascher, for Thrift Button Works, lessee, filed, January 21, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 187 Lafayette street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 4, 1923, in acting on Order No. 19597-LC, reads:

"1. Enclose with fireproof material the interior stairway leading to 3rd and 4th story.

"7. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor * * *.

"8. Provide suitable guards around radiators and steam pipes * * *.

"9. Bottom of guards shall be arranged so as to lift up for cleaning. * * *.

"14. Discontinue the storage of finished stock anywhere on your premises, except in approved vaults or cabinets or in a special finished stock storeroom."

and

WHEREAS, the building is fireproof, eight stories in height, 30 ft. by 120 ft. in area; OCCUPIED as a tenant factory, 130 persons above the 2nd story, appellant occupying the 3rd and 4th stories of the premises for the manufacture of buttons; and

WHEREAS, appellant contends that the celluloid (1,000 pounds) is stored in an approved vault, and proposes to vacate the premises February 21, 1925.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the service of the interior stairs be limited to 3rd and 4th stories, stairs to be enclosed in fire retarding partitions with self-closing, fireproof doors at 3rd story and equipped with self-closing, fireproof trap doors at level of 4th story; that all work benches shall be equipped with back and side boards; that the quantity of cellulose material maintained on these premises shall be limited to 1,000 pounds, stored and maintained in a fireproof vault, vented to outer air and equipped with sprinkler head; and *further on condition* that the celluloid occupancy of these two floors shall be vacated on or before February 21, 1925.

THE RESOLUTION:

(97-24-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Walker Engraving Co., lessee, filed, January 22, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 141 East 25th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated December 21, 1923, in acting on Order No. 21817-LC, reads:

"2. Have Superintendent or Manager apply for and secure a Certificate of Fitness. * * *.

"4. Discontinue the use of gas stove or other fire or flame in room or compartment where nitro-cellulose products are stored or used for the manufacture of articles therefrom on 8th story. * * *.

"6. Provide at least one fire pail to every two persons employed on 8th story, all such pails to be kept continuously full of water.

"7. Elevate all steam or hot water radiators at least four inches above floor. * * *.

"8. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering. * * *.

"9. Provide suitable guards around radiators and steam pipes to prevent combustible material from coming in contact therewith. * * *.

"10. Bottom of guard shall be arranged so as to lift up for cleaning. * * *.

"11. Arrange tables and work benches at least four inches from any wall, steam or hot water pipes. * * *.

"12. Provide a sufficient number of tote boxes of approved construction in which must be kept materials and articles in process of manufacture, except such as are kept in vaults or cabinets. * * *."

and

WHEREAS, the building is fireproof, equipped with sprinkler, fire alarm and standpipe systems, seven stories and pent house in height; 185 ft. by 197 ft. 6 in. in area. OCCUPIED: 1st story, electric auto garage; upper stories, printing and lithographing, 720 persons above the 1st story; the appellant occupying the pent house for engraving, 100 employees; and

WHEREAS, appellant proposes to provide a substantial metal box in which to store the required five (5) pounds of celluloid.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the cellulose material on these premises shall be confined to pent house story, the quantity limited to five (5) pounds, stored in approved metal box; and *granted* only so long as use, work and operation on same is restricted and incidental to the lithographing business now conducted on premises.

1

THE RESOLUTION:

(107-24-A)

WHEREAS, Samuel Gumeiner, lessee, filed, January 24, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 46-50 Wooster street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 3, 1924, in acting on Order No. 21926-LC, reads:

"1. All vertical openings including elevator shafts, stairways, dumbwaiter shafts, air shafts, light shafts, etc., throughout entire building must be enclosed. * * *"

"3. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering * * *."

"4. Provide suitable guards around radiators and steam pipes to prevent combustible material from coming in contact therewith."

and

WHEREAS, the building is non-fireproof, equipped with a 100 per cent sprinkler system, six stories in height, 75 ft. by 90 ft. in area; OCCUPIED as a tenant factory, 15 persons per story; appellant occupying, for the last two years, part of 3rd story for the manufacture of leather novelties; and

WHEREAS, appellant contends that the celluloid used (26 pounds) is stored in a metal receptacle, that the work done is incidental to the assembly of leather novelties, and that this work is done 40 ft. from any wall, steam pipe or radiator; and

WHEREAS, the board deemed that this appeal should be dismissed on condition that the resolution of the board of appeals in connection with Cal. No. 761-22-A, affecting the same premises, shall be complied with.

Resolved, that the appeal be and it hereby is *dismissed*.

114-24-A.

APPELLANT—Alexander Engel, for Max Engel & Son, owners.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—130 Osborn street, rear, Brooklyn.

1

THE RESOLUTION:

(114-24-A)

WHEREAS, Alexander Engel, owner, filed, January 25, 1924, an appeal, with the board of appeals, from an order

of the fire commissioner, affecting premises 130 Osborn street, rear, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 53481-F, dated December 24, 1923, reads:

"1. Provide a separate and distinct system of Automatic Sprinklers throughout building having at least one source of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917."

and

WHEREAS, the building, situated on the rear of the lot, is frame, two stories in height, 25 ft. by 50 ft. in area; OCCUPIED for the manufacture of window sashes, 9 persons; and

WHEREAS, appellant contends great hardship would ensue if this order were enforced, as the revenue from the premises is small and it is proposed within a year or so to remove the building and replace it with a modern structure.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not less than one (1) 40-gallon cask, with six (6) buckets to each cask, shall be provided on each floor of this structure; that an open, unobstructed runway shall be maintained from front to rear of premises; and *granted* so long as occupancy and use remain unchanged.

1

THE RESOLUTION:

(115-24-A)

WHEREAS, Emil Guterman, for Osborn Sash and Door Co., lessee, filed, January 25, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 130 Osborn street, rear, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated December 24, 1923, in acting on Order No. 52434-F, reads:

"1. Provide a brick wall 18 ft. in height at west and sides of yard. Sec. 776, Greater New York Charter."

and

WHEREAS, the building is frame, two stories in height, 50 ft. by 25 ft. in area; OCCUPIED for sash manufacturing, with a total of 9 persons, the building being located on the rear of a plot on the front of which are two 2-story frame stores and dwellings, there being an open yard between the building in question and the dwelling; there are two lumber piles, 5 ft. high and 5 ft. away from any building; and

WHEREAS, appellant contends that this business has been conducted for the past ten years and that it is not a lumber yard, the lumber being used in his business, and that the output is comparatively small and that to provide the brick wall would be a great hardship.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than one lumber pile, not exceeding 10 ft. wide and 5 ft. high, running fore and

MINUTES

aft, is maintained in the open runway from Osborn street, and but one additional lumber pile, tightly stacked, not exceeding 5 ft. in height, with a 5 ft. passageway around same in the rear yard, and that an open driveway not less than 12 ft. wide shall also be maintained from Osborn street to rear yard, and that conditions otherwise remain unchanged.

THE RESOLUTION:

(132-24-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for R. H. Comey Brooklyn Co., Inc., owner, filed, January 28, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 61-5 19th street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated January 8, 1924, in acting on Order No. 53111-F, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 200 lbs. per square inch, extending from cellar to roof * * *";

and
WHEREAS, the building is fireproof, three stories in height, 120 ft. by 100 ft. (12,000 sq. ft.) in area at the 1st story and 120 ft. by 71.7 ft. in area above; OCCUPIED as dyers and bleachers of straw braid, 12 persons; and

WHEREAS, appellant contends that the fumes from the bleaching chemicals would quickly corrode the standpipes and that the building is over 10,000 sq. ft. on the 1st story only.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that all horizontal exits in this building shall be provided with approved fire doors; and that all other openings shall be legally protected in accordance with the rules of the board of standards and appeals and the provisions of the building code.

THE RESOLUTION:

(166-24-A)

WHEREAS, H. Sussman, Inc., lessee, filed, February 2, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 232-34 East 111th street, Manhattan; and

WHEREAS, the order of the fire commissioner, rendered January 8, 1924, in acting on Order No. 22031-LC, reads:

"1. Reduce the stock of combustible fibres to one ton.";

and

WHEREAS, the building is non-fireproof, six stories and basement in height, 40 ft. by 96 ft. 7 in. in area; OCCUPIED for the manufacture of mattresses and springs, 19 employees; and

WHEREAS, the fire department contends the premises are within 50 ft. of a church; and

WHEREAS, appellant contends that the premises are equipped with a 100 per cent sprinkler system, and were occupied for the present use prior to the erection of the adjoining church; and

WHEREAS, the board deemed that, in view of the statement of the inspector of fire department that their first record of the existence of a church at that location was in 1920, and that their records of the issuance of permits to the business under appeal was previous to that time, the appeal should be granted.

Resolved, that the order of the fire commissioner be and it hereby is *reversed*, and the appeal be and it hereby is *granted*.

WHEREAS, The G. H. Harris Co., lessee, filed, September 5, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 49-61 Clymer street, Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 82129-LC, dated August 15, 1923, reads:

"2. Enclose all stairways * * *.

"4. Provide an approved double-walled metal cabinet on 3rd story * * *.

"5. Discontinue use of portable lights * * *.

"7. Provide at least 3 in. clearance between all electric or steam heaters, dies or tables, and all wood-work or combustible material.

"8. Arrange all heaters, dies, steam tables or pipes so that no stock except that being worked on will come in contact with same.

"10. Protect all steam pipes or risers on 3rd story that are within 6 ft. of floor. * * *.

"12. Bottom of guard shall be arranged so as to lift up for cleaning.

"14. Provide a sufficient number of tote boxes of approved construction in which must be kept materials and articles in process of manufacture except such as are kept in vaults or cabinets.";

and

WHEREAS, the building is non-fireproof, five stories and basement in height, 125 ft. by 100 ft. in area; OCCUPIED as a tenant factory, equipped with a 100 per cent sprinkler system; and

WHEREAS, appellant who occupies part of the 3rd story of the premises, contends no celluloid is cut, sawed or heated, only inlaid in a mineral composition, and that all celluloid on the premises, not in work and never exceeding 25 pounds is stored in a fireproof safe.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the requirements set forth in resolution adopted by the board of standards and appeals in connection with Cal. 714-18-S, be complied with; that the quantity of celluloid shall be limited to 25 pounds, maintained in metal cabinet; that the necessary tote boxes shall be provided; that the conduct of the business on these premises (the 3rd story) shall be restricted to the present operation and process now conducted thereon and remains substantially unchanged; and that there shall be no open flame maintained.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1460-23-BZ)

WHEREAS, William F. Doyle, for Brooklyn Realty Corp., owner, filed, December 10, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 1239-49 Coney Island avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 8, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Coney Island avenue is a business district and Avenue I and East 12th street are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered November 12, 1923, in acting on Application No. 20905-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Article II, Sec. 4.

"A public garage for more than five motor vehicles in a business district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 140 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a garage for more than five motor vehicles.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be restricted in height to a one-story structure above grade; that the rear and northerly gable walls be unpierced throughout their entire height and length; that the street wall on Avenue I be set back 15 ft. from the building line; that any openings on Avenue I shall be restricted to one doorway not exceeding 3 ft. 8 in. in width, and to windows the sills of which shall be at least 6 ft. above sidewalk level; that there shall be no return of the show window on Avenue I; that the front elevations on Avenue I and on Coney Island avenue, other than the show windows, shall be finished in front brick, with architectural terra cotta or stone trimmings; that the front of the premises for a depth of at least 20 ft., other than the vehicular entrance, shall be maintained as shop or show room, separated from garage area by terra cotta walls; these premises shall be restricted from the conduct of a motor vehicle repair shop, other than necessary repairs incidental to the conduct of a garage, and prohibiting use of motor driven machinery;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

59-24-BZ.

APPLICANT—Joseph Lustig, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a structure to be used as a poultry slaughter house.

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 8, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Wilson avenue, De Kalb avenue and Hart street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered January 3, 1924, in acting on N. B. Application No. 24354-23, reads:

"1. Proposition contrary to Art. II, Sec. 4 of Bldg.

MINUTES

Zone Resolution; Chicken Slaughter House in a business district.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 22 ft. and a depth of 100 ft.; to be occupied as a poultry slaughter house; and

WHEREAS, applicant failed to substantiate the basis of his application under section 20, and there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1533-23-BZ.

APPLICANT—Jenks & Rogers, for Jaace Realty Co., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—87-101 Crown street, Brooklyn.

APPEARANCES—

For Applicant: John J. McCooey, Jr.

For Opposition: John F. Middlemiss and James Middlemiss.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Messrs. Beatty, Boulton, Connell,
Holland and Kerby 5
Negative: Chairman Walsh 1
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1533-23-BZ)

WHEREAS, Jenks & Rogers, for Jaace Realty Co., Inc., owner, filed, December 28, 1923, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 87-101 Crown street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 8, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Crown street is a residence district and Bedford avenue and Franklin avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 6, 1923, in acting on Application No. 22884-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 3.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 180 ft. and a depth of 131 ft., irregular; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 86 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be restricted to one story in height; that the rear and gable walls be unpierced throughout their entire height and length; that there be no skylight permitted within 25 ft. of the rear wall of the main portion of the garage; that any skylight installed shall be equipped with plain glass, protected above and below with wire guards; that the front wall on Crown street shall be finished with front brick and architectural terra cotta or stone trimmings; that all permits necessary for the prosecution of the work shall be

obtained within nine months and the building completed within eighteen months from the date of this action.

221-24-BZ.

APPLICANT—Louis A. Sheinart, for John Sander, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(221-24-BZ)

WHEREAS, Louis A. Sheinart, for John Sander, owner, filed, February 13, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 439-443 East 77th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 8, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 77th street, Avenue A and First avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered February 13, 1924, in acting on N. B. Application No. 76-1924, reads:

"1. The construction of a public garage for more than five cars in a business district is prohibited. Section 4 of the Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 70 ft. 10 in. and a depth of 102 ft. 2 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a garage for more than five motor vehicles.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall be erected fireproof, restricted to two stories in height above grade; that the gable walls shall be unpierced throughout their entire height and length; that any openings in the rear wall shall be restricted to window openings, equipped with steel frame, fixed sash, glazed with translucent glass and having not more than one ventilator to each sash; that the front elevation shall be finished in front brick, with architectural terra cotta or stone trimmings; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

576-23-BZ.

APPLICANT—William F. Doyle, for Mymaud Construction Company, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit partly in an unrestricted district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

MINUTES

PREMISES AFFECTED—Northeast corner of Central avenue and Kossuth place, Borough of Queens.
APPEARANCES—

For Applicant: William F. Doyle.

ACTION OF BOARD—Application reopened and modification granted as to entrances.

THE VOTE TO REOPEN AND MODIFY—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Holland 5

Negative 0

Absent: Mr. Kerby and Fire Chief Kenlon 2

THE RESOLUTION:

(576-23-BZ)

WHEREAS, Morris Perlstein, architect, for Mymaud Const. Co., owner, filed, May 11, 1923, an application, under the building zone resolution, to permit the extension from an unrestricted district into a business district of a proposed garage for the storage of more than five motor vehicles; premises northeast corner of Central avenue and Kossuth place, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, November 27, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Otto street is an unrestricted district and Central avenue is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered May 7, 1923, in acting on N. B. App. 8253-23, reads:

"Erection of this garage in a business district is prohibited by the Zoning Law.";

and
WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 270.17 ft. and a depth of 202.56 ft., to be occupied as a garage for more than five motor vehicles, a portion of structure extending into the business district; and

WHEREAS, under the provisions of section 7, subdivision c, the board is empowered to act; and

WHEREAS, this application was granted by the board at its meeting, November 27, 1923, on certain conditions, and applicant requested a modification of these conditions as to exit.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure shall not exceed one story in height, that any vehicular entrances shall be placed as shown on plan filed with the board March 26, 1924, and that the front elevations shall be finished in face brick, with architectural terra cotta or stone trimmings, that the roof shall be of flat design and construction, and that any skylights in the roof shall be glazed with plain glass, protected with wire guards above and below;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

278-24-BZ.

APPLICANT—Philip J. Sinnott, for Otto Volkenning, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—441-451 West 167th street, Manhattan.

APPEARANCES—

For Applicant: Philip J. Sinnott.

For Opposition: None.

ACTION OF BOARD—Approval of drawings returned to the board, for examination, in compliance with

requirements of the resolution adopted in connection with this application.

896-19-BZ.

APPLICANT—S. J. Kessler, for Michael J. Martin & Son, Inc., owner.

SUBJECT—Application to amend resolution (re: decision of superintendent of buildings) to permit the reduction in height of a proposed garage, permission to erect which, partly in a business district and partly in an unrestricted district, was previously granted by the board.

PREMISES AFFECTED—Southeast corner of West 230th and Exterior streets, The Bronx.

APPEARANCES—

For Applicant: George V. Martin.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO GRANT MODIFICATION OF PREVIOUS RESOLUTION—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(896-19-BZ)

WHEREAS, Moore & Landsiedel, architects, on behalf of Michael J. Martin & Son, Inc., owner, filed, November 28, 1919, with the board of appeals, an application under the building zone resolution, to permit partly in a business district and partly in an unrestricted district the erection of a garage for storage of more than five motor vehicles; premises southeast corner West 230th street and Exterior street, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, December 18, 1919, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Exterior street is located in an unrestricted district and that 230th street and Broadway are both located in business districts; and

WHEREAS, the decision of the superintendent of buildings, dated November 13, 1919, reads:

"Erection of proposed garage for storage of more than five motor vehicles in unrestricted district extending into a business district is contrary to provisions of Building Zone Resolution.";

and
WHEREAS, the proposed building was to be of fireproof construction, five stories in height, with a frontage of 133.62 ft. and a depth of 106.98 ft., the building extending approximately 6 ft. 6 in. into the business district to the east, to be occupied as a garage for more than five motor vehicles, the maps accompanying the building zone resolution specifically placing the corner on which the proposed garage is to be located in an unrestricted district; and

WHEREAS, this application was granted by the board at its meeting, December 18, 1919, on certain conditions, and applicant requested a modification of the time limit imposed, and on April 8, 1924, applicant requested a modification of the resolution to permit the reduction of the height of the building from five to two stories and the change of type of construction from fireproof to fireproof except the roof, which is to be of non-fireproof construction.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the appli-

MINUTES

cation be and it hereby is *granted on condition* that the building be restricted to two stories in height above grade, constructed fireproof, other than the roof of the building, which shall be fire-retarded in accordance with the rules of the board of standards and appeals, and the building to be equipped with 2½ in. standpipe; that the rear and side walls be unpierced throughout their entire height and length; that the front of the building shall be of face brick, with architectural terra cotta or stone trimmings; and that all permits necessary for the prosecution of the work shall be obtained within ninety days and the building completed within six months from the date of this action.

AREAS FIXED.

(353-24-BZ)

The chairman presented and read a communication from William F. Doyle, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises east side of East 181st street, 224.10 ft. south of East 182nd street, The Bronx.

The following area was approved by the board:

Both sides of East 181st (Folin) street from Webster avenue to a point 200 ft. south of proposed garage. Both sides of East 182nd street from Tiebout avenue to East 181st (Folin) street, also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

(1456-23-BZ)

The chairman presented and read a communication from Samuel Rosenblum, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of a garage; premises 189 Sumpter street, Brooklyn.

The following area was approved by the board:

Both sides of Sumpter street from a point 100 ft. east of Howard avenue to a point 100 ft. west of Saratoga avenue, also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned 2 p. m.

WILLIAM J. O'GORMAN, *Secretary*.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING.

TUESDAY AFTERNOON, APRIL 8, 1924.

Absent: Deputy Fire Commissioner Hannon and Superintendent Moore 2

THE RESOLUTION:

(1004-23-S)

WHEREAS, Samuel Rosenblum, for Arnesto Paint Co., lessee, filed, August 13, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 42 West 99th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 20, 1923, reads:

"18. Provide safe means of escape from front roof of 5th story.

"20. Provide direct means of escape from front part of cellar to sidewalk.

"30. Show compliance with Fire Department orders regarding Labor Law requirements."

and

WHEREAS, the building is non-fireproof, five stories and cellar at front and six stories and cellar at rear in height, 25 ft. by 96 ft. in area. OCCUPIED as follows: 1st story, office and glazing sashes, 4 persons; 2nd story, offices, stock room and shipping, 5 persons; 3rd story, filling room, 1 person; 4th story, grinding paints, 3 persons; 5th story, mixing, 1 person; 6th story, mixing (rear part), 1 person. EXITS: One interior wooden stairway at front of building, extending from 1st to 3rd story, enclosed in lath and plaster partitions with wooden doors at openings; one interior wooden stairway at rear of building extending from cellar to 6th story with iron ladder to scuttle in roof, enclosed in metal covered jib partitions in 1st to 3rd stories and unenclosed above; one stairway extending

from cellar to sidewalk; a fire escape on the rear of the building from roof of 1st story extension to 5th story, with gooseneck ladder to roof; windows along course of fire escape unprotected; ROOFS to east and west are at same level; and

WHEREAS, petitioner contends, relative to Item No. 18, it is proposed to cut an opening in an iron fence between this and adjoining roof; relative to Item No. 20, that there is an existing stairway leading to street; relative to Item No. 30, these orders were rescinded by fire department in view of fact there were less than 5 persons engaged in manufacturing, and that there are now less than five persons engaged in manufacturing, providing employees on 1st story glazing sashes are not considered as engaged in manufacture.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the petition be and it hereby is denied.

19-24-S.

PETITIONER—Schwartz & Gross, for Moses H. Harris, lessee.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—9 East 42nd street, Manhattan.

APPEARANCES—

For Petitioner: Alfred A. Tearle, R. S. Samplier.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Vice Chairman Boulton, Messrs. Beatty, Connell, Holland, Kerby, Fire Chief Kenlon, Superintendents Brady, McDermott and Inspector Wilkinson 9

Negative: Superintendent Reville 1

Absent: Chairman Walsh, Deputy Fire Commissioner Hannon and Superintendent Moore... 3

THE RESOLUTION:

(19-24-S)

WHEREAS, Schwartz & Gross, for Moses H. Harris, lessee, filed, January 7, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 9 East 42nd street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered December 18, 1923, reads:

"8. A fireproof passage should be provided leading from the lowest landing of the fire escape to the street to conform with the requirements of Section 274, Labor Law."

and

WHEREAS, the building is non-fireproof, six stories in height, 22 ft. by 100 ft. 5 in. in area at 1st story, 22 ft. by 90 ft. 5 in. at 2nd story and 22 ft. by 72 ft. in area above. PROPOSED OCCUPANCY: Store in 1st story, manufacturing of lenses on the 3rd story and the remainder of the building to be used as offices. EXITS: One interior wooden stairway extending from 1st story to roof, enclosed in fire resisting partitions with kalameined doors at openings; a fire escape on the rear of the premises extending from top story (with gooseneck ladder to roof) to landing on roof of three-story extension, with platform across roof to a stair leading to roof of two-story balcony, with EGRESS from termination of fire escape at 2nd story by means of a gooseneck ladder to extension roof of adjoining premises; windows along the course of fire escape are fireproof, self-closing; ROOFS to east 14 ft. lower, to west 4 stories higher; and

WHEREAS, petitioner contends, in view of the small area of manufacturing use, that the existing exits are adequate.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on

MINUTES

condition that a connecting balcony shall be provided on the 3rd story connecting with roof of extension of adjoining building on the east; and that a gooseneck ladder shall be provided from the roof of the 2nd story extension to roof of extension to the east; and further *granted* so long as the conditions as to use and occupancy otherwise remain unchanged.

211-24-S.
PETITIONER—Adam Ciccarone, owner.
SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.
PREMISES AFFECTED—15 West 50th street, Manhattan.
APPEARANCES—

For Petitioner: Benjamin Ascher, Matthew Donohue.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Vice Chairman Boulton, Messrs. Beatty, Connell, Kerby, Fire Chief Kenlon, Superintendents Brady, Reville, McDermott and Inspector Wilkinson 9
Negative 0
Absent: Chairman Walsh, Mr. Holland, Deputy Fire Commissioner Hannon and Superintendent Moore 4

THE RESOLUTION:

(211-24-S)

WHEREAS, Benj. Ascher, for Adam Ciccarone, owner, filed, February 11, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 15 West 50th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered December 22, 1922, reads:

"6. A fireproof passage 3 ft. wide in clear should be provided from termination of fire escape to the street * * *";

and
WHEREAS, the building is non-fireproof, five stories in height, 18 ft. by 90 ft. in area at the 1st and 2nd stories and 18 ft. by 80 ft. in area above; OCCUPIED as show-rooms and tenant factory (manufacturing occupancy 25 per cent of floor area), 24 persons above 1st story. EXITS: An interior iron stairway extending from 1st story to roof, enclosed in fire resisting material, with fire doors at openings; ROOFS to west 1 ft. lower, to east 4 ft. lower; and

WHEREAS, petitioner proposes to erect a fire escape on the rear of the building, with EGRESS from the termination on roof of two-story extension to roof of extension of building in rear.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a fire escape shall be erected on the rear of the building to comply with the requirements of the labor law in all respects, except that the egress from the termination may be to roof of extension at the rear, written consent of the adjoining property owner to be filed with the superintendent of buildings; and that the occupancy above the 1st story shall be limited to twenty-four (24) persons.

229-24-S.
PETITIONER—Adolf Rosenbaum, for Nathan Frender, owner.
SUBJECT—Variation of labor law as cited in order of fire commissioner.
PREMISES AFFECTED—7 East 14th street, Manhattan.
APPEARANCES—
For Petitioner: Adolf Rosenbaum.

ACTION OF BOARD—Petition granted on condition.
CONDITIONS—As specified in resolution.
THE VOTE—

Affirmative: Vice Chairman Boulton, Messrs. Beatty, Connell, Kerby, Superintendents Brady, Reville, McDermott and Inspector Wilkinson 8
Negative 0
Absent: Chairman Walsh, Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(229-24-S)

WHEREAS, Adolf Rosenbaum, for Nathan Frender, owner filed, February 13, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 7 East 14th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 19, 1924, reads:

"1. Extend the interior stairway at the west side of building to roof, * * *.

"2. Arrange the fire escape at the rear of building and the opening leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law * * *.

"NOTE: Among the defects noted on this fire escape are the following:

"Fire escape does not extend to ground.

"No fireproof passageway to street.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 91 ft. in area at 1st and 2nd stories and 25 ft. by 60 ft. in area above; equipped with a fire alarm signal system. OCCUPIED: 1st story, store and repair of metal goods, 3 persons; 2nd story, office and show rooms, 5 persons; 3rd story, printing, 3 persons, and storage of raincoats, 1 person; 4th story, embroidery, 6 persons and dwelling; 5th story, tailor, 8 persons and dwelling. EXITS: An interior wooden stairway extending from 1st to top story, with iron ladder to scuttle in roof, enclosed in wood stud, lath and plaster partitions, with wooden doors at openings; a fire escape on the front of the building, extending from top to 1st story; with gooseneck ladder to roof and drop ladder to street; a fire escape with fireproof, self-closing doors along the course thereof, on the rear of the building, extending from main roof to roof of two-story extension, with EGRESS across roof to adjoining extension; and

WHEREAS, petitioner contends that a similar order was issued by the fire department in 1919 and modified by the board of review of the fire department in 1920; that the work was done and the order dismissed.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that a double rung iron ladder shall be provided from the hall in the top story to a counter-weighted scuttle in the roof; that a platform 2 ft. 6 in. wide be provided from termination of rear fire escape on roof of extension on 2nd story and connecting with adjoining extension roofs to east and west, with diamond plate floor;

Resolved, further, that this petition be granted only so long as the use and occupancy remains substantially unchanged.

THE VOTE—

Affirmative: Vice Chairman Boulton, Messrs. Beatty, Connell, Kerby, Superintendents Brady, Reville, McDermott and Inspector Wilkinson 8
Negative 0
Absent: Chairman Walsh, Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(155-24-S)

WHEREAS, Sugarman, Hess & Berger, for Almond Realty Corp., owner, filed, January 31, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 251-259 West 36th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered January 24, 1924, reads:

"12. All windows, including show windows at first, second and third floors, should comply with Section 264 Labor Law, and Rule 503, Industrial Code.";

and

WHEREAS, the building is fireproof, 14 stories in height, 84 ft. 7 in. by 98 ft. 9 in. in area; equipped with a sprinkler system. OCCUPIED: Cellar, storage and boiler rooms, 55 persons; 1st story, stores and offices, 50 persons; mezzanine, offices, 20 persons; upper stories, offices, 120 persons per story. EXITS: One interior fireproof stairway and one fire tower extending from 1st story to roof; and

WHEREAS, there are windows on the front of the building on the 1st, 2nd and 3rd stories glazed with $\frac{1}{4}$ in. plate glass; the area of the glass on the 1st story is 7 ft. by 13 ft. 9 in. and on the 2nd and 3rd stories the maximum area of the glass is 7 ft. by 3 ft. 9 in.; and

WHEREAS, petitioner contends all other windows conform with the requirements of the labor law.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition in so far as it affects the windows in the three lowest stories at the front of the building be and it hereby is granted on condition that the building shall comply with the labor law in all other respects.

160-24-S.

PETITIONER—Ahrens Realty Corp., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—70-74 Lafayette street, Manhattan.

APPEARANCES—

For Petitioner: Martin L. Ahren.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

Affirmative: Vice Chairman Boulton, Messrs. Beatty, Connell, Kerby, Superintendents Brady, Reville, McDermott and Inspector Wilkinson 8
Negative 0
Absent: Chairman Walsh, Mr. Holland, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Moore 5

THE RESOLUTION:

(160-24-S)

WHEREAS, Ahrens Realty Corporation, owner, filed, January 31, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 70-74 Lafayette street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 18, 1923, Order No. 50784-LD, reads:

"1. Arrange the fire escape on the south side of buildings and the openings leading thereto * * *.

"NOTE: Among the defects noted on this fire escape are the following: Stairs are not 45 degrees. No steps to sill of openings to balconies.";

and

WHEREAS, the building is non-fireproof, seven stories in height, 80 ft. by 25 ft. in area; equipped with a fire alarm signal system; OCCUPIED as offices and manufacturing jewelers, 4 persons per story. EXITS: An interior stairway extending from the 1st story to the roof, enclosed in fire resisting partitions, with kalameined doors at the openings; a 60 degree fire escape on the front of the building extending from top story to 1st story, with counterbalanced stair to street, with fireproof, self-closing doors and windows at openings along the course thereof; ROOFS to adjoining buildings are 90 ft. higher; and

WHEREAS, petitioner contends that the distance from the floor to sills of door is only 30 inches, the occupancy is non-hazardous and that a similar order has been modified by the board of review of the fire department, conditioned on certain changes in exits, which have been made.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted ratifying the action of the board of review of March 2, 1920, on condition that fixed iron steps shall be provided leading from the floor to sills of doors to fire escape.

NOTICE

RULES GOVERNING SPRINKLER AND STANDPIPE EQUIPMENT IN ONE STORY GARAGE BUILDINGS RESCINDED JANUARY 29, 1924.

Notice is hereby given that the following resolution, adopted by the Board of Standards and Appeals, April 19, 1920, Under Cal. No. 179-20-S, was rescinded by the board on January 29, 1924, as shown in the minutes published in Bulletin No. 6, Vol. IX:

Under the powers conferred upon it by Section 718a of the Charter, the Board of Standards and Appeals does hereby make rules and regulations for the carrying into effect of the provisions of Section 72, subdivision L, and Section 581 of Chapter 5 of the Code of Ordinances as follows:

Resolved, that the provisions of Section 72, subdivision L of Chapter 5, of the Code of Ordinances, shall not apply to buildings not exceeding one story in height, the purpose of which is occupancy as a garage, motor vehicle repair shop, or oil selling station, which buildings do not exceed an area of 15,000 sq. ft. when located on an interior lot or

when facing on only one street or 24,000 sq. ft. when facing on two streets or 30,000 sq. ft. when facing on three streets; provided that the building is equipped with an approved system of automatic sprinklers or with a line of 2½ in. pipe carried around the interior walls of the building or attached to the columns which carry the roof girders and connected with the street main by 2 in. tap and sufficient length of hose, and from which line branches are taken for the house service.

Resolved, further, that under the provisions of Section 581, subdivision 4 of Chapter 5 of the Code of Ordinances, in similar structures, a line of 2½ in. pipe connected with the street main by 2 in. tap and sufficient length of hose at intervals of 100 ft. or less shall be deemed a standpipe within the meaning of this section, but no siamese connection need be provided on condition that the pressure in the street main shall be not less than 45 lbs.

RULES

COMMUNITY LAUNDRIES IN BUSINESS DISTRICTS.

Amended Resolution Adopted by the Board of Appeals, March 16, 1920, Under Cal. No. 549-17-BZ.

WHEREAS, the board of appeals, at its regular meeting, December 16, 1919, unanimously rescinded an opinion incidentally expressed and incorporated in a resolution adopted by the board on May 28, 1917, in acting on Cal. No. 549-17-BZ. This opinion was that a laundry is not a prohibited use in a business district under the building zone resolution. The board unanimously rescinded this expression of opinion, inasmuch as a laundry is a factory within the meaning of the labor law and must be so construed

under the building zone resolution in the absence of any definition therein to the contrary.

Resolved, that this shall not be construed to include within the prohibited uses specified under Section 4 of the building zone resolution a community or neighborhood laundry located in the basement or ground floor of a building within a business district and containing not more than eight (8) rotary washing machines with inside cylinders not more than 30 in. in diameter by 30 in. in length over all nor more than two 20 in. extractors, the 20 in. measurement being the diameter of the inside basket, which machines and extractors shall be operated solely by electric power and do not require the installation of steam boiler or plant.

CONCRETE RULES

USE OF HYDRATED LIME IN CONCRETE.

Adopted by the Board of Standards and Appeals, April 19, 1920, under Cal. No. 153-20-S.

The use of hydrated lime in all classes of concrete construction shall not be prohibited when used in accordance with the conditions hereinafter set forth.

The hydrated lime shall conform with the standard specifications for this material which have been adopted by the American Society for Testing Materials.

The maximum amount of hydrated lime which may be used shall conform with the following table, all weights given being the amount of lime which may be incorporated for each ninety-five pound bag of Portland cement.

1-1½-3 Mix, 4 pounds of hydrated lime per bag of cement.

1-2-4 Mix, 5 pounds of hydrated lime per bag of cement.

1-2½-5 Mix, 6 pounds of hydrated lime per bag of cement.

For hand mixed concrete, the hydrated lime and Portland cement shall be well mixed while dry.

Hydrated lime shall not be used in concrete which is to be deposited under water.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE FIRE ESCAPE RULES—RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 22, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments to Rule 380, Industrial Code, and adoption of same as rules of the board of standards and appeals, affecting the maintenance of existing substandard fire escapes on factory buildings; Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended Dec. 12, 1918, Cal. No. 1708-18-S.

Matter in *italics* is new. Matter in brackets [] is old matter to be omitted.

EXISTING FIRE ESCAPES OF FACTORIES

[Supplementary to Labor Law, §§ 79-a to 79-f; adopted and effective July 30, 1914

Rule 380.—When, in addition to the required exits of any factory or factory building, there exist one or more outside fire escapes which are not entirely in accordance with the provisions of the Labor Law relating to fire escapes, such fire escapes may be retained without being changed to conform to such provisions, if steps are taken, satisfactory to the Commissioner of Labor, to prevent their use as means of egress, and provided that such fire escapes are maintained in good repair.

NOTE.—The Commissioner of Labor has ruled that such fire escapes must be structurally safe and that they shall not be used for fire drills.

At the openings leading to such fire escapes there shall be placed a sign, with letters eight inches high, reading **THIS IS NOT AN EXIT.** No barrier or guard will be permitted at these opening.]

3. *When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards*

and Appeals, such means of egress may be retained under the following conditions.

(a) *Fire Escapes*—All single rung, double rung and vertical ladder fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) *Interior Stairways*—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) *Exterior Screened Stairways*—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) *Horizontal Bridges*—Horizontal bridges between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 22, 1924, at 2 p. m., Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as rules of the Board of Standards and Appeals affecting the enclosure of Factory Stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

[Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed		Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an interior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos
Baking powder
Breweries
Buttons (pearl or bone)
Canneries (including food products)
Chalk and crayon
Condensed and powdered milk
Electric light plants and power houses
Electrolytic reducing works

Glass
Glue, mucilage, paste, size
Ivory
Leather (excluding japanning or enameling)
Metals (excluding japanning or enameling)
Soap, candles
Porcelain and pottery
Tale and soapstone
Tanneries (excluding japanning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)	Linoleum works
Bakeries	Metals (with enameling or japanning)
Bamboo and rattan	Packing houses
Baskets	Paper mills
Belting (including canvas)	Printing, lithographing, book-binding
Boots and shoes	Silk
Buttons (including cloth covered)	Sugar refineries (including beet and glucose works)
Cardboard (including boxes)	Tanneries (with japanning or enameling)
Clothing, woolen (wearing apparel)	Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Cordage	Tobacco, cigars, cigarettes and snuff
Furs	Woodworking (excluding dipping or varnishing)
Gloves (other than leather)	
Horn and combs (not celluloid)	
Leather (with enameling or japanning)	

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity or from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers	Feed, flour and grist mills
Artificial leather	Fireworks
Celluloid	Imitation leather
Cereal mills	Matches
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)	Rag sorting (including cotton)
Cotton batting	Shoddy mills
Cotton clothing (women's)	Starch and sugar mills (including pulverizing)
Cotton waste	Straw goods
Dry cleaning	Varnish
Explosives	Woodworking (with dipping or varnishing)
Feather renovating	

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental or well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as here-in provided, in all factory buildings more than two stories

PUBLIC HEARING

and less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving as required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
Three	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
Four	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
Five	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room in every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Labor Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire drills substantially conforming to rules of the board are held, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. Enclosure of Stairways.—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

FIRST QUARTERLY REPORT

CITY OF NEW YORK BOARD OF STANDARDS AND APPEALS

WILLIAM E. WALSH, CHAIRMAN
MUNICIPAL BUILDING

April 8, 1924.

HON. JOHN F. HYLAN,
Mayor, New York City.

Sir:—I have the honor to submit for your information the first quarterly report of the Board of Appeals and Board of Standards and Appeals, combined, for the quarter ending March 31, 1924, which is set forth as follows:

CASES FILED AND PENDING, 1924.

FIRST QUARTER.

Appeals from Administrative Orders	200
Applications under Building Zone Resolution	154
Petitions for Variation of Labor Law	94
Petitions for Approval of Appliances and Materials	13
Petitions for Adoption of Rules	3
Reopened and Restored to Calendar	23
Miscellaneous Docket	68
Total 1924 Cases	555
Cases pending December 31, 1923	627
Total Cases filed and pending during First Quarter	1182

SUMMARY.

DOCKET.

Cases pending December 31, 1923	627
Cases filed up to and including March 31, 1924	464
Restored to calendar	23

MISCELLANEOUS APPLICATIONS.

WARNING.

Notice is hereby given to all petitioners, appellants and respondents for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

BOARD OF STANDARDS AND APPEALS,
Room 914, Municipal Building,
New York City.

OFFICE—Municipal Building, Room 914.

TELEPHONE—Worth 0184.

OFFICE HOURS—9 a. m. to 5 p. m.; Saturdays, 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.
Call of Clerk's Calendar.
The Trial Calendar.
Notices in Building Zone Cases.
Minutes of Meeting, Board of Appeals, April 15, 1924.
Minutes of Special Meeting, Board of Appeals, April 15, 1924.
Notices of Public Hearings.
Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION. 10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, April 22, 1924*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, April 29, 1924*, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

Under the Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, April 22, 1924, at 10 o'clock*, in Room 919, Municipal Building, on the following matters:

CAL. NO. 1284-23-BZ—Application, November 8, 1923, under the building zone resolution, of Samuel Rosenblum, architect, on behalf of Rose

Morizio, owner, to permit in a business district an alteration and extension of an existing garage for the storage of more than five (5) motor vehicles; premises 8226 18th avenue, Brooklyn.

CAL. NO. 76-24-BZ—Application, January 18, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of Efficient Building Corporation, owner, to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises northeast corner of Jerome avenue and Clifford place, The Bronx.

CAL. NO. 153-24-BZ—Application, January 30, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of Herman H. Lucke, owner, to permit in a business district extending from an unrestricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 902-22 60th street, southeast corner of 9th avenue, Brooklyn.

CAL. NO. 1426-23-BZ—Application, December 4, 1923, under the building zone resolution, of Hugo E. Magnusen, architect, on behalf of William Boylehart, owner, to permit in a residence district the installation and maintenance of a gasoline and oil selling station; premises 2001-2013 Neck road, northeast corner of Ocean avenue, Brooklyn.

CAL. NO. 511-23-BZ—Application, March 4, 1924, under the building zone resolution, of John Ingwersen, applicant, on behalf of Jas. F. Maloney, owner, previously dismissed for lack of prosecution, to permit in a residence district the change of occupancy of first story from residence to a business use; premises 411 68th street, Brooklyn.

CAL. NO. 346-24-BZ—Application, March 6, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of G. A. Boyd, owner, to permit in a business district, also in a street between two intersecting streets in which portion there exists an exit and entrance to a public school, the alteration and change of occupancy from an existing public stable to a garage for the storage of more than five (5) motor vehicles; premises 173-177 West 89th street, Manhattan.

CAL. NO. 272-24-BZ—Application, February 20, 1924, under the building zone resolution, of John Sloan, architect, on behalf of Parlex Holding Corp., owner, to permit in a two-times height district the erection of the street walls of a building without a setback to a height in excess of that required by the building zone resolution; premises 489 4th avenue, 120 East 33rd street, 210 Lexington avenue and 121 East 32nd street, Manhattan.

CALENDAR

CAL. NO. 139-24-BZ—Application, January 29, 1924, under the building zone resolution, of Henry J. Nurick, architect, on behalf of Louis Bergstein, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 688-696 Central avenue, southeast corner of Moffatt street, Brooklyn.

CAL. NO. 168-24-BZ—Application, February 2, 1924, under the building zone resolution, of Samuel Rosenblum, architect, on behalf of Samuel Aptakin, owner, to permit in a residence district the alteration and extension of an existing building used in part for business purposes; premises 1000 East 172nd street, southeast corner of Longfellow avenue, The Bronx.

CAL. NO. 191-24-BZ—Application, February 7, 1924, under the building zone resolution, of John De Hart, applicant, on behalf of Thos. A. McCarthy and John A. Donovan, owners, to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 618-628 73rd street, Brooklyn.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(111-24-A)

WHEREAS, Whitehouse Leather Products Co., for Mt. Aetna Realty Co., lessee, filed, January 25, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 97-103 East Houston street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 23, 1923, Order No. 21313-LC, reads:

"2. Discontinue the use of any heating system other than steam or hot water, in room or compartment used for the storage of nitro-cellulose products, or the manufacture of articles therefrom. Section 234-1, Chapter 10, Code of Ordinances.

"3. Discontinue the use of flame or fire in room or compartment where nitro-cellulose products are stored or used for the manufacture of articles therefrom. Section 234-1, Chapter 10, Code of Ordinances.

"4. Provide at least 3 in. clearance between all electric or steam heaters, dies or tables and all wood-work or combustible material. Section 235-5, Chapter 10, Article 19, Code of Ordinances.

"5. Elevate all steam or hot water radiators at least four inches above floor. Section 235-9, Chapter 10, Code of Ordinances.

"6. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering. Section 235-9, Chapter 10, Code of Ordinances.

"7. Provide suitable guards around radiators and steam pipes to prevent combustible material from coming in contact therewith.

"NOTE: Top shall be sloping so as to prevent same from being used as shelves.

"8. Bottom of guard shall be arranged so as to lift up for cleaning. Section 235-9, Chapter 10, Article 19, Code of Ordinances."

and

WHEREAS, the building is fireproof, 11 stories in height, 100 ft. by 100 ft. in area. OCCUPIED: 1st story, stores, 30 persons. 2nd to 11th stories, tenant factory, 275 persons above the first story; appellant occupying the 10th floor for the manufacture of leather, canvas, loose leaf goods and celluloid binder and index systems, 45 persons; and

WHEREAS, appellant contends that the 25 pounds of celluloid used on the premises is kept in approved galvanized iron cans, with self-closing covers; that the scrap celluloid is kept submerged in water and that no open flame is used in the process of manufacturing the indexes.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the quantity of celluloid maintained on the premises be restricted to 25 pounds, in sheets, used in the process of index application; that there shall be no open flame exposed in room in which celluloid is in work; that not more than one sheet of celluloid shall be exposed in work at any one time; that all celluloid waste or clippings shall be deposited and immersed in a container of water; that all material not in work shall be stored or maintained in a self-closing, galvanized metal cabinet; that any radiators operated or in use in room where celluloid is in work shall be covered with wire screen; that not less than two one-quart fire extinguishers shall be maintained in celluloid room; and *granted* only so long as conditions as to operation and use remain otherwise unchanged.

120-24-A.

APPELLANT—Meurer Steel Barrel Co., Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—307-311 Borden avenue, Queens.

APPEARANCES—

For Appellant: William E. Whitney.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(120-24-A)

WHEREAS, Meurer Steel Barrel Co., Inc., lessee, filed, January 26, 1924, an appeal, with the board of appeals, from an

MINUTES

order of the fire commissioner, affecting premises 307-11 Borden avenue, Borough of Queens; and

WHEREAS, the order of the fire commissioner, dated January 16, 1924, Order No. 53151-F, reads:

"1. Install a standpipe system with risers 4 inches in diameter, tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *."

and

WHEREAS, the building is non-fireproof, constructed of corrugated iron, one story (18 ft.) in height, 100 ft. by 180 ft. (18,000 sq. ft.) in area; OCCUPIED for the manufacture of steel barrels; extending through from 3rd street to Borden avenue; and

WHEREAS, appellant contends that there is no hazard.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not less than eight (8) 40-gallon fire casks, painted red and marked "FIRE", shall be maintained, equipped with four (4) water buckets to each cask, one cask for the wheelwright shop, one in machine shop, and others distributed throughout shop on 1st story; and *granted* so long as conditions as to occupancy and use remain otherwise unchanged.

122-24-A.

APPELLANT—Morgen Jet Button Works, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—35 Sixth avenue, Manhattan.

APPEARANCES—

For Appellant: Edward Kuntz and Luke Flanagan,

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Messrs. Beatty, Boulton, Connell,	
Holland, Kerby and Fire Chief Kenlon	6
Negative: Chairman Walsh	1
Absent	0

THE RESOLUTION:

(122-24-A)

WHEREAS, Luke Flanagan, for Morgen Jet Button Works, lessee, filed, January 26, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 35 Sixth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 29, 1923, Order No. 20171-LC, reads:

"16. Provide that all sorting, inspection, wrapping and shipping shall be done only on substantial tables in a room or rooms separated from class "B" work rooms and from finished stock storerooms by walls or partitions as specified in sub-division 2, Section 235-12, Chapter 10, Art. 19, Code of Ordinances.

"17. Provide a special finished stock storeroom for the storage of finished stock packed in cartons or paste board boxes. Separated from the remainder of the floor by walls or partitions erected according to the provisions of Section 355 of Article 17 of Chapter 5 of the Code of Ordinances, which partitions shall be continuous from floor to ceiling and securely anchored to walls, floor and ceiling. The ceiling, if not of fireproof construction, shall be protected with fire retarding material in accordance with the rules of the Board of Standards and Appeals. The area of said finished stock storeroom shall not exceed 2,000 square feet. Section 235-13-b-c-d, Chapter 10, Code of Ordinances."

and

WHEREAS, the building is fireproof, 12 stories in height, 105 ft. 10½ in. by 81 ft. 5 in., irregular, in area; equipped with a two-source sprinkler system; OCCUPIED, stores and tenant factory with a total of about 400 persons in the entire building, appellant occupying part of the 7th story for the manufacture of celluloid and jet novelties; and

WHEREAS, appellant contends that 900 pounds of celluloid on the premises is stored in a fireproof, two-section cabinet vented to the outer air, and that to subdivide the premises would be a hardship as appellant proposes to vacate the premises at termination of lease.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, permitting a temporary celluloid occupancy on the 7th floor, not to extend beyond June 15, 1924, *on condition* that not more than 50 pounds of celluloid shall be used in work, maintained in metal cabinet, vented to outer air; and that all celluloid material shall be removed from 7th floor after working hours and stored in a roof vault.

134-24-A.

APPELLANT—Trenkman Bros., for A. Trenkman Estate, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—187-193 Lafayette street, Manhattan.

APPEARANCES—

For Appellant: F. D. McGarry and Mr. Trenkman.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition in part and denied in part.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,	
Boulton, Connell, Holland, Kerby and Fire	
Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(134-24-A)

WHEREAS, Trenkman Bros., for A. Trenkman Estate, Inc., owner, filed, January 29, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 187-193 Lafayette street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated November 19, 1923, reads:

"3. Provide jets of water where saws or cutting tools are used on 7th and 8th stories which are likely to heat the nitro-cellulose product to the firing point of friction or otherwise, so that same shall continuously play upon the point of contact. Section 232-5, Chapter 10, Code of Ordinances. * * *.

"4. Remove celluloid from cabinet on 8th story and discontinue storing celluloid anywhere on your premises except in approved storage vault. Section 232-3, Chapter 10, Code of Ordinances. * * *.

"15. Arrange work benches in class "B" work-rooms so that operators will not be closer than 3 ft. to each other. * * *. Section 235-10-5-a, Chapter 10, Article 19, Code of Ordinances."

and

WHEREAS, the building is fireproof, eight stories in height, 22 ft. 6¾ in. by 117 ft. 9½ in. in area; OCCUPIED as a tenant factory, 127 persons above the 1st story, appellant occupying the 7th and 8th stories for the manufacture of optical goods, 54 persons; and

WHEREAS, appellant contends that to comply with Item No. 3 is impractical and proposes to install a manually-controlled sprinkler head; in re: Item No. 4, contends that celluloid in work amounting to 200 pounds is stored in an approved cabinet as it would be a hardship to go to the roof to procure materials; in re: Item No. 15, contends that the greater number of the machines are more than 36 in. center to center.

Resolved, that the order of the fire commissioner, as it relates to Item 3, be and it hereby is *affirmed*, and the appeal as it relates to this item be and it hereby is *denied*;

MINUTES

that the order of the fire commissioner, as it relates to Items 4 and 15, be and it hereby is *modified*, and the appeal as it relates to these items be and it hereby is *granted*; as to Item 4, *on condition* that an approved cabinet shall be maintained; as to Item 15, *on condition* that operators shall not be closer than 36 inches from centre to centre, and that the order of the fire commissioner of November 19, 1923, be complied with in all other respects.

142-24-A.
APPELLANT—John Campbell & Co., lessee.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—75 Hudson street, Manhattan.

APPEARANCES—
For Appellant: George C. Lommel and William R. Grace.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7
Negative 0
Absent 0

THE RESOLUTION:

(142-24-A)

WHEREAS, John Campbell & Co., lessee, filed, January 29, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 75 Hudson street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 11, 1924, reads:

"1. Provide a non-automatic sprinkler system in cellar and sub-cellar. * * *";

and

WHEREAS, the building is non-fireproof, five stories, cellar and sub-cellar in height, 24 ft. 9 in. by 90 ft. 6 in. in area. OCCUPIED: Cellar and sub-cellar, for the storage of dyestuffs, 2 persons; upper stories are the general offices of the lessee; and

WHEREAS, appellant contends the dyestuffs are not manufactured but only stored; that they are in dry pulverized form, packed in bulk, do not oxidize and are not inflammable.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that any heating apparatus shall be separated from storage space by a brick wall, any opening therein to be equipped with self-closing, fireproof door; and *granted* so long as no inflammable material is stored in the premises, also while conditions as to occupancy and use remain unchanged.

199-24-A.
APPELLANT—William F. Doyle, for Tilford Cinema Corp., owner.

SUBJECT—Appeal from order and decision of fire commissioner.

PREMISES AFFECTED—332-344 West 44th street, Manhattan.

APPEARANCES—

For Appellant: William F. Doyle.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Messrs. Holland, Kerby and Fire Chief Kenlon 3
Negative: Chairman Walsh, Messrs. Beatty, Boulton and Connell 4
Absent 0

THE RESOLUTION:

(199-24-A)

WHEREAS, William F. Doyle, for Tilford Cinema Corp., owner, filed, February 8, 1924, an appeal, with the board of appeals, from an order and decision of the fire commissioner, affecting premises 332-44 West 44th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated February 28, 1924, Order No. 55209-F, reads:

"1. Install a standpipe system with risers 4 inches in diameter, tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *."

and

The decision of the fire commissioner, rendered February 5, 1924, in acting on Alteration Application No. 180-24, reads:

"1. Sprinkler must be a two source wet automatic system supplied from an approved pressure tank supply and approved gravity tank supply as per rules on sprinkler equipment as adopted by the Board of Standards and Appeals, Rule 37.";

and

WHEREAS, the building is non-fireproof, 151 ft. by 100 ft. in area, divided into two sections by a fore and aft partition wall, with openings on each story protected with fireproof doors; the easterly section is two stories and the westerly section is three stories in height; OCCUPIED as a motion picture studio, 13 employees; and

WHEREAS, appellant contends that the building is used exclusively as a motion picture studio, that only 5,000 ft. of film is stored, and proposes to connect the sprinkler system with a 6 in. connection to the 6 in. city main; said main has a pressure of 48 lbs. per square inch and is fed two ways, according to letter on file from department of water supply, gas and electricity.

Resolved, that the order and decision of the fire commissioner be and they hereby are *affirmed*, and the appeal be and it hereby is *denied*.

222-24-A.

APPELLANT—William Higginson, for United Last Company, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—108-116 Clifton place and 360-372 Classon avenue, Brooklyn.

APPEARANCES—

For Appellant: C. Higginson.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Kerby 1

THE RESOLUTION:

(222-24-A)

WHEREAS, William Higginson, for United Last Co., Inc., owner, filed, February 13, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 108-16 Clifton place and 360-72 Classon avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated January 21, 1924, reads:

"1. Install a standpipe system with risers 4 inches in diameter, tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, * * *";

and

WHEREAS, the building is non-fireproof, three stories (46 ft.) in height, 131 ft. by 96 ft. (10,000 sq. ft.) in area at 2nd story; OCCUPIED for the manufacture of shoes, 175 persons in building; and

MINUTES

WHEREAS, appellant contends that the building is equipped with a fire alarm signal system, a two-source sprinkler system supplied from a 30,000 gallon tank, 32 ft. above roof, and portable fire extinguishers.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a two-source sprinkler system shall be installed and maintained; and that the conditions as to occupancy and use remain unchanged.

238-24-A.

APPELLANT—F. P. Keniston, for Hahn & Rosenfeld, owners.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—145 East 40th street, Manhattan.

APPEARANCES—

For Appellant: F. P. Keniston.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal denied.

THE RESOLUTION:

(238-24-A)

WHEREAS, F. P. Keniston, for Hahn & Rosenfeld, owners, filed, February 15, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 145 East 40th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 25, 1924, reads:

"1. Discontinue the maintenance of a garage on these premises.

"REASON: Portion of building is used as a dwelling, the location of which is not immediately above the garage. * * *."

and

WHEREAS, the building is non-fireproof, three stories in height, 25 ft. by 98 ft. in area. OCCUPIED: 1st story, non-storage garage; 2nd story, dwelling, one family; 3rd story, dwelling of owner; and

WHEREAS, appellant proposes to erect a fire escape on the front of building, and contends that the present use and occupancy is exactly similar to the use and occupancy covered by permit from fire department in 1920 and renewed in 1922.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

241-24-A.

APPELLANT—Washine Manufacturing Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—West side of Baldwin street, 600 ft. north of 242nd street, The Bronx.

APPEARANCES—

For Appellant: None.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell, Kerby and Fire Chief

Kenlon 6

Negative 0

Absent: Mr. Holland 1

THE RESOLUTION:

(241-24-A)

WHEREAS, Washine Manufacturing Co., lessee, filed, February 15, 1924, an appeal, with the board of appeals, from

an order of the fire commissioner, affecting premises west side of Baldwin street, 600 ft. north of 242nd street, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, dated January 29, 1924, Order No. 22688-LC, reads:

"1. Provide a separate and distinct system of Automatic Sprinklers throughout building having at least one source of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 21, 1919, effective February 17, 1919.";

and

WHEREAS, the premises consist of a plot of ground 220 ft. by 200 ft. in area, located near the city line of Yonkers, on which is located a non-fireproof building 50 ft. by 58 ft. in area, 1½ stories in height. OCCUPIED: 1st story, filling of carboys with liquid bleach, 5 persons; mezzanine, chlorine gas used, 1 person; and

WHEREAS, appellant contends that the nearest building is a storage shed, 150 ft. away, and that there is a factory approximately 200 ft. away, and that there are no other buildings within 1,000 ft.; that the product manufactured is a fire extinguisher and that the half-story is only an elevation over the tanks on the ground floor, serving as a platform; the floor on which the chlorine is used is provided with two 1 in. water pipe lines with hose connections and that there are windows and doors.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* so long as conditions as to use and occupancy remain unchanged.

143-24-A.

APPELLANT—Willard P. Redfield, owner of adjoining property.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—West side of Cromwell avenue, 165.05 ft. north of Jerome avenue, The Bronx.

APPEARANCES—

For Appellant: Felix A. Muldoon and Wm. J. Glynn.

For Opposition: James L. Ashley and Wm. F. Doyle.

ACTION OF BOARD—Appeal to revoke permit granted.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Fire Chief Kenlon ... 5

Negative: Messrs. Holland and Kerby 2

Absent 0

THE RESOLUTION:

(143-24-A)

WHEREAS, Willard F. Redfield, owner of adjoining property, against Multiplex Garage, Inc., owner, filed, January 30, 1924, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises west side of Cromwell avenue, 165.05 ft. north of Jerome avenue, The Bronx; and

WHEREAS, the decision of the superintendent of buildings, dated January 10, 1924, reads:

Mr. Felix Muldoon,
3029 Third Avenue,
Borough of The Bronx.

Dear Sir:—

Your letter of January 9th, as attorney for Mr. Willard Redfield, received, demanding that I revoke permits NV 2507-2508-2509-2510-2511-2513 and 2514 of 1923, issued on December 27th, 1923, to James R. Ashley for the erection of one car metal garages on the side of Boscobel Avenue north of Jerome Avenue, and permits NZ 2565-2566-2567-2568-2569 and

MINUTES

2570 of 1923, issued on December 27, 1923, to the Multiplex Garages, Inc., for the erection of one-car metal garages on the west side of Cromwell Avenue, north of Jerome Avenue, Bronx.

Upon the filing of these applications in this Bureau on October 7th, 1923, and October 27, 1923, the applicant was informed that the approval of this Bureau would not be issued for the reason that these garages constituted a violation of the restrictions of the Building Zone Resolution against the erection and maintenance of garages for more than five motor vehicles in a business district, but as the Corporation Counsel had previously advised the Fire Commissioner that such garages were permitted in a business district, on November 21, 1923, I addressed a communication to the Corporation Counsel of the City of New York, stating all the facts pertaining to the application for the erection of the above garages and notifying him that a protest had been received in this Bureau from the owners of adjoining property against the approval of the applications for the erection of the above garages on the ground that the same constituted a garage for the storage of five motor vehicles in a business district and requested to be advised as to whether I would be authorized to grant a permit for the erection of above garages in a business district without violating either the spirit or the letter of the Building Zone Resolution.

On December 10, 1923, I received an answer to the above communication advising:

"That in a business district any number of garage buildings, subject to height and area limitations, each housing not more than five motor vehicles, may be erected and operated as garages on one lot or on adjoining lots whether under one or different ownerships."

and that therefore such permits should be granted.

On December 21, 1923, the applicant filed in this Bureau the affidavits required by the Workmen's Compensation Law that the workmen employed in the erection of the garages were covered by insurance policy U. C. 516572, issued to Ashley & Booth by the Globe Indemnity Company and on December 27, 1923, upon the demand of the applicant the above permits were issued for the erection of these garages upon the advice of the Corporation Counsel of the City of New York.

While in my opinion, the matter you complain of is a violation of the spirit of the Zoning Law, I must refuse your request to revoke the above permits.

and

WHEREAS, the premises consist of a plot of ground 50.88 ft. by 43 ft., irregular in area, located in a business district, and on which there are two one-car garages, each 10 ft. by 17 ft. 6 in. in area, and immediately adjoining this plot 30 ft. by 52 ft. in area and under the same ownership, upon which is located four one-car garages, each 10 ft. by 17 ft. 6 in., of metal construction, one story in height.

Resolved, that the decision of the superintendent of buildings be and it hereby is *reversed*, and the appeal be and it hereby is *granted* to revoke permits.

144-24-A.

APPELLANT—Willard P. Redfield, owner of adjoining property.

SUBJECT—Appeal from decision of superintendent of buildings.

WHEREAS, the decision of the superintendent of buildings, dated January 10, 1924, reads:

Mr. Felix Muldoon,
3029 Third Avenue,
Borough of The Bronx.

Dear Sir:—

Your letter of January 9th, as attorney for Mr. Willard Redfield, received, demanding that I revoke permits NV 2507-2508-2509-2510-2511-2513 and 2514 of 1923, issued on December 27th, 1923, to James R. Ashley for the erection of one car metal garages on the side of Boscobel Avenue north of Jerome Avenue, and permits NB 2565-2566-2567-2568-2569 and 2570 of 1923, issued on December 27, 1923, to the Multiplex Garages, Inc., for the erection of one-car metal garages on the west side of Cromwell Avenue, north of Jerome Avenue, Bronx.

Upon the filing of these applications in this Bureau on October 7th, 1923, and October 27th, 1923, the applicant was informed that the approval of this Bureau would not be issued for the reason that these garages constituted a violation of the restrictions of the Building Zone Resolution against the erection and maintenance of garages for more than five motor vehicles in a business district, but as the Corporation Counsel had previously advised the Fire Commissioner that such garages were permitted in a business district, on November 21, 1923, I addressed a communication to the Corporation Counsel of the City of New York, stating all the facts pertaining to the application for the erection of the above garages and notifying him that a protest had been received in this Bureau from the owners of adjoining property against the approval of the applications for the erection of the above garages on the ground that the same constituted a garage for the storage of five motor vehicles in a business district and requested to be advised as to whether I would be authorized to grant a permit for the erection of above garages in a business district without violating either the spirit or the letter of the Building Zone Resolution.

On December 10, 1923, I received an answer to the above communication advising:

"That in a business district any number of garage buildings, subject to height and area limitations, each housing not more than five motor vehicles, may be erected and operated as garages on one lot or on adjoining lots whether under one or different ownerships."

and that therefore such permits should be granted.

On December 21, 1923, the applicant filed in this Bureau the affidavits required by the Workmen's

MINUTES

Compensation Law that the workmen employed in the erection of the garages were covered by insurance policy U. C. 516572, issued to Ashley & Booth by the Globe Indemnity Company and on December 27, 1923, upon the demand of the applicant the above permits were issued for the erection of these garages upon the advice of the Corporation Counsel of the City of New York.

While in my opinion, the matter you complain of is a violation of the spirit of the Zoning Law, I must refuse your request to revoke the above permits.

and

WHEREAS, the premises consist of a plot of ground 36 ft. by 52 ft., irregular in area, located in a business district, and on which there is a store and storage building and five one-car garages, each one of metal construction, one story in height, 10 ft. by 17 ft. 6 in. in area; and

WHEREAS, the appellant, who is an adjoining property owner, contends that these garages have been erected in violation of the building zone resolution; and

WHEREAS, the superintendent of buildings, acting under a decision of the corporation counsel, that any number of five-car garages is permitted on a plot of ground in a business district and has therefore refused to revoke the permit.

Resolved, that the decision of the superintendent of buildings be and it hereby is *reversed*, and the appeal be and it hereby is *granted* to revoke permits.

BUILDING ZONE CASES.

THE RESOLUTION:

(1301-23-BZ)

WHEREAS, Sebastian Ochs, owner, filed, November 13, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of three (3) motor vehicles, two (2) spaces rented to persons not residing on the premises; premises 1634 Woodhaven boulevard, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Woodhaven boulevard and 88th avenue are residence districts and Jamaica avenue is a business district; and

WHEREAS, the order of the fire commissioner, dated October 11, 1923, Order No. 82903-LC, reads:

"Discontinue the maintenance of a garage on these premises in which is kept motor vehicles that are subject to charges for storage, and in which is kept motor vehicles that are not the property of persons residing in a dwelling on the same lot.";

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 29 ft. and a depth of 83 ft., to be occupied as a garage for three motor vehicles, space for two of which is to be rented to persons not residing on premises; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 83 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the capacity of the garage be limited to the storage of three automobiles of the pleasure car type, space for two of which may be rented to persons not residing on the premises; and this permission is *granted* for the period of two years from the date of this action, *on the further condition* that the side and rear walls be unpierced throughout their entire height and length, and that there be no gasoline storage equipment maintained on the premises.

1436-23-BZ.

APPLICANT—William F. Doyle, for Fred Freidin, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—Southeast corner of Jerome avenue and 205th street, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: Theodore F. Savage.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5
Negative: Mr. Beatty 1
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1436-23-BZ)

WHEREAS, William F. Doyle, for Fred Freidin, owner, filed, December 6, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises southeast corner of Jerome avenue and East 205th street, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue is a business district and East 205th street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered November 21, 1923, in acting on N. B. Application No. 2609-23, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 75 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, owing to the location of this property and surrounding conditions, there would be undue hardship in preventing occupant from improving his property with the only suitable structure.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the structure shall not exceed two stories in height; that the rear and gable walls shall be unpierced throughout their entire height and length; that no skylight shall be installed within 30 ft. of the southerly gable wall; that any skylight installed shall be glazed with plain glass, protected with wire guards above and below; that the roof shall be of flat design and construction; that vehicular openings shall be confined to the Jerome avenue front, any opening on 205th street to be restricted to windows, the sills of which shall be at least 6 ft. above grade, and not more than one emergency exit not exceeding 3 ft. 8 in. in width; that the front elevations on 205th street and Jerome avenue shall be finished with face brick and architectural terra cotta or stone trimmings; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

56-24-BZ.

APPLICANT—Philip J. Sinnott, for Duryea-Flatbush Stores Co., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business and residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—119-147 East 22nd street, Brooklyn.

APPEARANCES—

For Applicant: Philip J. Sinnott.

For Opposition: T. H. Roberts and Philip Godfrey.

ACTION OF BOARD—Application denied, applicant not having substantiated basis of appeal.

THE VOTE TO GRANT—

Affirmative: Messrs. Boulton, Kerby and Connell 3
Negative: Chairman Walsh, Messrs. Beatty and Holland 3
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(56-24-BZ)

WHEREAS, Philip J. Sinnott, for Duryea-Flatbush Stores Co., owner, filed, January 15, 1924, an application, under the building zone resolution, to permit in a business and residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 119-147 East 22nd street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 22nd street is a business and residence district and Duryea place is a business district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 17, 1923, in acting on Application No. 21576-23, reads:

"Denied—Proposition contrary to the Zone Resolution. Art. II, Sec. 3. A public garage in a residential district."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 125 ft. 7¼ in. and a depth of 100 ft. ½ in., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the applicant has failed to establish the basis of his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

THE RESOLUTION:

(908-23-BZ)

WHEREAS, Benjamin Anton, for Dora Ebenstein, owner, filed, July 16, 1923, an application, under the building zone resolution, to permit in a residence district the erection and maintenance of a one-story extension to an existing dwelling, the extension to be used for business purposes; premises 308 East 173rd street, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 173rd street, Topping avenue and Monroe avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered June 19, 1923, in acting on Alt. Application No. 151-23, reads:

"Proposed extension for business purposes in residence district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the existing building is of frame construction, one story in height, with a frontage of 42 $\frac{1}{2}$ ft. and a depth of 25 ft., occupied as a dwelling; it is proposed to building an extension in the 1st story, to be occupied as stores; and

WHEREAS, applicant has failed to substantiate his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

MINUTES

AREA FIXED.

(395-24-BZ)

The chairman presented and read a communication from James Kearney, requesting the board to fix an area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 2251 Jerome avenue, The Bronx.

The following area was approved by the board:

Both sides of Jerome avenue from 182nd street to a point 400 ft. north of proposed garage. Both sides of Buchanan place from Jerome avenue to a point 400 ft. west of proposed garage, also the south side of 183rd street from Jerome avenue to a point 150 ft. west of Jerome avenue.

THE RESOLUTION:

(382-23-A)

WHEREAS, Philip J. Sinnott, for James McElroy, owner, filed, March 31, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 320-22 East 28th street and 323 East 27th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 3, 1923, No. 16883-LC, reads:

"1. Have at least two persons each obtain a Certificate of Fitness to have care and supervision of storage garage, which garage must be under the immediate supervision of either of the above at all times.

"2. Discontinue the use of dwelling for the reason that same violation condition imposed by Certificate of Occupancy issued by Superintendent of buildings, also Violation of Sec. 154 of Chapter 10—area of garage is more than 5,000 square feet.";

and

WHEREAS, the building is non-fireproof, three stories in height, 197 ft. 6 in. deep, with a frontage of 50 ft. on East 28th street and 25 ft. on East 27th street, an area of 7,400 sq. ft. OCCUPIED: 1st and 2nd stories, public garage; 3rd story, dwellings, 5 persons; and

WHEREAS, applicant contends the dwelling portion of the premises is occupied by the owner of garage and that a permit for the present occupancy was issued by the building bureau and fire department in 1922.

Resolved, that the order of the fire commissioner, No. 16883-LC, as to Item 1 thereof, be and it hereby is affirmed, and the appeal as to that item be and it hereby is denied; and that Order No. 16883-LC, as to Item 2 there-

MINUTES

of, be and it hereby is *modified*, and the appeal as to that item be and it hereby is *granted on condition* that egress from the apartments is maintained by means of interior stairs leading directly to the street in each instance, restricting the occupancy of the premises to the present occupants, both of whom are engaged in the operation of the garage.

977-23-A.

APPELLANT—Pain's Fireworks, Inc., owner.

SUBJECT—Request to reopen appeal from order of fire commissioner.

PREMISES AFFECTED—Opposite Henderson's Walk, 1,000 feet off shore, Coney Island, Brooklyn.

APPEARANCES—

For Appellant: Raymond C. Thompson.

For Administration: Inspector Lenihan of fire department.

THE RESOLUTION:

(977-23-A)

WHEREAS, Pain's Fireworks, Inc., owner, filed, August 2, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1,000 feet off shore, opposite Henderson's Walk, Coney Island, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated August 1, 1923, reads:

"Your application dated July 25, 1923, for permission to display fireworks to be fired from barge anchored approximately 1,000 feet off shore opposite Henderson's Walk at Coney Island, Bklyn., is hereby denied for the reason that such firework displays are against public safety. Sec. 95, Sub. Div. 1, also Sec. 10, Ch. 10, Code of Ordinances."

and

WHEREAS, an application was filed in the bureau of fire prevention to permit the display of fireworks from three barges anchored 1,000 feet off shore, opposite Henderson's Walk, Coney Island, Brooklyn; and

WHEREAS, this appeal was dismissed for lack of prosecution, February 5, 1924, and appellant requests that this appeal be reopened, which request was granted March 25, 1924.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the barges be anchored off shore at least 1,000 feet from low water mark; that the fireworks shall be discharged from iron mortars securely fastened to the deck of the barge; that the fireworks shall be discharged seaward; that the operation of the display be under the supervision of a certified operator at all times; that there shall be maintained two portable 40-gallon fire extinguishers on the deck of the barge during the display operation; that the barges shall be anchored fore and aft.

1560-23-A.

APPELLANT—Ernest Stern, for A. J. & A. Aaront, lessee.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—203-205 West 40th street, Manhattan.

THE RESOLUTION:

(1560-23-A)

WHEREAS, Ernest Stern, for A. J. and A. Aaront, lessees, filed, December 31, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 203-5 West 40th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, rendered December 13, 1923, in acting on Alteration Application No. 828-23, reads:

"1. The automatic sprinkler equipment for these premises with the occupancy as stated must be supplied from two sources consisting of an approved pressure tank supply and an approved gravity tank supply * * *";

and

WHEREAS, the building is fireproof, four stories in height, 39 ft. by 73 ft. 3 in. in area. OCCUPIED: 1st story, lunch room; 2nd story, developing motion picture films; 3rd and 4th stories, type setting; and

WHEREAS, appellant contends that the films are handled in a room separated from the rest of the premises by terra cotta partitions with kalameined doors at the openings and that chemical fire extinguishers and fire pails filled with water and sand have been provided.

Resolved, that the decision of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

378-23-A.

APPELLANT—Edward P. Doyle, for Apex Leasing Co., Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—47-65 West 42nd street, Manhattan.

THE RESOLUTION:

(378-23-A)

WHEREAS, Samuel Rosenblum, for Apex Leasing Co., Inc., lessee, filed, March 31, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 47-65 West 42nd street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 13, 1923, reads:

"1. Install a standpipe system with risers 4 inches in diameter, tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *";

and

WHEREAS, the building is non-fireproof, seven stories (96 ft. 7 in.) in height, 100 ft. 5 in. by 208 ft. in area; equipped with two stairways and an exterior iron stairway. OCCUPIED: 1st story, stores, 150 persons; 2nd, 3rd, 4th and 5th stories, offices (25 factory workers), 400 persons; 6th story, Turkish baths and dormitory, 350 persons; and

MINUTES

WHEREAS, this appeal was denied by the board at its meeting January 2, 1924, and reopened February 29, 1924, on request of appellant; and

WHEREAS, appellant now contends that the building is to be altered in 1925 by adding additional stories and to compel the erection of a tank on the roof at the present time would be a great hardship, and proposes to provide adequate fire protection.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, so far as it affects the present occupancy, on condition that one four-inch standpipe line be installed in the southerly stair hall; that both stairs (with the exception of the southerly stairs, first story, which shall lead directly to the street through the existing glass enclosed entrance corridor) from the first story to the roof, be enclosed with fireproof material, any openings therein to be protected with self-closing, fireproof doors; that two 2½ gallon fire extinguishers be provided and maintained in the public corridors, at the Sixth avenue end of the building, on each story; that this variation is *granted* as a temporary expedient pending reconstruction and addition to building and only so long as present conditions as to use and occupancy remain unchanged, and shall not extend beyond the expiration of the lease of present occupant, viz., May 1, 1926.

53-24-A.

APPELLANT—Samuel Rosenblum, for Benjamin C. Riley, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—Southwest corner of Riverdale avenue and West 246th street, The Bronx.

APPEARANCES—None.

ACTION OF BOARD—Laid over to May 13, 1924, at 10 a. m., on written request of applicant.

1284-23-BZ.

APPLICANT—Samuel Rosenblum, for Rose Morizio, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district alteration and extension of an existing garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—8226 18th avenue, Brooklyn.

APPEARANCES—

For Applicant: Samuel Rosenblum.

For Opposition: None.

ACTION OF BOARD—Laid over to April 22, 1924, at 10 a. m., for full vote of board.

THE VOTE TO GRANT—

Affirmative: Messrs. Beatty, Boulton, Holland and Kerby 4

Negative: Chairman Walsh and Mr. Connell . 2

Absent: Fire Chief Kenlon 1

152-24-BZ.

APPLICANT—William F. Doyle, for William N. Croxton, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit extending into a business district from an unrestricted district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—16 Convent avenue and 430 West 128th street, Manhattan.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: Emil W. Hoemicher, Josephine Erlwein and Beatrice Hyams.

ACTION OF BOARD—Report of committee adopted; application denied.

THE VOTE TO ADOPT REPORT OF COMMITTEE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7

Negative 0

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7

Absent 0

THE RESOLUTION:

(152-24-BZ)

WHEREAS, William F. Doyle, for William N. Croxton, owner, filed, January 20, 1924, an application, under the building zone resolution, to permit the extension from an unrestricted district into a business district of a proposed garage for the storage of more than five (5) motor vehicles; premises 16 Convent avenue and 430 West 128th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Convent avenue is a business district and West 128th street is an unrestricted district, 100 ft. west of Convent avenue; and

WHEREAS, the decision of the superintendent of buildings, rendered January 17, 1924, in acting on N. B. Application No. 24-24, reads:

"1. A public garage for more than five cars may not be erected in a business district. Section 4, Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height on Convent avenue and three stories on West 128th street, with a frontage of 84 ft. 4¼ in. on Convent avenue, 90 ft. 6¼ in. on West 128th street and a depth of 99 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

TO THE BOARD OF APPEALS:

A Committee of Inspection of the Board, composed of Chairman Walsh, Fire Chief Kenlon, Messrs. Holland, Boulton, Kerby and Connell, visited the premises under appeal, 16 Convent Avenue and 430 West 128th Street, on March 27th, 1924.

This application is for the erection of a garage on a plot at the corner formed by the intersection of Convent Avenue and 128th Street, irregular in shape, approximately 84 feet frontage on Convent Avenue—a business street—and 99 ft. 11 inches at the rear.

With the business influence bearing back 100 feet from the Convent Avenue frontage, an irregular triangular gore at the southwesterly portion of the plot is left in the unrestricted district. 128th Street is approximately 16 feet below the grade level of Convent Avenue, the difference in grade being protected by a retaining wall running the width of the street.

The plot is now occupied by a small one-story structure in the centre, with accommodations for and now housing one motor vehicle truck. At the extreme

MINUTES

rear, for a portion of the plot, there is an open frame shed. The plot is otherwise vacant, but used for the storage of contractors' equipment, such as scaffold-plank and horses.

This application is brought under sections 7-e and 20. From a survey of the property and information secured by inquiry in the neighborhood, that seemed reliable, it appears that the basis of appeal under 7-e does not apply, as there is not, and, from the best information obtainable, has not been for over ten years, a stable housing more than five horses or automobiles on these premises.

Directly opposite, on the southwest corner of Convent Avenue, there is now in existence a one-story taxpayer of shops or stores, such as are common to the neighborhood. The northeast corner is occupied by apartment house. The northwest corner, a plot in the same relative position as the premises under appeal, that is, facing Convent Avenue and extending back into 128th Street, is improved with an apartment house. On the southerly side of 128th Street, approximately 100 feet east of Convent Avenue, there is now in course of erection a row of attractive, modern apartment houses.

It would seem that the property under appeal also is available for apartment house development, which use immediately abuts the property to the south, and, therefore, the circumstances and surroundings not substantiating the basis of appeal, the Committee recommends denial of the application.

(Signed) WILLIAM E. WALSH,
ALFRED J. BOULTON,
JAMES P. HOLLAND,
JOHN KENLON,
JOHN C. KERBY,
HENRY L. CONNELL.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

64-24-BZ.

APPLICANT—William F. Doyle, for 332-340 East 84th Street Realty Co., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business "B" area district the erection and maintenance of a garage for the storage of more than five motor vehicles, also the omission of a rear yard as required by the zone resolution.

PREMISES AFFECTED—332-340 East 84th street, Manhattan.

APPEARANCES—

For Applicant: William F. Doyle.

In Opposition: J. W. Eidt, Rev. Dr. Hopkin, G. M. Lahm, David M. Jones, Walter Wise, Mrs. Hommel and others.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative: Mr. Kerby 1

Negative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell and Holland 5

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(64-24-BZ)

WHEREAS, William F. Doyle, for 332-40 East 84th Street Realty Co., Inc., owner, filed, January 17, 1924, an application, under the building zone resolution, to permit in a business "B" area district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles, and also the omission of a rear yard as required by the zone resolution; premises 332-334-336-338 and 340 East 84th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 83rd street, First avenue and Second avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered January 14, 1924, in acting on N. B. Application No. 15-24, reads:

"1. Proposed occupancy is contrary to the provisions of section 3, Building Zone Resolution.

"2. Rear yards should be provided as per sections 12 and 16, Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories in height, with a frontage of 100 feet and a depth of 102.2 feet, to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

89-24-BZ.

APPLICANT—William F. Doyle, for Estate of Simeon C. Bradley and James F. McGarry, owners.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles.

PREMISES AFFECTED—West side of Webster avenue, 120.18 ft. south of 182nd street, The Bronx.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(89-24-BZ)

WHEREAS, William F. Doyle, for Estate of S. C. Bradley and J. F. McGarry, owners, filed, January 21, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises west side of Webster avenue, 120.18 ft. south of 182nd street and east side of 181st street, 122.1 ft. south of 182nd street, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Webster avenue, 181st street and East 182nd street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 8, 1923, in acting on N. B. Application No. 2908-23, reads:

"Erection of proposed garage for the storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height on West 181st street

MINUTES

and three stories in height on Webster avenue, with a frontage of 100 ft. and a depth of 184.55 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses, and the board deemed that in view of the consents of the owners of property frontage on West 181st street that the application should be granted.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the garage shall be restricted to the layout and dimensions as described on plans filed in this case, restricting the structure to a three (3) story building on the Webster avenue front and limiting the said structure to one-story building above grade on the 181st street (or Folin avenue) front and that the front elevation on West 181st street and Webster avenue shall be finished in face brick with architectural terra cotta or stone trimmings; that any gasoline storage equipment installed shall be restricted to the Webster avenue street front, grade floor level;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

1121-23-BZ.

APPLICANT—John Jos. Carroll, for Edward Amato, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of garage for storage of more than five motor vehicles.

PREMISES AFFECTED—810-816 Classon avenue, Brooklyn.

APPEARANCES—

For Applicant: John Jos. Carroll.

For Opposition: Andrew S. Derby, Agnes M. Stack, Barnet Silberman, Henry H. Schep-
per, Loretta Stack.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, Holland and Kerby 6

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1121-23-BZ)

WHEREAS, John Jos. Carroll, for Edward Amato, owner, filed, September 28, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 810-16 Classon avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Classon avenue is a business district and St. Johns place and Lincoln place are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered September 21, 1923, in acting on Application No. 16821-23, reads:

"1. Proposed alteration is contrary to Art. II, Sect. 4, Zone Resolution, and is hereby denied. (Public garage in business district).";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 32 ft. 8 in. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a similar application, Cal. No. 447-16, was denied by the board and there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1280-23-BZ.

APPLICANT—Charles B. Meyers, for Charles Rudolph, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the alteration and conversion of occupancy from residence to business use.

PREMISES AFFECTED—865 East 175th street, The Bronx.

APPEARANCES—

For Applicant: Charles B. Meyers, John Boyle, Jr.

For Opposition: Chris. C. Keenan, Harry Edelson and others.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty,
Boulton, Connell, Holland and Kerby 6

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1280-23-BZ)

WHEREAS, Charles B. Meyers, for Charles Rudolph, owner, filed, November 8, 1923, an application, under the building zone resolution, to permit in a residence district the alteration and extension of an existing dwelling, and the conversion of occupancy from residence to business use; premises 865 East 175th street, Borough of The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, April 15, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 175th street and Molegan avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered September 20, 1923, in acting on Alt. Application No. 425-23, reads:

"1. Proposed alteration and conversion of dwelling in residence district to be used for business purposes is contrary to provisions of Building Zone Resolution.";

and

WHEREAS, the existing building is of frame construction, 2½ stories in height, with a frontage of 22½ ft. and a depth of 35 ft.; it is proposed to alter building and to occupy same for business purposes; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners and applicant failed to establish the basis of his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

1138-23-BZ.

APPLICANT—Samuel Rosenblum, for Alice Kambourian, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a business use in an existing residence building.

PREMISES AFFECTED—265 Lexington avenue, Manhattan.

(Continued on Page 586.)

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE FIRE ESCAPE RULES—RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 22, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments to Rule 380, Industrial Code, and adoption of same as rules of the board of standards and appeals, affecting the maintenance of existing substandard fire escapes on factory buildings; Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended Dec. 12, 1918, Cal. No. 1708-18-S.

Matter in italics is new. Matter in brackets [] is old matter to be omitted.

EXISTING FIRE ESCAPES OF FACTORIES

[Supplementary to Labor Law, §§ 79-a to 79-f; adopted and effective July 30, 1914]

Rule 380.—When, in addition to the required exits of any factory or factory building, there exist one or more outside fire escapes which are not entirely in accordance with the provisions of the Labor Law relating to fire escapes, such fire escapes may be retained without being changed to conform to such provisions, if steps are taken, satisfactory to the Commissioner of Labor, to prevent their use as means of egress, and provided that such fire escapes are maintained in good repair.

NOTE.—The Commissioner of Labor has ruled that such fire escapes must be structurally safe and that they shall not be used for fire drills.

At the openings leading to such fire escapes there shall be placed a sign, with letters eight inches high, reading "THIS IS NOT AN EXIT." No barrier or guard will be permitted at these opening.]

3. When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards

and Appeals, such means of egress may be retained under the following conditions.

(a) *Fire Escapes*—All single rung, double rung and vertical ladder fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) *Interior Stairways*—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) *Exterior Screened Stairways*—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) *Horizontal Bridges*—Horizontal bridges between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Tuesday, April 22, 1924, at 2 p. m., Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as rules of the Board of Standards and Appeals affecting the Enclosure of Factory Stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

[Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed		Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an interior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos	Glass
Baking powder	Glue, mucilage, paste, size
Breweries	Ivory
Buttons (pearl or bone)	Leather (excluding japanning or enameling)
Canneries (including food products)	Metals (excluding japanning or enameling)
Chalk and crayon	Soap, candles
Condensed and powdered milk	Porcelain and pottery
Electric light plants and power houses	Talc and soapstone
Electrolytic reducing works	Tanneries (excluding japanning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)	Linoleum works
Bakeries	Metals (with enameling or japanning)
Bamboo and rattan	Packing houses
Baskets	Paper mills
Belting (including canvas)	Printing, lithographing, book-binding
Boots and shoes	Silk
Buttons (including cloth covered)	Sugar refineries (including beet and glucose works)
Cardboard (including boxes)	Tanneries (with japanning or enameling)
Clothing, woolen (wearing apparel)	Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Cordage	Tobacco, cigars, cigarettes and snuff
Furs	Woodworking (excluding dipping or varnishing)
Gloves (other than leather)	
Horn and combs (not celluloid)	
Leather (with enameling or japanning)	

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity or from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers	Feed, flour and grist mills
Artificial leather	Fireworks
Celluloid	Imitation leather
Cereal mills	Matches
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)	Rag sorting (including cotton)
Cotton batting	Shoddy mills
Cotton clothing (women's)	Starch and sugar mills (including pulverizing)
Cotton waste	Straw goods
Dry cleaning	Varnish
Explosives	Woodworking (with dipping or varnishing)
Feather renovating	

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental or well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as here-in provided, in all factory buildings more than two stories

PUBLIC HEARING

and less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving as required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
Three	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
Four	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
Five	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room in every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Labor Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire drills substantially conforming to rules of the board are held, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. Enclosure of Stairways.—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

BOARD OF APPEALS.

WILLIAM E. WALSH, Chairman.

FRED J. BOULTON	JAMES P. HOLLAND
JOHN J. BEATTY	HENRY L. CONNELL
JOHN E. KERBY	FIRE CHIEF JOHN KENLON

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION. 10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, April 29, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, May 6, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

Under the Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, April 29, 1924, at 10 o'clock*, in Room 919, Municipal Building, on the following matters:

- CAL. NO. 168-24-BZ—Application, February 2, 1924, under the building zone resolution, of Samuel Rosenblum, architect, on behalf of Samuel Aptakin, owner, to permit in a residence district the alteration and extension of an existing building used in part for business purposes; premises 1000 East 172nd street, southeast corner of Longfellow avenue, The Bronx.
 CAL. NO. 1049-22-BZ—Application, August 16, 1922, under the building zone resolution, of Charles Hlawatsch, applicant and owner; Howard P. Steinkamp, lessee, to permit in a residence district the maintenance of a garage for the storage of four (4) motor vehicles, two spaces rented to persons not residing on the premises; premises 58 East 190th street, The Bronx.
 CAL. NO. 353-24-BZ—Application, March 7, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of Theodore Roehrs, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side of East 181st street, 224.10 ft. south of East 182nd street, The Bronx.
 CAL. NO. 366-24-BZ—Application, March 10, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of Alfonso Celentano and Terrace Realty Corp., owners, to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side Bainbridge avenue, 40 ft. south of East 194th street and west side of Marion avenue, 78.42 ft. south of East 194th street, The Bronx.

CAL. NO. 1531-23-BZ—Application, December 26, 1923, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Nellie C. Kirby, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1125-1137 Union avenue, The Bronx.

CAL. NO. 79-24-BZ—Application, January 18, 1924, under the building zone resolution, of John De Hart, applicant, on behalf of Bainbridge Construction Co., Inc., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 280-284 West Fordham road, southwest corner of Cedar avenue, The Bronx.

CAL. NO. 101-24-BZ—Application, January 23, 1924, under the building zone resolution, of James Crooke McLeer, applicant, on behalf of Georgana G. Pengel, owner, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 586-594 Coney Island avenue and 225-231 East 9th street, Brooklyn.

CAL. NO. 192-24-BZ—Application, February 7, 1924, under the building zone resolution, of John De Hart, applicant, on behalf of J. J. Theodore Rieper Estate, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 2359-2369 Jerome avenue, The Bronx.

CAL. NO. 282-24-BZ—Application, February 23, 1924, under the building zone resolution, of Harry Lederer, applicant and lessee, G. Norton, owner, to permit in a business district extending partly into an undetermined district the change of occupancy from an automobile salesroom to a garage for the storage of more than five (5) motor vehicles; premises south side Mermaid avenue, 115 ft. east of Beach 36th street and north side of Far Rockaway boulevard, 67 ft. 4 in. west of Beach 35th street, Edgemere, Queens.

CAL. NO. 116-24-BZ—Application, January 25, 1924, under the building zone resolution, of The New York Edison Company, applicant and owner, to permit in a business district the erection and maintenance of a building for use as an electric transforming station; premises 27 West 47th street, 32-34 West 48th street, Manhattan.

CAL. NO. 127-24-BZ—Application, January 28, 1924, under the building zone resolution, of George F. Spelman, architect, on behalf of Fordham Knights of Columbus Association, Inc., owner, to permit in a "B" area residence district the extension of an existing club building to the rear lot line, entirely omitting the rear yard as required by Sections 12 and 16-b of the zone resolution; premises 2605 Grand Concourse, The Bronx.

CALENDAR

CAL. NO. 346-24-BZ—Application, March 6, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of G. A. Boyd, owner, to permit in a business district, also in a street between two intersecting streets in which portion there exists an exit and entrance to a public school, the alteration and change of occupancy from an existing public stable to a garage for the storage of more than five (5) motor vehicles; premises 173-177 West 89th street, Manhattan.

WILLIAM E. WALSH, *Chairman.*

182-22-A.

APPELLANT—William F. Doyle, for Williamsburg Ice Co.

SUBJECT—Application for reopening—appeal from orders of fire commissioner.

PREMISES AFFECTED—258-262 Maujer street, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Request for reopening laid over to April 29, 1924, at 10 a. m.

183-23-A.

APPELLANT—John Wanamaker Co., owner.

SUBJECT—Application for extension of permit (re: appeal from decision of fire commissioner).

PREMISES AFFECTED—772-786 Broadway, 71-91 East 9th street, 60-70 East 10th street and 60-72 Fourth avenue, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Request for extension of permit laid over to April 29, 1924, at 10 a. m.

185-23-A.

APPELLANT—Samuel Rosenblum, for Miles Bros., Inc., owner.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—1957 Pitkin avenue, Brooklyn.

APPEARANCES—

For Appellant: Samuel Rosenblum and John McDowell.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

THE RESOLUTION:

(1336-23-A)

WHEREAS, Samuel Rosenblum, for Miles Bros., Inc., owner, filed, November 19, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1957 Pitkin avenue, Brooklyn; and

WHEREAS, the orders of the fire commissioner read:

"1. Forthwith remove all nitro-cellulose products in the form of blocks, slabs, sheets, rods, tubes or other shapes to be used as raw material from the premises and discontinue the further storage of celluloid on the premises pending compliance with the following:

"3. Enclose stairway in accordance with the provisions of Article 8 and 18 of the Code of Ordinances.

"4. Provide an automatic sprinkler system supplied from both approved gravity tank supply and an approved pressure tank supply—(except that no change shall be required in supplies to automatic sprinkler equipments previously approved by the Fire Commissioner as two source systems in conformity with the provisions of these rules as in force up to December 1, 1921. Sec. 232-2F.

"6. Provide jets of water where saws or cutting tools are used on the 2nd story which are likely to heat the nitro-cellulose product to the firing point of friction or otherwise, so that same shall continuously play upon the point of contact."

and

WHEREAS, the building is divided into two sections by a fore and aft wall, with fire resisting doors and openings of non-fireproof construction, three stories in height, 75 ft. by 125 ft. (irregular) in area; OCCUPIED by one tenant for the manufacture of brushes; and

WHEREAS, appellant contends that the celluloid work is done on the 2nd story of the westerly section and that the total amount of celluloid in work at one time is only one pound and the main supply (30 pounds) is kept in the yard 30 ft. from any building; the stairway in question is separated from the section where the celluloid is used by a brick wall with fire doors at the openings, and that there are two additional means of exit from this story.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that not more than 20 or 30 pounds of celluloid shall be maintained on premises, stored in a heavy metal box, equipped with self-closing door, with overlapping joints, located in the open yard, not less than 30 ft. from the wall of building, and marked in letters of not less than 8 in., "CELLULOID STORAGE"; that not more than one pound of material shall be used in work at any one time; the celluloid work to be restricted to the basement and 1st story of the three-story westerly building, egress and ingress from the yard, in the line of travel from the storage box, to be direct to stairs by a doorway in the rear northerly wall at the extreme westerly corner of yard; that the carrying of all celluloid from yard to work benches shall be in approved tote boxes; that there shall be no open flame on any floor on which the celluloid work is conducted; that any open-

MINUTES

ings in wall separating that portion of building in which the celluloid work is performed from adjoining buildings shall be provided with fireproof, self-closing doors; and *granted* only so long as celluloid use and occupancy are restricted to the present industrial process and operation and conditions otherwise as to occupancy and use remain unchanged.

1352-23-A.

APPELLANT—Simplex Oil Heating Corp., for J. G. Construction Co., owner.

SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—1389-1607 Ocean avenue, Brooklyn.

APPEARANCES—

For Appellant: George Getzoff.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Case withdrawn; to file new appeal.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5

Negative 0

Absent: Mr. Beatty and Fire Chief Kenlon 2

1355-23-A.

APPELLANT—Frank Cividanes, lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—114 Barrow street, Manhattan.

APPEARANCES—

For Appellant: Frank Cividanes.

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 6

Absent: Mr. Kerby 1

THE RESOLUTION:

(1355-23-A)

WHEREAS, Frank Cividanes, for Leon Ottinger, owner, filed, November 22, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 114 Barrow street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"Section 5, paragraph 5, Chapter 5, of the Code of Ordinances provides that no change of occupancy or use shall be made in any * * * now existing building * * * unless * * * such building conforms to the provisions of the building code with respect to buildings hereafter altered for the proposed new occupancy or use.

"Section 90, Chapter 5, of the Code of Ordinances provides that * * * no frame * * * structure shall be hereafter built * * * within * * * the fire limits.

"You are therefore ordered to—

"1. Remove all motor vehicles, the fuel tanks of which are not empty and to discontinue the use of premises as a garage."

and

WHEREAS, the building is frame, one story in height, 30 ft. by 19 ft. in area; OCCUPIED as a garage for two motor vehicles, located in an unrestricted district; and

WHEREAS, appellant contends that the garage is an accessory to the premises and the stored cars are the property of the tenants.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1434-23-A.

APPELLANT—American Can Company, owner.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—10-24 Dwight street, 5-21 Delevan street and 14-28 Verona street, Brooklyn.

APPEARANCES—

For Appellant: W. D. Cole.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative

Negative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon

Absent: Mr. Kerby

THE RESOLUTION:

(1434-23-A)

WHEREAS, The American Can Co. filed, December 1923, an appeal, with the board of appeals, from order of the fire commissioner, affecting premises 10-24 Dwight street, 5-21 Delevan street and 14-28 Verona street, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated September 4, 1923, read:

"No. 49018-F: 7. Disconnect the present standpipe system from the sprinkler system as per Section 2 Ch. 12, Code of Ordinances and the rules of the Board of Standards and Appeals."

"No. 49019-F: 1. Install a standpipe system with risers 4 inches in diameter, tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof."

and

WHEREAS, the premises consist of a plot of ground facing on Dwight street and running through from Delevan street to Verona street, on which is located the plant of the American Can Co., consisting of a four-story brick fireproof factory building on Dwight street, a four-story reinforced concrete factory building on Delevan street, a three-story brick engine house and storage building on Verona street and a two-story brick box factory on Verona street, also a small one-story varnish house attached on Verona street, the buildings being equipped with a sprinkler system and a standpipe system in the stair towers; and

WHEREAS, appellant contends that they have gone to much expense in complying with orders of the fire department, installing new sprinkler tank, fire escape, etc. and that there is no hazard involved, the premises facing on three streets and being four stories in height.

Resolved, that the orders of the fire commissioner be and they hereby are *affirmed*, and the appeal be and it hereby is *denied*.

1519-23-A.

APPELLANT—Rode & Horn Lumber Co., Inc., owner.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—29-55 Middleton street, Brooklyn.

APPEARANCES—

For Appellant: Samuel J. Rode and E. L. Barnard.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon

Negative

Absent: Mr. Beatty

MINUTES

THE RESOLUTION:

(1519-23-A)

WHEREAS, The Rode & Horn Lumber Co., Inc., owner, filed, December 23, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 29-55 Middleton street, Borough of Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated December 8, 1923, read:

"No. 51717-F: 1. Provide yard hydrants as per rule 37 adopted by the Board of Standards and Appeals July 20, 1923. Section 776, Greater New York Charter.

"No. 51718-F: 1. Provide a brick wall at least 18 ft. in height on the east, north and west sides of yard.";

WHEREAS, the premises consist of a plot of ground facing 280 ft. on Middleton street, having a depth of 100 ft., which is located the plant of Rode & Horn Lumber Co., consisting of three lumber piles, two 12 ft. fore and two cross driveways; and

WHEREAS, appellant contends that the exposures to the rear are open yards of small frame buildings on Lynch street, to the north the open yards of four-story brick buildings and to the south a lumber yard of the Brooklyn Casket Co.; that there are three fire hydrants on Middleton street close to the property; that to provide the brick wall in question would be a great hardship and would practically put them out of business; that the lumber is piled in low stacks, not over 15 ft. in height; and appellant further proposes to move the lumber pile at the rear to the position now occupied by the driveway and substitute the driveway 12 ft. wide for this lumber pile so that there will be at least an open space of 25 ft. between any lumber pile and openings in the buildings to the north; that the yard will be provided with 40 gallon water casks and buckets.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted*, as to Order No. 51717, Item 1, on condition that water casks be maintained at the head of each runway, with not less than four (4) buckets to each cask, painted red and marked "FIRE"; and as to Order No. 51718, Item 1, *granted on condition* that an open runway not less than 16 ft. in width shall be maintained around entire premises, abutting the adjoining property, and with at least one additional intermediate runway; two driveways will also be maintained, connecting the runways along the length of the property; lumber stacks shall not exceed a height of 15 ft.

1520-23-A.

APPELLANT—Brooklyn Union Lumber Co., lessee.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—516-524 Broadway, Brooklyn.
APPEARANCES—

For Appellant: Robert Kloess and E. L. Barnard.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Beatty 1

THE RESOLUTION:

(1520-23-A)

WHEREAS, Brooklyn Union Lumber Co. filed, December 23, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 516-524 Broadway, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 51803-F, dated December 7, 1923, reads:

"1. Provide brick or fireproof wall 18 ft. in height on southerly and westerly side adjoining Public School and tenement house. Sec. 776, Greater New York Charter.";

and

WHEREAS, the premises consist of a plot of ground facing on Broadway and on Lynch street, on which is located the plant of the Brooklyn Union Lumber Co., consisting of a one-story brick office building, and three (3) lumber sheds, an open yard at the rear varying from 16 ft. to 24 ft. and two driveways 12 ft. 3 in. and 11 ft. in width; the adjoining building to the west is three-story brick and to the east is a one-story frame; and

WHEREAS, appellant contends they have been in business at this location since 1905; that the nearest point of the public school to any structure on this property is 8 ft. 2 in.; and that there are no openings in this portion of the school overlooking the lumber yard; that to provide the wall in question would be a great hardship; that the building to the west is brick filled and the outside covered with metal, and further contends that every point of the yard can be reached from the fire hydrants from the street; that the lumber is in low piles.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that an open and unobstructed yard shall be maintained throughout entire length of rear; that no lumber pile shall be placed nearer than 16 ft. to the rear or southerly property line; no lumber to be stacked on the roof of storage sheds; that not less than two (2) fire casks, painted red and marked "FIRE", equipped with not less than four (4) buckets, shall be maintained in rear yard; and that runways not less than 11 ft. wide, running from front of property to rear, shall be maintained free and unobstructed.

1558-23-A.

APPELLANT—James H. Stansbury, Inc.
SUBJECT—Appeal from orders of fire commissioner.
PREMISES AFFECTED—South side Jamaica avenue, between 185th street and Farmers avenue, Queens.
APPEARANCES—

For Appellant: H. R. C. Brummer and E. L. Barnard.

ACTION OF BOARD—Appeal granted on condition.
CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Beatty 1

THE RESOLUTION:

(1558-23-A)

WHEREAS, James H. Stansbury, Inc., owner, filed, December 31, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises south side Jamaica avenue, 35 ft. east of 185th street, Borough of Queens; and

WHEREAS, the orders of the fire commissioner, dated December 18, 1923, read:

"No. 51688-F: 1. Provide a fire wall 18 ft. in height around Lumber Yard, where lumber is stored within 30 ft. of frame buildings, or within 30 ft. of unprotected openings in exterior walls of brick buildings. Sec. 776, Greater New York Charter."

"No. 51689-F: 1. Provide Monitor Nozzle and hydrants as per Rule 37 adopted by the Board of Standards and Appeals July 20, 1923. Section 776, Greater New York Charter.";

and

MINUTES

WHEREAS, the premises consist of a plot of ground with a frontage of 476 ft. on Jamaica avenue and a depth of approximately 306 ft., running back to the tracks of the Long Island Railroad, on which is located the plant of James H. Stansbury, consisting of a two-story frame storehouse, one-story metal-covered mill and office building, an open lumber shed, a 12,000-ton coal pocket, a two-story frame office building, one-story frame shed, two-story brick and frame stable, two coal bunkers, a lumber shed and three lumber piles; and

WHEREAS, appellant contends that the property is protected by water supply from four driven wells at the rear of the property, by three fire hydrants on Jamaica avenue; that to provide the brick wall required would be a hardship and would practically confiscate the property, and would serve no useful purpose in that all the structures on the premises are operated by this company, and that there are no adjoining structures which would be affected, there being open driveway to the north and open yard to the south; that to provide the fire hydrants required would tend to bleed the city main in case they were used before the arrival of the fire department; and that, owing to driveways, etc., the yard is readily accessible to fire department apparatus.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted* as to both orders *on condition* that a lay-out as filed in this case shall be maintained; that the lumber piles shall not exceed a height of 15 ft.; that driveways as indicated on plans shall be maintained free and unencumbered; and *granted* so long as conditions otherwise remain substantially unchanged with respect to surrounding properties.

1474-23-A.

APPELLANT—Jack G. Leo, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—60 East 191st street, The Bronx.

Absent: Mr. Beatty

THE RESOLUTION:

(1181-23-A)

WHEREAS, J. Pines, for Thomas Lewis Estate, owner filed, October 16, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 38 Walker street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"Section 232-2, Chapter 10, Code of Ordinances, prohibits the storage of nitro-cellulose products in any building unless all vertical openings between floors including stairways, elevators and dumbwaiters shall be enclosed or otherwise protected as specified in Articles 8 and 18 of Chapter 5 of the Code of Ordinances

"You are, therefore, ordered to:

"1. Forthwith remove all nitro-cellulose products."

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 92 ft. in area at the 1st story and 23 ft. by 82 ft. in area above. OCCUPIED: 1st story, store; 2nd story, awning manufacture; 3rd story, occupied by appellant for the manufacture of leather novelties; 4th and 5th stories, manufacture of suit cases; and

WHEREAS, appellant intends occupying the premises for the manufacture of leather novelties for two years and states that the maximum amount of celluloid stored in the premises is five pounds.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that not more than 5 pounds of sheet celluloid shall be maintained on premises, stored in metal box; that the industrial operation shall be restricted to sewing inserts of celluloid shields in wallets, etc.; that any open gas flame within 15 ft. of the work shall be discontinued; that a self-closing waste can shall be maintained for trade waste and clippings, said can filled with water and that this occupancy shall be discontinued and vacated on or before December 31, 1924.

1454-23-A.

APPELLANT—Steinman Company, for A. & F. Holding Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—Clason Point, 500 ft. east of Sound View avenue, entrance to Westchester Creek, The Bronx.

APPEARANCES—

For Appellant: C. A. Gustafson, G. E. Gustafson

For Administration: Inspector Lenihan of fire department.

ACTION OF BOARD—Appeal denied.

MINUTES

THE VOTE TO GRANT—

Affirmative: Mr. Kerby 1
Negative: Chairman Walsh, Messrs. Boulton,
Connell, Holland and Fire Chief Kenlon .. 5
Absent: Mr. Beatty 1

THE RESOLUTION:

(1476-23-A)

WHEREAS, C. A. Gustafson, owner, filed, December 14, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises Classon Point, 500 ft. east of Sound View avenue entrance to Westchester Creek, Borough of The Bronx; and

WHEREAS, the order of the fire commissioner, No. 21425-LC, dated November 27, 1923, reads:

"Referring to your application dated June 21, 1923, for a permit to conduct an oil supply station on barge at the above location, I regret to inform you that your application for such permit is disapproved for the reason, barge is of wooden construction.

"You are, therefore, hereby ordered to:

"1. Discontinue the maintenance of an oil supply station on the barge of wooden construction, located at the above address—as per Sec. 111-2, Chap. 10, Code of Ordinances.";

and

WHEREAS, the premises consist of a barge anchored at the entrance of Westchester Creek, midway between Classon Point and the buoy marking channel, barge having a width of 26 ft. 6 in. and a length of 90 ft., the barge being of wood and used for the sale of gasoline and oil for motor boats; and

WHEREAS, appellant contends that there are four 1,000 gallon tanks, two standard five-gallon pumps and a small house of metal construction used for the storage of oil and grease; that the floor of the house is of concrete; and that there is a concrete floor under all the tanks; and appellant further contends that the nearest pier, land or building is 500 ft. away.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

BUILDING ZONE CASES.

76-24-BZ.

THE RESOLUTION:

(1284-23-BZ)

WHEREAS, Samuel Rosenblum, for Rose Morizio, owner, filed, November 8, 1923, an application, under the building zone resolution, to permit in a business district the alteration and extension of an existing garage for the storage of more than five (5) motor vehicles; premises 8226 Eighteenth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 22, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Eighteenth avenue and 84th street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered October 19, 1923, in acting on App. No. 18246-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. 2, Sec. 4. The extension of a garage for more than 5 motor vehicles in a business district.";

and WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 50 ft. and a depth of 100 ft.; occupied as a garage for more than five motor vehicles; it is proposed to extend the garage to cover the entire lot; and

WHEREAS, under the provisions of section 7, subdivisions C and E, the board is empowered to act.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the existing rear wall of present building be maintained unpierced, with the exception of one opening, not exceeding 3 ft. 8 in. in width; that the proposed extension shall be restricted in height to a one-story structure; that the gable walls shall be unpierced throughout their entire height and length; that the face of the building on the railroad right-of-way be finished in front brick, with architectural terra cotta or stone trimmings; that any skylights installed shall be along the centre line of roof and shall be glazed with plain glass, protected above and below with wire guards;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

153-24-BZ.

APPLICANT—William F. Doyle, for Herman H. Lucke, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district extending from an unrestricted district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—902-922 60th street, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

MINUTES

For Opposition: Richard Petrone, Mrs. Nastasi, Rosalie Lopresti, Joseph Lepen, Joseph Covillo, Dominick Florio, Virginia Losco, Rose Scala, Maria Rauggiero and others.

ACTION OF BOARD—Application granted on condition. CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Beatty 1

THE RESOLUTION:

(153-24-BZ)

WHEREAS, Wm. F. Doyle, for Herman H. Lucke, owner, filed, January 30, 1924, an application, under the building zone resolution, to permit the extension from an unrestricted district into a business district of a proposed garage for the storage of more than five motor vehicles; premises 902-22 60th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 22, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that 60th street, starting 100 ft. east of Ninth avenue, is unrestricted, remainder in business district; and Ninth avenue is a business and unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered January 19, 1924, in acting on N. B. App. 1179-24, reads:

"Proposed one story brick public garage for more than five motor vehicles, partly in a business district and partly in an unrestricted district, is contrary to Art. II, par. 4 (a) of the Zone Resolution.";

and
WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 180 ft. and a depth of 100 ft.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, under the provisions of section 7, subdivision C, the board is empowered to act and, owing to the character of the surrounding property, there would be hardship in preventing applicant from making the proposed improvement.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the structure shall not exceed one story in height; that the rear and easterly gable walls shall be unpierced throughout their entire height and length; that the front elevations on Ninth avenue and 60th street shall be faced with front brick and architectural terra cotta or stone trimmings; that the roof shall be of flat design and construction and comply with the building code in all respects; that there shall be no vehicular entrance on 60th street within 100 ft. of the corner formed by the intersection of Ninth avenue and 60th street; that there shall be no doorway other than an emergency exit not exceeding 3 ft. 8 in. in width permitted on 9th avenue front, in any windows incorporated on 9th avenue elevation the sills shall be at least 6 ft. above grade; that any skylights installed shall be glazed with plain glass, protected above and below with wire guards;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

426-23-BZ.

APPLICANT—William Boylehart, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the installation and maintenance of a gasoline and oil selling station.

PREMISES AFFECTED—2001-2013 Neck road, Brooklyn.

APPEARANCES—

For Applicant: William Boylehart and Hugo Magnuson.

For Opposition: None.

ACTION OF BOARD—Application granted on condition. CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland and Kerby 5
Negative 0
Absent: Mr. Beatty and Fire Chief Kenlon .. 2

THE RESOLUTION:

(1426-23-BZ)

WHEREAS, Hugo Magnuson, for Wm. Boylehart, owner, filed, December 4, 1923, an application, under the building zone resolution, to permit in a residence district the installation and maintenance of a gasoline and oil selling station; premises 2001-13 Neck road, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 22, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Neck road and Ocean avenue are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered February 16, 1923, in acting on App. No. 2400-23, reads:

"Denied—Proposition contrary to Zone Resolution. Art. II, Sec. 3. A business use in a residence district. Gasoline & oil selling station, &c.";

and
WHEREAS, the proposed building is to be of sheet iron (corrugated) construction, one story in height, with a frontage of 12 ft. and a depth of 24 ft.; to be occupied as a shelter in conjunction with the oil selling business on the property; and

WHEREAS, the board deemed that there would be hardship in preventing applicant from erecting a shelter.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building be restricted to a one-story structure, not exceeding in ground area 12 by 24 ft., and shall be of attractive architectural design and construction; that the architect shall make a return to this board of his proposed working drawings for approval by this board as to design before submitting same to the superintendent of buildings for approval; that there shall be no advertising sign of any nature or description, and no lettering displayed on the structure; that the present gasoline storage and equipment shall not be extended nor increased beyond the use now existing under permit now in force; that the business use shall not be extended; and that all permits necessary for the prosecution of the work shall be obtained within three months and the building completed within six months from the date of this action.

213-24-BZ.

APPLICANT—R. Buchanan, Jr., for Cross-Bay Theatre, Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit extending into a residence district from a business district the erection and maintenance of a building to be occupied for stores and motion picture theatre.

MINUTES

PREMISES AFFECTED—North side of Rockaway boulevard, 80 ft. east of Woodhaven avenue, Woodhaven, Queens.

APPEARANCES—

For Applicant: R. Buchanan, R. Thomas Short and B. H. Noden.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby and Fire Chief Kenlon .. 5
Negative 0
Absent: Messrs. Beatty and Connell 2

THE RESOLUTION:

(213-24-BZ)

WHEREAS, R. Buchanan, Jr., for Cross-Bay Theatre, Inc., owner, filed, February 11, 1924, an application, under the building zone resolution, to permit the extension, from a business district into a residence district, of a proposed building to be used as stores and moving picture theatre; premises north side of Rockaway boulevard, 80 ft. east of Woodhaven avenue, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 22, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Rockaway boulevard is a business district and 95th and 96th streets are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered January 24, 1924, in acting on N. B. Application No. 516-23, reads:

"1. Your plan and plot diagram indicates that this building projects into a residence district. This is prohibited by Zone Law."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 202 ft. and a depth of 125 ft., extending 25 ft. into the residence district; to be occupied as moving picture theatre and stores; and

WHEREAS, under the provisions of section 7, subdivision B, the board is empowered to act.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that no part of the structure shall exceed a depth of 125 ft. from Rockaway boulevard, exclusive of the courts; that the building shall be restricted to a one-story structure, maintained and operated exclusively as a motion picture theatre; that the structure shall be restricted substantially to the lay-out as shown on plans filed in this case; that the business use portion of the structure shall be separated from the theatre by unpierced, approved fireproof walls; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

319-24-BZ.

APPLICANT—Edward P. Doyle, for 455 Seventh Avenue Co., Inc., lessee.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a two-times height district the erection of the street wall of a building without a setback to a height exceeding the limit set by the zone resolution.

PREMISES AFFECTED—459-499 Seventh avenue, 163-167 West 34th street and 160-166 West 35th street, Manhattan.

APPEARANCES—

For Applicant: Edward P. Doyle and S. M. Banner.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Holland, Kerby and Fire Chief Kenlon .. 5
Negative 0
Absent: Messrs. Beatty and Connell 2

THE RESOLUTION:

(319-24-BZ)

WHEREAS, Edward P. Doyle, for 455 Seventh Avenue Co., Inc., lessee, filed, February 29, 1924, an application, under the building zone resolution, to permit in a two (2) times height district the erection of the street wall of a building without a setback to a height exceeding the limit set by the building zone resolution; premises 459-99 Seventh avenue; 163-67 West 34th street and 160-66 West 35th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 22, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the height district maps accompanying the building zone resolution show that the premises are located in a two-times height district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 20, 1924, in acting on N. B. Application No. 38-24, reads:

"1. The easterly 32 ft. of the 35th St. front should not exceed 120 ft. in height on the building line. Building Zone Resolution, Sec. 8-E.";

and

WHEREAS, the proposed building is to be of fireproof construction, 16 stories in height, with a frontage of 100 ft. 5 in. on Seventh avenue, 72 ft. on 35th street, 66 ft. on 34th street and a depth of 125 ft. from Seventh avenue; to be occupied for stores, offices and light manufacturing (25 per cent floor area); and

WHEREAS, the architectural necessity justifies a variation of the building zone resolution embracing a triangular portion of the building at the top of the first offset line abutting the adjoining plot, and there would be hardship resulting from the eccentric construction and design.

Resolved, that the board of appeals does hereby make a variation in the application of the height district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building comply with the building zone resolution in all other respects; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the work prosecuted to a speedy conclusion.

AREA FIXED.

(399-24-BZ)

The chairman presented and read a communication from James Kearney, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of a garage; premises 2334-2342 Jerome avenue, The Bronx.

The following area was approved by the board:

Both sides of Jerome avenue from a point 100 feet north of 184th street to a point 400 feet south of proposed garage; the south side of 184th street from Jerome avenue to Walton avenue; also the west side of Walton avenue from 184th street to a point 246 feet south of 184th street.

Adjourned 1.45 p. m.

WILLIAM J. O'GORMAN, Secretary.

THE RESOLUTION:

(1213-23-S)

WHEREAS, Chas. B. Meyers, for Moritz Weil, owner, filed, October 24, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 231 Mercer street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 47713-LD, dated June 9, 1923, reads:

"1. Provide safe and unobstructed egress from the lower termination of the fire escape at the rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street * * *";

and

WHEREAS, the building is fireproof, seven stories in height, 25 ft. by 96 ft. in area, equipped with a fire alarm signal system. OCCUPIED as follows: 1st to 4th stories, cotton goods, 13 persons; 5th story, manufacture hats, 14 persons; 6th story, manufacture caps, 20 persons; 7th story, manufacture hats, 14 persons. EXITS: One fireproof stairway extending from 1st to top story, enclosed in fireproof partitions with fire doors at openings; a fire escape on the front of the building extending from top story to 2nd story with drop ladder to street and a fire escape on the rear of the building extending from roof to a bridge at 2nd story balcony, connecting with balcony of fire escape of building to rear; fireproof windows along the course of this fire escape. ROOFS to east 15 ft. lower and to west 35 ft. lower; and

WHEREAS, petitioner contends to provide a fire passage at the 1st story would be a hardship as building is only 25 ft. wide.

Resolved, that the petition be and it hereby is dismissed on condition that the conditions set forth in resolution adopted under Cal. No. 2381-17-S be complied with.

1548-23-S.

PETITIONER—Samuel Rosenblum, for William H. Browning, owner.

SUBJECT—Variation of labor law as cited in decision of fire commissioner.

PREMISES AFFECTED—16 West 57th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Reville, Kleinert, Moore and McDermott .. 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

THE RESOLUTION:

(1548-23-S)

WHEREAS, Samuel Rosenblum, for Madame Franceau, Inc., lessee, filed, December 28, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 16 West 57th street, Manhattan; and

MINUTES

WHEREAS, the order of the fire commissioner reads:

"Item 1: A fire escape erected on the rear of the building as an additional means of exit complies with the Labor Law except that a window on its course at the first floor is not fireproof and self-closing."

and
WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 100 ft. in area at 1st story and 25 ft. by 66 ft. in area above; OCCUPIED as a tenant factory, 58 persons above 1st story. EXITS: An interior wooden stairway extending from 1st story to roof, enclosed in fire resisting partitions with fire doors at openings; one fire escape on rear of the building extending from main roof to roof of one-story extension, with egress by means of iron stair to yard and egress through fireproof passageway to street and also to extension roof of adjoining building; windows along the course of the fire escape are fireproof, self-closing, excepting the bay window in question; roof of building to west 6 ft. higher, to east six stories higher; and

WHEREAS, petitioner contends the window in question is highly ornamental and used for show room purposes, has a copper frame and is glazed with leaded glass in very small panes and the roof of this window is metal, thereby acting as a flame shield to the 3rd story fire escape balcony.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the rear fire escape complies with the labor law in all other respects.

290-24-S.

PETITIONER—Warren & Wetmore, for Steinway & Sons, owners.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—109-113 West 57th street, 106-116 West 58th street, Manhattan.

APPEARANCES—

For Petitioner: Walter L. Hopkins.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Reville, Kleinert, Moore and McDermott ..	9
Negative	0
Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady	4

THE RESOLUTION:

(290-24-S)

WHEREAS, Warren & Wetmore, for Steinway & Sons, owner, filed, February 25, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 109-113 West 57th street and 106-116 West 58th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, N. B. App. No. 514-23, dated February 8, 1924, reads:

"12. Proposed construction of floors and wainscots in wood is unlawful, sec. 264-6 Labor Law."

and
WHEREAS, the building is fireproof, 15 stories and pent house in height, with a frontage of 63 ft. on 57th street, 100 ft. on 58th street, running through from street to street; OCCUPIED for show rooms, offices and light manufacturing, not more than 25 per cent factory occupancy; total number of persons in the building 1,565; means of egress consisting of two interior fireproof stairways and one fire tower; it is proposed to install wood floors in the cellar, 1st, 2nd and part of the 4th floor and the pent house, and

wood wainscoting in the show room and corridor, 1st story, these floors being occupied for offices and show rooms and a portion of the pent house to be occupied as a private studio; floors to be of wood blocks on end, 2 in. in thickness, laid in mastic cement directly on the concrete floor slabs; in the studio on the roof the floor to be of white maple; on completion the floors to be treated with fireproof floor hardening; in the six show rooms on the main floor it is proposed to put wood paneling from floor to ceiling directly on the smooth plastered walls, this paneling to serve as a decoration and soften the tone of pianos to be displayed.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the wood trim installed shall be restricted to decorative treatment and confined to the rooms as indicated on the plans filed with this application on condition that the sub-dividing room partitions shall be constructed of approved fireproof material with no opening other than one doorway to each room, such opening to be protected with self-closing, fireproof sliding doors, unequipped with locks or locking device of any kind; the walls where wainscoting is installed shall be back plastered flush with back of wainscot trim and faced with sheet asbestos; that these suites within the area embraced by this petition shall be separated from the public corridors of building by unpierced walls of approved fireproof material; on further condition that the wood flooring shall be not less than 2 inches in thickness of block type, and one room laid in heart face maple, laid directly on the concrete arch in mastic cement; and granted only so long as the rooms embraced by this petition are occupied and used for the display and demonstration of pianos.

109-24-S.

PETITIONER—Edward P. Doyle, for Rhinelander Real Estate Corp., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—171-173 Sixth avenue, Manhattan.

APPEARANCES—

For Petitioner: Edward P. Doyle.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Reville, Kleinert, Moore and McDermott ..	9
Negative	0
Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady	4

THE RESOLUTION:

(109-24-S)

WHEREAS, Edward P. Doyle, for Rhinelander Real Estate Corp., owner, filed, January 24, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 171-3 Sixth avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 22, 1924, reads:

"1. Arrange the doors leading to the stairway on all stories upon which five or more persons are employed, so as to open outwardly without obstructing the stairway. * * *";

MINUTES

WHEREAS, the premises consist of two non-fireproof buildings, separated into two sections by a fore and aft brick wall with fire doors at openings, four stories in height, 49 ft. by 75 ft. in area, equipped with a fire alarm signal system. OCCUPIED as a tenant factory; 1st story, stores, 8 persons; 2nd story, north, mfg. furs, 3 persons; 2nd story, south, mfg. dresses, 14 persons; 3rd story, north, mfg. furs, 8 persons; 3rd story, south, mfg. coats, 15 persons; 4th story, north, engraved, 2 persons; 4th story, south, cloaks and suits, 11 persons. EXITS: An interior wooden stairway extending from 1st to top story, with ladder to scuttle in roof, enclosed in wooden partitions with part wooden doors and part fireproof doors at openings; two fire escapes at rear of each building, each extending from main roof to roof of one-story extension, with fireproof windows along the course thereof; ROOFS to west, 2 ft. lower, to north is at same level; and

WHEREAS, petitioner contends that owing to the narrow width of the passageway it is impossible to prevent the doors from obstructing the stairway, when opening outwardly.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that there shall be not less than 14 inches clearance in swing of door at any point from the balustrade.

294-24-S.

PETITIONER—Samuel Rosenblum, for Estate of Jacob Paskus, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—47 Great Jones street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents' Renville, Kleinert, Moore and McDermott .. 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

THE RESOLUTION:

(294-24-S)

WHEREAS, Samuel Rosenblum, for Estate of Jacob Paskus, owner, filed, February 25, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 47 Great Jones street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated March 20, 1924, reads:

"Order No. 56265-LD:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof * * *.

"NOTE: Among the defects noted on this fire escape are the following: No 45 degree stairways connecting balconies. No stairway from lowest balcony to ground. No fireproof passageway to street from termination.

"2. Enclose the interior stairway at the west side of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides, with partitions of fire resisting material extending continuously from the cellar to 3 feet above the roof * * *."

and

WHEREAS, the building is non-fireproof, seven stories in height, 27 ft. by 100 ft. in area in the 1st story and 27 ft. by 90 ft. in area above. OCCUPIED, store and tenant factory, 20 persons per story; the means of egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in wood stud, wire lath and plaster partitions with tin-clad doors glazed with wire glass at the openings; a 60 degree fire escape on the rear of the building with egress from the termination of fire escape in the 2nd story by bridge to fire escape of premises 44 Bond street in the rear; and

WHEREAS, petitioner proposes to fireproof the openings on the course of the fire escape and to screen the fire escape to a height of 4 ft. 6 in., and contends that there is a stair and landing to roof.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition in so far as it relates to Item No. 1 be and it hereby is *granted on condition* that the rear fire escape shall be made standard in all respects other than egress from the termination, which shall be by means of a connecting balcony to premises 44 Bond street, and that the stairways of fire escape shall be not more than 60 degree and that doors opening on the lowest balcony shall be accessible for egress therefrom at all times; and that the petition in so far as it relates to Item No. 2 be *denied*.

130-24-S.

PETITIONER—Irving Kudroff, for 16 West 30th street Co., Inc., lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—16 West 30th street, Manhattan.

APPEARANCES—

For Petitioner: Irving Kudroff.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents' Renville, Kleinert, Moore and McDermott .. 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

THE RESOLUTION:

(130-24-S)

WHEREAS, Irving Kudroff, for 16 West 30th Street Co., Inc., lessee, filed, January 28, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 16 West 30th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 9, 1923, reads:

"1. Arrange the fire escapes on the rear of the building and the openings leading thereto * * *.

"Note: Among the defects noted on the fire escapes are the following:

"Windows on course not self-closing, wire glass broken in some windows.

"No stairway from lowest balcony to ground.

"No passageway from termination of fire escapes to street.

"2. Enclose the interior stairway at the West Side of the building serving as a required means of exit and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the 1st story to 3 ft. above the roof, * * *."

and

MINUTES

WHEREAS, the building is non-fireproof, five stories in height, 27 ft. by 98 ft. 9 in. in area at 1st story and 27 ft. by 73 ft. in area above; OCCUPIED as a tenant factory, 57 persons above the 1st story. EXITS: An interior wooden stairway extending from 1st story to roof, enclosed in wood studs, wire lath and $\frac{3}{4}$ in. cement plaster in both sides, with fireproof doors at openings; a fire escape on the rear of the building extending from the main roof to the 3rd story balcony with 45 degree stair to roof of 1st story extension, with EGRESS from termination of fire escape to roofs of adjoining extensions; and

WHEREAS, petitioner contends that the existing means of exit are ample.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition as to Item No. 1 be and it hereby is granted on condition that a fire escape shall be provided on the rear of the building, standard in all respects except as to egress from the termination, which shall be across the roof of the 1st story extension to the roof of extension to the property to the east and west, with egress from roof of adjoining extension through fireproof passage to street, and that the petition as to Item No. 2 be and it hereby is denied.

1505-23-S.

PETITIONER—Halidon Realty Company, owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—130 Madison avenue, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Petition denied.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton and Kerby	3
Negative: Messrs. Connell, Holland, Superintendents Reville, Kleinert, Moore and McDermott	6
Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady	4

THE RESOLUTION:

(1505-23-S)

WHEREAS, Halidon Realty Co., owner, filed, December 20, 1923, a petition, with the board of standards and appeals, or variation from the requirements of the labor law as cited in a decision of the superintendent of buildings, affecting premises 130 Madison avenue, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, Alt. App. No. 2500-1923, dated November 30, 1923, reads:

"2. At least two means of exit as per Labor Law should be provided. Show detail of anchorage of fire escape and provide Lawful means of egress from the foot of fire escape to the street.

"4. Obtain and file permit from owner of adjoining property for use of yard and fire escape."

and

WHEREAS, the building is non-fireproof, six stories in height, 30 ft. by 95 ft. in area at 1st story and 30 ft. by 70 ft. in area above. OCCUPIED: 1st floor, stores, 25 employees; 2nd to 6th floors, offices and tenant factory. 20 persons per floor. EXITS: A fireproof stairway extending from 1st story to roof, enclosed in fireproof partitions, with fire doors at openings; ROOFS of adjoining buildings two stories lower; and

WHEREAS, petitioner proposes to install a 45 degree fire escape at the rear of the building with fireproof openings along the course thereof extending from the roof to the

2nd story balcony, with EGRESS from the balcony by means of an iron stairway and bridge to the existing 3rd story balcony of adjoining premises.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the petition be and it hereby is denied.

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Reville, Kleinert, Moore and McDermott ..	9
Negative	0
Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady	4

THE RESOLUTION:

(33-24-S)

WHEREAS, R. Hoe & Co., owner, filed, January 10, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in an order of the fire commissioner, affecting premises 22-32 Sheriff street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 50089-LD, dated September 15, 1923, reads:

"1. Enclose the exterior stairway at east side of building;"

and

WHEREAS, the building is non-fireproof, five stories and basement in height; OCCUPIED as a machine shop, carpenter shop, pattern shop and engine room, a total of 246 persons in entire building; equipped with a sprinkler system; means of egress consisting of an exterior iron stairway extending from the 1st story to the 5th story, two fire escapes on the Sheriff street front, horizontal openings in the 2nd, 3rd and 4th stories, protected with self-closing, fireproof doors leading to adjoining building; and

WHEREAS, petitioner contends that a similar order was acted upon by the board of review of the fire department in 1920; and

WHEREAS, the board deemed that the action of the board of review of the fire department of February 3, 1920, should be ratified.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the stipulations set forth in the action of the board of review of the fire department of February 3, 1920, shall be complied with; and that the total occupancy of the building shall not exceed 250 persons at any one time.

49-24-S.

PETITIONER—R. Hoe & Co., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—84-94 Broome street, Manhattan.

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy
Fire Commissioner Hannon and Superintend-
ent Brady 4

THE RESOLUTION:

(49-24-S)

WHEREAS, R. Hoe & Co., owner, filed, January 14, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in order of the fire commissioner, affecting premises 84-94 Broome street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 50092-LD, dated September 15, 1923, reads:

"1. Enclose the exterior stairway at west side of building serving as a required means of exit and the landings, platforms, and passageways, connected therewith on all sides with partitions of fire resisting material, extending continuously from cellar to 3 feet above the roof, constructed as per Section 266 of the Labor Law * * *

"2. Provide adequate means of egress from the termination of the exterior stairway to street * * *.

"3. Extend exterior stairway to roof * * *."

and

WHEREAS, the building is non-fireproof, four stories and basement in height, 145 ft. by 85 ft. in area; a fire drill is maintained and the building is equipped with a sprinkler system. OCCUPIED as machine shop; basement, 50 persons; 1st floor, 28 persons; 2nd floor, 53 persons; 3rd floor, 118 persons; 4th floor, 3 persons; EXITS consist of horizontal openings, protected with fire doors, on every story, leading to adjoining buildings and an exterior iron stairway extending from courtyard to top story with fire doors at openings thereto; windows along the course of stairway are glazed with plain glass; EGRESS from termination of stairway is across a courtyard and through a gateway 12 ft. wide by 18 ft. high and 53 ft. long between buildings, protected on the north by an unpierced brick wall, on the south by metal covered wooden partitions, and floor is heavy timber lined on the under side with metal, the ceiling is wood beam construction; passageway equipped with sprinklers; ROOF of building to west is at same level, to north 20 ft. higher; and

WHEREAS, petitioner contends that in 1920 the board of review of the fire department accepted the construction of horizontal openings in lieu of enclosing exterior stairway; that in the fire passage on the south side there is a watchman's office cut into the partition which has plain glass windows and wooden doors at openings; it is proposed to provide wire glass and kalameined doors and frames, completing the fire resisting of the partition; in re: Item 3, structural condition makes it impossible to continue the stairway to the roof at this point, but within 20 ft. there is another stairway to roof; and

WHEREAS, the board deemed that the action of the board of review of the fire department of February 3, 1920, should be ratified.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the stipulations set forth in the action of the board of review of the fire department of February 3, 1920, shall be complied with in all respects, other than that horizontal openings shall be provided with automatic fire door, and on further condition that the building shall be equipped with an approved sprinkler system.

THE RESOLUTION:

(627-22-S)

WHEREAS, Leo C. Stern, for Broadway-John Street Corp., owner, filed, April 11, 1922, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in orders of the fire commissioner, affecting premises 106-8 Fulton street, Manhattan; and

WHEREAS, the orders of the fire commissioner read:

"Order No. 30195-LC:

"1. Provide fireproof, self-closing windows on the course of the exterior screened stairway at the east side of building on all stories as per section 268 of the Labor Law."

"Order No. 30196-LD:

"1. Enclose the interior stairway at the west side of building * * *."

and

WHEREAS, the building is fireproof, 15 stories in height, 50 ft. by 103 ft. in area; OCCUPIED, offices and manufacturing jewelers, 45 persons per story, the building being equipped with a sprinkler system and a fire alarm signal system; the means of egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in plaster block partitions with wood and glass doors at openings, and plain glass transoms in partitions; an exterior screened stairway at the rear of building with fireproof, self-closing doors and non-fireproof windows along the course of the stairway, with egress through 2nd story hall and thence by a second stairway to 1st story and street; and

MINUTES

WHEREAS, this petition was denied by the board on July 18, 1922, and reopened by vote of the board on March 10, 1924; and

WHEREAS, in lieu of providing fireproof, self-closing windows on the exterior screened stairway at the east side of building, petitioner proposes to install a two-source automatic sprinkler system, with sprinkler heads so placed as to protect the window openings; and in regard to enclosing interior stairway proposes to enclose the stair-halls with fire resisting materials with fire doors at the openings, and also fire doors at each end of stair-hall.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition as to Order No. 30195-LC be and it hereby is *granted on condition* that all the rooms opening on the fire escape shall be sprinklered and that the present two-source automatic sprinkler system shall be maintained; and that the petition as to Item No. 1, Order No. 30196-LD, be and it hereby is *denied*.

THE RESOLUTION:

(134-23-S)

WHEREAS, Samuel Rosenblum, for A. Reder, lessee, filed, January 31, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 171 First avenue, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Arrange the fire escape at the rear of building * * *. Sec. 271, Labor Law.

"Note:—Among the defects noted on this fire escape are the following:—

"Windows on course not fireproof, not self-closing.

"Fire escape in need of paint.

"Iron shutters obstruct passageway on 3rd story.

"Hinged iron grating on the 4th and 5th stories over well holes should be removed."

WHEREAS, petitioner has amended his petition to request direct variation of labor law as to egress from termination of the fire escape; and

WHEREAS, the building is non-fireproof, five stories in height, 23 ft. by 100 ft. in area in the 1st story, and 3 ft. 2 in. by 90 ft. in area above. OCCUPIED: 1st story, store; 2nd story, mfg. of waists, 10 persons; 3rd story, mfg. of human hair, 15 persons; 4th story, mfg. of suits, 3 persons; 5th story, vacant at present only; the means of egress consisting of an interior stairway extending from 1st story to roof, enclosed in plaster board and metal covered partitions with fire doors at openings; a fire escape on the rear of the building with landing in yard and egress from yard by gate in fence to premises adjoining; and

WHEREAS, petitioner requests that the egress from termination of the fire escape be accepted as adequate; and

WHEREAS, this petition was granted by the board at its meeting April 3, 1923, on certain conditions and the petitioner requested a reopening of the case, in order to permit the fifth story of the building, which was vacant at the time of the hearing, to be occupied.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that the occupancy of the fifth story shall be restricted to twenty (20) persons; and *on further condition* that the resolution of the board of standards and appeals adopted April 3, 1923, shall be complied with in all other respects.

1371-23-S.

PETITIONER—Samuel Rosenblum, for 148 West 46th Street Co., Inc., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—148-150 West 46th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

ACTION OF BOARD—Petition denied.

THE VOTE—

Affirmative: Mr. Kerby 1

Negative: Chairman Walsh, Messrs. Boulton, Holland, Superintendents Reville, Kleinert, Moore and McDermott 7

Not Voting: Mr. Connell 1

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

THE RESOLUTION:

(1371-23-S)

WHEREAS, Samuel Rosenblum, for 148 West 46th Street Co., Inc., owner, filed, November 24, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 148-50 West 46th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered November 19, 1923, reads:

"The following objection was found to the issuance of a certificate of occupancy for use of the 6th and 7th floors for manufacturing:

"Section 270 of the Labor Law requires that a building more than 4 stories in height erected after October 1, 1913, for use as factory must be fireproof."

and

WHEREAS, the building is non-fireproof, seven stories in height, 30 ft. by 90 ft. 5 in. in area; OCCUPIED, stores, offices and light manufacturing, 30 persons per story; the means of EGRESS consisting of an interior stairway extending from the 1st story to the roof, enclosed in fireproof partitions with fire doors at the openings; and

WHEREAS, it appears that an application for a certificate of occupancy was filed on March 12, 1924, to use the building for offices and manufacturing on the 6th and 7th stories, the building being located in a business district; and

WHEREAS, petitioner proposes to provide a 45 degree stairway in the court with fireproof windows along the course of same and a 2 ft. 6 in. casement door and to provide a stationary stair from the yard, which yard opens into adjoining yard in the rear, and that to provide an additional stairway would leave but little space for offices.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the petition be and it hereby is *denied*.

MINUTES

1383-23-S.

PETITIONER—Ferdinand Savignano, for Gioachino Acierno, owner.

SUBJECT—Application for reopening—variation of labor law as cited in decision of health commissioner.

PREMISES AFFECTED—2238 Gravesend avenue, Brooklyn.

APPEARANCES—

For Petitioner: A. W. Lederer.

For Administration: Inspector John S. McCauley of health department.

ACTION OF BOARD—Petition reopened and granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO REOPEN—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Renville, Kleinert, Moore and McDermott .. 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

THE VOTE TO GRANT—

Affirmative: Messrs. Boulton, Connell, Holland, Kerby, Superintendents Renville, Kleinert, Moore and McDermott 8

Negative: Chairman Walsh 1

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

THE RESOLUTION:

(1383-23-S)

WHEREAS, Ferdinand Savignano, for Gioachino Acierno, owner, filed, November 26, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the health commissioner, affecting premises 2238 Gravesend avenue, Brooklyn; and

WHEREAS, the decision of the health commissioner, rendered November 1, 1923, reads:

"At a meeting of the Board of Health of the Department of Health of The City of New York, held October 30, 1923, your application for a Sanitary Certificate for a cellar bakery at 2238 Gravesend Avenue in the Borough of Brooklyn was denied.";

and

WHEREAS, the building is non-fireproof, three stories in height, 20 ft. by 55 ft. in area. OCCUPIED: Cellar, bakery; 1st story, store; upper stories, dwellings; the height of the bakery from floor to ceiling being 8 ft., the ceiling being 4 in. below the curb level and the floor 8 ft. below the yard level; the means of ventilation consisting of three windows, 3 ft. by 3 ft., opening on side court and two windows, 1 ft. 6 in. by 4 ft., opening on area in rear yard; and

WHEREAS, petitioner contends that the premises were occupied as a bakery since 1910; and

WHEREAS, this petition was denied by the board at its meeting February 13, 1924, and petitioner requested a reopening of the case, which request was granted by vote of the board; and

WHEREAS, petitioner proposes to alter premises so as to improve conditions.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that three additional areas shall be installed with windows thereto opening from the bakery, equipped with double hung sash, and a vestibule with sash door on the inside to be provided at front of cellar, and that the walls and ceiling of bakery be plastered and painted with not less than two coats of oil paint.

APPLIANCES SUBMITTED FOR APPROVAL.

269-24-SA.

PETITIONER—The Universe Oil Burner.

SUBJECT—Approval of Universe Oil Burner.

APPEARANCES—

For Petitioner: A. Misch.

ACTION OF BOARD—Petition placed on reserve calendar pending report of committee of inspection.

1494-22-SA.

PETITIONER—Ballard Oil Burning Equipment Co.

SUBJECT—Approval of Staples & Pfeiffer Steam Driven Duplex Pump.

APPEARANCES—

For Petitioner: James Kearney.

ACTION OF BOARD—Petition withdrawn.

THE VOTE TO WITHDRAW—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Renville, Kleinert, Moore and McDermott .. 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

141-24-SA.

PETITIONER—Edwards & Company, Inc.

SUBJECT—Approval of Edwards A. C. Control Panel for Interior Alarm System.

APPEARANCES—

For Petitioner: William J. Smith.

For Administration: Inspector Mulligan of fire department.

ACTION OF BOARD—Petition approved.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby, Superintendents Renville, Kleinert, Moore and McDermott .. 9

Negative 0

Absent: Mr. Beatty, Fire Chief Kenlon, Deputy Fire Commissioner Hannon and Superintendent Brady 4

THE RESOLUTION:

(141-24-SA)

WHEREAS, Edwards & Company, Inc. filed, January 29, 1924, a petition, with the board of standards and appeals, for approval of their device known as the Edwards A. C. Control Panel for interior alarm systems; and

WHEREAS, this matter was submitted to the fire department for test and report and the fire department under date of April 7, 1924, recommended the approval of the device.

Resolved, that the device known as the Edwards A. C. Control Panel for interior alarm systems be and it hereby is approved in accordance with the recommendation of the fire department.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or departmental actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

RULE

REPORTING STRUCTURAL ALTERATIONS, ADOPTED FEBRUARY 8, 1917, UNDER CAL. 352-16-S.

Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE FIRE ESCAPE RULES—RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday, May 9, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments to Rule 380, Industrial Code, and adoption of same as rules of the board of standards and appeals, affecting the maintenance of existing substandard fire escapes on factory buildings; Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended Dec. 12, 1918, Cal. No. 1708-18-S.

Matter in *italics* is new. Matter in brackets [] is old matter to be omitted.

EXISTING FIRE ESCAPES OF FACTORIES

[Supplementary to Labor Law, §§ 79-a to 79-f; adopted and effective July 30, 1914

Rule 380.—When, in addition to the required exits of any factory or factory building, there exist one or more outside fire escapes which are not entirely in accordance with the provisions of the Labor Law relating to fire escapes, such fire escapes may be retained without being changed to conform to such provisions, if steps are taken, satisfactory to the Commissioner of Labor, to prevent their use as means of egress, and provided that such fire escapes are maintained in good repair.

NOTE.—The Commissioner of Labor has ruled that such fire escapes must be structurally safe and that they shall not be used for fire drills.

At the openings leading to such fire escapes there shall be placed a sign, with letters eight inches high, reading "THIS IS NOT AN EXIT." No barrier or guard will be permitted at these opening.]

3. When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards

and Appeals, such means of egress may be retained under the following conditions.

(a) *Fire Escapes*—All single rung, double rung and vertical ladder fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) *Interior Stairways*—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) *Exterior Screened Stairways*—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) *Horizontal Bridges*—Horizontal bridges between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday, May 9, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as rules of the Board of Standards and Appeals affecting the enclosure of factory stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

[Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed		Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an interior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos
Baking powder
Breweries
Buttons (pearl or bone)
Canneries (including food products)
Chalk and crayon
Condensed and powdered milk
Electric light plants and power houses
Electrolytic reducing works

Glass
Glue, mucilage, paste, size
Ivory
Leather (excluding japanning or enameling)
Metals (excluding japanning or enameling)
Soap, candles
Porcelain and pottery
Talc and soapstone
Tanneries (excluding japanning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)	Linoleum works
Bakeries	Metals (with enameling or japanning)
Bamboo and rattan	Packing houses
Baskets	Paper mills
Belting (including canvas)	Printing, lithographing, book-binding
Boots and shoes	Silk
Buttons (including cloth covered)	Sugar refineries (including beet and glucose works)
Cardboard (including boxes)	Tanneries (with japanning or enameling)
Clothing, woolen (wearing apparel)	Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Cordage	Tobacco, cigars, cigarettes and snuff
Furs	Woodworking (excluding dipping or varnishing)
Gloves (other than leather)	
Horn and combs (not celluloid)	
Leather (with enameling or japanning)	

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity or from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers	Feed, flour and grist mills
Artificial leather	Fireworks
Celluloid	Imitation leather
Cereal mills	Matches
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)	Rag sorting (including cotton)
Cotton batting	Shoddy mills
Cotton clothing (women's)	Starch and sugar mills (including pulverizing)
Cotton waste	Straw goods
Dry cleaning	Varnish
Explosives	Woodworking (with dipping or varnishing)
Feather renovating	

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental or well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as here-in provided, in all factory buildings more than two stories

PUBLIC HEARING

and less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving as required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
Three	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
Four	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
Five	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Labor Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire drills substantially conforming to rules of the board are held, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. Enclosure of Stairways.—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

OFFICE—Municipal Building, Room 914.

TELEPHONE—Worth 0184.

OFFICE HOURS—9 a. m. to 5 p. m.; Saturdays, 9 a. m. to 12 noon.

All communications should be addressed to the chairman of the board.

CONTENTS

This issue of the Bulletin contains, in the order given—

Docket.
Call of Clerk's Calendar.
The Trial Calendar.
Notices in Building Zone Cases.
Minutes of Meeting, Board of Appeals, April 29, 1924.
Minutes of Meeting, Board of Standards and Appeals, April 29, 1924.
Reserve Calendar.
Notices of Public Hearings.
Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION. 10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, May 6, 1924*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on *Tuesday, May 13, 1924*, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

Under the Building Zone Resolution.

NOTICE IS HEREBY GIVEN by the board of appeals of a public hearing under the provisions of the building zone resolution, *Tuesday morning, May 6, 1924, at 10 o'clock, in Room 919, Municipal Building, on the following matters:*

CAL. NO. 168-24-BZ—Application, February 2, 1924, under the building zone resolution, of Samuel Rosenblum, architect, on behalf of Samuel Aptakin, owner, to permit in a residence district the alteration and extension of an existing building used in part for business purposes; premises 1000 East 172nd street, southeast corner of Longfellow avenue, The Bronx.

CAL. NO. 1531-23-BZ—Application, December 26, 1923, under the building zone resolution, of John J. Dunnigan, applicant, on behalf of Nellie C. Kirby, owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 1125-1137 Union avenue, The Bronx.

CAL. NO. 101-24-BZ—Application, January 23, 1924, under the building zone resolution, of James

Crooke McLeer, applicant, on behalf of Georgana G. Pengel, owner, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 586-594 Coney Island avenue and 225-231 East 9th street, Brooklyn.

CAL. NO. 275-24-BZ—Application, February 21, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of Albert Kenning and Joseph D. Bliss, owners, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 84-92 Maspeth avenue, Brooklyn.

CAL. NO. 281-24-BZ—Application, February 23, 1924, under the building zone resolution, of Louis A. Sheinart, architect, on behalf of Goldvine Construction Co., Inc., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 5908-5924 13th avenue, Brooklyn.

CAL. NO. 200-24-BZ—Application, February 8, 1924, under the building zone resolution, of William F. Doyle, applicant, on behalf of Subway Realty Corp., owner, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side of Jerome avenue, 161.86 ft. south of East 204th street, The Bronx.

CAL. NO. 119-24-BZ—Application, January 25, 1924, under the building zone resolution, of New York Telephone Company, applicant and owner, to permit in a residence district the alteration and extension of an existing central telephone exchange building; premises 2411-2429 Tratman avenue, The Bronx.

CAL. NO. 246-24-BZ—Application, February 16, 1924, under the building zone resolution, of Joseph H. Freedlander, architect, on behalf of The French Institute in the United States, owner, to permit in a 1½ times height district the erection of the street wall of a building without a setback to a height exceeding the limit required by the zone resolution; premises 20-22 East 60th street, Manhattan.

CAL. NO. 865-23-BZ—Application, July 7, 1923, under the building zone resolution, of Edward P. Doyle, applicant, on behalf of Ditmars Avenue Improvement Co., Inc., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises west side of 9th avenue, 100 ft. south of Ditmars avenue, Queens.

CAL. NO. 864-23-BZ—Application, July 7, 1923, under the building zone resolution, of Edward P. Doyle, applicant, on behalf of Ditmars Avenue Improvement Co., Inc., owner, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises west side 9th

CALENDAR

avenue, 300.01 ft. south of Ditmars avenue, Queens.

CAL. NO. 256-24-BZ—Application, February 19, 1924, under the building zone resolution, of Warren and Wetmore, architects, New York Central Railroad Co., owner, Vanderbilt Avenue Building Corporation, lessee, to permit in a two-times height district the erection of a street wall of a building without a setback to a height exceeding the limit required by the zone resolution; premises 51-53 East 42nd street and 2-16 Vanderbilt avenue, Manhattan.

CAL. NO. 260-24-BZ—Application, February 19, 1924, under the building zone resolution, of John De Hart, applicant, Bruce Holding Corp., owner, Sobel Brothers, lessee, to permit in a residence district the installation and maintenance of a gas selling station, also for a parking space for more than five (5) motor vehicles; premises 315-319 West 133rd street, Manhattan.

CAL. APPELLANT—Carter, Ledyard & Milburn and John P. Fox, for Charles H. Ditson, owner.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—18-22 East 38th street, Manhattan.

APPEARANCES—

For Appellant: John P. Fox.

ACTION OF BOARD—Laid over to May 20, 1924, at 2 p. m.

92-24-A.

APPELLANT—Charles A. Christman, Inc., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—79 William street, L. I. City, Queens.

APPEARANCES—

For Appellant: Julian Lucas, Jr.

ACTION OF BOARD—Laid over to May 20, 1924, at 10 a. m., on request of appellant's representative.

1268-23-A.

APPELLANT—Eugene de Rosa, for Jupiter Realty Corp., owner.

SUBJECT—Application for reopening—appeal from decision of fire commissioner.

PREMISES AFFECTED—51-59 Burnside avenue, The Bronx.

APPEARANCES—

For Appellant: Alexander J. McManus.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Laid over to June 3, 1924, at 10 a. m., pending action by the board of aldermen on proposed amendment.

331-24-A.

APPELLANT—Board of Education, City of New York, owner.

SUBJECT—Appeal from decision of superintendent of buildings.

PREMISES AFFECTED—508-534 West 212th street, Manhattan.

APPEARANCES—

For Appellant: Clarence E. Dobbin and Charles Tilgner.

ACTION OF BOARD—Laid over to May 20, 1924, at 10 a. m.

154-24-A.

APPELLANT—Shipley Construction & Supply Co., owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—East side of Second avenue, between 41st and 42nd streets, Brooklyn.

APPEARANCES—

For Appellant: Lester A. Ramsey and William A. Pusch.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(154-24-A)

WHEREAS, Shipley Construction & Supply Co., owner, filed, January 31, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises east side of Second avenue, between 41st street and 42nd street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 1758-23, dated January 28, 1924, reads:

"1. Comply with requirement of Section 581, Code of Ordinances for standpipe equipment.";

and

WHEREAS, the building is non-fireproof, two stories in height, 340 ft. by 200.4 ft. in area in the 1st story and 181 ft. by 200 ft. above; OCCUPIED as offices and warehouse; it is proposed to install a fuel oil burning equipment, complying in all respects with the provisions of the fuel oil rules; and

WHEREAS, appellant contends that the building is provided with a sprinkler system, and subdivided by fire walls into four sections in the 1st story with fire doors at openings, and that the occupancy is a machinery plant, which is not hazardous; and

WHEREAS, the board deemed, in view of the existing fire protection in the nature of a sprinkler, and that appellant proposes to file plans for sprinkler layout with fire department, that the appeal should be granted.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the occupancy, operation and use remain substantially unchanged.

1521-23-A.

APPELLANT—John C. Creveling & Son, Inc., lessee.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—792 Liberty avenue, Brooklyn.

APPEARANCES—

For Appellant: Emerson Creveling.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7

Negative 0

Absent 0

THE RESOLUTION:

(1521-23-A)

WHEREAS, John C. Creveling & Son, Inc., lessee, filed, December 23, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 792 Liberty avenue, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated December 20, 1923, read:

"Order No. 52016-F: 1. Provide a brick wall at least 18 ft. high along the south property line. Sec. 776, Greater New York Charter."

"Order No. 52017-F: 1. Provide 20 approved water tanks of at least 40 gallons capacity, with six water buckets to each tank. Tanks to be marked Fire, kept full of clean water mixed with a non-freezing solution, and not to be used for any other purpose. Sec. 20, Ch. 12, Code of Ordinances."

MINUTES

"Order No. 52018-F: 1. Provide two yard hydrants to be supplied from a fire pump not less than 1000 gallons per minute, suctioning from a tank or pump of at least 30,000 gallons, also one monitor nozzle with remote control, as per Rule 37 adopted by the Board of Standards and Appeals * * *";

and

WHEREAS, the premises consist of a plot of ground facing on Liberty avenue, Atkins avenue and Berriman street, on which is located the plant of John C. Creveling, consisting of a two-story frame office, two galvanized iron sheds, a brick stable, a small frame shed with plaster board storage, two small lumber piles and two coal piles; the remainder of the yard being practically vacant; and

WHEREAS, appellant contends that to provide the fire wall required would be a great hardship as the amount of lumber stored is very small; that the amount of combustible material stored is so small as to render yard hydrants unnecessary, that to provide 20 approved water tanks would be also a hardship and that he is willing to provide five or six approved water tanks of at least 40 gallons capacity, that there is a fire hydrant on Liberty avenue, two on Atkins avenue and two on Berriman street, that there is only one pile of lumber over 8 ft. in height within 50 ft. of the southerly line and that the balance of the lumber is large timbers and locust posts.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted*, as to Order No. 52016, *on condition* that the use, operation and occupancy remain substantially unchanged; as to Order No. 52017, *on condition* that not less than ten (10) 40-gallon water casks, painted red and marked "FIRE", equipped with four buckets to each cask, shall be provided throughout the yard; and as to Order No. 52018, *on condition* that the present conditions and distribution of material remain substantially unchanged, and that a vehicular gateway, at least 10 ft. wide, shall be provided at the south end of property on each street.

1525-23-A.

APPELLANT—Samuel Rosenblum, for Sterling Mill Supply Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—18 Morton street, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(1525-23-A)

WHEREAS, Samuel Rosenblum, for Sterling Mill Supply Co., lessee, filed, December 26, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 18 Morton street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 21539-LC, dated December 5, 1923, reads:

"Section 24, sd. 3-c of Chapter 12 of the Code of Ordinances provides that no permit shall be issued for the storage of combustible fibres in excess of one ton in any building or premises of wooden construction, except sparsely populated districts, where it shall be in the discretion of the Commissioner.

"You are, therefore, ordered to

"1. Reduce the stock of paper and rags to one ton.";

and.

WHEREAS, the building is frame and brick construction, two stories in height, 25 ft. by 76 ft. in area; OCCUPIED for baling and sorting paper, 4 persons; and

WHEREAS, appellant contends the rear and side walls are constructed of brick and that the front wall only is frame construction, and requests to be permitted to store four tons of paper on the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the opening to the rear on easterly gable wall shall be bricked up; that the recommendations of the board of hazardous trades of the fire department of December 21, 1918, shall be complied with; that the quantity of material shall not exceed four tons; and *granted* so long as conditions as to occupancy, use and exit are maintained and otherwise remain unchanged.

1553-23-A.

APPELLANT—Curtis-Brislin Lumber Co., Inc., lessee.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—3290 Atlantic avenue, Brooklyn.

APPEARANCES—

For Appellant: John Brislin, Jr.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Kerby	1

THE RESOLUTION:

(1553-23-A)

WHEREAS, Curtis-Brislin Lumber Co., Inc., lessee, filed, December 28, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 3290 Atlantic avenue, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated December 7, 1923, read:

"No. 51773-F. "1. Provide 8 yard hydrants equipped with approved 2½ in. hose and nozzles supplied by a fire pump of not less than 1,000 gallons per minute capacity suctioning from a tank or pump of at least 30,000 gallons capacity, also four monitor nozzles with remote control, as per Rule 37 adopted by the Board of Standards & Appeals July 20th, 1923."

"No. 51774-F. "1. Provide 40 approved water tanks of at least 40 gallons capacity with six water buckets to each tank.";

and

WHEREAS, the premises consist of a plot of ground, with a frontage of 266 ft. 10¾ in. on Atlantic avenue and a depth of 584 ft. 7¾ in., running through from Atlantic avenue to Conduit avenue and McKinley street and OCCUPIED by the plant of the Curtis-Brislin Lumber Co., consisting of a one-story frame office building on Atlantic avenue front, a frame storage shed on the McKinley street front, and a series of lumber piles located throughout the premises; and

WHEREAS, appellant contends that to comply with the order would be a great hardship; that on the west the premises adjoin the open ground of the Brooklyn Water Works; that there are two fire hydrants on Atlantic avenue and one on Euclid avenue; that the yard is provided with a large number of water casks and fire buckets; that the yard is easily accessible from Glenn street, Weldon street, Atlantic avenue or McKinley street, and that at some future date Weldon street and Glenn street may be cut through and he would be compelled to pay assessments for water mains.

MINUTES

Resolved, that the order of the fire commissioner, No. 51773, be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the use, occupancy and distribution of material on premises remain substantially unchanged; and that the order of the fire commissioner, No. 51774, be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1554-23-A.

APPELLANT—John H. MacDowell, for John H. MacDowell Lumber Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—30-36 Union avenue and 11-13 Montrose avenue, Brooklyn.

APPEARANCES—

For Appellant: John H. MacDowell.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Kerby	1

THE RESOLUTION:

(1554-23-A)

WHEREAS, John H. MacDowell, owner, filed, December 28, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 30-36 Union avenue and 11-13 Montrose avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated December 21, 1923, reads:

"Order No. 51834-F. 1. Provide a brick wall 18 feet high on the North and East side. Section 776, Greater New York Charter.";

and

WHEREAS, the premises consist of a plot of ground having a frontage of 100 ft. on Montrose avenue and 100 ft. on Union avenue, on which is located the plant of the MacDowell Lumber Company, consisting of a one-story brick office building, a one-story small frame stable, a lumber shed, two lumber piles and three driveways; the building to the north is a 2½-story frame dwelling and the building to the east is a 3-story frame building; and

WHEREAS, appellant contends that there is a 16 ft. driveway between the lumber piles and the nearest exposure to the east; at the north it is proposed to remove the lumber pile from its present situation, using site for driveway and replacing pile where driveway is now located, and appellant further contends that there are three (3) fire hydrants in immediate vicinity of yard; and

WHEREAS, the board deemed that a driveway should be maintained along north property line, except where stable is located.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that driveway be provided and maintained along the northerly property line from Union avenue front, not less than 16 ft. wide, from front to rear, running the full length of the property; and *granted* so long as conditions otherwise as to occupancy and distribution of material remain substantially unchanged.

105-24-A.

APPELLANT—Auto Truck Garage Co., Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—361 Avenue A, Manhattan.

APPEARANCES—

For Appellant: Charles G. Bond.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative: Mr. Beatty	1
Negative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	6
Absent	0

THE RESOLUTION:

(105-24-A)

WHEREAS, The Auto Truck Garage Co., Inc., lessee, filed, January 23, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 361 Avenue A, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 35396-F, reads:

"1. Install a standpipe system with risers 4 inches in diameter * * *";

and WHEREAS, the building is non-fireproof, brick walls with steel girders and concrete floors, two stories in height, 175 ft. by 103 ft. (18,400 sq. ft.), irregular in area; OCCUPIED as a garage; and

WHEREAS, appellant proposes to provide fire extinguishers.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

1556-23-A.

APPELLANT—Oscar Keppler, lessee.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—545-565 Flushing avenue, Brooklyn.

APPEARANCES—

For Appellant: Oscar Keppler.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE RESOLUTION:

(1556-23-A)

WHEREAS, Oscar Keppler, lessee, filed, December 29, 1923, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 545-565 Flushing avenue, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated December 7, 1923, read:

"Order No. 51845-F. 1. Provide yard hydrant with approved nozzle and 2½ inch hose attached as per Rule 37, Board of Standards and Appeals, July 20th, 1923. Sec. 776, Greater New York Charter."

"Order No. 51846-F. 1. Provide a fire wall at least 18 ft. high, around lumber yard, where lumber is stored within 30 ft. of a frame building; or within 30 ft. of unprotected openings in exterior walls of brick buildings. Sec. 776, Greater New York Charter.";

and

WHEREAS, the premises consist of a plot of ground with a frontage of 225 ft. on Flushing avenue, and a depth of 100 ft., on which is located the plant of Oscar Keppler, lumber dealer, a two-story brick building, a one-story frame shed, and a number of lumber piles 15 ft. in height; and

WHEREAS, appellant contends that the provisions of the brick wall and fire hydrants would tend to confiscate his property, that he has occupied the premises as a lumber yard for twenty-three (23) years and that there are four (4) fire hydrants in the immediate vicinity, that the ex-

MINUTES

posure to the east is a five-story brick factory building, that there are open yards to the rear and two six-story brick buildings.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal be and it hereby is *granted on condition* that the distribution of material and the driveways, as indicated on plan, are maintained; and that not less than ten (10) forty-gallon water casks, painted red and marked "FIRE" and equipped with four fire buckets to each cask shall be maintained throughout the yard.

34-24-A.

APPELLANT—Kings County Woodworking Co., Inc., lessee.

SUBJECT—Appeal from orders of fire commissioner.
PREMISES AFFECTED—421-423 Livonia avenue and 432-442 Junius street, Brooklyn.

APPEARANCES—

For Appellant: Herman E. Horwood.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE RESOLUTION:

(34-24-A)

WHEREAS, Croker Nat. Fire Prev. Eng. Co., for Adolph Mosson, owner, filed, January 10, 1924, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 421-23 Livonia avenue and 432-42 Junius street, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated December 20, 1923, read:

"No. 52540-F. 1. Provide a separate and distinct system of *Automatic Sprinklers* throughout factory building having at least one source of water supply. * * *.

"No. 52541-F. 1. Provide a brick wall 18 ft. high on north side separating yard from three story frame tenement, also on west side separating yard from three story brick tenement. Section 776, Greater New York Charter. * * *."

and

WHEREAS, the premises consist of a plot of ground facing on Junius street and Livonia avenue, on which is located the plant of the Kings County Woodworking Co., consisting of open lumber piles, a one-story shed, a one-story metal building and a two-story and basement frame building, 50 ft. by 60 ft. in area; OCCUPIED as a woodworking factory, 20 persons; the adjoining building to the north is a frame tenement and the building to the west is a three-story brick tenement; and

WHEREAS, appellant proposes to shift the north driveway, so open space will be next to the frame dwelling and contends the exposure to the west is an unpierced brick wall; in regard to sprinkler order on woodworking building, contends the area is small and the building is only two stories in height and that it is protected with water tanks and buckets.

Resolved, that the orders of the fire commissioner be and they hereby are *modified*, and the appeal as to Order No. 52540 is *granted on condition* that not less than four water casks shall be provided on each floor of two-story building, casks to be painted red and marked "FIRE" and equipped with not less than four (4) buckets to each cask; and as to Order No. 52541, *granted on condition* that an open driveway, not less than 16 ft. wide, shall be maintained along northerly property line on Junius street; and that conditions otherwise throughout the premises as to

distribution of material and occupancy remain substantially unchanged.

110-24-A.

APPELLANT—James Kearney, for Federal Reserve Bank, owner.

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—42-52 Nassau street, 28-60 Maiden lane, 21-51 Liberty street, Manhattan.

APPEARANCES—

For Appellant: James Kearney.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE RESOLUTION:

(110-24-A)

WHEREAS, James Kearney, for Ballard Oil Equipment Co., owner, filed, January 25, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 42-52 Nassau street, 28-60 Maiden lane and 21-51 Liberty street, Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, Alt. App. No. 292-23, dated January 16, 1924, reads:

"1. Burners must be of a type approved by the Board of Standards & Appeals;"

and

WHEREAS, the building is fireproof, 15 stories in height, 164 ft. 9 in. by 351 ft. in area; to be OCCUPIED as a bank, with offices above; it is proposed to install a fuel oil burning equipment in accordance with the rules of the board of standards and appeals, excepting that the burner is not of an approved type; and

WHEREAS, appellant requests a temporary permit for 90 days, pending approval of the burner by the board.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted*, for a temporary period of ninety days, pending determination by the board as to approval of this burner, *on condition* that the fuel oil burning equipment installed shall comply with the fuel oil rules in all other respects and that necessary permit shall be obtained from the fire department.

THE RESOLUTION:

(147-24-A)

WHEREAS, The Long Island Railroad Company, for The Stuyvesant Real Estate Company, owner, filed, January 30, 1924, an appeal, with the board of appeals, from an

MINUTES

order of the fire commissioner, affecting premises 1490-96 Herkimer street, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated January 11, 1924, reads:

"1. Provide two yard hydrants, etc., as per Rule No. 37 of standpipe regulations of the Board of Standards and Appeals. Sec. 776, Greater New York Charter."

WHEREAS, the premises consist of a plot of ground facing Herkimer street, Havens place and Atlantic avenue, on which is located the lumber yard of the Atlantic Wrecking Co.; the yard is subdivided by driveways and lumber piled in various stacks, with a one-story frame office in the northwest section; and

WHEREAS, appellant contends that there are three city hydrants in the immediate vicinity of the lumber yard, that there are seven gangways and at the head of each gangway there is a 40 gallon tank and six fire pails to each tank.

Resolved, that the order of the fire commissioner be and it hereby is *granted on condition* that appellant provide and distribute throughout the premises not less than ten (10) forty-gallon water casks, painted red and marked "FIRE" and equipped with four water buckets to each cask.

148-24-A.

APPELLANT—Croker National Fire Prevention Engineering Co., for Brooklyn Factory & Power Co., Ltd., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—20-30 Morton street, Brooklyn.

APPEARANCES—

For Appellant: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

THE RESOLUTION:

(148-24-A)

WHEREAS, Croker National Fire Prevention Engineering Co., for Brooklyn Factory & Power Co., Ltd., filed, January 30, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 20-30 Morton street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 53084-LC, dated January 8, 1924, reads:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basements, cellars, and roofs) placed within main stairway enclosure."

WHEREAS, the building is equipped with a sprinkler system, is non-fireproof, four stories (47 ft. 8 in.) in height, 100 ft. by 105 ft. (6,400 sq. ft.), irregular in area; OCCUPIED for the manufacture of wire springs, 84 persons in entire building; and

WHEREAS, appellant contends there is no necessity for the order.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that occupancy and operation remain substantially unchanged and that the present sprinkler system shall be maintained.

175-24-A.

APPELLANT—Keystone Varnish Company, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—71-79 Otsego street, Brooklyn.

APPEARANCES—

For Appellant: R. H. Everett.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(175-24-A)

WHEREAS, Keystone Varnish Co., owner, filed, February 4, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 71-79 Otsego street, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 85049-LC, dated January 8, 1924, reads:

"You are hereby notified that an inspection of above premises, used for the storage of turpentine, alcohol and etc., shows that the following must be done before permit requested by you can be issued:

"1. Provide an approved storage system for storing and handling all volatile inflammable oils and liquids;" and

WHEREAS, the building is non-fireproof, one story in height, 46 ft. by 49 ft. in area; OCCUPIED for the thinning or reducing of varnish, 3 persons; and being one of three buildings used for manufacture of varnish; and

WHEREAS, appellant contends permits have been issued for many years for the present gravity system of storage of inflammable liquids; that to comply with the order would change the entire system and require the expenditure of a very large sum of money and such a change to a pressure or pumping system would effect no adequate benefit as regards fire hazard.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that any volatile inflammable material shall be maintained in tanks and buried below ground and vented to outer air.

181-24-A.

APPELLANT—Emil Guterman, for Cropsey & Mitchell, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—West side of Cropsey lane, 250 ft. south of Cropsey avenue, Brooklyn.

APPEARANCES—

For Appellant: Emil Guterman.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

THE RESOLUTION:

(181-24-A)

WHEREAS, Emil Guterman, for Cropsey & Mitchell, owner, filed, February 4, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises west side of Cropsey lane, 250 ft. south of Cropsey avenue, Brooklyn; and

MINUTES

WHEREAS, the order of the fire commissioner, No. 51991-F, dated January 15, 1924, reads:

"1. Provide 2 yard hydrants equipped with approved nozzle and sufficient approved 2½ inch hose as per Rule 37 of the Board of Standards and Appeals adopted July 20th, 1923. Section 776, Greater New York Charter.";

and

WHEREAS, the premises consist of a plot of ground on which is located the plant of the Cropsey & Mitchell Lumber Co., consisting of a one-story frame lumber shed, 97 ft. by 160 ft. on one side of Cropsey lane, and a one-story frame lumber shed 50 ft. by 150 ft. on the other side of Cropsey lane, and a one-story frame yard office and a number of lumber piles; and

WHEREAS, appellant contends that all the property south of Cropsey avenue along the line of Cropsey lane and for 100 ft. on either side thereof to the waterfront is owned by the appellant; and that the yard forms a peninsula into the bay; that there are no adjoining buildings; that the owners have installed two fire hydrants and a water main from Cropsey avenue; and that there is sufficient fire protection.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that an open driveway from Cropsey avenue, running south the entire extent of the property, not less than 40 ft. wide, shall be maintained; that not less than twenty (20) casks, painted red and marked "FIRE" and equipped with four (4) buckets to each cask shall be distributed and maintained throughout the premises; and *granted* so long as conditions and adjoining occupancy remain substantially unchanged.

APPELLANT—L. J. Frantz, for International Film Service Co., lessee.

SUBJECT—Appeal from decision of fire commissioner.
PREMISES AFFECTED—2478 Second avenue, Manhattan.

APPEARANCES—

For Appellant: L. J. Frantz.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland and Kerby	5
Negative	0
Absent: Mr. Connell and Fire Chief Kenlon	2

THE RESOLUTION:

(387-24-A)

WHEREAS, L. J. Frantz, for International Film Service, Inc., lessee, filed, March 14, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 2478 Second avenue, Borough of Manhattan; and

WHEREAS, the decision of the fire commissioner, N. B. App. No. 788-23, dated March 8, 1924, reads:

"2. Provide gravity and pressure tanks of sufficient capacity due to nature of occupancy (celluloid film) and show same on elevation sheet.";

and

WHEREAS, the premises consist of a group of three fireproof buildings as follows: One building, five stories in height, 200 ft. by 170 ft. (34,000 sq. ft.) in area, OCCUPIED for dressing rooms, stock rooms, offices and stage where motion pictures are taken; one building, one story in height, 78 ft. 8 in. by 224 ft. 6 in. (17,600 sq. ft.) in area, OCCUPIED as a carpenter shop, and for the storage

of reels of film; one building, one story in height, 200 ft. by 197 ft. 7 in. (39,520 sq. ft.) in area, OCCUPIED for moving picture studio, 200 persons; and

WHEREAS, appellant proposes to install as a secondary source of supply in the yard a 50,000 gallon gravity tank on steel supports; bottom of tank to be 91 ft. above ground and 20 ft. above highest line of sprinklers in main building. The proposed primary supply consists of an 8 in. connection to the 12 in. main on Second avenue, this 12 in. main having a pressure of 40 pounds per square inch; as an additional sprinkler supply it is proposed to install one 1,000 gallon per minute electrically-driven pump.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that a gravity tank of not less than 50,000 gallons capacity shall be installed on steel structure in open yard, free standing of any other building on the premises, supplied with 8-inch connection to city main; and that one (1) one thousand gallon per minute electrically-driven pump shall be installed.

APPELLANT—John Wanamaker Co., owner.

SUBJECT—Application for extension of permit (re: appeal from decision of fire commissioner).

PREMISES AFFECTED—772-786 Broadway, 71-91 East 9th street, 60-70 East 10th street and 60-72 Fourth avenue, Manhattan.

APPEARANCES—

For Appellant: None.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Chairman read request for extension of permit. Reopened and extension of permit granted for ninety days, plans, in meantime, to be checked by fire department.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Kerby	5
Negative	0
Absent: Fire Chief Kenlon and Mr. Holland ..	2

THE RESOLUTION:

(489-23-A)

WHEREAS, John Wanamaker Co. filed, April 20, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 722-786 Broadway, 71-91 East 9th street, 60-70 East 10th street and 60-72 Fourth avenue, Manhattan; and

WHEREAS, the decision of the fire commissioner reads:

"The use of a fuel oil burning equipment may not be permitted in a building of hazardous occupancy.";

and

WHEREAS, the building is fireproof, six stories in height, 301 ft. 6 in. by 334 ft. 9 in., irregular in area; OCCUPIED as a department store; and

MINUTES

WHEREAS, pending the action of the board of appeals on the case, the appellant requests permission to operate his plant for a period of 90 days at his own risk; and

WHEREAS, this appeal was granted by the board at its meeting May 13, 1923, October 23, 1923, and December 11, 1923, for a temporary period of 90 days and appellant requested an extension of this permit and has requested a further extension.

Resolved, that the board of appeals does hereby *grant* a temporary permit, for a period of ninety (90) days from the date of this action, at the operator's own risk, for fuel oil burning plant, equipped in accordance with the rules of the board of standards and appeals, subject to inspection by a committee of the board.

775-21-A.

APPELLANT—Candolo Calabrese, lessee.

SUBJECT—Application for reopening—appeal from order of fire commissioner.

PREMISES AFFECTED—1105 60th street, Brooklyn.

APPEARANCES—

For Appellant: Salvatore Anastasia.

ACTION OF BOARD—Appeal reopened;; extension of permit granted for two years from date of expiration of last permit.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(775-21-A)

WHEREAS, Sandolo Calabrese, lessee, filed, May 6, 1921, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1105 60th street, Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 64951-LC, dated May 2, 1921, reads:

"Maintenance of your business (junk shop) is a violation of Section 4 of art. 2 of the Bldg. Zone Resolution of the Board of Estimate and Apportionment of the City of N. Y., adopted July 25, 1916, inasmuch as junk shop is prohibited in a business district.

"In addition to the above, the storage of combustible fibre (rags and paper) in a building of wooden construction located in the fire limits except in sparsely populated districts is a violation of sd. 3-c of section 24, chapter 12, Code of Ord.

"You are therefore ordered to remove all combustible fibre (rags and paper) from the premises and discontinue the use of said premises as a junk shop."

and
WHEREAS, the premises consist of a plot of ground, 100 ft. by 100 ft. in area, located in a business district inside the fire limits, upon the front of which there is a two-story building; occupied in the ground floor as a junk shop; 2nd story, dwelling, upon the rear one story frame sheds, 30 ft. by 80 ft. in area, occupied for the storage of combustible fibre (rags and paper); and

WHEREAS, the appellant has filed affidavits that he has conducted a junk shop on the premises continuously since April 1, 1916; and

WHEREAS, this appeal was dismissed for lack of prosecution on July 19, 1921, by the board of appeals, and later restored to the calendar; and granted by the board for a period of two years from December 27, 1921, and appellant requested an extension of time.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* to permit the maintenance of the storage of rags and papers in quantity not to exceed five tons on these premises for a temporary period of two years from the date of expiration of previous permit, that is, December 27, 1923.

1353-23-A.

APPELLANT—Simplex Oil Heating Corp., for Kraslow Bldg. Co., Inc., owner.

SUBJECT—Application for reopening—appeal from decision of fire commissioner.

PREMISES AFFECTED—156-172 East 21st street, Brooklyn.

APPEARANCES—None.

ACTION OF BOARD—Chairman read request for extension of permit. Appeal reopened. Extension of permit granted for ninety days at owner's risk.

THE VOTE TO REOPEN AND EXTEND PERMIT—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(1353-23-A)

WHEREAS, Simplex Oil Heating Corp., for Kraslow Bldg. Company, Inc., owner, filed, November 22, 1923, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 156-172 East 21st street, Brooklyn; and

WHEREAS, the decision of the fire commissioner, rendered August 6, 1923, in acting on Alt. App. 856-23, reads:

"1. The storage and use of fuel oil is not permitted in a tenement house."

and

WHEREAS, the building is non-fireproof, four stories in height, 75 ft. by 121 ft. 8 in. in area; OCCUPIED as a tenement; it is proposed to install in the cellar of this tenement a fuel oil burning equipment of the Simplex Oil Heating Corp., equipment to be installed in accordance with the rules of the board of standards and appeals, except that the pumps and burners are not approved; and

WHEREAS, appellant requests a temporary permit for this device of ninety (90) days; and

WHEREAS, the board deemed that this matter should be referred back to the fire department for reconsideration under the amended fuel oil rules, and that a temporary permit should be granted for the operation of the Simplex oil heating burner on these premises at owner's risk for a period of ninety (90) days on condition that the fuel oil rules of the board of standards and appeals are complied with in all other respects; and

WHEREAS, this appeal was granted by the board at its meeting January 29, 1924, for a temporary period of ninety days and appellant requested an extension of permit.

Resolved, that the board of appeals does hereby *grant* a temporary permit for a period of ninety days from the date of this action for the operation of the Simplex oil heating burner on these premises at owner's own risk on condition that the fuel oil rules of the board of standards and appeals be complied with in all other respects.

THE RESOLUTION:

(1049-22-BZ)

WHEREAS, Charles Hlawatsch, owner, filed, August 16, 1922, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of four (4) motor vehicles, two (2) spaces rented to persons not residing on the premises; premises 58 East 190th street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 190th street and Morris avenue are residence districts and East Fordham road is a business district; and

WHEREAS, the order of the fire commissioner, dated October 25, 1922, Order No. 14188-C, reads:

"1—Discontinue the maintenance of a garage in which is kept motor vehicles that are subject to charges for storage.

"2—Discontinue the maintenance of a garage which is not strictly an accessory to a dwelling on the same lot.";

and

WHEREAS, the existing building is of frame and metal construction, one story in height, with a frontage of 36 ft. and a depth of 18 ft.; occupied for storage of four motor vehicles, space for two cars rented to persons not residing on premises; and

WHEREAS, applicant failed to substantiate his application under the provisions of section 7, subdivision g.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the application be and it hereby is denied.

Absent: Mr. Connell 1

THE RESOLUTION:

(353-24-BZ)

WHEREAS, William F. Doyle, for Theodore Roehrs, owner, filed, March 7, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises east side of East 181st street (Folin street), 224.19 ft. south of East 182nd street, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that East 181st street, East 182nd street and Webster avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered February 11, 1924, in acting on N. B. Application No. 354-24, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution."

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 254 ft and a depth of 148 feet, irregular; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the applicant has filed the duly acknowledged assents of the owners of 84 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby make variation in the application of the use district regulations to the building zone resolution, and that the application be and it hereby is granted on condition that the structure be limited to a one-story building above grade on the Folin street front; that the gable walls be unpierced throughout their entire height and length; that the front elevation on Folin street be finished with face brick and architectural terra cotta or stone trimmings and an ornamental moulded cornice of not less than 12-inch projection; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

3-24-BZ.

APPLICANT—William F. Doyle, for Alfonso Celentano and Terrace Realty Corp., owners.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a residence district and partly in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

THE RESOLUTION:

(116-24-BZ)

WHEREAS, John W. Lieb, for The New York Edison Co., owner, filed, January 25, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a building to be occupied as an electric transforming station; premises 27 West 47th street, 32-34 West 48th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 47th street and West 48th street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered January 17, 1924, in acting on N. B. App. No. 415-23, reads:

"6. Proposed occupancy for this building is contrary to provision of Section 4, Building Zone Resolution. See Resolution of Board of Appeals, dated Dec. 18, 1923."

and

WHEREAS, the proposed building is to be of non-fireproof construction, three stories and basement in height, with a frontage of 21½ ft. on 47th street, 38 ft. 4 in. on 48th street and a depth of 100 ft. 4¼ in., running through from street to street; to be occupied as an electric transformer station; and

WHEREAS, owing to requirements of the neighborhood for power, there would be undue hardship in preventing applicant from erecting proposed structure.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the gable walls be unpierced throughout their entire height and length, other than openings wholly within and opening on applicant's own property; that the front elevations as to design and treatment shall be finished substantially in accordance with the water color design submitted to the board at the hearing; the first story at street level on both street fronts shall be arranged and maintained as stores or show rooms, separated from the transformer room area on the first story, street level, by a partition of approved fireproof masonry; that the architect shall make a return of the final design of the facades to this board for approval before submission of final working drawings to the superintendent of buildings;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby and Mr. Connell ..

Absent: Fire Chief Kenlon

THE RESOLUTION:

(127-24-BZ)

WHEREAS, George F. Spelman, for Fordham K. of C. Association, Inc., owner, filed, January 28, 1924, an application, under the building zone resolution, to permit in a "B" area residence district the extension of an existing club building to the rear lot line, entirely omitting the rear yard as required by sections 12 and 16-b of the zone resolution; premises 2605 Grand Concourse, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Grand Concourse and Croton avenue are residence and "B" area districts; and

WHEREAS, the decision of the superintendent of buildings, rendered January 16, 1924, in acting on Alt. App. No. 124, reads:

"1. Rear yard must be provided to comply with requirements of Building Zone Resolution in residence district."

and

WHEREAS, the existing building is of non-fireproof construction, two stories in height, with a frontage of 38 ft. and a depth of 38 ft.; it is proposed to extend the building at rear covering entire rear of lot; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

346-24-BZ.

APPLICANT—William F. Doyle, for G. A. Boyd, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district, and in a street between two intersecting streets, which portion there exists an exit and entrance to a public school, the alteration and change of occupancy from an existing public stable to a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—173-177 West 89th street, Manhattan.

APPEARANCES—

For Applicant: William F. Doyle, N. Taylor Phillips and Vincent L. Liebell.

For Opposition: John L. Rogers, Frederick Henderson, Charles Tilgner and others.

ACTION OF BOARD—Application denied.

THE VOTE TO GRANT ON CONDITION—

Affirmative: Messrs. Boulton, Kerby and Holland

Negative: Chairman Walsh, Messrs. Beatty and Connell

Absent: Fire Chief Kenlon

THE RESOLUTION:

(346-24-BZ)

WHEREAS, William F. Doyle, for G. A. Boyd, owner, filed, March 6, 1924, an application, under the building zone resolution, to permit in a business district, and in the same block with a public school, the alteration and change of occupancy from an existing public stable to a garage for the storage of more than five motor vehicles; premises 173-77 West 89th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, April 29, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

MINUTES

WHEREAS, the use district maps accompanying the building zone resolution show that West 89th street and Amsterdam avenue are business districts, and West 90th street a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 18, 1924, in acting on Alt. App. No. 300-24, reads:

"1. The proposed change of use from stable to garage is prohibited by section 20 of the Building Zone Resolution, inasmuch as there is a school within the same block.

"2. A change from one prohibited use to another when structural alterations are necessary for the conversion is prohibited by section 6 of the Building Zone Resolution."

WHEREAS, the existing building is of non-fireproof construction, four stories in height, with a frontage of 75 ft. and a depth of 100 ft. 8½ in., occupied as a stable; it is proposed to convert the building to a garage for more than five motor vehicles without structural alterations; and WHEREAS, this building is located on a street between intersecting streets on which there is a public school, and there was opposition to the granting of this application. *Resolved*, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

17-23-BZ.

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(876-21-BZ)

WHEREAS, Margaret McDermott, owner, filed, April 18, 1921, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage occupied by one business car; premises 1104 University avenue, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, October 18, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that University avenue (Lind avenue), 165th street and Summit avenue are residence districts; and

WHEREAS, the order of the fire commissioner, dated March 9, 1921, Order No. 4895-C, reads:

"1. Discontinue the maintenance of garage which is not maintained strictly as an accessory to a dwelling on the same lot and in which is kept motor vehicles that are used for business purposes on these premises.";

and

WHEREAS, the building is one story in height, with a frontage of 20 ft. and a depth of 10 ft., occupied as a garage for one car used by the owner of the premises in her business; and

WHEREAS, the applicant has amended her application and appeals under the provision of section 7, subdiv. F of the building zone resolution; and

WHEREAS, this application was granted by the board at its meeting October 18, 1921, for a temporary period of two years and applicant requested an extension of time.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted*, permitting the occupancy of the garage for not more than one business car, the property of the owner of the premises, for a temporary period of two years from the expiration of the previous permit, that is, October 18, 1923.

409-23-BZ.

APPLICANT—Rich & Mathesius, for Frederick Mathesius, owner.

SUBJECT—Application for reopening (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

Affirmative: Chairman Walsh, Messrs. Beatty,

Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(409-23-BZ)

WHEREAS, Rich & Mathesius, for Frederick Mathesius, owner, filed, April 6, 1923, an application, under the building zone resolution, to permit in a business district the

MINUTES

erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises southeast corner of Vermilyea avenue and Dyckman street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, June 26, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Dyckman street and Sherman avenue are business districts and Vermilyea avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered March 21, 1923, in acting on N. B. App. No. 115-23, reads:

"1. Inasmuch as the premises are located in a business district the erection of a building for a garage occupancy is contrary to the Building Zone Resolution, Section 4.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, two stories and cellar in height, with a frontage of 100 ft. and a depth of 100 ft. in the 1st story and a depth of 30 ft. irregular in the 2nd story; to be occupied, cellar and 1st story, garage for more than five motor vehicles; 2nd story, offices; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses; and

WHEREAS, this application was granted by the board at its meeting, June 26, 1923, on certain conditions and applicant requested an extension of the time limit imposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution and that the application be and it hereby is *granted on condition* that the front portion of the structure, both on Dyckman street and Vermilyea avenue, shall be restricted to shops or stores at least 30 ft. deep, separated from the garage, which is proposed to be located in the rear, by an unpierced wall of approved masonry and that the vehicular entrance to the garage shall be restricted to one opening on Dyckman street front of building, southerly end, and that the front elevation of the building shall be finished with front brick and architectural terra cotta or stone trimmings; and that no skylight shall be within 50 ft. of the Vermilyea avenue gable wall and that the roof shall be constructed of fireproof material;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

892-19-BZ.

APPLICANT—Ernest Bartels, for Franklyn J. Griesbeck, owner.

SUBJECT—Application for renewal of temporary permit (re: decision of fire commissioner) to permit in a residence district the maintenance of a garage.

PREMISES AFFECTED—1713 Centre street, Ridgewood, Borough of Queens.

APPEARANCES—None.

ACTION OF BOARD—Chairman read request for extension of permit. Reopened and extension of permit granted to May 23, 1925.

THE VOTE TO REOPEN AND GRANT EXTENSION OF PERMIT—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby	6
Negative	0
Absent: Fire Chief Kenlon	1

THE RESOLUTION:

(892-19-BZ)

WHEREAS, Franklyn J. Griesbeck, owner, filed, November 26, 1919, with the board of appeals, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage; premises 1713 Centre street, Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, December 9, 1919, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Centre street is located in a residence district and that the easterly side of Cypress avenue is located in a business district; and

WHEREAS, the decision of the fire commissioner, rendered October 30, 1919, reads:

"Maintenance of your garage is a violation of Section 3, Article 2, of the Building Zone Resolution of the Board of Estimate and Apportionment of the City of New York, adopted July 25, 1916, inasmuch as motor vehicles stored are for sale, for rent or for hire and are subject to charges for storage.";

and

WHEREAS, the building is of non-fireproof construction, one story in height, with a frontage of 18 ft. and a depth of 22 ft. 6 in.; and

WHEREAS, a similar application, Cal. No. 1465-19-1, on the same street between the intersecting streets was granted by the board of appeals for a temporary occupancy as a garage for two pleasure cars for a period of one year; and

WHEREAS, this application was granted by the board at its meeting December 9, 1919, for a temporary occupancy and permit extended for additional time, May 23, 1922.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted* for a temporary occupancy as a garage, space in which may be rented out for two pleasure cars, for a period of two years from May 23, 1923.

AREAS FIXED.

(461-24-BZ)

The chairman presented and read a communication from John C. Hoffman, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of garage; premises 165 Pine street, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Pine street from a point 100 ft. north of Atlantic avenue to a point 100 ft. south of Fulton street.

(452-24-BZ)

The chairman presented and read a communication from Andrew Bragini, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of garage; premises 58 Norwood avenue, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Norwood avenue, from a point 100 ft. north of Ridgewood avenue to a point 400 ft. north of proposed garage; also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

MINUTES

(333-24-BZ)

The chairman presented and read a communication from William F. Doyle, requesting the board to fix the area deemed affected and within which to obtain consents for the erection and maintenance of garage; premises west side of Second avenue, 70 ft. north of Grand avenue, Borough of Queens.

The following area was approved by the board:

Both sides of Second avenue from a point 400 ft. south of proposed garage to a point 270 ft. north of said garage. The north side of Grand avenue from Second avenue to a point 150 ft. west of Second avenue. The south side of Newtown avenue from Second avenue to a point 100 ft. west of Second avenue; also the property at rear and for a distance of 50 ft. north of the northerly side line of the premises in question.

(483-24-BZ)

The chairman presented and read a communication from William R. Rust, requesting the board to fix the area deemed affected and within which to obtain consents for the maintenance of garage; premises 157 Richmond street, Borough of Brooklyn.

The following area was approved by the board:

Both sides of Richmond street from a point 400 ft. north of Fulton street to a point 100 ft. south of Ridgewood avenue, also the properties at rear and for a distance of 50 ft. on either side of the side lot lines of the premises in question.

Adjourned 5 p. m.

THE RESOLUTION:

(258-24-S)

WHEREAS, Service Wagon Repair Co., owner, filed, February 19, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 428-430 West 19th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 31, 1924, reads:

"1. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law.

"NOTE: Among the defects noted on this fire escape are the following:

"No 60 degree stairways connecting balconies.

"No stairway from top balcony to roof.

"No stairway from lowest balcony to the ground.

"Windows on course not fireproof nor self-closing.

"No steps to sills of windows.

"No fireproof passageway to street from lower termination.

"2. Provide an additional means of exit from the 1st story, said exit to be located at the rear of the building, in accordance with the provisions of Section 271 of the Labor Law."

and

WHEREAS, the building is fireproof, four stories in height, 50 ft. by 92 ft. in area. OCCUPIED: 1st story, blacksmith shop, 9 persons; 2nd story, storage, 1 person; 3rd story, woodworking shop, 4 persons; 4th story, paint shop, 12 persons. EXITS: One interior fireproof stairway extending from the 1st story to roof, with metal-covered doors at openings; a fire escape on the rear of the building extending from 4th story to 2nd story, with drop ladder to yard and gooseneck ladder to roof; windows along course of the fire escape glazed with plain glass; ROOFS of adjoining building 10 ft. lower; and

WHEREAS, petitioner proposes to provide fireproof, self-closing windows along course of the fire escape and to close up a small window opening with 16 gauge sheet iron; also to provide an iron ladder at the rear window of the 1st story so as to provide the required additional means of exit therefrom; petitioner contends that in regard to egress from termination of fire escape that open yards afford access to adjoining buildings, as shown upon plans.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 1 on condition that 65 degree connecting stairs shall be provided between balconies and a counter-balanced drop ladder in guides to the roof of the one-story vault in the yard, a gooseneck ladder from top balcony to roof of main building, and that the windows on the course of the fire escape shall be made self-closing and fireproof; and on further condition that the small window in the extension gable shall be closed up with 10 gauge metal on the inside and iron shutter on the outside; and granted as to Item No. 2 on condition that a stationary iron ladder be provided at rear, 1st story, leading to fireproof window opening on vault roof.

310-24-S.

PETITIONER—F. P. Keniston, for F. W. Woolworth Company, lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—22-26 East 14th street and 19-23 East 13th street, Manhattan.

APPEARANCES—

For Petitioner: F. P. Keniston.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE—

Affirmative 0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady and McDermott 8
Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and Moore 5

THE RESOLUTION:

(310-24-S)

WHEREAS, F. P. Keniston, for James McCreery Realty Corporation, owner, filed, February 27, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 22-26 East 14th street and 19-23 East 13th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 19, 1924, reads:

"Order No. 53737-LD:

"1. Enclose the interior stairway on the west side and southeast corner of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides, with partitions of fire resisting material extending continuously from the 1st story to 3 feet above the roof, constructed as per Section 271 of the Labor Law, or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law."

and

WHEREAS, the building is non-fireproof, five stories in height, 82 ft. by 206 ft. in area; equipped with sprinkler system, standpipes and an interior fire alarm system. OCCUPIED: 1st story, store, 50 persons; 2nd story, cutting clothes, 50 persons; 3rd story, display, stock and cutting, 30 persons; 4th story, manufacture clothing, 60 persons; 5th story, manufacture clothing, 90 persons. EXITS:

MINUTES

Three interior wooden stairways, extending from the 1st story to the top story, enclosed in wooden partitions with wooden doors partly metal covered at openings, and a separate wooden stairway at the westerly center of the top story, extending to the roof; two sub-standard fire escapes, one at the south and one at the westerly side of the premises; openings along the course of the three fire escapes are non-fireproof; ROOFS of adjoining buildings more than 8 ft. lower; and

WHEREAS, petitioner contends that a similar order was waived by the department of labor under date of August 2, 1916; that the present occupancy is much lower at present, and further contends that the existing means of exit are ample.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the petition be and it hereby is denied.

99-24-S.

PETITIONER—F. H. Dike, for Dunnock Realty Co., Inc., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—183-185 Lexington avenue, Manhattan.

APPEARANCES—

For Petitioner: F. H. Dike.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady and McDermott	8
Negative	0
Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and Moore	5

THE RESOLUTION:

(299-24-S)

WHEREAS, F. H. Dike, for Dunnock Realty Co., Inc., owner, filed, February 26, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 183-5 Lexington avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated October 10, 1922, reads:

"Order No. 39769-LD:

"1. Extend the interior stairways at the centre of building to the roof, as per Section 271 of the Labor Law.

"2. Arrange the fire escape on the rear of building and the openings leading thereto and the windows opening on the course thereof so that same are in compliance with the provisions of Section 273 and 274 of the Labor Law and the rules of the Board of Standards and Appeals, or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law.

"Among the defects noted on this fire escape are the following:

"Windows on course not fireproof, not self-closing.

"No stairway from top balcony to roof.

"No stairway from lowest balcony to ground.

"No handrails on balcony openings.";

nd

WHEREAS, the building is non-fireproof, four stories in height, 39.2 ft. by 45 ft. in area. OCCUPIED: 1st story, restaurant and carpet store, 7 persons; 2nd story, dress-making shop, 12 persons; 3rd story, dwellings; 4th story, dwellings. EXITS: One interior wooden stairway, extending from the 1st story to the roof, enclosed in wood

lath and plaster partitions, with wooden doors at openings; a fire escape on the rear of the building, extending from the roof to yard, with non-fireproof windows along the course thereof; ROOFS of adjoining buildings are at same level; and

WHEREAS, petitioner contends that there is egress from the termination of the fire escape through door in yard to yard of adjoining premises, thence through adjoining building, under same ownership, to street.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted as to Item No. 2 so far as it affects egress from the termination of the fire escape only, on condition that the yards of 183 and 185 be maintained jointly as one, with egress therefrom through adjoining premises at rear, 137 East 31st street, openings in fence to be free and unobstructed, and granted so long as occupancy and use remain unchanged.

225-24-S.

PETITIONER—Peerless Roofing & Construction Co., Inc., for United Chain Buildings, Inc., owner.

SUBJECT—Variation of labor law as cited in decision of fire commissioner.

PREMISES AFFECTED—49 West 28th street, Manhattan.

APPEARANCES—

For Petitioner: Herman E. Horwood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady and McDermott	8
Negative	0
Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and Moore	5

THE RESOLUTION:

(225-24-S)

WHEREAS, Peerless Roofing & Construction Co., Inc., for United Chain Buildings, Inc., owner, filed, February 13, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the fire commissioner, affecting premises 49 West 28th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated January 14, 1924, reads:

"1. Provide an additional means of exit from 1st and 2nd stories of rear addition to building * * *";

and WHEREAS, the premises, a rear extension to a building, located on the front of the lot, is non-fireproof, two stories and basement in height, 20 ft. by 27 ft. in area. OCCUPIED: Basement, store, 2 persons; 1st story, vacant, proposed occupancy, 8 persons; 2nd story, vacant, proposed occupancy, 8 persons; EXITS by means of passageways to front building; and

WHEREAS, petitioner proposes to provide additional exit from 2nd story by means of a proposed stairway, constructed on the westerly side of the building, terminating on the roof of an adjoining extension and to provide an additional means of exit from 1st story by providing a door in westerly side of building, opening on adjoining extension roof.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that an additional exit shall be provided from the 1st and 2nd stories by fixed iron stairway and horizontal exit as shown on plans filed with this petition,

MINUTES

with a stairway from roof of extension of No. 51 to extension roof of No. 53 and a similar stairway into yard of No. 55 West 28th street, and that fireproof doors opening out be provided at proposed openings, and that the occupancy as proposed be not permitted.

264-24-S.

PETITIONER—Samuel Rosenblum, for A. T. D. Pilgrim, owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—54 East 11th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady and McDermott 8

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and Moore 5

THE RESOLUTION:

(264-24-S)

WHEREAS, Samuel Rosenblum, for A. T. D. Pilgrim, owner, filed, February 19, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 54 East 11th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered February 29, 1924, reads:

"1. Building is more than 9 stories high and fire escape cannot be accepted as a 2nd means of exit.

"2. Stairs of rear fire escape do not extend to roof.

"3. No means of exit to street from termination of rear fire escape.

and

WHEREAS, the building is fireproof, equipped with a sprinkler and fire alarm signal system, 11 stories in height, 25 ft. by 94 ft. 9 in. in area; OCCUPIED as a tenant factory, 240 persons above the 2nd story. EXITS: An interior fireproof stairway extending from 1st story to top story with fireproof doors at openings; an exterior screened stairway with fireproof openings on the course thereof, on the rear of the building, extending from the top story to the 2nd story, with EGRESS to balcony of fire escape on building to rear, and a sub-standard fire escape on the front of the building; ROOFS to west 5 stories lower, to east 2 stories lower; and

WHEREAS, petitioner contends that the existing means of exit are ample.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that the rear fire escape as now installed shall be maintained and that the occupancy and use shall not be increased; that a balcony or bridge connecting fire escapes of these premises to the fire escapes of the premises in the rear (Nos. 29 and 31 East 10th street) shall be provided at the 2nd and 8th story level; and granted so long as conditions as to occupancy and use remain substantially unchanged.

757-22-S.

PETITIONER—Oscar D. and Herbert V. Dike, for Francis D. Bailey, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—64 Grand street, Manhattan.

APPEARANCES—

For Petitioner: F. H. Dike.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady and McDermott 8

Negative 0

Absent: Fire Chief Kenlon, Deputy Fire Commissioner Hannon, Superintendents Reville, Kleinert and Moore 5

THE RESOLUTION:

(757-22-S)

WHEREAS, Francis Harold Dike, for Francis D. Bailey, owner, filed, June 6, 1922, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 64 Grand street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"Inspection shows the following to be necessary to make the above premises comply with the requirements of the Labor Law.

"1. Enclose the interior stairway at the west side of the building, serving as a required means of exit."

and

WHEREAS, the building is of non-fireproof construction, seven stories in height, 22 ft. 4 in. by 76 ft. 6 in. in area. OCCUPIED, manufacturing, 1st story, 6 persons; 2nd story, 3 persons; 3rd story, 7 persons; 4th story, vacant; 5th story, 4 persons; 6th story, 10 persons; 7th story, 10 persons; the building being equipped with a sprinkler system and fire alarm signal system, the means of egress consisting of an interior stairway extending from the 1st story to the roof, enclosed in wood stud, lath and plaster partitions with fire doors at the openings; a fire escape on the rear of the building and fire escape on the front of the building; fireproof windows along the course of the fire escape, with egress from the rear fire escape to a 52 in. wide passageway on the 1st story; and

WHEREAS, petitioner contends that the means of egress are adequate; and

WHEREAS, this petition was granted by the board at its meeting, July 11, 1922, on condition "that the loft side of the stair hall partition be fire retarded with No. 20 gauge metal, and self-closing fireproof doors shall be provided at the openings; that all glass in the existing windows of stair hall partition be removed and openings sealed up, and granted so long as conditions as to use and occupancy remain unchanged"; and petitioner requests a modification of these conditions.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted modifying the resolution of July 11, 1922, so far as affects the occupancy, on condition that the occupancy shall not exceed 14 persons on any one floor and that the resolution shall be complied with in all other respects.

Adjourned 6.10 p. m.

WILLIAM J. O'GORMAN, Secretary.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or departmental actions, and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

RULE

REPORTING STRUCTURAL ALTERATIONS, ADOPTED FEBRUARY 8, 1917, UNDER CAL. 352-16-S.

Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

PUBLIC HEARING

PROPOSED AMENDMENTS TO THE FIRE ESCAPE RULES—RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday, May 9, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments to Rule 380, Industrial Code, and adoption of same as rules of the board of standards and appeals, affecting the maintenance of existing substandard fire escapes on factory buildings; Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended Dec. 12, 1918, Cal. No. 1708-18-S.

Matter in *italics* is new. Matter in brackets [] is old matter to be omitted.

EXISTING FIRE ESCAPES OF FACTORIES

[Supplementary to Labor Law, §§ 79-a to 79-f; adopted and effective July 30, 1914

Rule 380.—When, in addition to the required exits of any factory or factory building, there exist one or more outside fire escapes which are not entirely in accordance with the provisions of the Labor Law relating to fire escapes, such fire escapes may be retained without being changed to conform to such provisions, if steps are taken, satisfactory to the Commissioner of Labor, to prevent their use as means of egress, and provided that such fire escapes are maintained in good repair.

NOTE.—The Commissioner of Labor has ruled that such fire escapes must be structurally safe and that they shall not be used for fire drills.

At the openings leading to such fire escapes there shall be placed a sign, with letters eight inches high, reading "THIS IS NOT AN EXIT." No barrier or guard will be permitted at these opening.]

3. *When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards*

and Appeals, such means of egress may be retained under the following conditions.

(a) *Fire Escapes*—All single rung, double rung and vertical ladder fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) *Interior Stairways*—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) *Exterior Screened Stairways*—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) *Horizontal Bridges*—Horizontal bridges between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday, May 9, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as rules of the Board of Standards and Appeals affecting the Enclosure of Factory Stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

[Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed		Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an interior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos
Baking powder
Breweries
Buttons (pearl or bone)
Canneries (including food products)
Chalk and crayon
Condensed and powdered milk
Electric light plants and power houses
Electrolytic reducing works

Glass
Glue, mucilage, paste, size
Ivory
Leather (excluding japanning or enameling)
Metals (excluding japanning or enameling)
Soap, candles
Porcelain and pottery
Talc and soapstone
Tanneries (excluding japanning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)
Bakeries
Bamboo and rattan
Baskets
Belting (including canvas)
Boots and shoes
Buttons (including cloth covered)
Cardboard (including boxes)
Clothing, woolen (wearing apparel)
Cordage
Furs
Gloves (other than leather)
Horn and combs (not celluloid)
Leather (with enameling or japanning)
Linoleum works
Metals (with enameling japanning)
Packing houses
Paper mills
Printing, lithographing, book binding
Silk
Sugar refineries (including beet and glucose works)
Tanneries (with japanning enameling)
Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Tobacco, cigars, cigarettes and snuff
Woodworking (excluding dipping or varnishing)

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers
Artificial leather
Celluloid
Cereal mills
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)
Cotton batting
Cotton clothing (women's)
Cotton waste
Dry cleaning
Explosives
Feather renovating
Feed, flour and grist mills
Fireworks
Imitation leather
Matches
Rag sorting (including cotton)
Shoddy mills
Starch and sugar mills (including pulverizing)
Straw goods
Varnish
Woodworking (with dipping or varnishing)

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental and well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as hereinafter provided, in all factory buildings more than two stories

PUBLIC HEARING

and less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving as required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
Three	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
Four	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
Five	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room in every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Labor Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire drills substantially conforming to rules of the board are held, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. Enclosure of Stairways.—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

Progress Report.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.

Special meetings as listed in this Calendar.

Call of Clerk's Calendar, Tuesdays, at 2 p. m.

Board of Standards and Appeals, as listed in the Calendar.

All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION.

10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, May 13, 1924*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, May 20, 1924, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the point of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, *Chairman.*

245-24-A.

APPELLANT—Crane Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—26 Corlears street, Manhattan.

APPEARANCES—

For Appellant: Frederick Miller.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Kerby and Holland 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

(245-24-A)

WHEREAS, Crane Co., owner, filed, February 16, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises. 26 Corlears street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 18, 1924, reads:

"Referring to your application dated May 3, 1923, for a permit to store and use fuel oil at 26 Corlears Street, Manhattan, I regret to inform you that said application has been disapproved for the reason that your present method of storing and using fuel oil does not conform with the Fuel Oil Rules adopted by the Board of Standards and Appeals on November 6, 1919.

"You are, therefore, hereby, ordered to:

"1. Discontinue the storage and use of fuel oil on these premises.";

and

WHEREAS, the building is non-fireproof, one story in height, 34 ft. by 58 ft. 3 in. in area; OCCUPIED for pipe bending; equipped with a fuel burning installation for heating metal; and

WHEREAS, appellant contends that the fuel oil installation has been in the building since 1904 and further contends that the top of the tank is 12 in. below the surface of the ground, is enclosed with an 8 in. brick wall and covering and dry sand; and

WHEREAS, the board deemed, in view of the industrial process for twenty years, the appeal should be granted.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the occupancy and use be restricted to the manufacturing of metal pipe; that not less than ten (10) sand pails shall be maintained; that not less than six (6) approved hand fire extinguishers shall be provided; and that the oil used on the premises shall be stored in a metal tank, buried not less than 12 in. below grade, and restricted to Grade "A" oil.

247-24-A.

APPELLANT—Joseph Reydel, Jr., for J. M. Horton Ice Cream Co., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—324-326 East 24th street, Manhattan.

APPEARANCES—

For Appellant: Joseph Reydel, Jr.

For Administration: Inspectors Lynch and Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Kerby and Holland 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

(247-24-A)

WHEREAS, Joseph Reydel, Jr., for J. M. Horton Ice Cream Co., owner, filed, February 18, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 324-326 East 24th street, Manhattan; and

WHEREAS, the decision of the fire commissioner, dated January 10, 1924, reads:

"Enclosed herewith is temporary receipt No. 735 which we have issued in payment for your check of \$17.00 for your garage at 324 East 24th Street. As we informed you in our communication of January 4th, 1924, that it would be necessary for you to either remove the tanks entirely from the premises or fill them with sand in the presence of an inspector, or pay for a storage garage permit fee, \$35.00.";

and

WHEREAS, the building is fireproof, six stories in height, 50 ft. by 93 ft. 9 in. in area; OCCUPIED as a non-storage garage and stable; and

WHEREAS, appellant contends that on June 8, 1920, the fire department issued an order to remove the pump from the gasoline storage system and seal up opening where pump was installed, also fill box at curb with cement; this work was done and the fire department issued a permit for a non-storage garage and the permits were issued up to May 15, 1923, and further contends that since the abandonment of the gasoline storage system no gasoline has been stored on the premises.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the gasoline pumps shall be removed from the premises; that all pipe connections of gasoline storage equipment shall be capped and plugged at first floor grade level; and that the fill box at the curb shall be sealed with cement concrete.

251-24-A.

APPELLANT—John Best, owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—163 Mercer street, Manhattan.

APPEARANCES—

For Appellant: John Best.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal dismissed; to comply with order.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Kerby and Holland 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

(251-24-A)

WHEREAS, John Best, owner, filed, February 18, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 163 Mercer street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 30, 1924, reads:

MINUTES

"Order No. 54409-F:

"1. Provide a separate and distinct system of *Automatic Sprinklers* throughout building having at least one source of water supply * * *";

and

WHEREAS, the building is non-fireproof, four stories in height, 25 ft. by 88 ft. in area. OCCUPIED: 1st story, storage wool clippings, 5 persons; 2nd story, mfr. of paper boxes, 4 persons; 3rd story, vacant; 4th story, vacant; and

WHEREAS, appellant contends that to comply with this order would be a hardship and is not in a financial condition to comply.

Resolved, that the appeal be and it hereby is *dismissed on condition* that appellant complies with conditions of resolution granted under Cal. 783-21-A.

271-24-A.

APPELLANT—Samuel Rosenblum, for Maurice Deutsch Bldg. Corp., owner.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—35-39 Maiden lane, Manhattan.

APPEARANCES—

For Appellant: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Kerby and Holland 5

Negative 0

Absent: Mr. Connell and Fire Chief Kenlon . . 2

THE RESOLUTION:

(271-24-A)

WHEREAS, Samuel Rosenblum, for Maurice Deutsch Bldg. Corp., owner, filed, February 20, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 35-39 Maiden lane, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 14, 1923, reads:

"Order No. 49909-F:

"1. Provide iron or kalamein shutters on all openings in the exterior wall above the first story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said opening, and which are not more than 50 ft. above a neighboring roof at rear North side of No. 35 building, or other approved protection as per Section 375, Article 18, Chapter 5 of the Code of Ordinances.";

and

WHEREAS, the building is fireproof, 12 stories in height, 72 ft. 7 in. by 119 ft. 2 in. in area; OCCUPIED as an office building, 36 persons per story; and

WHEREAS, there are four (4) windows on every story above the fifth story within 30 ft. of openings in, and within 50 ft. of the roof of a neighboring building; and

WHEREAS, appellant contends that the neighboring building is occupied for offices and jewelry salesrooms and that the openings in same are protected by fireproof windows, glazed with wire glass.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the windows in the westerly gable wall shall be protected in accordance with the regulations; that the openings on the course of the stairs on easterly side of building shall be protected in accordance with requirements; and *granted* as to the other openings embraced in the order so long as the protection of the openings of the adjoining premises remain unchanged, and the conditions as to occupancy and use otherwise remain unchanged.

285-24-A.

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

293-24-A.

APPELLANT—Samuel Rosenblum, for Andrew D. Baird Holding Corp., owner.

SUBJECT—Appeal from orders of fire commissioner.

PREMISES AFFECTED—2-20 Keap street, Brooklyn.

APPEARANCES—

For Appellant: Samuel Rosenblum and Michael F. Walsh.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 5

Negative 0

Absent: Mr. Beatty 0

THE RESOLUTION:

(293-24-A)

WHEREAS, Samuel Rosenblum, for Andrew D. Baird Holding Corp., owner, filed, February 25, 1924, an appeal with the board of appeals, from orders of the fire commissioner, affecting premises 2-20 Keap street, Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated January 8, 1924, read:

"No. 53135-F:

"1. Provide a separate and distinct system of *automatic sprinklers* throughout building having at least one source of water supply, arranged and equipped as provided in the rules for fire extinguishing appliances, adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 2, 1919, effective February 17, 1919."

"Order No. 53136-F:

"1. Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lb. per square inch extending from cellar to roof, with necessary check valves and 2½ inch regulation Fire Department outlets on each story (including basement cellar and roofs) placed within main stairway enclosure. Each outlet to be provided with sufficient length of 2½ inch standard hose attached thereto.";

and

WHEREAS, the building is non-fireproof, one story in height, 227 ft. by 153 ft. (34,700 sq. ft.) in area; divided into two sections by a fore and aft brick wall with sliding kalameined doors at openings; OCCUPIED for the manufacture of hospital supplies; and

WHEREAS, appellant contends most of the manufactured products are made of metal, and proposes to install additional fireproof door at each opening in the partition wall.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the existing separating dividing wall of approved masonry shall be maintained.

MINUTES

with not more than two openings, said openings to be protected with approved automatic fire doors; that the rear gable walls shall be maintained unpierced throughout their entire height and length; that the watchman service shall be installed with direct Central Office connection; that not less than six (6) 40-gallon water casks, painted red and marked "FIRE", equipped with six (6) buckets to each cask, shall be maintained in each section of structure, also one (1) 40-gallon portable fire-extinguisher maintained in each section; and *granted* so long as use, conduct and operation of business on premises remain substantially unchanged.

APPELLANT—William F. Doyle, for Co-operative Chemical Co., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—231 Third avenue, Manhattan.

APPEARANCES—

For Appellant: William F. Doyle.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(295-24-A)

WHEREAS, William F. Doyle, for Co-operative Chemical Co., lessee, filed, February 25, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 231 Third avenue, Manhattan; and

WHEREAS, the order of the fire commissioner, dated December 21, 1923, reads:

"1—Discontinue the manufacture of combustible mixtures on these premises;"

and
WHEREAS, the building is non-fireproof, three stories in height, 17 ft. 4 in. by 54 ft. 6 in. in area at the 1st story and 17 ft. 4 in. by 40 ft. in area above. OCCUPIED: 1st story, store and mixing room in rear extension, 1 person; dwellings above; and

WHEREAS, appellant contends the principal inflammable ingredient in the mixture is kerosene; that the maximum quantity is 100 gallons stored in a steel container, when mixed, in the covered container, the fluid is placed in airtight receptacles and placed in the store ready for sale; appellant proposes to replace the window in extension with one fixed and fireproof; to provide a door in opening between extension and store and to metal cover the door at opening between store and hallway.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the quantity of kerosene stored on premises shall be limited to 100 gallons, maintained in approved metal drum, confined to one-story extension; that the window in partition between storeroom and extension of store shall be made fireproof or built up with masonry and the doorway between extension and store, first story, be equipped with self-closing, fireproof door; and that the opening from the store to the hallway of dwelling, first story, shall be equipped with a kalameined, self-closing door.

298-24-A.

APPELLANT—Cleveland-Duluth Company, Inc., owner

SUBJECT—Appeal from decision of fire commissioner.

PREMISES AFFECTED—880-890 East 136th street, The Bronx.

APPEARANCES—

For Appellant: B. L. Peck and William Hanson.

For Administration: Inspector Carroll of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon	7
Negative	0
Absent	0

THE RESOLUTION:

(298-24-A)

WHEREAS, Cleveland-Duluth Company, Inc., owner, filed, February 26, 1924, an appeal, with the board of appeals, from a decision of the fire commissioner, affecting premises 880-890 East 136th street, Borough of Bronx; and

WHEREAS, the decision of the fire commissioner, rendered November 8, 1923, in acting on Alt. App. No. 1219-23, reads:

"The Grinnell Company, Inc., has filed plans for a sprinkler system but as the area of the building requires a standpipe system, plans must be filed before the sprinkler system can be approved;"

and

WHEREAS, the building is frame, covered with sheet metal, one story in height, 101 ft. by 350 ft. (35,300 sq. ft.) in area; OCCUPIED as a warehouse for the storage and repair of machinery; and

WHEREAS, applicant contends that a sprinkler system is being installed, which will afford ample fire protection; and

WHEREAS, the board deemed that in view of the installation of the approved sprinkler system the appeal should be granted.

Resolved, that the decision of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the occupancy and use remain substantially unchanged; and that at least six (6) approved 40-gallon water casks, painted red and marked "FIRE", equipped with six buckets to each cask, shall be distributed on the southerly side of building.

302-24-A.

APPELLANT—Frank J. Schefcik, for Imperial Perfumery & Barber Supply, Inc., lessee.

SUBJECT—Appeal from order of fire commissioner.

PREMISES AFFECTED—1077 Intervale avenue, The Bronx.

APPEARANCES—

For Appellant: Frank J. Schefcik.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Kerby and Fire Chief Kenlon	6
Negative	0
Absent: Mr. Holland	1

THE RESOLUTION:

(302-24-A)

WHEREAS, Frank J. Schefcik, for G. R. B. Holding Co., owner, filed, February 26, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 1077 Intervale avenue, The Bronx; and

WHEREAS, the order of the fire commissioner, dated February 11, 1924, reads:

"You are hereby notified that an inspection of premises 1077 Intervale Avenue, Bronx, used as a non-storage garage, shows that the following must be done before permit requested by you can be issued:

MINUTES

"1. Separate boiler room from remainder of building by unpierced wall of solid masonry at least 8 inches thick, entrance to boiler room to be from the exterior of the building only. Section 159-1, Chapter 10, Code of Ordinances.";

and

WHEREAS, the building is fireproof, three stories in height, 28 ft. by 89 ft. in area. OCCUPIED: 1st story, non-storage garage and boiler room; the rest of the building is used for the manufacture and sale of perfumes; and

WHEREAS, appellant contends that boiler room is separated from garage by a 12 in. brick wall and proposes to brick up the opening therein.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that an unpierced brick wall shall be provided between the boiler room and the garage portion of the premises.

146-24-A.

APPELLANT—Powell Products Company, Inc., lessee.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—4497 Third avenue, The Bronx.
APPEARANCES—

For Appellant: Thomas Everett.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Kerby and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Holland 1

THE RESOLUTION:

(146-24-A) *

WHEREAS, Powell Products Company, Inc., lessee, filed, January 30, 1924, an appeal with the board of appeals, from an order of the fire commissioner, affecting premises 4497 Third avenue, Borough of Bronx; and

WHEREAS, the order of the fire commissioner, dated November 17, 1923, reads:

"Order No. 21117-LC:

"1. Provide a separate and distinct system of Automatic Sprinklers throughout building having at least one source of water supply * * *.

"2. Provide a type "A" motor enclosure about electric motor on the first story. Section 9, Chapter 10, Code of Ordinances.

"3. Provide an approved buried storage system of sufficient capacity for the proper storage of benzol. Section 114-5, Chapter 10, Code of Ordinances.

"4. Provide 1 fireproof receptacle with cover for the storage of waste. Section 9, Chapter 10, Code of Ordinances.

"5. Provide 6 approved sand buckets of at least 10 quarts capacity on each story. Buckets to be painted RED and marked FIRE with letters not less than 2½ inches in height, kept full of clean sand and not used for any other purpose. Buckets to be placed on permanent shelves, hooks or racks, same to be not less than 2 feet nor more than 4½ feet above the floor. Section 251-C, Chapter 10, Code of Ordinances.";

and

WHEREAS, the building is non-fireproof, two stories in height, 25 ft. by 125 ft. in area; OCCUPIED as a denaturing alcohol plant; and

WHEREAS, appellant contends that the chemicals are stored in separate rooms; that no power is used excepting a small electric pump, in denaturing the alcohol; that the building is supplied with buckets of sand, and proposes to install carbon tetrachloride extinguishers.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal, as to Item 1, be and it hereby is *granted on condition* that all other items of the order shall be complied with and that the manufacturing shall be confined to the 1st story.

195-24-A.

APPELLANT—F. P. Keniston, for Quality Fabric Corporation, lessee.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—40 West 25th street, Manhattan.

APPEARANCES—

For Appellant: F. P. Keniston.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition in part and denied in part.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Boulton, Connell, Holland, and Kerby and Fire Chief Kenlon 6
Negative 0
Absent: Mr. Beatty 1

THE RESOLUTION:

(195-24-A)

WHEREAS, F. P. Keniston, for Quality Fabric Corporation, lessee, filed, February 8, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 40 West 25th street Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 19, 1924, reads:

"Order No. 22402-LC:

"4. Elevate all steam and hot water radiators at least four inches above floor. Section 235-9, Chapter 10, Code of Ordinances.

"5. Protect all steam pipes or risers that are within 6 ft 0 in. of floor with wire guards or non-combustible pipe covering. Section 235-9, Chapter 10, Code of Ordinances.

"6. Provide suitable guards around radiators and steam pipes to prevent combustible material from coming in contact therewith.

"NOTE: Top shall be sloping so as to prevent same from being used as shelves.

"7. Bottom of guard shall be arranged so as to lift up for cleaning. Section 235-9, Chapter 10, Article 19, Code of Ordinances.

"9. Provide a sufficient number of tote boxes of approved construction in which must be kept materials and articles in process of manufacture.";

and

WHEREAS, the building is fireproof, 12 stories in height, 103 ft. 6 in. by 100 ft. in area, equipped with a sprinkler and standpipe system; OCCUPIED as a tenant factory averaging 40 persons per story, appellant occupying the 11th story; and

WHEREAS, appellant contends that only 25 pounds of celluloid is used at any one time and that it is stored in an approved metal container, and proposes to remove radiator installed near the cutting table, to a position 2 ft. from said table, and further contends that the nearest radiator is 15 ft. from work bench.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, as to Items 4, 5 and 6, and the appeal as to these items be and it hereby is *granted on condition* that any work on celluloid on these premises shall not be within twenty feet of any radiator; and that the quantity of celluloid maintained on the premises shall not exceed 25 pounds; that the order of the fire commissioner as it refers to Items 7 and 9, be and it hereby is *affirmed* and the appeal as to these items be and it hereby is *denied*.

821-23-A.

APPELLANT—Henry J. Nurick, for Beth Moses Hospital, owner.

SUBJECT—Application for reopening—appeal from decision of superintendent of buildings.

PREMISES AFFECTED—46-52 Stuyvesant avenue, Brooklyn.

APPEARANCES—

For Appellant: Henry J. Nurick.

ACTION OF BOARD—Appeal reopened and modification granted.

CONDITIONS—As specified in resolution.

THE VOTE TO REOPEN AND MODIFY—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(821-23-A)

WHEREAS, Henry J. Nurick, for Beth Moses Hospital, owner, filed, June 28, 1923, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 46-52 Stuyvesant avenue, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, dated June 19, 1923, App. No. 11091-1923, reads:

“DENIED—Proposition contrary to section 355 of Code, the erection of stair enclosure. Partition of material not specified in the Code as approved by the Superintendent.”;

and

WHEREAS, the building is fireproof, five stories in height, 90 ft. by 94 ft. 4 in. in area; OCCUPIED as a hospital; means of egress consisting of an interior stairway extending from the 1st story to the roof, an exterior stairway in the southerly court; and

WHEREAS, the application filed with the bureau of buildings called for the erection of an enclosure for the stair hall with union partitions and fireproof, self-closing doors. The appellant proposes in lieu of the union partitions to construct partitions with a wood core covered with copper, the doors to be of white pine core copper covered, these partitions having a width of 12 in. to 15 in. only; and

WHEREAS, appellant contends that the partitions are now in place, and to remove them and replace with union partitions would involve a hardship on the hospital; and

WHEREAS, this appeal was granted by the board at its meeting November 7, 1923, on certain conditions, and appellant requested a modification of these conditions.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that all glass panels in partition at foot of stairs be removed and filled in solid with incombustible material of same construction as remainder of partition, except as to the enclosure of stairs on the first story only, *on condition* that the stairs open into a public corridor with direct egress to the street, and that the first floor use shall be restricted exclusively for administration occupancy and not for hospital treatment or patient occupancy.

APPELLANT—Gustave E. Steinback, for Church of Our Lady of Guadalupe, owner.

SUBJECT—Application for reopening—appeal from decision of superintendent of buildings.

PREMISES AFFECTED—251 West 14th street, Manhattan.

APPEARANCES—

For Appellant: Gustave E. Steinback.

ACTION OF BOARD—Appeal reopened and modified.

THE VOTE TO REOPEN AND MODIFY—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6

Negative 0

Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(198-23-A)

WHEREAS, Gustave E. Steinback, for Church of Our Lady of Guadalupe, owner, filed, February 14, 1923, an appeal, with the board of appeals, from a decision of the superintendent of buildings, affecting premises 251 West 14th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings reads:

“1. As building exceeds 40 ft. in height and has more than 15 sleeping rooms it should be of fireproof construction—Sec. 72.”;

and

WHEREAS, the building is non-fireproof, four stories in height, 24 ft. 2 in. by 67 ft. 3 in. in area; OCCUPIED as a home for working girls; there being twenty-eight (28) bedrooms; and

WHEREAS, appellant contends that the building is a charitable institution, in charge of a sisterhood; and has been occupied as a Home, and proposes to extend stairs to roof, to enclose the stair hall in fire-resisting partitions and to enclose the airshaft with fireproof material and fireproof windows in all openings of same; and

WHEREAS, this appeal was granted by the board at its meeting, March 6, 1923, but appellant requested a modification of the resolution, as plans filed failed to show number of bedrooms on the 2nd story.

Resolved, that the decision of the superintendent of buildings be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the stairway be extended to the roof and that the stair hall be fire-retarded in accordance with the rules of the board of standards and appeals, and that all openings be protected with self-closing, fireproof doors; that a standard fire escape be provided on rear, extending from the yard to the roof; and that the doors leading from rooms to fire escape on rear of building be maintained unlocked at all times; that an attendant shall be maintained in service to patrol the building during all hours of the night.

THE RESOLUTION:

(101-24-BZ)

WHEREAS, James Crooke McLeer, for Georgiana G. Pengel, owner, filed, January 23, 1924, an application, under the building zone resolution to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 586-594 Coney Island avenue and 225-231 East 9th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Coney Island avenue is a business district and East 9th street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered December 1, 1923, in acting on App. No. 22267-23, reads:

“DENIED.—Proposition contrary to the Zone Resolution, Art. II, Sec. 2 & 4. A public garage for more than five motor vehicles in a business district and extending into a residence district.”;

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 87 ft. and a depth of 121 ft., to be occupied as a garage for the storage of more than five motor vehicles; and

WHEREAS, the board deemed there would be hardship in preventing applicant from erecting the proposed building owing to the use of adjoining property.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the building be restricted to a one-story structure, erected fireproof; that there shall be but one door opening on 9th street, which shall not exceed 3 ft. 8 in. in width, and the sills of any window openings on 9th street shall be at least 6 ft. above the sidewalk level, and glazed with translucent glass; that the front of the building on 9th street shall be finished in face brick, with architectural terra cotta or limestone trimmings; that the front on Coney Island avenue shall be laid up in face brick, with architectural terra cotta or stone trimmings; that the gable walls shall be

unpierced throughout their entire height and length; that any skylights installed shall be equipped with plain glass, protected above and below with wire guards; that any gasoline storage equipment shall be located at the Coney Island avenue front of the structure;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

275-24-BZ.

APPLICANT—William F. Doyle, for Albert Kenning and Joseph D. Bliss, owners.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—84-92 Maspeth avenue, Brooklyn.

APPEARANCES—

For Applicant: William F. Doyle.

For Opposition: William Veit.

ACTION OF BOARD—Report of committee adopted; Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE TO ADOPT COMMITTEE'S REPORT AND GRANT ON CONDITION—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Fire Chief Kenlon 7

Negative 0

Absent 0

THE RESOLUTION:

(275-24-BZ)

WHEREAS, William F. Doyle, for Albert Kenning and Jos. Bliss, owners, filed, February 21, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 84-92 Maspeth avenue, Borough of Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building the building zone resolution show that Maspeth avenue and Kingsland avenue are business districts and Oliver street is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 20, 1924, in acting on Application No. 3190-24, reads:

“Proposed one story brick public garage for more than five motor vehicles in a business district is contrary to Art. II, Sec. 4 (a) of the Zone Resolution.”; and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reports:

REPORT OF COMMITTEE:

On May 2nd, 1924, a committee of the Board, consisting of Chairman Walsh, Fire Chief Kenlon, Messrs. Beatty, Boulton and Holland, visited premises 84-92 Maspeth Avenue, Brooklyn, at present unoccupied, but immediately abutting a lumber yard formed by the intersection of Olive Street and Maspeth Avenue. The entire south side of Maspeth Avenue westerly from Olive Street, where not vacant, is occupied with an indiscriminate jumble of ramshackle frame structures, occupied as stables, work shops, storage sheds, etc.

As generally expressed by the committee, any modern structure would be an improvement.

MINUTES

The designation of Maspeth Avenue at this location by the Board of Estimate and Apportionment as business use was evidently an expedient with respect to Kingsland Avenue Hospital, which is located one block to the north and west, to restrain perhaps the development that would unquestionably follow if Maspeth Avenue was marked "unrestricted" as its present use and occupancy would now indicate, permitting thereby any and all development including factories and other industrial development common to this district, with offensive odors, smoke nuisances and the necessary trucking attendant to and common in such uses.

The general support as evidenced by the consents filed with the application and but one objection, supports the granting of this appeal and the committee unhesitatingly recommends the approval.

(Signed) WILLIAM E. WALSH,
JOHN KENLON,
JAMES P. HOLLAND,
ALFRED J. BOLTON,
JNO. J. BEATTY.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building be limited to a one-story building; that the rear and side walls be unpierced throughout their entire height and length; that any skylights installed shall not be within 25 ft. of the rear wall, and shall be glazed with plain glass, equipped with wire guards above and below; that the front elevation shall be faced with front brick and architectural terra cotta or stone trimmings; that any gasoline storage equipment installed shall be located directly at the front wall of the building on Maspeth avenue; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

281-24-BZ.

APPLICANT—Louis A. Sheinart, for Goldvine Construction Co., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—5908-5924 Thirteenth avenue, Brooklyn.

APPEARANCES—

For Applicant: Louis A. Sheinart.

For Opposition: John B. Johnston.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Negative	0
Absent	0

THE RESOLUTION:

(281-24-BZ)

WHEREAS, Louis A. Sheinart, for Goldvine Construction Co., Inc., owner, filed, February 23, 1924, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 5908-5924 Thirteenth avenue, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Thirteenth avenue and 69th street are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered February 13, 1924, in acting on App. No. 2487-24, reads:

"Proposed one story brick public garage for more than five motor vehicles in a business district is contrary to Art. II, Sec. 4 (a) of the Zone Resolution.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 150 ft. 3 in. and a depth of 100 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there existed on this street between the intersecting streets on July 25, 1916, a stable for more than five horses.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure be limited to one story in height; that the rear and gable walls be unpierced throughout their entire height and length, that front elevations on 60th street and on Thirteenth avenue shall be finished in face brick, with architectural terra cotta or stone trimmings; that there shall be not more than one door opening on 60th street, at the extreme rear, not exceeding 3 ft. 8 in. in width; that the sills of any windows opening on the 60th street front shall be at least six feet above the sidewalk level; that there shall be no vehicular entrance on Thirteenth avenue within twenty feet of the corner; that any gasoline storage equipment installed shall be located at the extreme northerly end of the garage on Thirteenth avenue frontage; that any skylights installed shall not be located within 25 feet of the rear wall, and shall be glazed with plain glass, protected with wire guards above and below;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within twelve months from the date of this action.

200-24-BZ.

APPLICANT—William F. Doyle, for Subway Realty Corp., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—East side of Jerome avenue 161.86 ft. south of East 204th street, The Bronx.

THE RESOLUTION:

(200-24-BZ)

WHEREAS, Wm. F. Doyle, for Subway Realty Corp. owner, filed, February 8, 1924, an application, under the building zone resolution, to permit partly in a business district and partly in a residence district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises east side of Jerome avenue, 161.86 ft. south of East 204th street, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Jerome avenue is a business district; and

MINUTES

district and Villa avenue and East 204th street are residence districts; and

WHEREAS, the decision of the superintendent of buildings, rendered January 31, 1924, in acting on N. B. Application No. 203-24, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business and residence district is contrary to provisions of Building Zone Resolution.";

and
WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 66 ft. and a depth of 230.38 ft., to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the board deemed that there would be undue hardship in preventing applicant from developing the property as proposed.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure shall be erected fireproof and limited to one story in height, above grade; that the front elevations on Villa avenue and Jerome avenue shall be finished in face brick with architectural terra cotta or stone trimmings; that the Villa avenue frontage shall be restricted from any vehicular exit or entrance, and shall have no door opening other than an emergency exit not exceeding 3 ft. 8 in. in width; that any gasoline storage equipment shall be located at the Jerome avenue front of the property; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

246-24-BZ.

APPLICANT—Joseph H. Freedlander, for The French Institute in the U. S., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a 1½ times height district the erection of the street wall of a building without a setback to a height exceeding the limit set by the zone resolution.

PREMISES AFFECTED—20-22 East 60th street, Manhattan.

APPEARANCES—

For Applicant: Joseph H. Freedlander.

For Opposition: R. M. Dinsmore and C. H. Robinson.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(246-24-BZ)

WHEREAS, Joseph H. Freedlander, for The French Institute in the U. S., owner, filed, February 16, 1924, an application, under the building zone resolution, to permit in a 1½ times height district the erection of the street walls of a building, without a setback, to a height exceeding the limit set by the zone resolution; premises 20-22 East 60th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the height district maps accompanying the building zone resolution show that East 60th street is a 1½ times height district and Madison avenue is a 2 times height district; and

WHEREAS, the decision of the superintendent of buildings, rendered July 20, 1923, in acting on N. B. Application No. 353-23, reads:

"4. The height of the street wall is excessive for that portion which lies within 1½ times district. Sec. 80, Zoning Resolution.";

and

WHEREAS, the proposed building is to be of fireproof construction, ten stories (124 ft. 9½ in.) in height, with a frontage of 44 ft. and a depth of 100 ft. 5 in.; and

WHEREAS, 10 ft. of the proposed frontage is in the 2 times district and 34 ft. is in the 1½ times district; and

WHEREAS, the board deemed that owing to the property being in two districts there would be hardship in requiring applicant to comply with the lower height restriction, and as the building adjoining to the east is of greater height.

Resolved, that the board of appeals does hereby *make a variation* in the application of the height district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the building shall not be erected more than ten stories in height; that the front elevation shall be completed substantially in accordance with the sketch filed in this appeal, and with such setbacks as are indicated and stipulated in the application; that the building shall comply with the building zone resolution in all other respects; and that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

260-24-BZ.

APPLICANT—John De Hart, for Sobel Brothers, lessees.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the installation and maintenance of a gas selling station, also for a parking space for more than five (5) motor vehicles.

PREMISES AFFECTED—315-319 West 133rd street, Manhattan.

APPEARANCES—

For Applicant: John De Hart.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative 0
Absent: Fire Chief Kenlon 1

THE RESOLUTION:

(260-24-BZ)

WHEREAS, John De Hart, for Bruce Holding Corp., owner, filed, February 19, 1924, an application, under the building zone resolution, to permit in a residence district the installation and maintenance of a gas selling station, also a parking space for more than five (5) motor vehicles; premises 315-17-19 West 133rd street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 133rd street is partly residence and remainder business and St. Nicholas avenue is a residence district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 13, 1924, in acting on N. B. Application No. 74-1924, reads:

"1. Proposed location of gas selling station and automobile parking space is contrary to the provisions of Section 3, Building Zone Resolution.";

and

WHEREAS, it is proposed to erect a one-story office for a gas selling station, two automobile sheds, and to install a gasoline storage system; and

WHEREAS, there existed a garage and stable on these premises prior to July 25, 1916.

MINUTES

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the plot shall be developed and the building erected strictly in accordance with the plan and design submitted in this appeal, both as to layout and material, and the building shall not exceed one story in height; that there shall be no public garage maintained or operated on the premises; that the gasoline storage tank shall be built at the front of the proposed structure, at the St. Nicholas avenue building line; that the architect shall make a return to this board of the final working drawings, before submitting them to the superintendent of buildings, and the return shall describe the material finish of facades to be used;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

261-24-BZ.

APPLICANT—John De Hart, for Breslauer Construction Co., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby and Fire Chief Kenlon	6
Absent: Mr. Connell	1

THE RESOLUTION:

(1464-23-A)

WHEREAS, Ashmead E. Scott, lessee, filed, December 11, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 52-54 East 78th street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 70-A, dated November 26, 1923, reads:

"Discontinue use of Auditorium and Stage for theatrical performances.";

and

WHEREAS, the building is fireproof, 13 stories in height, 39 ft. 9 in. by 85 ft. in area; OCCUPIED as a school and theatre; and

WHEREAS, the fire department contends the certificate of occupancy issued for the premises does not permit use of any part of building for theatrical performances; and

WHEREAS, appellant contends that the theatrical performances given are "subscription" or "club" performances.

Resolved, that the order of the fire commissioner be and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

108-24-A.

APPELLANT—B. Herbert Smith, representing adjoining property owners.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby and Fire Chief Kenlon	6
Absent: Mr. Connell	1

THE RESOLUTION:

(108-24-A)

WHEREAS, B. Herbert Smith, representing adjoining property owners, filed, January 24, 1924, an appeal, with the board of appeals, from a decision of the superintendent of

MINUTES

buildings, affecting premises 13-15 College place, Brooklyn; and

WHEREAS, the decision of the superintendent of buildings, rendered January 14, 1924, reads:

"I have made a careful study of all the facts presented at the hearing by both sides in this controversy and have carefully considered the testimony adduced and the briefs submitted by the attorneys for each side, together with a close re-examination of the plans and specifications on which the permit was issued.

"I cannot find, as claimed, that Sect. 4 of the Building Zone Resolution, adopted by the Board of Estimate & Apportionment of the City of New York, on July 25th, 1916, has been violated in this case. It is clear to my mind that the figured cost of the necessary structural alterations to the building in question does not exceed 50 per cent. of the cost of the said building above the foundations.

"Therefore, the application to cancel and revoke the Building Bureau Permit (No. 12049-22) for alteration to premises 13-15 College Place, is hereby denied."

and

WHEREAS, the building is non-fireproof, five stories in height, 50 ft. by 80 ft. in area, formerly occupied as a stable. Permit No. 12049-23, based on Application No. 14813-23 for alteration of the premises, was approved September 8, 1923; and

WHEREAS, appellant contends that the superintendent of buildings has exceeded 50 per cent of the value of the building, exclusive of the foundation, and the superintendent of buildings contends that after careful consideration of the facts he finds that the alteration did not exceed 50 per cent; and

WHEREAS, the board deemed that in the absence of any proof supporting appellant's contention the appeal should be denied.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the appeal be and it hereby is denied.

170-24-A.

APPELLANT—Charles Brady, superintendent of buildings, Borough of Manhattan.

SUBJECT—Revocation of Certificate of Occupancy No. 5990.

PREMISES AFFECTED—200-206 West 51st street, 1648-1650 Broadway and 778-780 Seventh avenue, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Chairman read request from superintendent of buildings to withdraw appeal. Appeal withdrawn.

THE RESOLUTION:

(1337-22-BZ)

WHEREAS, William F. Doyle, for A. Margolin, owner, filed, November 9, 1922, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles; premises 325-333 McDougal street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that McDougal street, Stone avenue and Broadway are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered January 23, 1924, in acting on Application No. 055-24, reads:

"Proposed one story brick building (public garage) for more than five motor vehicles, in a business district, is contrary to article No. 2, Sect. No. 4 (a) of the Zone Resolution.";

and
WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 100 ft. and a depth of 100 ft., irregular, to be occupied as a garage for more than five motor vehicles; and

WHEREAS, there was opposition to the granting of this application on the part of neighboring property owners.

Resolved, that the decision of the superintendent of buildings be and it hereby is affirmed, and the application be and it hereby is denied.

842-23-BZ.

APPLICANT—John J. Dunnigan, for Meyer Goldstein and Hyman Gordon, owners.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a business district the change of occupancy from a market to a garage for storage of more than five motor vehicles.

PREMISES AFFECTED—1477-1479 Wilkins avenue, The Bronx.

APPEARANCES—

For Applicant: John J. Dunnigan, Hyman Gordon.
For Opposition: Joseph W. Schwartz.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty,

Negative 0
Absent: Mr. Connell and Fire Chief Kenlon ... 2

THE RESOLUTION:

(1-24-BZ)

WHEREAS, John J. Dunnigan, for Meyer Goldstein and Hyman Gordon, owner, filed, January 2, 1924, an application, under the building zone resolution, to permit in a business district the change of occupancy of a building, from a market to a garage for the storage of more than five (5) motor vehicles; premises 1477-9 Wilkins avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Boston road, Wilkins avenue and Stebbins avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered December 31, 1923, reads:

"A certificate of occupancy for the public garage at above mentioned location is hereby denied as change

of occupancy from a market to a public garage is contrary to the Building Zone Resolution.";

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 50 ft. and a depth of 152 ft.; it is proposed to change the occupancy from a public market to a garage for more than five motor vehicles; and

WHEREAS, owing to the occupancy of the adjoining premises as a wet wash laundry, the board deemed that there would be hardship in preventing applicant from changing the occupancy of his building as proposed.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is granted on condition that the existing building shall not be increased in area, size or dimension, and that the layout as shown on the plans filed in this case remain unaltered, that the building shall be restricted to one story in height above grade on Wilkins avenue and that the Stebbins avenue front shall be restricted and maintained in its present use (stores or shops), that there shall be no vehicular entrance or exit permitted for the conduct of this garage on Stebbins avenue at any time; that the installation of any gasoline storage equipment shall be maintained on the north end on the Wilkins avenue front of the building, and that the necessary permits shall be obtained within six (6) months.

842-23-BZ.

APPLICANT—John J. Dunnigan, for Jorgine Puschel, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of three (3) motor vehicles, three spaces rented to persons not residing on the premises.

PREMISES AFFECTED—4318 Verio avenue, The Bronx.

APPEARANCES—

For Applicant: John J. Dunnigan.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE RESOLUTION:

(842-23-BZ)

WHEREAS, John J. Dunnigan, for Jorgine Puschel, owner, filed, July 2, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of three motor vehicles, three spaces rented to persons not residing on the premises; premises 4318 Verio avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Verio avenue is a residence district and Webster avenue is a business district; and

WHEREAS, the order of the fire commissioner, dated June 12, 1923, Order No. 18136-C, reads:

"1. Discontinue the maintenance of a non-storage garage which is not used strictly as an accessory to dwelling located in same lot or plot with garage.";

and

MINUTES

WHEREAS, the existing building is of metal construction, one story in height, with a frontage of 27 ft. and a depth of 18 ft., occupied as a garage for three motor vehicles, space rented to persons not residing on premises; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 86 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that storage capacity of the garage shall be restricted to three (3) automobiles of the pleasure car type, space for two (2) of which may be rented to persons not residing on the premises.

69-24-BZ.

APPLICANT—Glendale Grove Garage, Inc., lessee.

SUBJECT—Application (re: order of fire commissioner) to permit in a business district the maintenance of a motor vehicle repair shop.

PREMISES AFFECTED—4654 Proctor street, Glendale, Borough of Queens.

APPEARANCES—

For Applicant: Emil Guterman.

For Opposition: None.

ACTION OF BOARD—Application granted on condition.

CONDITIONS—As specified in resolution.

THE RESOLUTION:

(69-24-BZ)

WHEREAS, Glendale Grove Garage, Inc., for Marie J. Zschozchke, owner, filed, January 17, 1924, an application, under the building zone resolution, to permit in a business district the maintenance of a motor vehicle repair shop; premises 4654 Proctor street, Glendale, Borough of Queens; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its special meeting, May 6, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Proctor street, Central avenue and Cooper street are business districts; and

WHEREAS, the order of the fire commissioner, dated July 9, 1923, Order No. 81195-LC, reads:

"Maintenance of your Repair Shop is a violation of section 3, article 2 of the Building Zone Resolution of the Board of Estimate and Apportionment of the City of New York adopted July 25, 1916, inasmuch as motor vehicles stored are for sale, for rent or for hire or are subject to charges for storage;"

and

WHEREAS, the existing building is of non-fireproof construction, one story in height, with a frontage of 20 ft. 2 in. and a depth of 25 ft. 2½ in., occupied as a motor vehicle repair shop; and

WHEREAS, the board deemed in view of the consents of the adjoining owners immediately affected and the use of the building for minor repairs only, that there would be hardship to compel owner to discontinue business.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that there shall be no machinery maintained on the premises other than one lathe, and that the conduct of the business operated on these premises shall be restricted to minor repairs and

adjustments of motor vehicles; that the structure shall not be extended beyond the limits of the present building, namely, a one-story building 20 ft. 2 in. by 25 ft. 2½ in. in area.

1516-23-BZ.

APPLICANT—Andrew Katzenberger, owner.

SUBJECT—Application (re: order of fire commissioner) to permit in a residence district the maintenance of a garage for the storage of one pleasure motor vehicle, one space rented to persons not residing on the premises.

WHEREAS, James J. Walker, for Florence J. Woolf, owner, filed, June 9, 1923, an application, under the building zone resolution, to permit in a business district the erection and maintenance of a garage for the storage of more than five motor vehicles; premises 2-14 West 172nd street, The Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, December 4, 1923, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 172nd street, Jerome avenue and Macombs road are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered May 16, 1923, in acting on N. B. App. 1558-23, reads:

"1. Erection of proposed garage for storage of more than five motor vehicles in business district is contrary to provisions of Building Zone Resolution."

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story and cellar in height, with a frontage of 148.6 ft. on Jerome avenue and 209.35 ft. on West 172nd street, irregular in area, to be occupied as a garage for more than five motor vehicles; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 82 per cent of the property frontage deemed by the board to be affected; and

WHEREAS, this application was granted by the board at its meeting December 4, 1923, on certain conditions, and applicant requested a modification of these conditions to permit a vehicular entrance on Jerome avenue.

Resolved, that the board of appeals does hereby *make a variation* in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the structure be restricted to a one-story building; that there be no wood trusses used in the construction of the building; that any skylights installed shall be glazed with plain glass, equipped with wire guards above and below; that the rear and gable walls shall be unpierced throughout their entire height and length; that there be not more than one vehicular entrance on Jerome avenue; that the front elevations on 172nd street and Jerome avenue be finished in face brick with architectural terra cotta or stone trimmings;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within nine months and the building completed within eighteen months from the date of this action.

Absent: Mr. Connell and Fire Chief Kenlon .. 2

THE RESOLUTION:

WHEREAS, the foregoing applicants have filed, with the board of appeals, applications from decision of the superintendent of buildings, affecting the premises in question; and

WHEREAS, the applicants have failed to complete their papers, though duly notified to do so.

Resolved, that the foregoing applications be and they hereby are dismissed for lack of prosecution.

Adjourned 5.30 p. m.

WILLIAM J. O'GORMAN, Secretary.

NOTICE

RULES GOVERNING SPRINKLER AND STANDPIPE EQUIPMENT IN ONE STORY GARAGE BUILDINGS RESCINDED JANUARY 29, 1924.

Notice is hereby given that the following resolution, adopted by the Board of Standards and Appeals, April 19, 1920, Under Cal. No. 179-20-S, was rescinded by the board on January 29, 1924, as shown in the minutes published in Bulletin No. 6, Vol. IX:

Under the powers conferred upon it by Section 718a of the Charter, the Board of Standards and Appeals does hereby make rules and regulations for the carrying into effect of the provisions of Section 72, subdivision L, and Section 581 of Chapter 5 of the Code of Ordinances as follows:

Resolved, that the provisions of Section 72, subdivision L of Chapter 5, of the Code of Ordinances, shall not apply to buildings not exceeding one story in height, the purpose of which is occupancy as a garage, motor vehicle repair shop, or oil selling station, which buildings do not exceed an area of 15,000 sq. ft. when located on an interior lot or

when facing on only one street or 24,000 sq. ft. when facing on two streets or 30,000 sq. ft. when facing on three streets; provided that the building is equipped with an approved system of automatic sprinklers or with a line of 2½ in. pipe carried around the interior walls of the building or attached to the columns which carry the roof girders and connected with the street main by 2 in. tap and sufficient length of hose, and from which line branches are taken for the house service.

Resolved, further, that under the provisions of Section 581, subdivision 4 of Chapter 5 of the Code of Ordinances, in similar structures, a line of 2½ in. pipe connected with the street main by 2 in. tap and sufficient length of hose at intervals of 100 ft. or less shall be deemed a standpipe within the meaning of this section, but no siamese connection need be provided on condition that the pressure in the street main shall be not less than 45 lbs.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office.

The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or departmental actions and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to the appellant, applicant or petitioner of record.

RULE

REPORTING STRUCTURAL ALTERATIONS, ADOPTED FEBRUARY 8, 1917, UNDER CAL. 352-16-S.

Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

RULES ADOPTED

AMENDMENTS TO THE FIRE ESCAPE RULES—RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended Dec. 12, 1918, Cal. No. 1708-18-S; Amended May 9, 1924; Cal. No. 414-24-SR.

EXISTING FIRE ESCAPES OF FACTORIES.

3. When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards and Appeals, such means of egress may be retained under the following conditions.

(a) Fire Escapes.—All substandard fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or

other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) Interior Stairways—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) Exterior Screened Stairways—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) Horizontal Bridges—Horizontal bridges and party wall balconies between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday, June 13, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as rules of the Board of Standards and Appeals affecting the Enclosure of Factory Stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

[Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty-five persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest point of the stairway in accordance with the following schedule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed		Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an interior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos
Baking powder
Breweries
Buttons (pearl or bone)
Canneries (including food products)
Chalk and crayon
Condensed and powdered milk
Electric light plants and power houses
Electrolytic reducing works

Glass
Glue, mucilage, paste, size
Ivory
Leather (excluding japanning or enameling)
Metals (excluding japanning or enameling)
Soap, candles
Porcelain and pottery
Talc and soapstone
Tanneries (excluding japanning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)	Linoleum works
Bakeries	Metals (with enameling or japanning)
Bamboo and rattan	Packing houses
Baskets	Paper mills
Belting (including canvas)	Printing, lithographing, book binding
Boots and shoes	Silk
Buttons (including cloth covered)	Sugar refineries (including beet and glucose works)
Cardboard (including boxes)	Tanneries (with japanning or enameling)
Clothing, woolen (wearing apparel)	Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Cordage	Tobacco, cigars, cigarettes and snuff
Furs	Woodworking (excluding dipping or varnishing)
Gloves (other than leather)	
Horn and combs (not celluloid)	
Leather (with enameling or japanning)	

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity and from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers	Feed, flour and grist mill
Artificial leather	Fireworks
Celluloid	Imitation leather
Cereal mills	Matches
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)	Rag sorting (including cotton)
Cotton batting	Shoddy mills
Cotton clothing (women's)	Starch and sugar mills (including pulverizing)
Cotton waste	Straw goods
Dry cleaning	Varnish
Explosives	Woodworking (with dipping or varnishing)
Feather renovating	

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental and well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as hereinafter provided, in all factory buildings more than two stories

PUBLIC HEARING

and less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving as required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
Three	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
Four	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
Five	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room in every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Labor Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire drills substantially conforming to rules of the board are held, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

1. Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. Enclosure of Stairways.—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case, and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION. 10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The *Clerk's Calendar* consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on *Tuesday, May 20, 1924*, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, May 27, 1924, at 2 o'clock.

The *Clerk's Calendar* is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—445-459 Gerard avenue, The Bronx.

APPEARANCES—

For Appellant: H. D. Flax.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative	0
Negative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby and Acting Fire Chief Martin	6
Absent: Mr. Connell	1

THE RESOLUTION:

(1302-23-A)

WHEREAS, Harry Gehn Auto. Co., Inc., lessee, filed, November 13, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 445-459 Gerard avenue, The Bronx; and

WHEREAS, the order of the fire commissioner, No. 18485-1, dated June 2, 1923, reads:

"2. Install approved oil separator as per approved plan No. 72-1922.";

and

WHEREAS, the building is non-fireproof, one story in height, 100 ft. by 100 ft. in area; OCCUPIED as a garage and auto repair shop; and

WHEREAS, it appears that the length of sewer from garage to outlet is approximately 1,200 ft.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

1376-23-A.

APPELLANT—M. Waslikoff, lessee.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—121 Fulton street, Manhattan.

APPEARANCES—

For Appellant: Robert Haderman.

For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby and Acting Fire Chief Martin	6
Negative	0

THE RESOLUTION:

(1376-23-A)

WHEREAS, M. Waslikoff, lessee, filed, November 26, 1923, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 121 Fulton street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 16568-LC, dated February 10, 1923, reads:

"1. Have each person operating the blow-pipe or other similar device or apparatus for heating, melting or welding, apply for and secure a Certificate of Fitness.";

and

WHEREAS, the building is non-fireproof, five stories in height, 25 ft. by 119 ft. in area; OCCUPIED for billiard parlor, printing and manufacturing jewelers, 56 persons above 2nd story; and

WHEREAS, appellant contends that only one person, who has obtained a certificate of fitness, operates the large torch and regulates the oxygen tanks.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is granted on condition that the person operating the oxygen tank and blow torch shall obtain a certificate of fitness.

37-24-A.

APPELLANT—Mosson Bros., lessees.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—558-564 Flushing avenue, Brooklyn.

APPEARANCES—

For Appellant: Isidor Mosson.

For Administration: Inspector Maher of fire department.

MINUTES

THE RESOLUTION:

(37-24-A)

WHEREAS, Mosson Bros., lessees, filed, January 10, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 558-64 Flushing avenue, Borough of Brooklyn; and

WHEREAS, the order of the fire commissioner, No. 52101-F, dated December 21, 1923, reads:

"1. Provide fire wall 18 ft. in height around lumber yard where lumber is stored within 30 ft. of frame buildings, or within 30 ft. of unprotected openings in exterior walls of bricks buildings."

and

WHEREAS, the premises consist of a plot of ground facing on Flushing avenue, with a frontage of 100 ft., and on Hopkins avenue, with a frontage of 100 ft., on which is located the lumber yard of Mosson Lumber Co., consisting of a one-story brick-filled stable, a one-story frame office, a lumber shed and two lumber piles; there are two fore and aft driveways and a cross driveway; and

WHEREAS, appellant contends there are three city fire hydrants in the immediate vicinity; proposes to keep a watchman on the premises and to provide a sufficient number of water casks and buckets.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that driveways not less than 16 ft. wide, running through property from Hopkins avenue to Flushing avenue, shall be provided, with not less than one cross connecting runway, 16 ft. wide; that a watchman service shall be maintained on the premises at all times; that not less than six approved water casks, painted red and marked "FIRE", shall be provided and distributed throughout the yard, each cask to be equipped with six buckets; and that no lumber shall be piled above or on the roofs of the existing sheds; and that no lumber pile in yard shall exceed in height that of existing sheds, namely, 14 ft.

THE RESOLUTION:

(73-24-A)

WHEREAS, Montauk Lumber Company, owner, filed, January 17, 1924, an appeal, with the board of appeals, from orders of the fire commissioner, affecting premises 118-122 Montauk avenue, Borough of Brooklyn; and

WHEREAS, the orders of the fire commissioner, dated December 20, 1923, read:

"Order No. 52006-F:

"1. Provide a cross aisle or passageway at least 8 feet in width from north to south sides near rear line of property. Sec. 776, Greater New York Charter."

"Order No. 52007-F:

"1. Provide a brick wall at least 18 ft. high on south property line adjoining No. 124 Montauk Ave. & 115 Atkins Ave. Sec. 776, Greater New York Charter."

"Order No. 52008-F:

"1. Provide 3 approved water tanks of at least gallons capacity with six water buckets to each tank. Tanks to be marked Fire, kept full of clean water mixed with a non-freezing solution, and not to be used for any other purpose. Sec. 20, Ch. 12, Code of Ordinances."

and

WHEREAS, the premises consist of a plot of ground having a frontage of 180 ft. on Montauk avenue, 200 ft. on Liberty avenue and 150 ft. on Atkins avenue, on which is located the lumber yard of the Montauk Lumber Company, consisting of a two-story brick office and dwelling, a metal covered shed and low piles of lumber throughout the remainder of the yard; and

WHEREAS, appellant contends that there are four city fire hydrants around the property and proposes to provide required 6 ft. cross aisle at rear of property and the three required 40-gallon tanks and buckets, and proposes to remove the lumber piled near No. 115 Atkins avenue, replacing the same with a driveway, and further proposes removing existing lumber piled near blank brick wall of No. 124 Montauk avenue, replacing same with low, tight piles.

Resolved, that the order of the fire commissioner, 52006-F, be and it hereby is *modified*, and the appeal as to this order be and it hereby is *granted on condition* that a fore and aft driveway not less than 15 ft. in width shall be maintained from Montauk avenue front to rear of plot under appeal, namely, 100 ft. deep; that the order of the fire commissioner, No. 52007-F, be and it hereby is *modified*, the appeal as to this item be and it hereby is *granted on condition* that the lumber pile abutting rear of property at No. 115 Atkins avenue shall be removed, and the lumber pile abutting property, No. 124 Montauk avenue shall be kept off line adjoining premises at least 6 ft. and shall not exceed a height of 10 ft.; that the order of the fire commissioner, No. 52008-F, be and it hereby is *affirmed*, and the appeal as to this item be and it hereby is *denied*.

158-24-A.

APPELLANT—Walter E. Greene, for Claremont Laboratories, Inc., lessee.

Martin

Absent

THE RESOLUTION:

(158-24-A)

WHEREAS, Walter E. Greene, for Claremont Film Laboratories, Inc., lessee, filed, January 31, 1924, an appeal with the board of appeals, from an order of the fire commissioner, affecting premises 422 Claremont parkway, Borough of the Bronx; and

WHEREAS, the order of the fire commissioner, No. 21 LC, dated November 17, 1923, reads:

"1. Sprinkler system must be provided with pressure tank supply and a gravity tank supply must be made to conform in all respects to requirements of the Sprinkler Rules of the Board of Standards and Appeals, Section 241-e, Chapter 10, Code of Ordinances."

and

MINUTES

WHEREAS, the building is non-fireproof, two stories and basement in height, 75 ft. by 100 ft. in area; OCCUPIED by the development and storage of motion picture films, persons in building; and

WHEREAS, appellant contends there is a sprinkler system installed in the building having 123 sprinkler heads in the basement, 104 on the 1st story and 73 on the 2nd story and in each vault are 12 sprinkler heads. The sprinkler system is supplied from 12 in. street main having pressure of 80 pounds per square inch.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the water pressure on the sprinkler supply from street main shall not be less than 80 pounds, and that the building shall not be increased in size, area or dimensions.

178-24-A.
APPELLANT—Ahrens Realty Corp., owner.
SUBJECT—Appeal from orders of fire commissioner.
PREMISES AFFECTED—70-74 Lafayette street, Manhattan.

APPEARANCES—
For Appellant: Martin L. Ahrens.
For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal granted on condition in part, and denied in part.

CONDITIONS—As specified in resolution.

THE VOTE—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell and Holland 5
Negative: Acting Fire Chief Martin 1
Absent: Mr. Kerby 1

THE RESOLUTION:

(161-24-A)

WHEREAS, Ahrens Realty Corp., owner, filed, January 31, 1924, an appeal, with the board of appeals, from orders of fire commissioner, affecting premises 70-74 Lafayette street, Manhattan; and

WHEREAS, the orders of the fire commissioner, dated November 12, 1923, read:

"No. 50786-F:
"Install a standpipe system with risers 4 inches in diameter tested to withstand a pressure of 300 lbs. per square inch, extending from cellar to roof * * *."

"No. 50787-F:
"Provide iron or kalameined shutters at all openings in the exterior wall above 1st story which are distant in a direct line less than 30 ft. from any opening in any other building and not in the same plane with said openings, and which are not more than 50 ft. above a neighboring roof at west side of building, or other approved protection, as per Sec. 375, Art. 18, Chap. 5 of the Code of Ordinances."

WHEREAS, the building is non-fireproof, seven stories (85 ft. 9 in.) in height, 28 ft. by 80 ft. in area; OCCUPIED by manufacturing jewelers, 4 persons per story; and

WHEREAS, there is one window on a court in each story above the 1st story within 30 ft. of openings in an adjoining building to the west; and

WHEREAS, appellant contends, relative to Order No. 50787, that the building to the west, constituting the exposures, is a sprinklered fireproof building and that a similar order was rescinded by the board of review of the fire department on March 9, 1920; relative to Order No. 50786-F, appellant contends the building is only 9 inches higher than the legally allowable 85 ft.

Resolved, that the order of the fire commissioner, No. 50786, be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the building shall be equipped with the required number of water buckets throughout; that the order of the fire commissioner, No. 50787, be

and it hereby is *affirmed*, and the appeal be and it hereby is *denied*.

178-24-A.
APPELLANT—Samuel Rosenblum, for H. Goldstein, lessee.

SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—532 East 137th street, The Bronx.

APPEARANCES—
For Appellant: Samuel Rosenblum.
For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland and Kerby 6
Negative: Acting Fire Chief Martin 1
Absent 0

THE RESOLUTION:

(178-24-A)

WHEREAS, Samuel Rosenblum, for H. Goldstein, lessee, filed, February 4, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 532 East 137th street, The Bronx; and

WHEREAS, the order of the fire commissioner, No. 21792-LC, dated December 21, 1923, reads:

"Section 232-2, Chapter 10, Code of Ordinances, prohibits the storage of nitro-cellulose products in any building which is not equipped with an approved two-source system of automatic sprinklers.

"You are, therefore, ordered to:

"1. Remove all nitro-cellulose products from premises."

and

WHEREAS, the building is non-fireproof, one story in height, 112 ft. by 110 ft. in area; OCCUPIED by stores and manufacturing; and

WHEREAS, appellant contends there is no raw celluloid on the premises, only finished celluloid novelties, which are engraved and ornamented by hand, on the premises.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted on condition* that the celluloid occupancy shall be confined to store located at southeasterly portion of building and restricted in area to the room 9 ft. by 18 ft., and that a lower skylight be provided in roof of same; that the quantity of celluloid in work on premises shall not exceed more than 15 pounds; that a self-closing metal can for trade waste and clippings shall be maintained for each operator; that any electric motor shall be enclosed in a Type "A" enclosure; that there shall be no open flame permitted in the store or in these premises where the celluloid work is performed; and that one bucket of water shall be provided for each operator; and *granted* so long as conditions otherwise as to occupancy and use remain unchanged.

206-24-A.
APPELLANT—The Charles Schweinler Press, lessee.
SUBJECT—Appeal from order of fire commissioner.
PREMISES AFFECTED—405-421 Hudson street, Manhattan.

APPEARANCES—
For Appellant: None.
For Administration: Inspector Lynch of fire department.

ACTION OF BOARD—Appeal dismissed, order having been rescinded by fire department.

THE VOTE TO DISMISS—
Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby and Acting Fire Chief Martin 7
Negative 0
Absent 0

MINUTES

THE RESOLUTION:

(206-24-A)

WHEREAS, The Charles Schweinler Press, lessee, filed, March 31, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 405-421 Hudson street, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 22661-LC, dated February 6, 1924, reads:

"1. Provide 1 approved metal receptacle or container on 8th story for all scraps, cuttings, shavings * * *.

"2. Discontinue the use of gas stove, torch and all other flame or fire in room or compartment where nitro-cellulose products are stored or used for the manufacture of articles therefrom * * *.

"4. Provide approved safety can for the storage of not more than 10 gallons of volatile inflammable oil on 8th story.

"6. Protect all steam pipes or risers that are within 6 ft. 0 in. of floor with wire guards or non-combustible pipe covering.

"7. Provide suitable guards around radiators and steam pipes to prevent combustible material from coming in contact therewith.

"NOTE: Top shall be sloping so as to prevent same from being used as shelves.

"8. Bottom of guard shall be arranged so as to lift up for cleaning. Section 235-9, Chapter 10, Code of Ordinances.

"9. Arrange work benches so as to prevent stock from falling from same to floor. Section 235-10-3, Chapter 10, Code of Ordinances.

"10. Provide a sufficient number of tote boxes of approved construction."

and

WHEREAS, the building is fireproof, eight stories in height, 220 ft. by 100 ft. in area; OCCUPIED as a printing house, with celluloid use on the 8th story, 550 persons in building; and

WHEREAS, appellant contends that there are only 2 pounds of celluloid on the premises, used in connection with photographic work, stored in a metal cabinet on the 8th story; and that there are only 5 gallons of volatile inflammable oil on the premises, and that it is stored in a safety can; and

WHEREAS, it appears from report of inspector of bureau of fire prevention that this order was rescinded under date of May 9, 1924.

Resolved, that the appeal be and it hereby is *dismissed*.

Negative: Acting Fire Chief Martin 1

Absent 0

THE RESOLUTION:

(212-24-A)

WHEREAS, Croker Nat. Fire Prevention Eng. Co., for Metro Picture Corp., lessee, filed, February 11, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 729-737 Seventh avenue, Borough of Manhattan; and

WHEREAS, the order of the fire commissioner, No. 22922-C, dated February 5, 1924, reads:

"1. Surrender to the Chief of the Bureau of Fire Prevention, Room 1100 Municipal Building, Manhattan,

your Fire Department permit No. 90409 expiring September 29th, 1924, authorizing the storage of 6000 reels of film on the 15th story of 729 7th Avenue which is hereby revoked for the following reason:—

"(1) The use of the electric film inspection machines on your premises on the 15th story of 729 7th Avenue, New York City, is in violation of Section 244-2, Chapter 10, Code of Ordinances.

"You are hereby ordered to:—

"Remove all inflammable motion picture film from your premises.";

and

WHEREAS, the building is fireproof, 16 stories in height, 100 ft. by 100 ft. in area; OCCUPIED as an office building; appellant occupying the 15th story for the inspection and storage of motion picture films; and

WHEREAS, appellant contends that the machine, which is used in connection with the inspection of the films, is especially designed to prevent fire, and that there is absolutely no danger of igniting the films while they are passing through it and being examined for defects.

Resolved, that the order of the fire commissioner be and it hereby is *modified*, and the appeal be and it hereby is *granted* for a temporary permit pending the action of the board of standards and appeals on petition filed with the board, *on condition* that the operation of this machine shall be restricted to a fireproof enclosure, located on the 15th story at the 49th street front of the premises; the fireproof enclosure to be 16 ft. 6 in. by 19 ft. in area, any door opening therein to be protected with self-closing, fireproof door; and the said room to be equipped with not less than three sprinkler heads and directly ventilated to outer air.

THE RESOLUTION:

(308-24-A)

WHEREAS, Wm. C. Sommerfeld, for S. & H. Realities, Inc., owner, filed, February 27, 1924, an appeal, with the board of appeals, from an order of the fire commissioner affecting premises 527-31 West 34th street, Borough of Manhattan; and

MINUTES

WHEREAS, the order of the fire commissioner, No. 22910-C, dated February 7, 1924, reads:

"With reference to your application dated January 24, 1924, for a permit to maintain a non-storage garage at above location, I regret to inform you that I am without power to grant such a permit for the reason that building is more than 50 ft. in height, and is not fireproof as is required by Section 72-L-G of the Building Code.

"You are therefore hereby ordered to:

"1. Discontinue the maintenance of a garage on these premises.";

WHEREAS, the building is non-fireproof, equipped with a sprinkler system, seven stories (68 ft. 6 in.) in height on the 34th street front and six stories (69 ft. 6 in.) in height on the 35th street front; 75 ft. by 197 ft. 6 in. in area.

OCCUPIED: 1st floor, 34th street, offices and show rooms, 10 persons; 1st floor, 35th street, shipping department (storage 3 auto trucks), 10 persons; upper floor, 34th street, show rooms; upper floor, 35th street, storage; top floor, 34th street, cabinet makers and finishers, 5 persons; top floor, 35th street, cabinet makers and finishers, 7 persons;

WHEREAS, appellant contends alteration plans for this building, providing for storage of three auto trucks, were approved by the bureau of buildings on August 29, 1923; and the trucks are stored only at night and there is a watchman on the premises.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

THE RESOLUTION:

(309-24-A)

WHEREAS, F. P. Keniston, for F. W. Woolworth Co., Inc., filed, February 27, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 22-26 East 14th street and 19-23 East 13th street, Manhattan; and

WHEREAS, the order of the fire commissioner, No. 53735-C, dated January 25, 1924, reads:

"1. Raise standpipe tank to 20 feet above the roof level and properly support same, as per Section 20, Chapter 12, Code of Ordinances.";

WHEREAS, the building is non-fireproof, five stories in height, 75 ft. by 206 ft. (15,000 sq. ft.) in area. OCCUPIED: 1st story, store, 50 persons; 2nd story, cutting machines, 50 persons; 3rd story, display, stock and cutting, 50 persons; 4th story, manufacture clothing, 60 persons; 5th story, manufacture clothing, 90 persons; and

WHEREAS, appellant contends the building is sprinklered and that the bottom of the tank is 17 ft. above the highest outlet of the standpipe system.

Resolved, that the order of the fire commissioner be and it hereby is modified, and the appeal be and it hereby is

granted so far as it affects the highest outlet on 14th street side of premises, on condition that the tank shall not be less than 17 ft. above highest outlet; and that the standpipe equipment shall comply with the rules in all other respects.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Appeal denied.

THE VOTE TO GRANT—

Affirmative 0

Negative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby and Acting Fire Chief Martin 6

Absent: Mr. Connell 1

THE RESOLUTION:

(554-24-A)

WHEREAS, George M. Wood, for Anne E. Carroll, owner, filed, April 21, 1924, an appeal, with the board of appeals, from an order of the fire commissioner, affecting premises 161-5 Perry street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated February 21, 1924, reads:

"1. Provide a separate and distinct system of AUTOMATIC SPRINKLERS THROUGHOUT building, having TWO SOURCES OF WATER SUPPLY, arranged and equipped as provided in the rules for fire extinguishing appliances adopted by the Board of Standards and Appeals May 24, 1917, as amended May 2, 1918, and January 21, 1919, effective February 17, 1919.";

and

WHEREAS, the building is fireproof, six stories in height, 66 ft. by 100 ft. in area. OCCUPIED: 1st story, millinery boxes, 17 persons; 2nd story, boxes and reels, 6 persons; 3rd story, boxes and reels, 21 persons; 4th story, printers, 18 persons; 5th story, printers, 11 persons; 6th story, printers and button manufacturer, 16 persons; and

WHEREAS, appellant contends that the building is equipped with an interior fire alarm signal system; that a fire drill is maintained, and appellant is only lessee, and it would be a hardship to provide the sprinkler system.

Resolved, that the order of the fire commissioner be and it hereby is affirmed, and the appeal be and it hereby is denied.

maintenance of a garage for the storage of more than five motor vehicles; premises 2839-2847 West 37th street, Brooklyn; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, May 13, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that West 36th street, West 37th street and Neptune avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered May 29, 1923, in acting on Application No. 9647-23, reads:

"Denied—Proposition contrary to the Zone Resolution, Art. II, Sec. 4. A public garage in a business district.";

WHEREAS, the proposed building is to be of non-fireproof construction, one story in height, with a frontage of 80 ft. and a depth of 118 ft. 9¾ in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, applicant failed to establish the basis of his application under section 20.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

927-23-BZ.

APPLICANT—John J. Dunnigan, for Joseph Lacana, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in an unrestricted district running into a business district the erection and maintenance of a garage for the storage of more than five (5) motor vehicles.

PREMISES AFFECTED—44 Convent avenue, Manhattan.

APPEARANCES—

THE RESOLUTION:

(1297-23-BZ)

WHEREAS, John J. Dunnigan, for Joseph Lagana, owner, filed, November 13, 1923, an application, under the building zone resolution, to permit the extension, from an unrestricted district into a business district, of a proposed garage for the storage of more than five motor vehicles; premises 44 Convent avenue, Borough of Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, May 13, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Convent avenue and West 30th street are business districts and West 129th street an unrestricted district; and

WHEREAS, the decision of the superintendent of buildings, rendered October 24, 1923, in acting on N. B. Application No. 506-23, reads:

"1. Inasmuch as the premises are located in a business district the erection of the building for garage

occupancy is contrary to the Building Zone Resolution, Art. 2, Section 4.";

and

WHEREAS, the proposed building is to be of non-fireproof construction, one story and basement in height, with a frontage of 54 ft. 3 in. and a depth of 132 ft. 8 in.; to be occupied as a garage for more than five motor vehicles; and

WHEREAS, a committee of the board visited the premises and reported:

TO THE BOARD OF APPEALS:

A Committee of Inspection of the Board, composed of Chairman Walsh, Fire Chief Kenlon, Messrs. Holland, Boulton, Kerby and Connell, visited the premises under appeal, on March 27th, 1924.

The premises under appeal is a plot of ground fronting 54 feet 3 inches on the westerly side of Convent Avenue, a business street, starting at a point 54 feet northerly from West 129th Street, irregular in shape, that is 125 feet in depth on one side and 139 feet on the other side, and therefore extending, from the business influence of Convent Avenue, an average of 27 feet, 6 inches into the unrestricted district.

This application is brought under section 7-e, on the ground of an existing garage on the same block between intersecting streets. Immediately abutting this property on the westerly side of Convent Avenue, northerly to 130th Street, there are two apartment houses; the abutting property to the south and to the rear is an existing public garage, entrance to which is on 129th Street at the extreme westerly end of the structure.

In accordance with the opinion of Judge Benedict, that "a building is not deemed in any particular portion of a block, within the meaning of subdivision e, unless there be a public entrance thereto within such portion or block," the applicant has failed to establish his basis of appeal, as the existing garage, which he offers as a basis of appeal in this case, is but two stories in height on Convent Avenue, the first story being occupied as stores, separated from the garage portion by unpierced walls, and the second story being occupied as a garage. Therefore, the Committee recommends denial of this application.

(Signed) WILLIAM E. WALSH,
ALFRED J. BOULTON,
JAMES P. HOLLAND,
JOHN KENLON,
JOHN C. KERBY,
HENRY L. CONNELL.

Resolved, that the decision of the superintendent of buildings be and it hereby is *affirmed*, and the application be and it hereby is *denied*.

921-23-BZ.

APPLICANT—John J. Dunnigan, for Louis Weymuth, owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a residence district the maintenance of a garage for the storage of three (3) pleasure motor vehicles, three spaces rented to persons not residing on the premises.

PREMISES AFFECTED—1729-1731 Barnes avenue, The Bronx.

THE RESOLUTION:

(921-23-BZ)

WHEREAS, John J. Dunnigan, for Louis Weymuth, owner, filed, July 19, 1923, an application, under the building zone resolution, to permit in a residence district the maintenance of a garage for the storage of three (3) pleasure motor vehicles, three (3) spaces rented to persons not residing on the premises; premises 1729-1731 Barnes avenue, Borough of Bronx; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, May 13, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Barnes avenue is a residence district and Morris Park South and Van Nest avenue are business districts; and

WHEREAS, the decision of the superintendent of buildings, rendered June 29, 1923, reads:

"A certificate of occupancy for the public garage (3 cars) at above mentioned location is hereby denied as the location is within a residence zone where such occupancy is prohibited."

and

WHEREAS, the existing building is of metal construction, one story in height, with a frontage of 24 ft. and a depth of 16 ft.; occupied as a garage for three motor vehicles, space rented to persons not residing on premises; and

WHEREAS, the applicant has filed the duly acknowledged consents of the owners of 84 per cent of the property frontage deemed by the board to be affected.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the capacity of the garage be limited to the storage of three automobiles of the pleasure car type, space for two of which may be rented to persons not residing on the premises; *on further condition* that there be no gasoline storage equipment installed or maintained on the premises.

1349-23-BZ.

APPLICANT—William F. Doyle, for Greater New York Garage Company, Inc., owner.

SUBJECT—Application (re: decision of fire commissioner) to permit in a business district, extending into a residence district, the connection and maintenance of two existing garages for more than five (5) motor vehicles, the temporary permit for each garage expiring on December 9, 1923.

PREMISES AFFECTED—4342 Broadway, 643-47 West 185th street, Manhattan.

APPEARANCES—

For Applicant: William F. Doyle.

Chief Martin 6

Negative: Mr. Beatty 1

Absent 0

THE RESOLUTION:

(1349-23-BZ)

WHEREAS, William F. Doyle, for Greater New York Garage Co., Inc., owner, filed, November 22, 1923, an application, under the building zone resolution, to permit in a business and residence district the alteration into one building of two existing garages operating under temporary permits expiring December 9, 1923, and the maintenance of the entire structure as a garage for more than five motor vehicles; premises 4342 Broadway and 643-47 West 185th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, May 13, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the use district maps accompanying the building zone resolution show that Broadway is a business district and West 185th street is a residence district; and

WHEREAS, the decisions of the fire commissioner, dated November 1, 1923, in acting on Orders No. 20595-C and No. 20590-C, read:

"No. 20595-C—1. Discontinue the maintenance of a garage which is not maintained as an accessory use on these premises."

"No. 20590-C—1. Discontinue the maintenance of a garage which does not conform to the use district (as designated by the Building Zone Resolution) in which the garage is located; as your Fire Department Permit No. 77238, dated to expire December 9th, 1923, is revoked."

and

WHEREAS, the existing buildings are of non-fireproof construction, one and two stories in height, with a frontage of 64 ft. 5 $\frac{7}{8}$ in. on Broadway and a depth of 95 ft. and a frontage of 67.3 ft. on West 185th street and a depth of 61.5 ft., occupied as garages; it is proposed to connect the buildings into one garage for more than five motor vehicles; and

WHEREAS, owing to conditions as to adjacent property, the board deemed that there would be undue hardship in compelling applicant to discontinue the use of these buildings.

Resolved, that the board of appeals does hereby make a variation in the application of the use district regulations of the building zone resolution, and that the application be and it hereby is *granted on condition* that the interior of the garage, floors and ceilings, where not fireproof shall be fire retarded in accordance with the rules of the board of standards and appeals; that an ornamental molded cornice of architectural terra cotta shall be installed on the street fronts of the building, coping of not less than 12-inch girth and 12-inch projection; that the street fronts shall be painted with not less than three coats of linseed oil and white lead, finished with light color; that there shall be no sign of any kind, nature or description on the West 185th street front of the building, and no sign, advertisement, or display shall be permitted on the Broadway front other than one projecting electric sign indicating the name and title of the garage; that the finished sidewalks of cement concrete, from curb to building, shall be laid and maintained on both street fronts; that no portable device, gas tanks or repair kits shall be maintained on the public highways outside of these premises; that the existing exits and entrances shall not be increased;

Resolved, further, that all permits necessary for the prosecution of the work shall be obtained within sixty days, and the work involved and included under this application shall be completed within twelve (12) months from the date of this action.

267-24-BZ.

APPLICANT—Simeon B. Eisendrath, for Forty-four West Thirty-ninth St., Inc., owner.

SUBJECT—Application (re: decision of superintendent of buildings) to permit in a "B" area business district the erection of a building without increasing the depth of yard by setbacks as required under section 12 of the zone resolution.

PREMISES AFFECTED—54 West 39th street, Manhattan.

THE RESOLUTION:

(267-24-BZ)

WHEREAS, Simeon B. Eisendrath, for 54 West 39th Street, Inc., owner, filed, February 19, 1924, an application, under the building zone resolution, to permit in a "B" area business district the erection of a building without increasing the depth of yard by setbacks as required under section 12 of the building zone resolution; premises 54 West 39th street, Manhattan; and

WHEREAS, a public hearing was held on this application by the board of appeals, at its regular meeting, May 13, 1924, after due notice by publication in the Bulletin of the Board of Standards and Appeals; and

WHEREAS, the district maps accompanying the building zone resolution show that West 39th street is a "B" area and business use district; and

WHEREAS, the decision of the superintendent of buildings, rendered February 18, 1924, in acting on N. B. App. No. 68-24, reads:

"1. Rear yard is of unlawful width.";

and

WHEREAS, the proposed building is to be of fireproof construction, 14 stories in height, with a frontage of 35 ft. and a depth of 98 ft. 9 in. in 1st story, 88 ft. 9 in. above; it is proposed to erect a fire tower, occupying a portion of this rear yard; and

WHEREAS, the board deemed that owing to irregular shape of lot there would be hardship in preventing applicant from erecting the building as proposed.

Resolved, that the board of appeals does hereby make a variation in the application of the area district regulations of the building zone resolution, and that the application be and it hereby is granted, so far as it affects the rear fire tower stairs, on condition that the fire tower stairs shall not extend within ten feet of the rear lot line at the easterly end of the plot, and shall not exceed a width of ten feet; and that the building shall comply with the building zone resolution in all other respects; and that all permits necessary for the prosecution of the work shall be obtained within nine (9) months and the building completed within eighteen (18) months from the date of this action.

WHEREAS, Philip J. Sinnott, for Pincus Glickman, owner,
filed, December 7, 1923, an application, under the building
zone resolution, to permit in a residence district the erection
and maintenance of a garage for the storage of more than
five (5) motor vehicles; and

WHEREAS, applicant failed to complete his papers, though
duly notified to do so.

Resolved, that the application be and it hereby is dis-
missed for lack of prosecution.

AREAS FIXED.

(567-24-BZ)

The chairman presented and read a communication from
Crocker National Fire Prevention Engineering Co., request-
ing the board to fix the area deemed affected and within
which to obtain consents for the erection and maintenance
of a garage; premises 1157-1167 East 35th street, Brook-
lyn.

The following area was approved by the board:

Both sides of East 35th street and East 36th street
from Avenue K to Avenue J; also both sides of Flat-
bush avenue from Avenue J to a point 200 ft. south
of East 36th street.

(480-24-BZ)

The chairman presented and read a communication from
Silberman & Steinfeld, requesting the board to fix the area
deemed affected and within which to obtain consents for

the erection and maintenance of a garage; premises 1927-
1941 Broadway, Brooklyn.

The following area was approved by the board:

Both sides of Eastern parkway from Somers street
to a point 400 ft. east of proposed garage; both sides
of Stewart street from Broadway to a point 400 ft.
east of proposed garage; both sides of Broadway from
De Sales street to a point 400 ft. south of proposed
garage; both sides of Somers street from Broadway to
a point 200 ft. west of Broadway.

(545-24-BZ)

The chairman presented and read a communication from
Bertha Freitag, requesting the board to fix the area deemed
affected and within which to obtain consents for the main-
tenance of a garage; premises 380 Etna street, Brooklyn.

The following area was approved by the board:

Both sides of Etna street from Autumn avenue to a
point 400 ft. east of proposed garage. Both sides of
Lincoln avenue from a point 100 ft. north of Union
place; also the west side of Nichols avenue from Etna
street to 90 ft. south of Etna street.

(570-24-BZ)

The chairman presented and read a communication from
Arthur B. Rampe, requesting the board to fix the area
deemed affected and within which to obtain consents for the
erection and maintenance of a garage; premises south side of
233rd street, 30 ft. east of Carpenter avenue, The Bronx.

The following area was approved by the board:

Both sides of East 233rd street from Bronx boulevard
to a point 400 ft. east of proposed garage. The east
side of Carpenter avenue from East 233rd street to
East 232nd street; also the north side of East 232nd
street from Carpenter avenue to a point 155 ft. east
of Carpenter avenue.

Adjourned 2.20 p. m.

WILLIAM J. O'GORMAN, Secretary.

MINUTES

BOARD OF STANDARDS AND APPEALS

REGULAR MEETING.

TUESDAY AFTERNOON, MAY 13, 1924.

Present: Chairman Walsh, Messrs. Beatty, Boulton, Hol-
and, Connell, Kerby, Deputy Fire Chief Martin, Superin-
tendents Brady, Reville, Moore and McDermott.

The minutes of the regular meeting of the board of stand-
ards and appeals held on Tuesday afternoon, April 29, 1924,
were approved as printed in the Bulletin, No. 19, Vol. IX.

PETITIONS FOR VARIATIONS.

44-23-S.

PETITIONER—Louis H. Friedland, for Estate of Charles
Perceval, owner.

SUBJECT—Variation of labor law as cited in decision of
superintendent of buildings.

PREMISES AFFECTED—12 Waverly place, Manhattan.

APPEARANCES—

For Petitioner: Louis H. Friedland, A. M. Tieter.

For Administration: Inspector Maher of fire de-
partment.

ACTION OF BOARD—Laid over to May 27, 1924, at 2
p. m., for report from Inspector Maher.

20-24-S.

PETITIONER—Luke Flanagan, for Earis Building Com-
pany, Inc., owner.

SUBJECT—Variation of labor law as cited in decision of
superintendent of buildings.

PREMISES AFFECTED—23 Washington street, Manhat-
tan.

APPEARANCES—

For Petitioner: Luke Flanagan.

ACTION OF BOARD—Laid over to June 3, 1924, at 2
p. m.; to include the last objections of the building
department.

196-24-S.

PETITIONER—Wm. A. White & Sons, for F. K. and Ellen
Hays, owner.

SUBJECT—Variation of labor law as cited in orders of
fire commissioner.

PREMISES AFFECTED—21-23 Maiden lane, Manhattan.

APPEARANCES—

For Petitioner: George L. Wills.

For Administration: Inspector Maher of fire de-
partment.

ACTION OF BOARD—Laid over to May 27, 1924, at 2
p. m., on request of petitioner's representative.

102-24-S.

PETITIONER—Bonwit Teller & Company, lessee.

SUBJECT—Variation of labor law as cited in order of
fire commissioner.

PREMISES AFFECTED—415-421 Fifth avenue, Manhat-
tan.

APPEARANCES—

For Petitioner: Wilbert J. Wright.

MINUTES

For Administration: Inspector Maher of fire department.
ACTION OF BOARD—Laid over to May 27, 1924, at 2 p. m.; to submit complete plans.

356-24-S.
PETITIONER—William H. Kehoe, for Joseph Flanders, owner.

SUBJECT—Variation of labor law as cited in decision of health commissioner.

PREMISES AFFECTED—7 Laurel Hill boulevard, Queens.

APPEARANCES—

For Petitioner: William H. Kehoe.

For Administration: Inspector John S. McCauley of fire department.

ACTION OF BOARD—Laid over to May 27, 1924, at 2 p. m., for full vote of board.

THE VOTE TO GRANT—

Affirmative: Messrs. Beatty, Boulton, Kerby, Deputy Fire Chief Martin and Superintendent McDermott 5

Negative: Chairman Walsh, Messrs. Connell, Holland, Superintendents Brady and Reville 5

Absent: Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore 3

194-24-S.

PETITIONER—Charles B. Meyers, for Herman Bauman, owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—59-61 East 4th street, Manhattan.

APPEARANCES—

For Petitioner: George L. Wills.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Superintendents Brady, Reville, Moore and McDermott 10

Negative 0

Absent: Deputy Fire Chief Martin, Deputy Fire Commissioner Hannon and Superintendent Kleinert 3

THE RESOLUTION:

(194-24-S)

WHEREAS, Charles B. Meyers, for Herman Bauman, owner, filed, February 7, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law as cited in decision of the superintendent of buildings, affecting premises 59-61 East 4th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings reads:

"12—Panels of glass in show windows may not exceed 720 square inches. Labor Law—Section 264.";

and

WHEREAS, the building is a new addition to No. 61 and is fireproof, seven stories in height, 25 ft. by 96 ft. in area. OCCUPANCY of No. 59 and 61, 1st story, office, private garage and skylight manufacturer, 20 persons; the upper stories of the building used for manufacturing, 60 persons per story; EQUIPPED with a fire alarm and sprinkler system. EXITS: One interior stairway extending from street to roof, one fire escape on the rear of the building, extending from roof to street through fireproof passageway; and

WHEREAS, there are two windows on the 1st story front of the new extension, No. 59, glazed with plate glass 4 ft. 6 in. by 6 ft. in area and petitioner contends that to construct the windows as required by the labor law would detract from the architectural effect of the building and

would not conform with the existing show windows in No. 61 section of the premises.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects the show windows on the ground floor, on condition that the building complies with the labor law in all other respects.

210-24-S.

PETITIONER—Carbondale Sponge Co., Inc., owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—73 Warren street, Manhattan.

APPEARANCES—

For Petitioner: John C. McDermott.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady, Reville, Moore and McDermott 11

Negative 0

Absent: Deputy Fire Commissioner Hannon and Superintendent Kleinert 2

THE RESOLUTION:

(210-24-S)

WHEREAS, Carbondale Sponge Co., Inc., owner, filed, February 9, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 73 Warren street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated January 19, 1924, reads:

"1. Enclose the interior stairway at the east side of building serving as a required means of exit, and the landings, platforms and passageways connecting therewith on all sides with partitions of fire resisting material extending continuously from the cellar to three feet above the roof, constructed as per Section 271 of the Labor Law or carry out a proper alternative method of complying with the requirements of Section 271 of the Labor Law.

"3. Provide an additional means of exit from cellar and sub-cellar, remote from the present interior stairway, in accordance with the provisions of Section 271 of the Labor Law.";

and

WHEREAS, the building is non-fireproof, six stories in height, 25 ft. by 70 ft. in area. OCCUPIED: 1st story, hardware, 2 persons; 2nd story, printing, 6 persons; 3rd story, leather goods, 6 persons; 4th story, printing, 6 persons; 5th story, 6 persons; 6th story, radio parts, 6 persons; equipped with a sprinkler system in cellar. EXITS: An interior wooden stairway extending from street to roof, enclosed in fire resisting partitions, with fireproof doors at openings; ROOF to west is 5 ft. lower and to the east is 8 ft. lower; and

WHEREAS, petitioner proposes to erect a standard fire escape on the front of the building and practical difficulties prevent providing additional means of exit from cellar and sub-cellar.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and the petition be and it hereby is granted as to Item No. 1 on condition that a standard fire escape shall be provided on the front of the building in accordance with plans approved by the bureau of buildings and that the stairs are enclosed with fire resisting partitions not less than three (3) inches in thickness, fire stopped between the floors, and that any openings therein shall be protected with self-closing, fireproof doors; and granted as to Item No. 3

MINUTES

on condition that a vertical iron engineer's ladder shall be provided from the sub-cellar vault to sidewalk, with vault doors at sidewalk level; and *granted* so long as conditions as to occupancy and use remain substantially unchanged.

437-24-S.

PETITIONER—Thomas B. Leahy, for 37 West 57th Street Corp., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—37-39 West 57th street, Manhattan.

APPEARANCES—

For Petitioner: Thomas B. Leahy.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady, Reville, Moore and McDermott 11

Negative 0

Absent: Deputy Fire Commissioner Hannon and Superintendent Kleinert 2

THE RESOLUTION:

(437-24-S)

WHEREAS, Thomas B. Leahy, for 37 West 57th Street Corp., owner, filed, March 26, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 37-39 West 57th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered March 21, 1924, reads:

"1—Lights of glass in all windows on all floors exceed 360 square inches in area as required by the resolution of the Board of Standards and Appeals, Cal. 822-23-S.

"2—Two doors on each floor leading to the fire tower balcony are not 44 inches in the clear and lights of glass in same exceed 360 square inches in area.

"3—Four doors on all floors leading to the main stairway are not 44 inches in the clear and are provided with glass panels in violation of the Labor Law.

"4—All doors on all floors leading to the fire tower are not 44 inches in the clear.

"9—Two doors in the main entrance on the first floor swing in instead of out as required by Labor Law.

"13—Interior stairs of fire tower are not extended to the street through fireproof enclosed passageway, there being sash glazed with plain glass in these partitions."

and

WHEREAS, the building is fireproof, 12 stories in height, 58 ft. 4 in. by 100 ft. 5 in. in area in the 1st story and 58 ft. 4 in. by 90 ft. 5 in. in area above; OCCUPIED as store and showrooms, with 25 per cent of the floor area occupied for manufacturing; the means of EGRESS consisting of an interior stairway extending from the 1st story to the roof, and a fire tower adjoining the main stairs; and

WHEREAS, petitioner contends that there are two large panes of glass in the windows at the front of the building in each story above the 2nd story, glazed with $\frac{1}{4}$ in. plate glass; the windows being 11 ft. 5 in. by 8 ft. 4 in. (95 sq. ft.) in area; that the windows in the rear and side of the building are metal frame and sash glazed with wire glass, the area of the glass in these windows being 585 sq. in.; petitioner requests that the windows in the front of the building be accepted as these are part of the showroom space; the factory portion being confined to the rear of the building, and he contends that to change the windows would alter the entire architectural appearance of the building, and requests the acceptance of the windows on the side as the excess area of glass is small; petitioner further proposes to vestibule the stairway by providing 4

in. terra cotta partitions with self-closing fireproof doors at the openings, and requests acceptance of existing doors.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to Item No. 1 on condition that no light of any window within the factory portion of the floor shall exceed 385 square inches in area; as to Item No. 2 on condition that at least two doors be provided to the vestibule leading to the tower stairs, and that these doors shall be constructed in accordance with the labor law; as to Item 3, on condition that not less than two doors shall be provided to the main stair vestibule at least 3 feet in width; and *granted* as to Item No. 9 accepting the existing double wing fireproof door; *granted* as to Item No. 13 on condition that the street vestibule be maintained open and unencumbered of any door or other closing devices and that the glass on sides shall be polished plate or wire glass, egress from the fire tower to be through the open vestibule direct to street; and *granted* on further condition that fixed signs shall be provided on the walls with 2 feet wide border line indicating the factory floor area on each floor, as provided under resolution of July 24, 1923, and that the condition as set forth in the resolution of that date shall be complied with in all other respects, and that the petition be *denied* as to Item No. 4.

257-24-S.

PETITIONER—Bethlehem Engineering Corp., for Hanover Mortgage Company, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—60 University place, Manhattan.

APPEARANCES—

For Petitioner: J. B. Wallach.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady, Reville and McDermott 10

Negative 0

Absent: Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore 3

THE RESOLUTION:

(257-24-S)

WHEREAS, Bethlehem Engineering Corp., for Hanover Mortgage Company, owner, filed, February 19, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner affecting premises 60 University place, Manhattan; and

WHEREAS, the order of the fire commissioner, dated September 25, 1923, reads:

"1. Provide safe and unobstructed egress from the lower termination of the exterior stairway at the rear of building by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, * * *";

and

WHEREAS, the building is fireproof, eight stories in height, 27 ft. 6 in. by 101 ft. in area. OCCUPIED: 1st story, store, 5 persons; 2nd story, showroom, 15 persons; upper stories, manufacturing, 100 persons above the 2nd story; EQUIPPED with a fire alarm signal system: EXITS: An interior fireproof stairway extending from street to roof, enclosed in fireproof partitions with kalameined doors at openings; a fire escape with fireproof openings along the course thereof on the rear side of the building extending from top to first story, with gooseneck ladder to roof and drop ladder to yard; ROOF of adjoining building to west is five stories lower, and to the east is six stories lower; and

MINUTES

WHEREAS, petitioner contends that the egress from termination of fire escape is provided through No. 62 University place (under same ownership) and also by means of fire escape on No. 64 University place.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* so far as it affects the egress from the termination of the fire escape only, *on condition* that egress shall be *maintained* to the adjoining premises to the north in same ownership by means of a glass sash door and that the iron stairs to No. 64 shall be maintained available; *granted* only so long as conditions as to occupancy and use remain substantially unchanged.

273-24-S.

PETITIONER—David F. Price, for Aaron Friedman, owner.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—1075-1081 Willoughby avenue, Brooklyn.

APPEARANCES—

For Petitioner: David F. Price.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady, Reville and McDermott 10

Negative 0

Absent: Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore 3

THE RESOLUTION:

(273-24-S)

WHEREAS, David F. Price, for Aaron Friedman, owner, filed, February 21, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 1075-81 Willoughby avenue, Brooklyn; and

WHEREAS, the order of the fire commissioner, dated December 1, 1923, reads:

"1. Arrange iron bars on windows on 1st and 2nd stories so as to be readily movable or removable from both sides in such a manner as to afford the free and unobstructed use of such windows for purposes of egress, as per Section 272 of the Labor Law."

and

WHEREAS, the building is non-fireproof, two stories in height, 54 ft. 4 in. by 90 ft. in area; OCCUPIED for the manufacture and storage of white goods, 58 persons. EXITS: A fireproof stairway extending from 2nd story to yard, with EGRESS through side yard and stair hall to street; and

WHEREAS, petitioner contends that the bars were placed on the 1st story windows and on one window on the 2nd story to prevent burglaries.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* as to the 1st story *on condition* that not less than two exits shall be maintained at the front of the building and one at the rear; and *granted* so far as it affects the 2nd story *on condition* that not more than one window adjoining the exit to fire escape at rear be barred; and *granted* so long as the use and occupancy remain unchanged.

362-24-S.

PETITIONER—W. L. Rouse and L. A. Goldstone, for 33 West 60th Street Corp., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—27-37 West 60th street, Manhattan.

APPEARANCES—

For Petitioner: William Rouse, Thomas R. Sheridan.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady, Reville and McDermott 10

Negative 0

Absent: Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore 3

THE RESOLUTION:

(362-24-S)

WHEREAS, Rouse & Goldstone, for Thirty-Three West Sixtieth Street Corp., owner, filed, April 5, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 27-37 West 60th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered February 21, 1924, reads:

"1. Exits do not comply with Section 270, Labor Law. Lawful interior and exterior stairway with openings leading to same required. Capacity of exits should comply with Labor Law as to proposed occupancy.

"2. File plan of fireproof passageway from rear outside stairway. Enclosure of rear outside stairway does not comply with Labor Law—Section 268, Labor Law.

"5. Building must comply with Section 264, Labor Law."

and

WHEREAS, the building is fireproof, 11 stories in height, 109 ft. by 100 ft. 5 in. in area in the 1st story and 109 ft. by 87 ft. 3 in. in area above. OCCUPIED: 1st story, stores; 2nd story, show rooms; 2nd to 10th stories, inclusive, offices, 80 persons per story; 11th story, rear, factory, 70 persons; equipped with sprinkler and standpipe system. EXITS: An interior fireproof stairway, extending from the 1st story to the roof, enclosed in fireproof partitions, with fire doors at the openings; an exterior iron stairway on rear of the building, extending from the roof to the yard, with fire windows and doors along the course thereof, with egress along fireproof mezzanine to street; ROOFS of adjoining buildings 70 ft. and 118 ft. lower; and

WHEREAS, petitioner contends that the interior stairway complies with the labor law excepting that the treads are 9½ in. and the doors leading thereto are 3 ft. in width, and requests that the exterior stairway be accepted as the secondary means of egress, and further contends that the large lights of glass in the 1st and 2nd story windows at the front are plate glass.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* so far as it affects the factory tenancy, which shall be 50 per cent of the floor area and use of the 11th (top) story, and be located at the rear of the building, *on condition* that the building complies with the building code in all other respects and that the necessary permits shall be obtained within sixty (60) days of the date of this action.

1357-23-S.

PETITIONER—Oscar Goldschlag, for Israel Cummings, lessee.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—35 West 25th street, Manhattan.

MINUTES

APPEARANCES—

For Petitioner: Oscar Goldschlag.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady, Reville and McDermott

9

Negative: Mr. Connell

1

Absent: Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore

3

THE RESOLUTION:

(1357-23-S)

WHEREAS, Oscar Goldschlag, for Israel Cummings, lessee, filed, November 23, 1923, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 35 West 25th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated July 18, 1922, reads:

"Discontinue the use of the above premises for factory purposes in accordance with Certificate of Occupancy numbered 4725 issued by the Superintendent of Buildings on May 17th, 1922, until a certificate permitting such manufacturing has been obtained. * * *";

and

WHEREAS, this matter was referred to the superintendent of buildings for his consideration, and petitioner amended his petition to include the decision of the superintendent of buildings, reading:

"With reference to your application for a Certificate of Occupancy dated Feb. 13, 1924, you are advised that before same can be issued it will be necessary to repair defective fireproof window on course of fire escape at 5th floor; fireproof windows on course of fire escape on 2nd, 3rd, and 4th floors; make fireproof door in stair enclosure 5th floor self-closing; make casement window opening on fire escape 2nd floor self-closing; provide adequate light in interior stair shaft.";

and

WHEREAS, the building is non-fireproof, five stories in height, 22 ft. by 98 ft. 9 in. in area at the 1st story and 22 ft. by 64 ft. in area above. OCCUPIED: 1st story, store, 5 persons; 2nd story, manufacturing, 2 persons; 3rd story, manufacturing, 2 persons; 4th story, storage, 2 persons; 5th story, manufacturing, 12 persons. EXITS: One interior wooden stairway extending from 1st story to roof, enclosed in fire retarding partitions with kalameined doors at openings; a fire escape on the rear of the building, extending from main roof to roof of one-story extension, with EGRESS across roof of extension to iron stairway leading to yard of adjoining premises, with EGRESS through adjoining building (under same ownership) to street; ROOFS adjoining are at same level; and

WHEREAS, petitioner contends that the alterations have been made in the building so that, with the exception of egress from termination of the fire escape, the premises conform in every respect with the labor law.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted so far as it affects the egress from the termination of the fire escape only, on condition that a 45 degree fire escape shall be provided on the rear of the building terminating on the roof of the extension, with egress from the roof of the extension by means of a 45-degree iron stairway to the adjoining yard to the west, with egress from the adjoining yard through adjoining premises by wooden door with plain glass panel, and that the order shall be complied with in all other respects, and granted only so long as conditions as to occupancy and use remain unchanged.

61-24-S.

PETITIONER—William F. Doyle, for Douglas Elliman & Co., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—26 East 55th street, Manhattan.

APPEARANCES—None.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady and McDermott

8

Negative: Mr. Connell and Superintendent Reville

2

Absent: Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore

3

THE RESOLUTION:

(61-24-S)

WHEREAS, W. F. Doyle, for Douglas Elliman & Co., owner, filed, January 16, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 26 East 55th street, Manhattan; and

WHEREAS, the decision of the superintendent of buildings, dated January 14, 1924, reads:

"With reference to your application for Certificate of Occupancy for the above premises, beg to state that Certificate cannot be issued for the reason that the building was increased in height in 1921 and is therefore not an existing building as contemplated by the Labor Law and should be of fireproof construction as required by Section 270 of said Labor Law. Furthermore, exit facilities as required by Section 270 of the Labor Law should be provided.";

and

WHEREAS, the building is non-fireproof, seven stories in height, 20 ft. by 75 ft. in area; equipped with a fire alarm signal system. OCCUPIED: Cellar, stockroom; 1st story, art objects, 3 persons; 2nd story, mfg. dressmaking, show-room, 7 persons; 3rd story, mfg. millinery, 7 persons; 4th story, int. decorator, 6 persons; 5th story, int. decorator, 6 persons; 6th story, mfg. millinery and office, 2 persons; 7th story, studio, showroom. EXITS: One interior wooden stairway, extending from 1st story to roof, enclosed in fireproof partitions with fire doors at openings; a 45 degree fire escape on the rear of the building extending from the main roof to roof of 3rd story extension and from landing on this extension, 45 degree stairs to roof of 1st story extension; EGRESS from this extension to one-story extension of adjoining premises; openings on course of fire escape are fireproof, self-closing; ROOF to west at same level; and

WHEREAS, petitioner contends building has been used as a factory building since 1915 and conforms in every way with all provisions of the labor law for existing factory buildings, and proposes to organize and conduct fire drills and to limit light mfg. use to 25 per cent of the floor area.

Resolved, that the board of standards and appeals does hereby make a variation from the requirements of the labor law and that the petition be and it hereby is granted on condition that there shall be no manufacturing on the top or 7th story, that a standard labor law fire escape shall be erected on the rear of the premises, except that the egress from the termination thereof may be by means of the fire escape on adjoining premises to the west extending across two (2) buildings; and that a fire drill shall be organized and maintained, that the factory occupancy shall not exceed 25 per cent of the floor area and shall be restricted to light industrial work; that the stair halls shall be enclosed in fire retarding partitions with self-closing fireproof doors at any

MINUTES

openings therein; and *granted* only so long as the conditions as to occupancy and use remain unchanged.

388-24-S.

PETITIONER—Gronenberg & Leuchtag, for Bricken Construction & Improvement Corp., owner.

SUBJECT—Variation of labor law as cited in decision of superintendent of buildings.

PREMISES AFFECTED—230-238 West 38th street, Manhattan.

APPEARANCES—

For Petitioner: Monte London, Herman Gronenberg.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady, Reville and McDermott 10
Negative 0
Absent: Deputy Fire Commissioner Hannon, Superintendents Kleinert and Moore 3

THE RESOLUTION:

(388-24-S)

WHEREAS, Gronenberg & Leuchtag, for Bricken Constr. & Improv. Corp., owner, filed, March 15, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in a decision of the superintendent of buildings, affecting premises 230-38 West 38th street, Borough of Manhattan; and

WHEREAS, the decision of the superintendent of buildings, rendered March 14, 1924, in acting on N. B. Application No. 343-23, reads:

"1. Exterior openings should comply with Section 264 Labor Law and Rule 503 Industrial Code. Partitions separating store within hallway, from hallway, should comply with the Labor Law."

and

WHEREAS, the building is fireproof, 17 stories in height, 92 ft. 4 in. by 98 ft. 9 in. in area in the 1st story and 92 ft. 4 in. by 88 ft. 9 in. in area above. OCCUPIED: 1st story and mezzanine, store and offices, 20 persons; 2nd to 17th stories, tenant factory, 150 persons per story; equipped with a sprinkler and fire alarm signal system; and

WHEREAS, there are openings in the front of the building on the 1st, 2nd and 3rd stories, glazed with $\frac{1}{4}$ in. thick plate glass; the areas of the glass on the 1st story are 8 ft. by 8 ft. 6 in. and 5 ft. by 8 ft. (transoms) and on the 2nd and 3rd stories, the areas are 6 ft. 6 in. by 9 ft. 6 in. and 4 ft. 6 in. by 6 ft. 6 in.; and

WHEREAS, petitioner contends that to construct these windows in compliance with the labor law would detract from the architectural appearance of the building and would make it impractical to use these stories for stores and show rooms.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* so far as it affects the windows on the 1st, 2nd and 3rd stories on the front of the building, *on condition* that the frames shall be of metal, glazed with polished plate glass not less than $\frac{1}{4}$ in. in thickness, and that the center sash of the window on the 2nd and 3rd stories shall be made stationary, and *granted* as to partition separating store in hallway from hallway *on condition* that the partition supporting store show window shall be built of fireproof material, the store show windows to be glazed with polished plate wire glass, not exceeding 720 square inches in any light, that not more than one exit opening equipped with self-closing fireproof door shall be provided, and *on further condition* that a public passageway shall be maintained open and unencumbered from this building through to the adjoining street to the south and that the building complies with the labor law in all other respects.

280-24-S.

PETITIONER—Samuel Rosenblum, for Leona L. Stern and Miriam C. Marks, owners.

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—102-104 West 38th street, Manhattan.

APPEARANCES—

For Petitioner: Samuel Rosenblum.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition granted on condition.

CONDITIONS—As specified in resolution.

THE VOTE—

Affirmative: Chairman Walsh, Messrs. Beatty, Boulton, Connell, Holland, Kerby, Deputy Fire Chief Martin, Superintendents Brady, Reville, Moore and McDermott 11
Negative 0
Absent: Deputy Fire Commissioner Hannon and Superintendent Kleinert 2

THE RESOLUTION:

(280-24-S)

WHEREAS, Samuel Rosenblum, for Mrs. Leona L. Stern and Miriam C. Marks, owners, filed, February 21, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order of the fire commissioner, affecting premises 102-4 West 38th street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated February 1, 1924, reads:

"Order No. 54661-LD:

"1. Provide safe and unobstructed egress from the lower termination of the exterior stairway on the rear of building, by constructing a fireproof passageway with an unobstructed width of at least 3 feet throughout, leading to the street, adequately lighted at all times during working hours, or by means of providing access to an open area having communication with the street, as per Section 268 of the Labor Law."

and

WHEREAS, the building is fireproof, nine stories in height, 40 ft. by 98 ft. 9 in. in area at the 1st story and 40 ft. by 90 ft. in area above; equipped with a fire alarm signal system; OCCUPIED as a tenant factory, 56 persons per story. EXITS: One interior fireproof stairway extending from the 1st story to the roof, enclosed in fireproof partitions with fire doors at the openings; an interior screened stairway on the rear of the building, extending from the main roof to roof of 1st story extension; openings along the course of the fire escape are fireproof; roofs of adjoining building to east 5 ft. lower, building to west in course of construction; and

WHEREAS, petitioner contends that temporary egress has been provided and when building to the west is completed, will provide egress from the second story balcony to this adjoining building by means of doorway provided in wall of same, thus affording egress through a fireproof passageway to street.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted on condition* that an exit from the lower balcony to the rear fire escape shall be provided to adjoining building to the west, when completed, and that a temporary wooden platform and stairs shall be provided from the termination of the existing fire escape connecting to the premises in rear, pending completion of the adjoining structure to the west.

555-24-S.

PETITIONER—George M. Wood, for Perry Washington Co., Inc., lessee.

MINUTES

SUBJECT—Variation of labor law as cited in order of fire commissioner.

PREMISES AFFECTED—161-165 Perry street, Manhattan.

APPEARANCES—

For Petitioner: George M. Wood.

For Administration: Inspector Maher of fire department.

ACTION OF BOARD—Petition denied.

THE VOTE TO GRANT—

Affirmative 0
 Negative: Chairman Walsh, Messrs. Beatty, Boulton, Holland, Kerby, Connell, Deputy Fire Chief Martin, Superintendents Brady, Reville, Moore and McDermott 11
 Absent: Deputy Fire Commissioner Hannon and Superintendent Kleinert 2

THE RESOLUTION:

(555-24-S)

WHEREAS, George M. Wood, for Perry Washington Co., Inc., lessee, filed, April 21, 1924, a petition, with the board of standards and appeals, for variation from the requirements of the labor law, as cited in an order and decision of the fire commissioner, affecting premises 161-5 Perry street, Manhattan; and

WHEREAS, the order of the fire commissioner, dated February 14, 1924, reads:

"Order No. 54971-LD:

"1. Provide approved self-closing fire doors at openings leading to stairway on all stories, opening outwardly so as not to obstruct the stairway, as per Section 271 of the Labor Law and Rule 507 of the Industrial Code."

The decision of the fire commissioner, dated January 11, 1924, reads:

"The Board of Standards and Appeals in acting on Calendar 1259-18-S granted a variation from the requirements of the Labor Law with the provision that not more than 45 persons be employed above the 1st story at any time, which variation was granted with the conditions set forth remaining substantially unchanged.

"An inspection under date of December 12th, 1923, indicates the following occupancy:

	Mfg.	Not Mfg.
6th story, rear, buttons	9	0
6th story, front, printing	7	0
5th story, printing	11	0
4th story, printing	15	3
3rd story, wooden reels for silk	21	0
2nd story, paper boxes	4	2
1st story, paper boxes	14	3

"This shows an occupancy of 27 persons in excess of the Board of Standards and Appeals' resolution and it is expected that the same will be reduced immediately to 45 persons above the 1st story and in the event of this occupancy not being immediately reduced, there will be no course to pursue other than to enforce the requirements of the Labor Law and the rules of the Board of Standards and Appeals.";

and
 WHEREAS, the building is fireproof, six stories in height, 66 ft. by 100 ft. in area at the 1st story and 66 ft. by 90 ft. in area above. OCCUPIED: 1st story, millinery boxes, 17 persons; 2nd story, boxes and reels, 6 persons; 3rd story, boxes and reels, 21 persons; 4th story, printers, 18 persons; 5th story, printers, 11 persons; 6th story, printers and button mfg., 16 persons; equipped with an interior fire alarm signal system. EXITS: One interior fireproof stairway and a fire escape on the rear of the building.

Resolved, that the decision of the fire commissioner be and it hereby is affirmed, and the petition be and it hereby is denied.

MINUTES

BOARD OF STANDARDS AND APPEALS

*CORRECTION

The minutes of the meeting of the board of standards and appeals held Tuesday afternoon, Mar. 18, 1924, as they appeared in bulletin No. 13, Vol. IX, are hereby corrected to read as follows:

THE RESOLUTION:

(2483-17-S)

WHEREAS, Harry C. Beaven, for Charles and Mary Thompson, owner, filed, December 19, 1917, a petition, with the board of standards and appeals, for variation of section 79-b, labor law, as cited in an order of the fire commissioner, affecting premises 42-44 West 39th street, Manhattan; and

WHEREAS, the order of the fire commissioner reads:

"1. Arrange the fire escape on the west side of the building and the openings leading thereto and the windows opening on the course thereof, so that same are in compliance with the provisions of section 79-B-4 and 79-B-5 of the labor law. * * * Among the defects noted, are automatic self-closing fireproof windows, which permit of an unobstructed opening of at least 3 ft. by 3 ft., have not been provided, and there is no stairway from the top balcony to the roof."

WHEREAS, the building is non-fireproof, six stories in height, 40 ft. by 98 ft. 9 in. in area. OCCUPIED as a factory in the first story, 20 persons employed; as a studio and offices above; the means of egress consist of:

(a) An interior stairway at the front, extending from cellar to roof, enclosed in wood stud, lath and plaster partitions with wood doors at the openings, except

Correction—Word "2nd" changed to "3rd" in 7th line from bottom and word "factory" added in front of "occupancy" in 3rd and 4th lines from bottom.

in the cellar and at the roof level, where fire doors are provided;

(b) A 60-degree fire escape at the westerly side near the rear, with 45-degree stairs to yard, gooseneck ladder to roof, with non-fireproof windows along course of same, and exit through gate in fence to yard adjoining; and

WHEREAS, this petition was granted by the board, at its meeting, Oct. 31, 1918, on condition that free and unobstructed access be provided to fire escape at all times in second, third and fourth stories; that doorway to large room in fifth story giving access to fire escape be glazed with plain glass; that exit signs be placed over same, and an axe be fastened to the wall outside the doorway; and

WHEREAS, petitioner requests a modification of and contends that an alteration has been made to the adjoining property to the west, an extension having been built cutting off egress in that direction, the fire escape now terminates in the yard, and that there is a door in the yard to the premises direct; it is proposed to provide from the second story balcony fire escape an extension to the fire escape on adjoining building to the rear, there are five people now engaged in factory occupancy above ground floor, two in a dental laboratory on the fifth floor and three in a tailor shop on the third floor.

Resolved, that the board of standards and appeals does hereby *make a variation* from the requirements of the labor law and that the petition be and it hereby is *granted* so far as it affects egress from the termination of the fire escape *on condition* that the fire escape shall be continued to the 2nd story and carried around the wing, with egress through public corridor at 3rd story directly to connecting balcony, with egress from rear fire escape on the 2nd story to fire escape on premises 39-41 West 38th street; and *granted on condition* that the factory occupancy of the 3rd story shall be discontinued on or before September 30, 1924, and that the factory occupancy of the 5th story shall be discontinued on or before September 30, 1925.

NOTICE

RULES GOVERNING SPRINKLER AND STANDPIPE EQUIPMENT IN ONE STORY GARAGE BUILDINGS RESCINDED JANUARY 29, 1924.

Notice is hereby given that the following resolution, adopted by the Board of Standards and Appeals, April 19, 1920, Under Cal. No. 179-20-S, was rescinded by the board January 29, 1924, as shown in the minutes published in bulletin No. 6, Vol. IX:

Under the powers conferred upon it by Section 718a of the Charter, the Board of Standards and Appeals does hereby make rules and regulations for the carrying into effect of the provisions of Section 72, subdivision L, and Section 581 of Chapter 5 of the Code of Ordinances as follows:

Resolved, that the provisions of Section 72, subdivision L, Chapter 5, of the Code of Ordinances, shall not apply to buildings not exceeding one story in height, the purpose of which is occupancy as a garage, motor vehicle repair shop, or oil selling station, which buildings do not exceed an area of 15,000 sq. ft. when located on an interior lot or

when facing on only one street or 24,000 sq. ft. when facing on two streets or 30,000 sq. ft. when facing on three streets; provided that the building is equipped with an approved system of automatic sprinklers or with a line of 2½ in. pipe carried around the interior walls of the building or attached to the columns which carry the roof girders and connected with the street main by 2 in. tap and sufficient length of hose, and from which line branches are taken for the house service.

Resolved, further, that under the provisions of Section 581, subdivision 4 of Chapter 5 of the Code of Ordinances, in similar structures, a line of 2½ in. pipe connected with the street main by 2 in. tap and sufficient length of hose at intervals of 100 ft. or less shall be deemed a standpipe within the meaning of this section, but no siamese connection need be provided on condition that the pressure in the street main shall be not less than 45 lbs.

FORMS FOR NOTICES TO PROPERTY OWNERS

If applicants, under the building zone resolution, desire copies of Form 13A, for notices to property owners, such forms are not to be supplied by this office. The applicant is entitled only to one copy of Form 13A, properly filled out.

If he desires additional copies for his own convenience in notifying property owners, he can obtain such copies from The O'Connell Press, 176 Park Row, Manhattan, at three cents each, postage to be added if the forms are to be supplied by mail.

Cases listed in the Reserve Calendar are cases upon which action by the board has been deferred pending committee reports, of this board, court or departmental action and will remain thereon until the aforesaid reports, court or departmental actions are consummated. Whereupon the case or cases will be restored to the regular calendar and due notice of the date set for hearing will be mailed to appellant, applicant or petitioner of record.

RULE

REPORTING STRUCTURAL ALTERATIONS, ADOPTED FEBRUARY 8, 1917, UNDER CAL. 352-16-S.

Resolved, That for the purpose of establishing uniform practice with regards to the reporting of structural alterations made under the requirements of the labor law, the following rule be and it is hereby adopted:

When plans have been filed with the proper superintendent of buildings and structural alterations have been made to comply with the requirements of the labor law relating to exits and fire protection, or with an order of the State

Labor Department relating to exits issued prior to October 1, 1916, or with an order of the fire commissioner issued subsequent to October 1, 1916, a report shall be made by the superintendent of buildings to the fire commissioner stating whether the work done complies with the order of the State Labor Department, with the order of the fire commissioner, or with the provisions of the State Labor Law, as the case may be.

RULES ADOPTED

AMENDMENTS TO THE FIRE ESCAPE RULES —RULES RELATING TO SUBSTANDARD EXITS.

(Cal. No. 414-24-SR)

Rule 3 of Fire Escape Rules of Board of Standards and Appeals, adopted July 2, 1918, Cal. No. 1218-18-S; Amended July 12, 1918, Cal. No. 1708-18-S; Amended May 9, 1924; Cal. No. 414-24-SR.

EXISTING FIRE ESCAPES OF FACTORIES.

When in addition to the required exits from any factory or factory building, there exist other means of egress which are not entirely in accordance with the requirements of the Labor Law and the Rules of the Board of Standards and Appeals, such means of egress may be retained under the following conditions.

(a) Fire Escapes.—All substandard fire escapes on factory buildings shall be removed or reconstructed in accordance with Section 274 of the Labor Law, except that in lieu of a counterbalanced stair a drop ladder in guides from the lowest balcony to ground may be provided. Substandard fire escapes shall not be considered as a basis for increased occupancy of the building. When such substandard fire escapes are located in any court or on the side or rear of a building, proper egress to a point of safety shall be provided, either to open adjoining yards, or the lowest balcony may be connected to an adjoining fire escape, exterior stairway, or to roof of adjoining extension, or

other egress satisfactory to the Fire Commissioner. All such fire escapes shall be maintained structurally safe and properly painted.

(b) Interior Stairways—All interior stairways not conforming to the requirements of the Labor Law or rules of the Board of Standards and Appeals may be retained, provided that egress to same is maintained unobstructed, halls are properly lighted, and all landings, passageways, etc., are maintained free and unobstructed. An easily operated panic bolt or other similar device may be installed at street exit door.

(c) Exterior Screened Stairways—Exterior screened stairways not serving as a required means of egress shall be either removed or maintained structurally safe and properly painted, exits thereto and all platforms and passageways thereof shall be maintained unobstructed, and egress from termination shall be as provided for substandard fire escapes in subdivision a.

(d) Horizontal Bridges—Horizontal bridges and party wall balconies between buildings shall be removed or maintained structurally safe and properly painted, and access thereto and all passageways thereof shall be maintained unobstructed.

(e) No sign of any character shall be placed at openings leading to these substandard exits.

PUBLIC HEARING

PROPOSED AMENDMENTS TO RULES FOR STAIRWAY ENCLOSURES IN FACTORY BUILDINGS

(410-24-SR)

NOTICE IS HEREBY GIVEN that a public hearing will be held by the Board of Standards and Appeals on Friday, June 13, 1924, at 2 p. m., in Room 919, Municipal Building, on proposed amendments of Rules 2 and 3, Industrial Code, and the adoption of the amended rules as proposed by the Board of Standards and Appeals affecting the enclosure of Factory Stairways, and the storage of combustible material about factory stairways.

New matter printed below; [] old matter to be omitted.

ENCLOSURE OF FACTORY STAIRWAYS

(410-24-SR)

Supplementary to Labor Law, § 79-b; originally adopted August 28, 1913, and effective October 1, 1913; amended November 18, 1915; revised and readopted February 10, 1916, effective March 1, 1916.

Rule 2.—Except as herein provided, in all factory buildings five stories or less in height, erected prior to October 1, 1913, in which there are more than twenty persons employed above the second floor, all interior stairways, serving as required means of exit, and the landings, platforms and passageways connected therewith, shall be enclosed on all sides by partitions of fire-resisting material extending continuously from the lowest landing of the stairway in accordance with the following rule:

Number of stories	Contents combustible, no sprinkler	Contents non-combustible, no sprinkler	Contents combustible, and sprinkler	Contents non-combustible, and sprinkler
Three	Stairways Enclosed			
Four	Stairways Enclosed	Stairways Enclosed		
Five	Stairways Enclosed		Stairways Enclosed	

The term "contents" as used above means articles, goods, wares and merchandise, packed, stored, manufactured or in the process of manufacture.

The term "combustible" as used above means articles, goods, wares or merchandise which will burn or support combustion.

The term "sprinkler" as used above means an adequate automatic sprinkler equipment installed and maintained in good working order on each floor.

PUBLIC HEARING

Where the stairway extends to the top floor of the building, such partitions shall extend to three feet above the roof, except in buildings with roofs of non-combustible material, in which case the partitions may stop at the under side of the roof.

All openings in such partitions shall be provided with self-closing doors constructed of fire-resisting material, except where such openings are in the exterior wall of the building.

The bottom of the enclosure shall be of fireproof material at least four inches thick unless the partition extends to the cellar bottom.

Such enclosure of stairways shall not be required where there is an interior enclosed fireproof stairway, or where there is an exterior enclosed fireproof stairway.

A horizontal exit, as defined in section 79-f, subdivision 9 of the Labor Law, will be accepted as a compliance with this rule.

STORAGE OF COMBUSTIBLE MATERIAL ABOUT FACTORY STAIRWAYS

Supplementary to Labor Law, §79-a to 79-f; adopted August 28, 1913; effective October 1, 1913.

Rule 3.—In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept or stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.]

Rule 2.—Definitions.

1. "Height of Building"—For the purpose of classification under this rule, the height of a building shall mean the number of stories, and shall be determined as follows: Where the ground adjoining the building is of uniform grade or does not vary in grade more than one story, the height shall be the number of stories above the lowest grade of the ground adjoining the building; where the ground adjoining the building varies in grade to the extent of involving more than one story, the average between the number of stories above the highest grade and the number of stories above the lowest grade on two or more sides of the building shall be taken as the height of the building. A fraction of a story produced in computing such average shall be counted as one story.

2. "Grade Exit" means a door in an exterior wall of a building from any floor, affording direct access to adjoining ground from which there is safe and unobstructed access to a street or road. In no case shall the vertical distance from door sill to ground exceed five feet, and in case the distance to the ground shall exceed three feet, an approved means of access to the ground shall be provided.

3. "Story" means that part of any building comprised between any floor or roof next above.

4. "Ground Floor" or "First Floor" means the floor at or nearest the ground surrounding the building; unless the ground surrounding the building is irregular in grade, in which case the term shall mean, for the purposes of this rule, the floor which, having one or more exits to grade, is not more than 12 feet above the ground taken at the center line of the facade where the grade is lowest.

The "Ground Floor" and "First Floor" wherever used in these rules are used as synonymous terms.

Rule 2-a.—Occupancy Classification.

The following classification of occupancy with respect to the degree of hazard is hereby established:

Low Hazard

1. Occupancies involving the storage or use of materials which do not ordinarily burn rapidly or with excessive smoke, and from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Asbestos	Glass
Baking powder	Glue, mucilage, paste, size
Breweries	Ivory
Buttons (pearl or bone)	Leather (excluding japanning or enameling)
Canneries (including food products)	Metals (excluding japanning or enameling)
Chalk and crayon	Soap, candles
Condensed and powdered milk	Porcelain and pottery
Electric light plants and power houses	Talc and soapstone
Electrolytic reducing works	Tanneries (excluding japanning or enameling)

Moderate Hazard

2. Occupancies involving the storage or use of materials which are liable to burn with moderate rapidity and to give off considerable volume of smoke, but from which neither poisonous fumes nor explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Bags (cloth, burlap and paper)	Linoleum works
Bakeries	Metals (with enameling or japanning)
Bamboo and rattan	Packing houses
Baskets	Paper mills
Belting (including canvas)	Printing, lithographing, book-binding
Boots and shoes	Silk
Buttons (including cloth covered)	Sugar refineries (including beet and glucose works)
Cardboard (including boxes)	Tanneries (with japanning or enameling)
Clothing, woolen (wearing apparel)	Textile mills (including cotton cloth, bagging, burlap, carpets, rugs, canvas)
Cordage	Tobacco, cigars, cigarettes and snuff
Furs	Woodworking (excluding dipping or varnishing)
Gloves (other than leather)	
Horn and combs (not celluloid)	
Leather (with enameling or japanning)	

High Hazard

3. Occupancies involving the storage or use of materials which are liable to burn with extreme rapidity or from which poisonous fumes or explosions are to be apprehended in the event of fire. The following list includes and indicates the types of occupancy coming within this class:

Artificial flowers	Feed, flour and grist mills
Artificial leather	Fireworks
Celluloid	Imitation leather
Cereal mills	Matches
*Chemicals of all kinds (except where serious flame, fume or explosion hazards are not present)	Rag sorting (including cotton)
Cotton batting	Shoddy mills
Cotton clothing (women's)	Starch and sugar mills (including pulverizing)
Cotton waste	Straw goods
Dry cleaning	Varnish
Explosives	Woodworking (with dipping or varnishing)
Feather renovating	

The Board shall rule upon new occupancies as they arise and pass upon points under dispute.

Where there are occupancies of two or more degrees of hazard, the building shall be classified according to the higher hazard, unless special modification is made by the Board in cases where the higher hazard is incidental or well segregated.

Rule 2-b.

Subdivision 1. Enclosures Required.—Except as here in provided, in all factory buildings more than two stories

PUBLIC HEARING

and less than six stories in height, erected prior to October 1, 1913, in which there are more than five persons employed at manufacturing, all interior stairways serving as required means of exit and the landings, platforms and passageways connected therewith shall be enclosed on all sides by partitions of fire-resisting material extending con-

tinuously from any floor or floors, so served to the nearest approved grade exit of the stairways. Such enclosures shall lead directly to a door opening outwardly to a street or road or to an open area affording unobstructed passage to a street or road.

The application of this rule shall be in accordance with the following table:

Stories	1 Contents of high hazard	2 Contents of moderate hazard		3 Contents of low hazard	
		No sprinkler	Sprinkler	No sprinkler	Sprinkler
Three	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.			
Four	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	
Five	Stairways to be enclosed if more than 5 persons are employed at manufacturing above first floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	Stairways to be enclosed if more than 25 persons are employed at manufacturing above second floor.	

The stairway enclosure shall be independently ceiled over with fire-resisting material.

Exception: Buildings having fireproof roof slab where enclosure terminates at underside of such slab.

Where the stairway is required to extend to the roof, the enclosure shall be so built as to form a pent house.

There shall be not less than seven (7) feet head room in every stairway.

All door openings in such enclosure shall be protected with fire doors opening into the stairway enclosure, equipped with self-closing devices. Grade exit doors shall open outwardly to grade and need not be fire doors.

The enclosure shall be ventilated by a skylight in the roof with louvres or ventilators, or exterior windows with ventilating sections at the top floor. Exterior windows within thirty (30) feet of non-fireproof structures shall be fireproof windows. Skylights, unless provided with wired glass, shall have thereunder a shield of wire mesh in substantial frame work.

The bottom of the enclosures shall be of fireproof material at least four (4) inches thick, unless the partition extends to the cellar bottom.

Subdivision 2. Enclosures Not Required.—Except in buildings in which the contents are classified as of high hazard, the stairways shall not be required to be enclosed where a horizontal exit, as defined in section 267 of the Fire Law, is provided on all floors and the stairways serving as required exits on each side of the horizontal exit are remote from the horizontal exit, provided that either an approved fire alarm signal system conforming to rules of the board is installed in the building and fire alarms substantially conforming to rules of the board are sounded, or an approved sprinkler system conforming to rules of the board is installed.

Rule 2-c.—Required Exits and Enclosures of Stairways in Two-story Factory Buildings.

Required Exits.—In every two-story factory building erected prior to October 1, 1913, in which

more than five persons are employed at manufacturing, there shall be provided from each floor at least two means of exit or escape from fire remote from each other, one of which from every floor above or below grade shall lead to or open on an interior stairway which shall be enclosed, as hereinafter provided in subdivision 2, or on an exterior enclosed stairway. The other may lead to such a stairway, or to a horizontal or grade exit, or to an exterior screened stairway, or to a fire escape. No point on any floor of such building shall be more than one hundred and fifty (150) feet distant from such an exit.

2. Enclosure of Stairways.—In two-story buildings in which the contents are classified as of high hazard and in which more than twenty-five persons are employed above the ground floor, all interior stairways serving as required means of exit shall be enclosed from the lowest point of such stairway to the ceiling of the first floor by partitions of fire-resisting material, unless the building is provided with a sprinkler system, in which case such enclosure of stairways shall not be required. Such enclosures shall lead directly to a door opening outwardly to a street or road, or to an open area affording unobstructed passage to a street or road. All openings in such enclosure shall be provided with fire doors equipped with self-closing devices.

All reference herein to "Enclosure of Stairways" shall be considered as applying only to required stairways.

Rule 3.—Storage of Combustible Material About Factory Stairways.

In all factory buildings no articles or wares of a combustible nature shall be kept or stored inside the limits of any stairway enclosure or unenclosed stairway, or on the landings, platforms or passageways connected therewith, nor shall such articles or wares be kept stored under any stairway unless such stairway and any partitions or doors thereunder are constructed of or covered with incombustible material.

WARNING.

Notice is hereby given to all petitioners, appellants and applicants for relief at the hands of the Board of Standards and Appeals and of the Board of Appeals, and to all lawyers, architects and engineers representing owners or lessees in proceedings before these boards—

First, That if they do not appear in person or by representative at the hearing on their case, dismissal for lack of prosecution is likely to result.

Second, That due and ample notice of the date set for hearing is provided in the publication in this BULLETIN of the calendars of these boards, each case being set down by Calendar Number and premises under the date of the hearing.

Third, That no plea of ignorance of the date of the hearing can be entertained in view of this publication and

of the posting of the calendars on the bulletin board in the offices of the board and of the further publication of the calendars in the daily press.

Fourth, That no one is entitled to written notice of the date for the hearing in his case; and that the plea of failure to receive such notice is no excuse for neglect to appear.

Fifth, That the business of these boards is to dispose of all cases promptly, for the reason that the pendency of an appeal or petition ties the hands of the administrative official in enforcing his order; therefore, no appeal or petition will be allowed to be hung up by reason of failure of the appellant or petitioner to file necessary data, or by any other method of delay.

DATES AND HOURS OF MEETING.

Board of Appeals, Tuesdays, at 10 a. m.
Special meetings as listed in this Calendar.
Call of Clerk's Calendar, Tuesdays, at 2 p. m.
Board of Standards and Appeals, as listed in the Calendar.
All hearings are held in Room 919, Municipal Building, Manhattan.

HOURS FOR CONSULTATION 10 A. M. to 1 P. M.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

CALL OF CLERK'S CALENDAR.

The Clerk's Calendar consists of applications under the Building Zone Resolution, and its object is to give interested property owners opportunity to file objections, if any, and will be called in Room 919, on Tuesday, May 27, 1924, at 2 o'clock. At this call each case is set for hearing on a definite day.

The next subsequent Call of the Calendar will be on Tuesday, June 3, 1924, at 2 o'clock.

The Clerk's Calendar is not to be confused with the Calendar of cases that have been definitely set for hearing on fixed days.

NOTICE TO APPELLANTS AND PETITIONERS.

No appeal, application or petition will be entertained in connection with which court proceedings are pending or in progress, nor accepted that are not filed within twenty days from the date of the action of the Administrative Official.

Any communication purporting to be an appeal, application or petition shall be regarded as a mere notice of intention to seek relief until it is filed on the form required by the rules of this Board.

Upon receipt of any such communication the writer will be supplied with the official forms for presenting his appeal, application or petition, and if he fails to supply the data required thereon, within twenty days, his case may be dismissed for lack of prosecution.

At the time of filing an application, the appellant or petitioner shall forward a signed notice of appeal addressed to the administrative official (either superintendent of buildings or fire commissioner) and file with this Board a duplicate of said notice.

Petitioners are advised that their plans must indicate the points of the compass so as to establish the true location and position of the property, the subject of the appeal.

Appeals, applications and petitions will be simplified and expedited by conforming to these directions.

WILLIAM E. WALSH, Chairman.
